19 GUARANTEED 5 YEARS. Lakeside (Better) Quality. Wards most economical hose. Perfect for lawn or garden use. Resists harmful effects of mildew, rot. Not affected by heat or cold—will not crack or peel in any weather. See Guarantee above.

All plastic hose is extremely lightweight, only ½ weight of regular rubber hose. Easy to carry, coil, convenient to store. Green plastic construction throughout, ribbed for added strength. Resists kinking and curling. 7/16-in. inside diameter. Withstands 7 times ordinary city pressure, up to 350 lbs. per sq. in. Full flow brass couplings. *State length. Mailable.*

84 C 7912 M—25 ft. Wt. 3 lbs.... $1.98
50 ft. Ship. wt. 5 lbs. 12 oz..... 2.98

VINYL PLASTIC HOSE 4.49 50 ft.

20 GUARANTEED 10 YEARS. WARDMASTR hose. Has all desirable features of plastic hose at left plus heavier construction of pure, heavy Green vinyl plastic throughout. Stays flexible, resilient even under roughest use. Won't scuff or scar on sidewalks, crack or peel. Lightweight, easy to carry and coil. See Hose Guarantee above. Full ½-in. inside diameter. Impervious to oil, grease and acids. Not affected by extreme changes in temperature.

Built to withstand 8 times city water pressure—up to 400 lbs. per sq. in. ½-in. replaceable brass couplings. *Mail.*

84 C 7918 M—*State length wanted.*

New Wardmastr "Mow-Cycle" Riding Lawn Mower

STREAMLINED WARDMASTR TWIN- BLADE RIDING MOWER CUTS WIDE 24-IN. PATH 249.50

TURNS LAWN WORK INTO PLAY . . . You ride in comfort as you mow your lawn or pull sweeper, roller or other attachments. Simplified controls; easy for anyone to operate.

TWIN ROTARY BLADES CUT WIDE 24-INCH PATH. You can cover large areas easier and faster. Separate blade clutch allows moving mower without turning blades for extra safety.

POWERFUL 3-HP 4-CYCLE CLINTON ENGINE. Gives plenty of extra power for pulling attachments. Maximum speed up to 4½ MPH. Operates forward or reverse. Recoil starter.

UNIQUE, SELF-BALANCING 3-POINT SUSPENSION. Twin rear wheels give added traction and stability. Heavy-duty construction throughout for long service.

1 This summer let Mow-Cycle do all your lawn work while you sit at ease and steer! New streamlined 1956 model Rotary Riding Mower has added features for improved performance and safety. Specially designed for smooth cutting—trims close to sidewalks, walls, trees, etc. So easy to operate, even a child can do it.

RUGGEDLY BUILT with self-balancing 3-point suspension, dual rear wheels, effective even on steep inclines. Will go anywhere a power mower will go. Carries teen-ager or heaviest adult with complete ease. Controls are within easy reach. Heavy-gauge steel housing insulated with fiber glass—housing lifts easily for servicing engine, encloses and silences all moving parts. Shielded exhaust directs exhaust fumes to side, away from operator.

TWO 12⅛-IN. ROTARY BLADES. Cut 24-inch path. Heavy heat-treated steel. Suction-type action cuts faster, smoother, even in weeds. (Underside view, above at left). Alloy steel spindle runs in 2 New Departure grease sealed ball bearings, lubricated for life. Cut adjusts 0 to 2⅞ in.

NATIONALLY KNOWN CLINTON ENGINE. Single cylinder, 4-cycle, air-cooled 3-HP gas engine with recoil starter. Power transmitted to clutch, blade by V belts; rear wheel driven by roller chain. Foot operated clutch pedal controls movement. Hand lever engages, disengages blades. Hand throttle controls speed; separate reversing lever.

HEAVY-DUTY ONE-PIECE FRAME CONSTRUCTION. Rigid 1-inch steel tubing, welded for extra strength. Steering column, motor mount, shields heavy-gauge steel, will withstand hard use. Handle and steering column welded steel bars. Cushion-molded hand grips. Adjustable steering rods. Ventilated basket-type seat of alloy steel and plaited wire fabric. Front wheels 8-in. diam. with 2½-in. solid rubber tires. Large 12-in. diam. rear wheels have 3-in. puncture-proof semi-pneumatic tires. Length overall 45 in., width 26 in. Shipped promptly from Stock. *Not Mail.*

Enjoyment of Lawn and Garden

REACH-IN GREENHOUSE

(A) Simply lift either side of top-hinged roof, reach in for work. Enjoy advantages of full greenhouse with minimum effort, expense. Winter less hardy plants, give plants from seed head-start in spring, or use for year-'round culture of tender varieties. Use heater (F) below. Redwood frame, Trans-O-Glass covered. 6 ft. long, 48 in. wide, 41¾ in. from ridge to base, 23-in. sides. Comes in six sections with screws and hinges included. Easy to assemble. Shipped promptly from Factory near Detroit, Mich. *Not Mailable.*

87 C 12911F—Ship. wt. 63 lbs. . $52.50

(B) COMBINATION COLDFRAME-HOTBED. Protect vegetable, flower plants for early spring growth, gain earlier harvest, longer blooming. Durable 1-in. kiln-dried Redwood. Hinged cover of Trans-O-Glass. Case 3x4 ft., 10-in. high front, 12-in. back. Hardware, instructions for assembly included. Mailed promptly from Factory near Detroit, Mich. *Mailable.*

87 C 12910 KO—Ship. wt. 29 lbs. $9.98

NEEDED FOR HEATING

(C) G E HEAT CABLE. Speeds seed germination in soil of hotbed (B) or heats greenhouse (A) above, in mild climates. Eliminates freezing, helps stop root rot. Use also to protect water pipes, to melt ice, snow, from drives, steps, or eaves. Lead-covered resistance wire. Well insulated. Plug included. Heats to 165°F. 110-volt, AC. *Postpaid.*

87 CP 12803—30-ft. loop, 180 watt $6.59
87 CP 12800—60-ft. loop, 400 watt 10.95

(D) G. E. PORTABLE THERMOSTAT. Controls air temp. when placed on side of hotbed. Do not immerse in water. Adjusts 35°–100°F. For one or two cables. Plug, receptacle, 60-in. cord.

87 CP 12804—*Postpaid*. $9.25

(E) MOISTUREPROOF THERMOSTAT. Use wherever moisture is present. Bulb may be inserted in soil of hotbed or in water, for direct control of temperature. Handles several cables at once up to 20 amps, 110 or 220 volts AC. Range 30° to 85°F. To be wired in for permanent installation.

87 CP 12837—*Postpaid* $12.95

(F) CIRCULATING ELECTRIC HEATER. Motor-driven fan pours out hot air for greenhouse, sunporch, dairy house, garage. Use for 6-ft. greenhouse like (A) above where temp. does not go below —15°F. Automatic thermostat set for low of 40°F., high of 85°F., turns on or off at plus or minus 2°. Saves current because heater does not run continuously. Cabinet 10 in. wide, 8 in. deep, 14½ in. high. Gray baked - enamel. Carrying handle. 1320-watt element. 110–120 volts, AC.

87 C 4557 M—Wt. 8 lbs. 8 oz. . . . $17.95

Feed Your Plants Regularly for Lush Growth

"NO SEE" LAWN EDGING 4.98 for 40 ft.

1 Forms a permanent, inconspicuous barrier against spreading grass. Installed in soil, flush with surface; holds grass vertically around edges for faster, easier mowing. Use around flower beds, shrubs, trees, fences, driveways and hedges. Made of heavily galvanized, corrugated steel of spring-like temper, hot galvanized for maximum resistance to rust. 3⅞ in. high. 2-ft. sections connect quickly to conform to curved or straight outline of area to be confined. Each package contains 20 strips, sufficient for 40-ft. length. Instructions included.
87 CP 12839 M—*Postpaid*.....$4.98

2 TREE FEEDING AUGER. Most effective hand method for feeding trees and shrubs. Drills deep holes which hold fertilizer. Steel construction. 44½ in. in length overall, with 14-in. handle. Two blades, 2 x 8 in. turn easily to cut through sod.
87 CP 12714 M—*Postpaid*.....$3.98

3 PEAT MOSS. Ideal material for mulch, or loosening hard, clay-type soils. Lightens heavy soils, helps dry soil retain moisture. Air dried, it absorbs moisture faster than kiln-dried peat. Finely screened, an excellent top-dressing for lawns and rose beds. Clean and odorless. Bag has plastic inner lining.

22 ROSS POW-R CAPS. *9-47-17 formula plus vital trace elements; used by professional growers for luxuriant plant growth. Especially fine for African Violets. 1 capsule makes 1 quart. 12 cap. in pkg.
87 C 12549—Ship. wt. 6 oz.....1 Pkg. 35c; 3 for $1.00

**Indicates Nitrogen-Phosphorous-Potash content.*

23 ACP GRO-STUF. *20-20-20. New complete plant food which contains all necessary mineral elements plus hormones and trace elements. Assimilated by roots to speed growth and increase size of vegetables, flowers, shrubs and trees. Use 1½ tablespoons to gal. water. May be applied with automatic sprinklers such as (24), Hozon (29), or any type sprinkling can.
87 C 12502—5 oz. Ship. wt. 9 oz.....49c
87 C 12503—1 lb. Ship. wt. 1 lb. 4 oz....$1.19
87 C 12504—4 lbs. Ship. wt. 4 lbs. 8 oz... 3.69

24 GRO-GUN. New, improved model. For applying water-soluble plant food. Attach to garden hose, let water pressure do the work. 1 pint of fertilizer solution is delivered with every 20 gal. of water from hose. Won't clog. Cleans in 30 seconds.
87 CP 12809—With quart jar. *Postpd*.....$2.95

IMPORTANT SAVINGS: Always check Wards Metropolitan Package Delivery and Will Call Service for possible savings on transportation charges. See Pages 954 and 955.

25 RAPID-GRO. *23-21-17. Scientifically balanced plant food. Contains vitamins, hormones and necessary trace elements. One of the most satisfactory foods for foliar feeding; leaves no sediment on leaves. Excellent for dipping roots when transplanting seedlings and young plants. Encourages more abundant bloom and finer color in perennials. Simply dissolve in water and apply with sprinkling can or sprayer. 1 lb. makes 25 gal.
87 C 12530—1 lb. Ship. wt. 1 lb. 4 oz. $1.25
87 C 12531—2 lbs. Ship. wt. 2 lbs. 8 oz. 2.35

26 HYPONEX. *7-6-19. Completely balanced liquid plant food. Speeds growth and produces strong, vigorous plants. Reduces shock and willing when transplanting. Will not burn roots or foliage. 1 tspn. makes 1 gal. of solution; 1 lb. makes 100 gal. Clean and odorless.
87 C 12582—3 oz. Ship. wt. 6 oz.....25c
87 C 12583—7 oz. Ship. wt. 11 oz.....50c
87 C 12584—1 lb. Ship. wt. 1 lb. 6 oz. $1.00

27 FORD NITROGEN. Contains 20.5% Nitrogen, in a form that actually combines with the soil particles where it is quickly available to roots. Will not leach out in periods of excessive moisture. Increases root structure, promotes vigorous top growth. Use 1 lb. for 250 square feet. 1 lb. in 5 gallons of water. Buy the 10 lb. size, save almost 50%.
87 C 12609—10 lbs. Ship. wt. 11 lbs.
87 C 12610 MO—50 lbs. Wt. 51 lbs.
87 C 12611 R—80 lbs. Wt. 83 lbs.

28 HOZON LIQUID FERTILIZER APPLICATOR. For use with any complete water-soluble plant food, such as 23, 25, 26 and 27 at left. Connects between hose and garden hose. Rubber suction tube is inserted in pail or tub containing solution; siphons plant food solution to container and applies it to garden or lawn at ratio of 1 part solution to 16 parts water. Brass with stainless steel valve, strainer.
87 C 6066—Ship. wt. 10 oz.

Plant Wards Grass Seed for a Beautiful Lawn

LAWN SPREADERS 6.79 TO 19.95

Wards new line of lawn spreaders are the finest we know of at these prices. Include many new improvements which make for a more accurate, time-saving operation. Heavy steel construction throughout. Sky-blue baked-enamel finish with white trim.

1 2 New positive flow action and 20 settings insures accurate sowing of lawn seed or fertilizer. Stainless steel valve and baffle plate resist corrosion; removable for cleaning. Shut-off on handle. Nylon bearings. Large tires protect lawn. Greater number of openings, set closer together in bottom, distributes contents uniformly.

(1) ESTATE MODEL. Spreading width 28 in. Hopper 28x10¼x10¾-in. 10-in. wheels, 10x 1.75 rubber tires. Capacity 80 lbs.
87 C 739 MO—Ship. wt. 33 lbs. $16.25

(2) HOME MODEL. Spreading width 19 in. Hopper 19x10¼x10¾-in. 10-in. wheels, 10x 1.50 rubber tires. 60-lb. capacity.
87 C 731MO—Ship. wt. 28 lbs. $11.49

3 ECONOMY SPREADER. Does excellent job with most fertilizers and lawn seeds. Flow control gauge has 10 settings. Hopper 17x10x7 in. Wheels 7-in. diam. with 7x1.25 rubber tires. Standard type steel shut-off plate and agitator. Capacity 30 lbs.
87 C 730 M—Ship. wt. 15 lbs. $6.79

LAWN BEAUTY SPREADER 19.95

4 Spreads fertilizer or seed at any desired rate. Cam agitator automatically levels and force-feeds materials through 20 holes. Flow is turned on or off, by simply twisting hand grip. Rate control dial at top of handle, with 20 large easy-to-read numerals, determines rate of flow; prevents under-feeding. Steel hopper 18 in. long, 10 in. wide, 11 in. deep. 10-in. wheels with 1¼-in. rubber tires. Capacity 50 lbs. Finished in rose-colored baked enamel. *Prepaid.*
87 GBP 757 MO—Price, except in Fla. $19.95
Florida customers Prepaid 20.95

LAWN AERATORS 8.25 AND 37.95

10 11 New, patented tools for improving your lawn. Used extensively by professional gardeners who maintain beautiful lawns on golf courses, parks, etc. Penetrates top-soil by scooping out ½-in. holes, 4 in. deep at regular intervals without disturbing turf. Under-surface of soil is loosened, allowing air, water and plant food to be carried to roots. All metal construction. Rubber hand grips. Rugged, open steel spoons lift out dirt and crumble it, while tempered steel springs hold sod in place.

(10) COMBINATION AERATOR. Three discs, with total of 18 spoons. 20½ in. wide, 43 in. high. Water-ballast, drum-type roller is 8½ in. in diameter. Holds 3½-gal. water.
87 C 741R—Ship. wt. 77 lbs. $37.95

(11) FORK-TYPE AERATOR. For small lawns and spot-aeration. 10 in. wide, 34 in. high.
87 C 742 M—Ship. wt. 7 lbs. $8.25

VAUGHAN'S CRAB GRASS KILLER

12 New crab grass killer contains Di Sodium Monomethyl Arsonate (Sodar). Will kill crab grass in all stages of growth as well as dandelion, plantain and chickweed, without permanent injury to desirable grasses. Rain will not reduce its effectiveness. 4 oz. will treat 1000 sq. ft.
87 C 11860—4 oz. Ship. wt. 10 oz. $1.25
87 C 11861—1 lb. Ship. wt. 1 lb. 8 oz. . . 3.50

MERION BLUEGRASS SEEDER 3.89

5 Most satisfactory method for distributing Merion Bluegrass seed by hand, when it is necessary to spread a small amount over a large area. Seed is disbursed at 80 to 100 revolutions per minute; forms semi-circular pattern in front of operator. Green baked enamel steel container is 6 in. high, 4 in. in diam. Holds 1 lb. of lawn seed.
87 CP 12849—*Postpaid* $3.89

6 MERION BLUEGRASS MIXTURE. Most economical bluegrass. Tests in 14 States and Canada revealed that Merion Blue is superior to any other bluegrass. The secret of its vigor lies in the amazing network of roots and rhizomes which spread underground to form a dense, luxurious top growth. Resists crabgrass invasion. Holds color even in hottest weather. Recommended for good soils that get four hours or more of sunlight. Contains 42% Merion Bluegrass, 38% Illahee or Penn. State Fescue, 20% Highland Bentgrass. 1 lb. covers 500 sq. ft.
87 C 12410—1 lb. Ship. wt. 1 lb. 4 oz. . . $2.69
87 C 12411—3 lbs. Ship. wt. 3 lbs. 8 oz. 7.79
87 C 12413 KB — Shipped promptly from Seedsman in Chicago, Ill. or Rochester, N. Y. You pay shipping charges from there. 25 lbs. $61.98

KENTUCKY BLUE GRASS. Perennial, deep rooting. Withstands summer drought and winter freeze. Stands hard wear. Takes up to 30 days to germinate, but once established, thick turf and close-knit roots discourage weeds. Use 1 lb. sq. ft. for reseeding.
87 C 12467—1 lb. Ship. wt. 1 lb. 3 oz. . . .$1.15
87 C 12468—5 lbs. Ship. wt. 5 lbs. 8 oz. . 5.45
87 C 12469 L—25 lbs. Ship. wt. 26 lbs. . . 26.49

HIGHLAND BENTGRASS. For a brilliant, velvety lawn. Once established, grows thicker and more luxuriant each year. Requires about 36 days to germinate. Thrives in medium to heavy soil, with plenty of sun. 1 lb. plants 500 sq. ft.
87 C 12479—1 lb. Ship. wt. 1 lb. 3 oz. . . .$1.49
87 C 12480—5 lbs. Ship. wt. 5 lbs. 8 oz. . 6.98

CRABGRASS KILLER 1.19 6½-oz.

13 By Weedone. New improved, formula containing non-poisonous Potassium Cyanate and new chemical MCP. Developed especially to kill crab grass, but also eliminates other broadleaf lawn weeds without killing permanent grass. 6½ oz. mixed with water is sufficient for 1200 sq. ft.
87 CP 11865—6½-oz. size. *Postpaid* . . .$1.19
87 CP 11866—26-oz. size. *Postpaid* 3.75

14 CRAG HERBICIDE-1. Prevent weeds before they grow, in vegetables, flowers, shrubs, evergreens. Crag is applied to newly hoed or weeded soil. It acts upon germinating weeds and weed seed. Dissolves readily in water. Will not injure adjoining plants. 4 oz. treats 3,000 sq. ft.
87 CP 11879–4-oz. Can. *Postpaid*. Each $1.50

15 WEEDONE. The old familiar 2, 4-D weed killer, improved by the addition of 2, 4, 5-T. Kills dandelions, plantain, foxtail and other broad leaf weeds in lawns. Kills poison ivy, poison oak, ragweed, thistle and over 90 other weeds, without harming permanent grasses. Prevents re-sprouting of tree stumps. Will not give off vapors injurious to flowers, shrubs, or vegetables. Use in any garden sprayer. 8-oz. can makes 6 gal.—enough to spray 1200 sq. ft.
87 CP 11850—8-oz. Can. *Postpaid* 97c
87 CP 11851—1-qt. Can. *Postpaid* $2.69
87 CP 11852 M—1-gal. Can. *Postpaid*. 6.69

ALL PURPOSE LAWN SEED 1.19 Pound

7 100% perennial grasses. Makes a dense, deep-rooted turf, carpet-like in appearance, yet rugged enough to stand heavy traffic. Blend of choice grass varieties that give a beautiful lawn under widest variance of soil and climate. Recommended for poor sandy soil and partly shaded spots, but will grow as well in rich soil, acid or sweet, in sun or shade, in moist or semi-dry places. Contains rare and costly Illahee Fescue (stays green during hot summer); Highland Bent Grass and Kentucky Bluegrass, well known for hardiness and ability to make a good lawn. 1 lb. plants 250 sq. ft. area. 50 and 100-lb. Bags shipped promptly from Seedsman near Rochester, N.Y. Transportation charges *Prepaid*. Others shipped from Stock.
87 C 12415—1 lb. Ship. wt. 1 lb. 4 oz. . . . $1.19
87 C 12416—5 lbs. Ship. wt. 5 lbs. 8 oz. . 5.65

87 C 740 L—Ship. wt. 8 lbs.

Planters for Indoor or Outdoor Living Rooms

STRAWBERRY PYRAMID 9.95

(1) Provides an abundance of cleaner, more accessible fruit in about one-third the space usually required. Easy to water and maintain. Also used for flowers or vegetables. Rust, corrosion-resistant sections of 6-in. high galvanized, corrugated metal. 76½ in. in diam. at base; remaining rings 53½ and 30¾ in. in diam. with 11½-in. planting area between. Holds 50 plants 8 to 12 in. apart. Instructions included.
87 CP 12835 M—*Postpaid* . . . . . Each $9.95

(2) PLANT STAND. Use indoors or out. Heavy-duty ¼-in. spot-welded wrought iron. Legs adjust to any position in a 360° arc; pots may be swung away from walls when used in corner of room. Satin-black stand 33 in. high. White plastic pots 4½ in. in diam. at top, base of pots sealed to retain moisture.
87 C 12773 M—Ship. wt. 6 lbs. $3.98

(3) DOUBLE-DECK PLANT STAND. For plants, pottery, or other accessories. Wrought iron legs. Removable metal shelves with modern open-work design. Stands 25 in. high, 26 in. long. Shelves are 7x26 in. Bottom shelf 7½ in. from floor. Black.
87 C 12774 M—Ship. wt. 7 lbs. $4.79

(4) DOUBLE-DECK PLANT STAND WITH POTS. Exactly the same as (3) above, with the addition of four removable black plastic pots which are inserted in top shelf. Pots are 4½ in. in diam.; sealed at the bottom to retain moisture. Black with gold color legs.
87 C 12707 M—Ship. wt. 7 lbs. $6.49

(5) PLASTIC WINDOW BOX. Indoor planter. Durable plastic. Fits almost any window sill. Panel front, white lattice-work motif. 24 in. long, 3¼ in. wide, 2¾ in. deep. Red, chartreuse or black. *State color.*
87 C 12897 M—Ship. wt. 1 lb. 8 oz. $1.69

(6) SUB-IRRIGATING PLANT BOX. Newly developed type for indoor or outdoor use. Leakproof and rustproof. Made of galvanized metal, with galvanized liner which is perforated at bottom. Water is applied through well openings at ends of box; flows to bottom of box where excess is stored. Roots draw upon this reserve water supply through perforations. Eliminates need for daily watering. Green enameled. 6 in. deep, 8¾ in. wide at top.
87 C 12742 M—24 in. Ship. wt. 4 lbs. . . . . Each $1.98
87 C 12743 M—30 in. Ship. wt. 5 lbs. . . . . Each 2.29
87 C 12744 M—36 in. Ship. wt. 6 lbs. . . . . Each 2.79

(7) HEAVY STEEL WINDOW BOXES. Sturdily constructed and reinforced, with smooth, knurled edges. Secondary bottom raised ½ in. above base for drainage of excess water. Dark green enamel finish, baked on. 5½ in. deep, 8½ in. wide at top.
87 C 12716 M—24-in. box. Wt. 3 lbs. 8 oz. $1.79
87 C 12717 M—30-in. box. Ship. wt. 4 lbs. 1.98
87 C 12718 M—36 in. Ship. wt. 4 lbs. 8 oz. 2.39
87 C 12720—Metal brackets for window boxes (6), (7). Dark green. Ship. wt. 1 lb. . . . . Pr. 79c

(8) REDWOOD WINDOW BOXES. Famous for its resistance to the elements. Will not decay; resists insects. 7 in. wide, 5½ in. deep. Shipped flat. Screws and instructions included.
87 C 12842 M—36-in. box. Ship. wt. 9 lbs. $2.89
87 C 12843 M—48-in. box. Ship. wt. 12 lbs. 3.65
87 C 12844 MO—60-in. box. Ship. wt. 13 lbs. . . . 4.10
87 C 12841—Brackets for boxes. Wt. 2 lbs. . . . . Pr. 75c

(9) REDWOOD WINDOW BOXES AND ROOM DIVIDERS. 2, 3, 4 and 5-ft. sections made of 1-in. kiln-dried redwood. For indoors or out. May be stacked one on top of the other to form low walls to divide rooms, or form a dining area. Base locks boxes into position to form a rigid unit. Fill with house plants or artificial flowers. Easy to erect. Complete with necessary screws, and instructions.
87 C 12870 M—24x8x8 in. Ship. wt. 8 lbs. $3.50
87 C 12871 M—36x8x8 in. Ship. wt. 11 lbs. 4.49
87 C 12872 M—48x8x8 in. Ship. wt. 15 lbs. 5.45
87 C 12873 MO—60x8x8 in. Ship. wt. 18 lbs. 6.39

(10) SEED STARTER TRAYS. For seeds and cuttings. Ideal for African Violets. Leakproof. Heavy-gauge galvanized steel. Sub-irrigating feature permits watering from bottom. Perforated drainage tray provides reservoir for excess water from which roots may draw moisture. Green enameled finish.
87 C 12748—18x5x2⅞ in. Ship. wt. 2 lbs. $1.59
87 C 12746—21x9x2½ in. Ship. wt. 3 lbs. 1.69

PLASTIC FLOWER POTS, 6 for 1.85

(11) (12) Durable plastic. Fiberglass wick distributes moisture. Assortment of six: two each red, yellow and green. 3⅞ in. high. Black, detachable trays. Ship. wts.: 4½ in., 1 lb. 8 oz.; 5½ in., 2 lbs. 4 oz.
(11) 87 C 12887—4½-in. diam. . . . . 6 for $1.85
(12) 87 C 12888—5½-in. diam. . . . . 6 for 2.39

(13) PAPER POTS. Waterproof. For starting plants and cuttings indoors. 3 in. high.
87 C 12721—Ship. wt. 1 lb. 8 oz. . . . . 50 for 98c

(14) FLOWER POT HOLDERS. Slip one over center rail of window, or use 2 or 3 in a group on wall. Black or white. Ship. wt. 1 lb. each.
87 C 12723—*State color.* Each 80c. . . . . 3 for $2.29

(15) INDOOR FLOWER GARDENER. 3-tier rack for displaying house plants. 21⅜ in. high, 24⅛ in. long, 20 in. wide. Shelves 6¾ in. wide, 24⅜ in. long. Heavy gauge wire. Dull black or white.
87C12729 MO—Ship. wt. 10 lbs. *State color.* Each $7.98

(16) TWO-SHELF PLANT STAND. Beautifully designed. Adapts itself well to window areas. Plants get maximum sunlight. 23 in. tall, 10½ in. wide and 26½ in. long. Bottom shelf 7 in. from floor, ideal place for books, magazines or pottery. Made of durable heavy gauge wire in choice of black or white.
87 C 12771M—Ship. wt. 6 lbs. *State color* $3.98

(17) SOLID LEDGE METAL PLANT SHELF. Fits over window lock. May be used in upper window frame, or on window sill. Flanges hold shelf securely in place. Protective rail around edge. All metal. 8 in. wide, 18 in. long. Black or white.
87 C 12711—Ship. wt. 3 lbs. *State color* . . . Each $1.29

(18) ENAMELED PLANT SHELF. Fits any standard window sill 25 in. or more in width. Metal rods keep plants from falling off. Flange and end brackets hold shelf firmly in place. 8x24 in. White or black.
87 C 12798—Ship. wt. 3 lbs. *State color* . . . Each $1.89

(19) JIFFY PLANTER. For planting bulbs and small plants. Plunge tapered cylinder into soil; pressure cuts out core of soil, forcing it out at top, leaving hole ready for plant. Steel cylinder is 11½ in. long, with 2¼-in. bottom opening. Sharp cutting edge. Foot bar, for pressure. 40 in. overall.
87 C 12728 M—Ship. wt. 5 lbs. $2.98

(20) BULB PLANTING TOOL. Twist handle; forms perfect hole for bulbs—flat base, free from air pockets. Also used for setting out plants.
87 C 12778—Ship. wt. 1 lb. . . . . Each 85c

Now, 5 New Two-Wheel Ward-Trac Garden Tractors

WITH ADDED FEATURES FOR BETTER PERFORMANCE AND GREATER EASE OF OPERATION

6 HP POWER-TRAC 344.50 3½ HP CHOR-TRAC 266.50

(A) WITH LEVER SHIFT, 6 SPEED FORWARD AND REVERSE DRIVE. Now you can get many of the fine features of Wards riding tractors in two all new walking versions. Have same type precision built, all gear transmission with Dial-A-Matic shift—same full gear differential, clutch, front wheels and engines as riders. Both are Deluxe Models with bar tread low pressure tires size 6—12 (23-in. O.D.) on wide base rims.

SELECTIVE GEAR TRANSMISSION WITH DIAL-A-MATIC SHIFT. Simply release clutch and shift lever to dial speed desired. Six forward speeds and reverse in two stages. High range gives travel speeds of 3, 4 and 5 MPH; low gives power speeds of 1½, 2 and 2¾ MPH. Full throttle control in each gear.

FULL GEAR DIFFERENTIAL. Automotive type, fully enclosed. Permits each wheel to roll independently for short radius turns, yet both drive under full power at all times.

DELUXE FRAME AND ADJUSTABLE HANDLES. Frame full 10-gauge U-shaped formed plate. Distinctive handle of ⅛-in. wall, flattened steel tube size 4 by 1 in. Contour formed tubular handle bar with rubber grips. Full 10-in. height adjustment.

OTHER FEATURES. Simple, positive action controls; easy-on front and rear hitches to quickly change tools. High cultivating clearance, adjustable tread width. Rope starter.

87 C 5822 R—6 HP Power-Trac with nationally-known 4-cycle air-cooled Wisconsin engine that develops over 6 HP. Ship. wt. 287 lbs. $34.50 Down, $19.50 a Month . . . . . or Cash $344.50

87 C 5821R—3½ HP Chor-Trac Deluxe. Same as above but powered by Clinton 1200 Series 4-cycle air-cooled engine that develops 3.6 HP. Ship. wt. 257 lbs. $27 Down . . . or Cash $266.50

NEW 3 HP CHOR-TRAC 221.50

(C) WITH LEVER SHIFT, 6 SPEED FORWARD AND REVERSE DRIVE. Brand-new middle-sized tractor, our lowest priced full gear, lever shift model. Same general design and construction as Plow-Trac at right above but powered by Clinton new 3100 Series 4-cycle air-cooled engine that develops 3 HP. Has all gear transmission with automotive type shift lever. Releasing clutch and moving shift lever at handles gives any of three forward speeds or reverse in two ranges. Low range speeds 1, 1½ and 2¼ MPH; high range speeds 2½, 3½ and 5 MPH. Full throttle control in each speed. New quiet muffler reduces engine exhaust to pleasing low tone. Recoil starter that automatically rewinds after each pull. Bar tread, low pressure tires, size 6—12 (23-in. O.D.) on wide base rims.

87 C 5827 R—Ship. wt. 220 lbs. $22.50 Dn., $14 a Mo. or Cash $221.50

POWERFUL 5 HP PLOW-TRAC 319.50

(B) WITH LEVER SHIFT, 3 SPEED FORWARD AND REVERSE DRIVE. Choose Wards Power-Trac for extra power and heavy-duty service at a budget price. Finest quality throughout with convenience features for ease of handling, maneuverability and efficiency. Powered by Briggs and Stratton Model 14, 4-cycle air-cooled engine that develops 5 HP. Bar tread low pressure tires size 6—12 (23 in. O.D.) on wide base rims.

ALL-GEAR LEVER SHIFT TRANSMISSION. Choose the speed you want by releasing the clutch and moving shift lever to desired position. Pointer on gear box shows speed. Fully selective, with 3 forward speeds of 1¾, 2½ and 3½ MPH, plus a neutral and reverse, with full throttle range in each. Precision built with hardened and ground shafts on Timken roller bearings. Initial drive is from pulley on engine shaft through "B" size V-belt to transmission pulley.

EXTRA-HEAVY ONE-PIECE FRAME. Of auto bumper steel. Entire unit, including the front hitch formed into a wide U-shape 5¼ in. wide and 4 in. deep. Strong double handles of welded steel tubing. 5½-in. height adjustment. Plastic grips.

OTHER FEATURES. Over-running ratchets in each wheel with reversing device to engage both wheels for full power forward; backward and to free proper wheel for short radius turns. Free wheeling when not in gear; aids maneuvering in "tight spots." Two plastic knob clutch levers; one controls tractor, the other applies power to attachment. Quick, easy-on front and rear hitches to change attachments. High cultivating clearance, adjustable tread width. Rope starter.

87 C 5828 R—Ship. wt. 306 lbs. $32 Down. . . . . or Cash $319.50

NEW 3-HP HOE-TRAC 167.50

(D) WITH 2-SPEED FORWARD AND REVERSE DRIVE. Our lowest priced full-sized tractor. Completely redesigned for 1956. Same general frame and handlebar construction as Plow-Trac above. Powered by nationally known Clinton 3100 Series 4-cycle, air-cooled engine that develops 3 HP. New low tone muffler for quiet operation; recoil starter for fast, easy starts. All gear, 2-speed transmission gives you choice of 1¼ or 2½ MPH speed ranges. Change from one range to another by placing V-belt in proper groove on engine step-cone pulley. Engage forward or reverse gear by releasing clutch and moving lever at handles. Throttle gives full engine control in each speed range. Balanced weight, advanced design and 100% free-wheeling provide ease of handling. Bar tread, low pressure tires, size 5—12 (21-in. O.D.) on wide base rims.

87C5826R–Ship. wt. 186 lbs. $17 Dn., $11 Mo. . . . or Cash $167.50

NEW 28-IN. HEAVY-DUTY ROTARY TILLER 94.50

(1) ALL NEW MODEL. Tills 28-in. width to prepare a seed in one operation. Power compost and fertilize so turning in materials as you till. Unexcelled for cultiva Can be reduced to 22 or 16 in., depending on soil and tor size. Knife-type high carbon steel, non-clogging tines slicing action to provide maximum cutting and digging formance. Revolve at slow speed to break up soil withou cessive powdering. 14-in. tine circle. 1¼-in. tine shaft er chain and gear drive. Ball and Timken roller bea throughout. Mounts with single drop pin. Ship. wt. 140

87 C 5613 R—To fit 2-wheel 1956 Model 6 HP Power-Trac 1956 3½ HP Chor-Trac; also 1953–56 5 HP Plow-Trac. $

87 C 5616 M—Extension Tines for above. Increase t width 12 in. Easily attached. Ship. wt. 18 lbs. Pair . . . $

87 C 5631R—16-IN. ROTARY TILLER—(not shown). To wheel 1953–55 6 HP Power-Trac and 1950–52 4½ Plow-Trac. Efficient shovel type tines. Tills 16-in. width hood cover. Ship. wt. 145 lbs. . . . . $

87 C 5614 R—12-IN. ROTARY TILLER—(not shown). Fi wheel 1956 3 HP Chor-Trac; also 1956 3 HP Hoe-Trac. G erally similar to 87 C 5613 R above with same tines but a 12-in. width. 1-in. tine shaft. Roller chain drive. backed bronze bearings. Rib reinforced drawn steel shield. Ship. wt. 60 lbs. . . . . $

(2) PLOW-TRAC AND POWER-TRAC PLOW. Will break to sod and plow 1½ to 1¾ acres per day. Turns furro to 11 in. wide, 5½ in. deep. Screw crank depth regu pitch and width of cut adjustments. Swinging 12-in. co With two 25-lb. wheel weights to bolt on tractor wheel

87 C 5829 R—10-in. Plow. Ship. wt. 125 lbs. . . . . $

(3) DISC HARROWS. Two gangs on 36-in. tool bar. Reve or set for angle without tools. Pitch adjustment for b Tempered steel blades 12-in. diam. With "U" bolt to wheel weights on tool bar (not included).

87 C 5465 R—Fits Chor, Plow and Power-Trac. Has blade gangs. Ship. wt. 85 lbs. . . . . $

87 C 5463 R—Fits Hoe-Trac. Same as above but with blade gangs. Ship. wt. 72 lbs. . . . . $

(4) DEPTH REGULATOR CULTIVATOR. Reinforced ½ in. steel frame with screw crank regulator to set from 3 in. below surface to 4 in. above. Six 1½ by 8 versible shovels individually adjust for pitch and Gangs adjust for rows up to 30 in. wide. Two 10-in. tired gauge wheels. Ship. wt. 86 lbs.

87 C 5331R—Fits Hoe-Trac and Chor-Trac . . . . . $

35 Low Priced, Quick-Change Attachments

SPEED UP AND EASE WORK ALL YEAR 'ROUND; KEEP YOUR PLACE IN TIP-TOP SHAPE

HOE AND CHOR-TRAC PLOWS 28.50 6½-in.

5 Heavy steel beam with adjustable hitch. Convenient screw crank to regulate depth of cut to about 5 in. Excellent for light soil or previously worked ground. Landing adjustment to control width of cut. Order wheel weights for added traction. Ship. wts. 40 and 46 lbs.

87 C 5466 R—6½-in. Plow for Hoe-Trac. Turns furrow up to 7½ in. wide..... $28.50

87 C 5451R—8-in. Plow for Chor-Trac. Turns furrow up to 9 in. wide..... $31.95

6 25-LB. WHEEL WEIGHT. One or more, bolted to wheel, give added traction in heavy pulling. Fits Hoe, Chor, Plow, Power-Trac and Riders.

87 C 4999 MB—Wt. 25 lbs. *Mailable*.... Ea. $3.75

7 8-IN. TWO-WAY PLOW. Plow back and forth; moldboard and share are reversible to turn furrows all one way. Eliminates dead furrows and ridges. Turns furrow 8 in. wide, 5 in. deep. Includes two 25-lb. wheel weights. Fits two-wheel Chor, Plow, and Power-Trac.

87 C 5063 R—Ship. wt. 117 lbs..... $47.95

8 FRONT MOUNTED CULTIVATOR cuts cultivating time—you can run tractor faster. Heavy ½ by 1½-in. steel frame. Six 1½x8-in. reversible shovels adjust to 4-in. depth, 30-in. width.

87 C 5644 R-Fits Hoe, Chor-Trac. Wt. 65 lbs. $27.50

9 HEAVY-DUTY CULTIVATOR. Extra sturdy. Trip lever lifts shovels for transport, lowers for cultivation up to 4 in. deep, to 30 in. wide. Six 4-in. steel duck foot sweeps, plus extra set of reversible shovels. Adjustable tool holders. Wt. 80 lbs.

87 C 5628 R—Fits Plow, Power-Trac..... $38.95

10 30-IN. SICKLE BAR. Cuts hay, tall grass, heavy weeds, etc. Has special 2-in. sections for clean cutting. Ship. wts. 62 lbs. each.

87 C 5637 R—Fits Hoe and Chor-Trac..... $54.95

87 C 5638 R—Fits Plow and Power-Trac... 54.95

36-IN. SICKLE BAR. Similar to above but wider; extra-heavy box girder type frame. Fits Plow and Power-Trac, also Riders.

87 C 4998 RX—Ship. wt. 85 lbs..... $71.50

NEW 11-PLATE PLANTER 39.25

11 Sows most garden seeds including field corn. Drills or hills with from 1-in. to 6-ft. spacing. 2-qt. cap. Fits Hoe, Chor, Plow and Power-Trac.

87 C 5355 R—Ship. wt. 48 lbs... $39.25

12 FERTILIZER ATTACHMENT for above seeder. 2 feed drops drill strip on both sides of seed. 15-lb. cap.

87 C 5356 R—Ship. wt. 20 lbs... $16.95

13 ROTARY LAWN MOWER. Cast alum. alloy housing. High carbon steel blade, height adjusts from 1¾ to 4 in. 8-in. ball bearing rubber-tired wheels. Ship. wts. 50 and 55 lbs.

87 C 5098 R—20-in. Fits Hoe, Chor, Plow, Power-Trac and Riders.. $61.95

87 C 5099 R—24-in. Mower. Fits Chor, Plow, Power-Trac and Riders. $72.95

LEAF MULCHER ATTACHMENT. Fits on above mowers. Grinds up leaves and spreads them over lawn. Wts. 6, 8 lbs.

87 C 5096 MO—For 20-in. Mowers. $6.25

87 C 5097 MO—For 24-in. Mowers. 7.75

14 24-IN. REEL LAWN MOWER. Heavy duty 5-blade steel reel runs on sealed ball bearings. Height adjustable from 1 to 3 in. Hardwood roller. Fits Hoe, Chor, Plow and Power-Trac, also Riders.

87 C 5052 R—Ship. wt. 78 lbs.. $57.95

15 18-IN. ROTARY WEED CUTTER. Clears high grass and heavy weeds. Spool shaped, non-wrapping design cutter unit with 2 pivoting hardened steel blades. Fits Hoe, Chor, Plow, Power-Trac and Riders.

87 C 5647 R—Ship. wt. 45 lbs... $29.95

16 LIGHTWEIGHT SULKY SEAT. Ride while mowing lawns, cutting weeds, etc. Large steel seat, spring mounted. 14 by 2½-in. rubber tires. Fits Hoe, Chor, Plow, Power-Tracs.

87 C 5353 R—Ship. wt. 55 lbs... $25.50

SULKY AND DUMP CART 83.95

17 New double duty Riding Sulky and Dump Cart. 16-ga. steel box holds 7 cu. ft. or a 1000-lb. load, is 39x 26x12-in. high. Removable endgate. To unload, simply tilt seat forward and swing box up. Box quickly detached to provide riding seat. Two 4:00 by 8 (16-in. O.D.) pneumatic tires. Fits Hoe, Chor, Plow, Power-Trac.

87 C 5861 R—Ship. wt. 155 lbs.. $83.95

87 C 5860 R—Heavy Duty Sulky Only. Same chassis and seat as above but no box. Ship. wt. 80 lbs..... $57.95

18 LAWN ROLLER DRUM. Quickly mounts on chassis of above in place of wheels. 12-ga. steel drum has 16-ga. concave sides. Weighs 225 lbs., filled with water. Ship. wt. 70 lbs.

87 C 5862 R—Roller Drum Only. $21.95

19 NEW SEED AND FERTILIZER SPREADER. Holds 80-lbs. of commercial fertilizer. Handles lime, phosphate, etc. Sow lawn seed, oats, rye, etc. in accurately measured amounts. 28-in. swath. Agitator welded to axle for positive, even feed. 10x1¾-in. rubber tires. Fits Hoe, Chor, Plow and Power-Trac; also Riders.

87 C 5866 R—Ship. wt. 40 lbs... $24.50

20 BRUSH AND TREE SAW. Quickly fells trees up to 16-in. diam., cuts brush along fence rows, etc. 20-in. cordwood blade cuts close to ground; swings vertical for bucking. Fits Hoe, Chor, Plow, Power-Trac.

87 C 5369 R—Ship. wt. 58 lbs... $49.95

21 TILTING TABLE SAW. For cutting cordwood; carpentry cut-off work. 20-in. diam. cordwood blade. Arbor has Timken roller bearings. 16-ga. steel table and saw guard. Square steel tubing frame. Fits Hoe, Chor, Plow and Power-Trac and Riders.

87 C 5062 R—Ship. wt. 90 lbs... $53.95

POWER SPRAYER WITH PISTON TYPE PUMP 97.50

22 Has 1¾-GPM single-cylinder, piston type pump—pressure adjustable from 0 to 250 lbs. Jet agitation. ¼-in. female hose connection. Off and on valve controls pressure and flow of spray. 15-gal. plate steel tank. ¾-in. drain plug. Two 10 by 2-in. rubber-tired swivel wheels. Fits Hoe, Chor, Plow, Power-Trac and Riders.

87 C 4994 R—Sprayer Only. Ship. wt. 118 lbs..... $97.50

23 WEED KILLER BOOM. 6-ft. boom of aluminum tubing. Five nozzles spray 5 gal. per acre at 2½ MPH. Covers 7½-ft. swath. Height adjustable to 36 in.

87 C 4995 R—Ship. wt. 15 lbs. *Not Mailable*..... $15.50

24 SPRAY GUN. Pattern adjustable for broad mist or solid stream. ¼-in. female hose connection.

87 C 6598 X—16¾ in. long. Ship. wt. 1 lb. 8 oz..... $6.75

25 ⅜-IN. BUNA-N HOSE. With ¼-in. brass couplings.

87 C 497 X—25-ft. Length. Ship. wt. 10 lbs..... $7.25

26 MOSQUITO KILLING FOGGER. Clear your grounds of mosquitoes, flies, chiggers and other insects. Replace muffler with fogger. Fill quart supply can with insect killer such as Pestroy 25% DDT (Pg. 886) mixed with No. 2 Furnace Oil. Holds enough to fog for about 30 min. Beneficial effects last for hours. Fits exhaust port on Wards and other tractors and power lawn mowers with 4-cycle engines. Will not fit 2-cycle engines. Ship. wt. 7 lbs.

87 C 5865 M—With 1 quart fogging chemical..... $9.75

27 SNOW PLOW-BULLDOZER BLADE. For plowing snow, light grading, etc. Height 15 in. Cleans a 26 or 38-in. path when set at an angle. Fits Hoe, Chor, Plow, Power-Trac and Riders. Tire Chains on Page 937.

87 C 5632 R—30-In. Blade. Ship. wt. 46 lbs..... $19.95

87 C 5633 R—42-In. Blade. Ship. wt. 58 lbs..... 24.50

28 2,000-WATT GENERATOR. Provide standard 110–120V, 60-cycle AC to operate lights, equipment and tools anywhere; invaluable for auxiliary power during "highline" failure. May be used as an independent unit—hook up to suitable HP gasoline engine to run at 3600 RPM. Pulleys and belts included. Produces over 26 amperes to start ½ or ¾-HP capacitor or RI motors. Ideal for house and barn lighting. Will handle larger appliances, water system, milk cooler, 28-cu. ft. freezers, etc. 2 twist-type receptacles for any standard plug, voltmeter and fuse. Fits 2-wheel Plow and Power-Trac; 4-wheel Power-Trac.

87 C 5620 R—Wt. 85 lbs. $136.50

New 1956 Model 4-Wheel Riders and Attachments

RIDE ON ALL JOBS...WORK EQUALLY WELL ON LAWN, GARDEN OR FIELD CHORES

WITH DIAL-A-MATIC SHIFT, SELECTIVE GEAR TRANSMISSION . . . SIX SPEEDS FORWARD PLUS REVERSE

A B New 1956 Models that are big and powerful enough to handle heavy duty tillage tools, yet sufficiently lightweight and just the right size for greatest maneuverability on finest lawns. 28 quick-change attachments for a wide variety of work all year 'round. Now featuring "tailored traction," a system of adding weight to suit the job just like big field tractors. Quickly add all the weight wanted and needed for heavy pulling on plowing and other tillage work with low cost wheel weights. Easily removed when not needed. New, powerful and easy-acting brake for added safety. New, better, firmer steering and greater wheel steadiness on rough ground through new steering ratio. New easy-action rod and lever type controls for quick, positive operation. Plus many other refinements. Now, more than ever they are your best way to mechanize, speed up and take the hard labor out of all your chores at prices far less than you would ordinarily expect to pay.

Heavy Duty Chassis. All steel, electrically welded frame. Engine mount section is U-shaped, formed plate. Rear part of chassis 1⅜-in. diam. heavy gauge tubing. 1-in. rear wheel axles and spindles. Leaded bronze bearings. Single main frame member provides full visibility to center mounted tools. Swivel action keeps all four wheels on ground.

Selective Gear Transmission With Dial-A-Matic Shift. Simply release clutch and shift lever to dial speed desired. All gear, automotive type transmission with 6 speeds forward and reverse, in two stages. High range gives fast travel speeds of 3, 4 and 5½ MPH plus 3 MPH reverse. Low range gives extra power speeds of 1½, 2 and 2¾ MPH plus 1½ MPH reverse. Full engine speed range in each gear. New gear lock-in provides added safety factor on hilly or uneven terrain. When engaged, holds tractor in gear and permits utilizing compression of engine as a brake, like on a car.

Full Gear Differential. Automotive type, fully enclosed. Permits each drive wheel to roll independently for short radius turns, yet both drive under full power on turns.

New, Positive Action Brake. Simple, effective design. Heavy-duty V-belt over steel pulley on transmission shaft acts as brake band and drum. Compound action provides maximum braking with minimum pull on lever.

Smooth Action Clutch. Initial drive from engine to input shaft on transmission is by ⅝ in. wide B-section V-belt. Runs in either of 2 sets of grooves on V-pulleys to provide high and low stages for Dial-A-Matic shift. Spring loaded idler pulley, operated by clutch lever, controls belt tension to throw tractor in or out of gear as desired.

Rear Wheel Steering. Exclusive design rear wheel steering with built-in caster and camber like on automobiles. New 3 to 1 ratio; gives easy steering, yet retains feel of holding true on course. Simple, positive action through roller chain and sprocket to tie-rods and spindles.

Easy-To-Operate Controls. 2 clutch levers, 1 to operate tractor, the other to apply power to attachment. Both move away from operator to apply power; pull back for release. Brake knob in center pulls back easily; releases when pushed forward. Dial-A-Matic selector lever changes and indicates gear. All controls heavy duty rod and lever type for positive operation and minimum maintenance.

Exclusive Foot Lever Tool Lift and Control. Tractor has 2 convenient foot levers for raising or lowering both front and center-mounted attachments while tractor is in motion. T-screw adjustment controls working depth of tillage tools.

Other Features. Fast, easy-on hitches to quickly change attachments. Comfortable bucket type seat. Tread width adjustable 20½ or 26¼ in., measured from center to center of tires. High cultivating clearance of 11 in. for working astride rows. Front wheels with bar-tread low pressure tires, size 6—12 (23-in. O.D.) on wide base rims. Rear wheels have 4.00—8 (16-in. O.D.) rib tread tires. Size overall about 86 by 30 in., height 36 in. Engine has rope starter.

3½ HP CHOR-TRAC RIDER 344.50

A Powered by nationally known Clinton Model 1200 4-cycle, air-cooled engine that develops 3.6 HP. Has ample power to operate all attachments efficiently and is an excellent and economical choice where lawn and weed cutting work is of primary importance. Ship. wt. 355 lbs.
87 C 5083 R—$34.50 Down, $19.50 Month. . .or, Cash $344.50

1 HEAVY-DUTY CULTIVATOR. Cultivates up to 4 in. deep. Heavy 30-in. tool bar. Six standards of 7/16 by 1½-in. bar steel. Adjustable tool holders. Two 10-in. rubber-tired gauge wheels. Furnished with six 1½ by 9½-in. reversible shovels; also six 4-in. steel sweeps.
87 C 5074 R—Fits Riders. Ship. wt. 60 lbs. $37.50

2 60-LB. WHEEL WT. Order one for each front wheel for plowing, discing, tilling, working on hills, etc. For extra heavy going, add 25-lb. weights (at right) as needed.
87 C 4991R—60-lb. Wheel Wt. Ship. wt. 61 lbs. $7.95

6-HP POWER-TRAC RIDER 424.50

B Powered by nationally known Wisconsin 4-cycle air-cooled heavy duty engine that develops over 6 HP. Provides extra reserve of power for maximum efficiency with all attachments. Important when large scale plowing and other tillage jobs are major part of operation. Ship. wt. 370 lbs.
87 C 5084 R—$42.50 Down, $24.50 Month. . .or, Cash $424.50

3 NEW ROTARY TILLER. Tills 28-in. width to prepare a seed bed, ready to plant, in one operation. Can be reduced to 22 or 16-in. depending on soil and size of tractor. Power compost and fertilize soil by turning in materials as you till. Unexcelled for cultivation. Knife-type tines revolve at slow speed to break up soil without excessive powdering. 14-in. tine circle. Ball and Timken roller bearings throughout. Quickly mounts with single drop pin.
87 C 5615 R—Fits Riders. Ship. wt. 150 lbs. $102.50
87 C 5616 M—Extension Tines for above. Increase width 12 in. Easily attached. Ship. wt. 18 lbs. . . . . Pair $11.25

RIDER TOOLS . . . SEE FARM BOOK FOR FULL DETAIL

4 8-IN. MOLDBOARD PLOW. Screw crank regulator p[illegible] changes up to 5 in. deep while plowing. Turns furrow [illegible] 9 in. wide. Wheel weights are necessary; order below.
87 C 5078 R—Fits Riders. Ship. wt. 58 lbs. . . . . $[illegible]

5 25-LB. WHEEL WEIGHT. Use one or more in addition to [illegible] wheel weights for added traction. Nest together.
87 C 4999 MBX—Fits Riders. Ship. wt. 25 lbs. . . . . Each [illegible]

87 C 5072 MO—TRACTOR SUPPLEMENTARY HANDLE, (not sho[illegible] Converts Rider into 2-Wheel Walkers for small plot pl[illegible] cleaning up headlands, plowing on hills, etc. Ship. wt. 15 lbs. [illegible]

6 DISC HARROW. Two 4-blade gangs with 12-in. diam. [illegible] of heat-treated and oil-tempered steel. Quickly reversi[illegible] set for angle on 36-in. tool bar. Throws soil to or away fro[illegible]
87 C 5465 R—Fits Riders. Ship. wt. 85 lbs. . . . . $[illegible]

7 TRAILER CART. Has 39 by 26 by 12-in. all steel Dump [illegible] Holds 7 cu. ft. or a 1000-lb. load. Removable endgate. S[illegible] steel chassis with 4.00 by 8 (16 in. O.D.) pneumatic rubber [illegible] wheels. Roller bearings. Wheel brakes operated from tractor [illegible]
87 C 5080 R—Fits Riders. Ship. wt. 150 lbs. . . . . $[illegible]

8 SPIKE TOOTH DRAG HARROW. Teeth 6 in. apart on 36-[illegible] cross bars; two rows ahead of wheels and two behind s[illegible] gered to give 1½-in. spacing. Lever adjusts tooth angle.
87 C 5079 R—Fits Riders. Ship. wt. 100 lbs. . . . . $[illegible]

9 HEAVY-DUTY 36-IN. SICKLE BAR. Heavy welded steel [illegible] of rectangular steel tubing. Forged steel crankshaft, [illegible] bearing on crank pin; other bearings bronze. 2-in. mower s[illegible]
87 C 4998 R—Fits Riders. Ship. wt. 85 lbs. . . . . $[illegible]

10 30-IN. REEL LAWN MOWER. Power driven reel has 5 [illegible] of heat-treated steel, fitted to reel shaft by 7 spiders [illegible] alignment. Oil-sealed ball bearings. Cuts 30-in. swath; [illegible] adjustable ¾ to 3 in. Caster wheels at front.
87 C 5075 R—Fits Riders. Ship. wt. 95 lbs. . . . . $[illegible]

11 TWO-GANG COMPANION LAWN MOWERS. Use along [illegible] 30-in. front mower above to cut 66-in. swath. Consis[illegible] ground driven mowers on tubular frame. Each has 20-in. [illegible] reel with 5 blades of heat-treated steel; held by 5 spiders. [illegible] adjustable ¾ to 3 in. Oil-sealed ball bearings.
87 C 5076 R—Fits Riders. Ship. wt. 170 lbs. . . . . $[illegible]

12 TWO-ROW PLANTER. Each unit has 11 interchangeable [illegible] plates that run at 8 different speeds by varying arr[illegible] ment of drive sprockets. Plants practically all garden see[illegible] cluding field corn in two rows from 18 to 40 in. apart. Drops [illegible] in drilled rows or hills with from 1-in. to 6-ft. spacing. 2-[illegible] movable seed hoppers. Depth adjustment.
87 C 5082 R—Fits Riders. Ship. wt. 140 lbs. . . . . $[illegible]

13 FERTILIZER ATTACHMENT. Dual units, each with 2 [illegible] drops that drill strip of fertilizer on both sides of seed [illegible] sired depth. 15-lb. capacity adjustable flow hoppers.
87 C 5091 R—Mounts on planter above. Ship. wt. 40 lbs. . . . $[illegible]

Low Priced Til-Trac

SELF-PROPELLED...2 SPEEDS...9 ATTACHMENTS

LIGHTWEIGHT AND EASY-TO-HANDLE TIL-TRAC 118.50 ROTARY TILLER 37.50

(A) Now, more than ever, the ideal tractor for city and suburban home owners who wish to speed up and power all their chores. Equally desirable as a minimum investment tractor on farms and estates for the type work it can handle. Improved design with new recoil starter on engine for quick, easy starts and 2 new attachments to broaden its usefulness. Lightweight and compact, self-propelled, full-powered and sturdy; of a size and weight to be easily maneuverable in small areas by any operator. With Til-Trac and its quickly interchangeable, power-driven attachments you have, as the name implies, a very efficient Rotary Tiller . . . a lawn mower outfit you can ride . . . plus the other tools you need to save time and make fun out of all your lawn, garden and snow-clearing work the year 'round.

QUALITY BUILT THROUGHOUT. Sturdy frame of 12-gauge steel, 9 in. wide, 21 in. long. Wide-spread handles of 1-in. tubular steel, have rubber grips. Full 9-in. height adjustment for working comfort. Runs on two semi-pneumatic cleat-tread rubber-tired wheels; size 12x2 in. Have oilite bearings for long, trouble-free service. Wide wheel tread, 15 in., for stability.

TWO-SPEED DRIVE. Initial drive from engine is through a V-belt. Two pulleys to provide speed ranges. High speed of from 1 to 2 MPH and low of ½ to 1 MPH. In low speed, power is transmitted to intermediate gears by positive drive roller chain and sprocket.

AUTOMOTIVE TYPE DIFFERENTIAL. Full gear differential. Both wheels drive on turns and tractor "turns on a dime" for easy handling in small garden and lawn areas. Gears run in oil in sealed housing. Final drive through toothed pinions which engage cleats in tires. When drive is not engaged tractor is free wheeling. You can power attachment and roll tractor by hand to work in close quarters.

VERY EASY TO OPERATE. Two plastic knob clutch levers on handlebars; one starts and stops tractor, the other applies power to attachment. Engine throttle control on handle bar. Steers easily; ideal for women, children.

QUICK-CHANGE HITCH. All attachments are easily inter-changed without tools. Securely held by wing nuts that tighten by hand. Elongated slots on hitch provide tension adjustment for V-belt or roller chain. Snap-up stand parks tractor upright when tools are off. Takes little space in garage.

COMPLETELY DEPENDABLE. Powered by nationally known Clinton, 4-cycle air cooled engine that develops over 2 HP. New built-in recoil starter starts quickly, then automatically rewinds, ready for the next start. Automotive type float feed carburetor, high tension magneto, oil bath air cleaner. Gas tank holds 3 qts. for 3 hrs. work. Ship. wt. 130 lbs.

87 C 5085 R—2 HP Til-Trac Only. $12 Down, $10 Monthly on Wards Convenient Monthly Payment Plan.....or Cash $118.50

Rotary Tillers

ENGINE OR ELECTRIC MODELS

2½ HP ROTARY TILLER 118.50

(B) Prepares lawn or seed bed in one fast, easy operation. Chops up soil the way you want it . . . leaves moisture-holding mulch that means better, healthier plants and vegetables. Its many uses include cultivating, power composting, litter stiring in hen houses, truck farm, greenhouse or nursery work, etc. Invaluable where row crops are planted. Lightweight, compact and easy to handle. Once tiller is started along row, it tends to pull itself forward—you merely guide, yet have positive control at all times. Make money with your tiller too, by doing custom work for your neighbors.

Tilling width 22 inches. Outer tines easily removed to narrow cut to 12 in. for use in close quarters. Extension tines below increase width to 32 in. Self-sharpening alloy steel 14-in. outer diam. tines; heat-treated and hardened to make quick work of tough soils. Foolproof idler-type clutch and throttle controls on handlebar. Adjust from 32 to 38 in. high, have rubber grips. Safety V-belt drive from engine to worm gear shaft. Worm gear reduction drive with Timken bearings. Neoprene oil seals, dirtproof, oil-tight cast-iron housings. Powered by quick-starting 2½-HP 4-cycle Clinton VS Model 100 engine. Two semi-pneumatic 10 by 1.75 rubber tires.

87 C 4964 R—Ship. wt. 135 lbs.....$118.50

87 C 4965—Extension Tines. *If ordered separately, state Model No. of Tiller.* Ship. wt. 14 lbs.....Pair $10.95

LIGHTWEIGHT ELECTRIC TILLER 64.50

(C) Make your gardening a pleasure by using this versatile Electric Tiller. Lightweight, compact and efficient—as easy to handle and operate as a vacuum cleaner—weighs only 11 lbs. Rustproof aluminum handle is 40 in. long. Has adjustable side grip for comfort.

Ideal for women who take pride in their gardens and flower beds. Prepares seed bed, mulches in fertilizer, gets tedious weeding and cultivating jobs done in minutes without the usual hard work. Full tilling width is 10 in. but can be reduced to 5½ or 3½ in. for use in tight quarters—next to fences, garage, trees, rose bushes, borders, etc. Will dig to 6 in. depth—roots out weeds.

Just plug it into any electric outlet and let the tiller save you hours of hard, laborious work. Heat-treated alloy steel tines are self-sharpening. Powered by dependable General Electric 110–120 volt, 60-cycle AC motor; develops about 90-in. lbs. torque. Motor measures about 4½ by 6 in. Stub cord and plug.

87 C 4961M—UL listed. Ship. wt. 14 lbs. $6.50 Down, $6 a Month or.....Cash $64.50

LAWN TRIMMER ATTACHMENT for Electric Tiller. Cuts 7-in. swath along walks, driveways, around trees, etc. Quickly attached. 3-in. hard rubber wheels.

87 C 4962—Ship. wt. 2 lbs.....$9.65

100-FT. EXTENSION CORD with 11-in. metal reel. Two 16-ga. copper wires. UL Approved.

83 C 1276 L—Ship. wt. 9 lbs.....$7.85

9 LOW PRICED ATTACHMENTS FOR WARDS TIL-TRAC . . . MANY ALSO FIT TOWN-TRAC . . . BUY ALL YOU'LL NEED FOR YEAR 'ROUND USE; ONLY 10% DOWN

(1) NEW 18-IN. ROTARY LAWN MOWER. Works well on rough or smooth lawns. Particularly effective where mowing is infrequent, and some of the grass coarse and weeds heavy. Alloy steel blade cuts an 18-in. swath. Spreads clippings without windrowing. Cutting height adjustable from 1 to 2½ in. Trims close to walks, etc. Ship. wt. 50 lbs.

87 C 5087 R—Fits Til-Trac and Town Trac.....$36.50

LEAF MULCHER ATTACHMENT. Fits on mower above. Picks up dry leaves, grinds them up and spreads them back on lawn for soil-rebuilding mulch. Can't be seen and will soon improve appearance of lawn.

87 C 5092 MO—Ship. wt. 6 lbs. $3.95

(2) NEW RIDING SULKY. Quickly converts your Til-Trac into a "Fun-Trac" for just riding around or running errands; adds comfort and takes the effort out of lawn mowing by providing a seat that you can ride with either the reel or rotary mower. Works well on level ground or gentle slopes. Not designed for use on steep hills or exceptionally tall grass.

Sturdy steel frame with oilite bearing disc wheels. 2 by 12-in. semi-pneumatic tires. 18½-in. wheel tread. Adjustable foot rest. Ball and socket hitch. Ship. wt. 48 lbs.

87 C 5065 R—Fits Til-Trac.....$22.95

ATTENTION, 1953-54 TOWN TRAC OWNERS—Note that many of the Til-Trac attachments here fit your tractor.

(3) REAR MOUNTED ROTARY TILLER. A most useful attachment; the one that gives Til-Trac its name. Prepares seed bed for lawn or garden in one operation. Handles all cultivating and makes it easy to improve soil by mulching and power composting. Pulverizes the soil; chops up and buries grass and weeds or tills in almost any kind of plant or animal waste as fertilizer.

Eight spring steel tines till 12 in. wide and up to 5 in. deep. Bronze bearings. Roller chain drive.

87 C 5086 R—Tiller to fit Til-Trac Ship. wt. 38 lbs.....$37.50

87 C 4958 R—To fit 1953–1954 Town-Trac. Ship. wt. 38 lbs.....$39.95

TERMS ON INSIDE BACK COVER

(4) 20-IN. REEL LAWN MOWER. For smooth mowing of finest lawns. 6-in. diam. power driven reel; has 5 alloy steel blades mounted on 5 spiders for rigidity. Sealed ball bearings. Height adj. 1 to 3 in.

87 C 4953 R—Fits Til-Trac and Town-Trac. Ship. wt. 58 lbs....$47.50

(5) LAWN EDGER. Gives your lawn and flower beds a clean, tailored look. 10-in. diam. V-notched steel blade cuts neat edge up to 1½ in. wide, 3 in. deep. Bronze bushings. Adj. rubber tired gauge wheel.

87 C 5090 M—Edger with right-hand Blade. Fits Til-Trac, also 1953–54 Town Trac. Ship. wt. 15 lbs.....$15.95

87 C 4957—Left-hand Blade for above. Use where curbing is on left (walking behind tractor) and lawn on right. Ship. wt. 3 lbs.....$2.45

(6) POWER SPRAYER OUTFIT. Provides all the equipment you need for killing weeds in lawns or along fence rows, spraying insecticides in row crop or flower garden, doing fruit tree or other spraying. Has Ni-resist case, nylon roller pump that sprays 4 GPM at 150 lbs. pressure. Stainless steel shaft, sealed ball bearings. Removable 5-gal. tank on cradle frame. Compression chamber to hold pressure steady. 200-lb. gauge, regulator by-pass valve, suction strainer. Jet agitation keeps spray solution mixed. Spray equipment includes Teejet trigger valve, 24-in. curved and 48-in. straight extensions, boom-jet nozzle for 8-ft. swath, 2 adjustable cone jet nozzles for row crops or fruit trees and 25 ft. of ¼-in. Buna-N hose with ¼-in. fittings. Wand mounts on sprayer for lawn or garden use; easily removed for orchard or fence row work. Ship. wt. 50 lbs.

87 C 5089 R—Fits Til-Trac and Town-Trac.....$86.50

(7) 20-IN. ROTARY WEED CUTTER. Improved model. Quickly clears rough weeds, tall grass, wild bushes, etc. Knife-sharp 20-in. alloy steel blade revolves at high speed to cut clean. Height adjustable from 2 to 6 in. Concave disc over blade to throw cuttings clear and help prevent wrapping. 2 skid runners. Timken roller bearings.

87 C 5093 R—Fits Til-Trac and Town-Trac. Ship. wt. 40 lbs.....$31.95

(8) NEW BULLDOZER-SNOW PLOW. A low priced attachment you'll use all year 'round. 20 in. wide to quickly clear snow from walks, driveways, etc., or use it for light bulldozing and grading of earth, gravel, etc. Blade of 12-ga. steel, size 20 by 13½ in. Pushes straight ahead or may be angled to throw to the left or right. Adjustable skid shoes to raise blade when scraping snow over gravel.

87 C 5066 R—Fits Til-Trac and Town-Trac. Ship. wt. 35 lbs.....$17.95

(9) 17-IN. ROTARY SNOW THROWER. Solves the shoveling problem. Four-bladed rotor revolves to pick up snow and throws it forcefully to left or right through adjustable spout. Spreads it evenly in a thin layer several feet away. Extension wings feed snow to blades.

87 C 5088 R—Fits Til-Trac and Town-Trac. Ship. wt. 50 lbs.....$19.50

Auto Seat Covers...1956 Styling, Colors, Patterns

EASY TO INSTALL

INSTALL COVERS YOURSELF and save installation charges.

FREE PLIERS included with each set of Ward Seat Covers ... for quick, easy hooking of fasteners that are furnished each set of covers. Complete instructions also included.

NOTE: Tailor-Made covers for some cars do not cover backs of front seat backrests because elaborate hardware or cutins for leg room make a good fit of this part impossible.

WHICH SHALL I BUY ... TAILOR-MADE OR READY MADE?

TAILOR-MADE SEAT COVERS are:

TAILORED-TO-MEASURE for your particular car model ... just like buying at a custom shop, but at far lower prices.

AVAILABLE FOR MOST 1946–56 CARS ... even those with center arm rests in the rear seats.

AVAILABLE IN WIDER CHOICE of patterns and colors and fabrics.

SHIPPED DIRECT FROM FACTORY in Richmond, Va. Because it takes extra time to custom tailor them to your particular car model, allow Factory 7 days extra plus time in transit. You pay postage from Factory. Please, no C.O.D. orders for Tailor-Made seat covers.

READY-MADE SEAT COVERS are:

CAREFULLY CUT AND TAILORED to assure a better fit than the usual ready-made seat cover.

EXPERTLY MADE FOR GOOD FIT on most popular cars (check the car listings at bottom of page for cars that Ready-Made Covers fit).

AVAILABLE IN WIDE CHOICE of many popular patterns and colors —in Jetspun, Saran Plastic and Fiber fabrics. Available, too, in Better Quality for good service at real economy prices.

SHIPPED PROMPTLY FROM STOCK in nearest Ward Mail Order House. See "How To Order" at right and include all information requested.

HOW TO ORDER SEAT COVERS—SEND US THIS INFORMATION

Tailor-Made Seat Covers fit only 1946–56 cars (not for station wagons). Ready-Made Co[illegible] fit only car makes, models and years listed at bottom of page. It's easy to order Seat Co[illegible] from Wards ... just be sure to include all of the following information on your order:

(1) *State car make, year,* number of cylinders and factory model number or letters. Also state number of doors (2-door, 4-door).

(2) *State exact model* (such as Standard, De Luxe, Special, etc.).

(3) *State exact body name* (such as Business Coupe—2, 3 or 4-pass., Sport Coupe, Sedanette, 4-door Sedan, Club or Sedan Coupe, etc.).

(4) *State type of front seat* (split or solid backrest). Also state if rear seat is with or without center arm rest.

(5) *State Pattern Letter* of cover you want, such as Pattern A, Pattern B, Pattern W, etc.

NEW "LUM-PUF" WOVEN PLASTIC ... TAILOR-MADE ONLY 33.95 Sedan

LUM-PUF is actually puffed by a special new weaving process ... puffed for beauty ... puffed for comfort. Gives this new fabric a distinctive "quilted" texture. Interwoven metallic threads add luster.

CUSTOM-MADE at a Factory in Richmond, Va. Because it takes extra time to custom-tailor them to individual patterns of your particular car model, allow 7 days extra for shipment.

You pay postage from Factory. No C.O.D. orders accepted for Tailor-Made covers. *Be sure to state Pattern Letter.*

(A) TO (E) NEW-CAR STYLING. Brand new this year ... high-fashion "Lum-Puf"®, today's newest seat cover fabric ... in a smartly styled, Premium Quality Seat Cover that's made-to-order for your specific car make and model. Lum-Puf is a specially-woven "Saran" Plastic that's actually *puffed* for beauty and comfort (see close-up view at left). A special, new weaving process actually puffs the woven Saran plastic into narrow "ribs" or "puckers" that give the fabric an unusual "quilted" texture that's smartly modern ... makes seat covers cooler, more comfortable. Interwoven metallic threads adds a dash of luster to the woven plastic.

Trimmed with heavy-weight Pinseal (simulated leather) that flows all the way down the sides of front seat back-rests for new car styling ... adds lots of eye appeal ... looks and feels like real leather. Entire back of front seat and cushion skirts of lustrous, heavy-weight Rayon in harmonizing solid color. Roomy pocket on front seat skirt.

(Lum-Puf® is a Registered Trade Mark of Chicopee Mills, Inc.).

TAILOR-MADE ONLY (see Shipping Information at left). Available in Patterns A, B, C, D or E. Made-to-order for exact fit on 1946–56 cars only. See "How To Order" above at right. *Be sure to state Pattern Letter, Car Make, Year and Model, etc. when ordering.*

CLEAR PLASTIC SEAT COVERS 23.45 Tailor-Made; 16.45 Ready-Made

(AA)

GLASS-CLEAR PLASTIC

Protects beautiful car upholstery without hiding it from view ... like putting a "glass" cover on your car seats.

Extra-heavy 12-gauge Clear Plastic. Static-resistant, stain-proof, non-absorbent.

(AA) Protect your beautiful car upholstery without hiding it from view ... order a set of these Clear Plastic Seat Covers. Tailored just like all other seat covers for snug fit. All seams double-stitched; clear plastic welts. Choice of Tailor-Made or Ready-Made.

See "How To Order" at top of page. State Make, Year, Model, etc. when ordering.

TAILOR-MADE CLEAR PLASTIC SEAT COVERS. *Complete sets only.* Tailored-to-measure for your specific car make and model. Shipped from Factory in Richmond, Va. Because it takes extra time to custom-tailor covers to individual patterns of your particular car, allow 7 days extra for shipment, plus transit. You pay postage from Factory. No C.O.D. orders accepted for tailor-made covers. Ship. wt. complete set, 9 lbs. 8 oz.

See "How To Order" at top of page. *Be sure to state Make, Year, Model, etc.*

LARGE: For Buick 1953–54, Ford 1952–55; Lincoln, Mercury, Dodge 1955; Olds. 1953–55; other cars with front seats 59 in. or wider. Ship. wt. 2 lbs.

61 C 7558—For Solid Seats. *State Color* $5.95
61 C 7559—For Split Seats. *State Color* 5.95

SEAT TOPPER 6.45; PAD 2.65

2 FOAM RUBBER SEAT TOPPER. Fits under seat cover. So porous it "breathes" air—makes seat covers cooler, more comfortable. Easy to trim with scissors. Rounded edges.

61 C 7678—20x56x1 in. Wt. 5 lbs. 4 oz..... $6.45
61 C 7684—20x62x1 in. Wt. 5 lbs. 12 oz..... 6.45

3 FIBER SEAT PAD. For front or rear seat . . . covers full width of car seat. Provides extra comfort and a smooth surface for sliding in or out of car. Fine Fiber in multi-color plaid, with foam rubber backing and elastic cords with hooks to hold pad in place. Ideal for cars without seat covers. Approx. size 56x18 inches.

61 C 7670—Ship. wt. 1 lb. 8 oz..... $2.65

CUSHION TOP COVER 6.45

4 FOR FRONT SEATS ONLY—covers full width. Lustrous Rayon permanently fused to a foam rubber backing. With elastic edged skirt for easy installation and neat tailored appearance. Measure seat at widest point.

Choice of Blue, Green or Maroon, each with matching skirt. Ship. wt. each, 2 lbs.

61 C 7654—56 IN. WIDE. For Chev. 1950–55; Plym., Pontiac 1950–54; Ford 1956; other front seats 55 to 56 in. wide. *State color* $6.45

61 C 7655—58 IN. WIDE. For Ford, Merc. 1950–54; Plym. 1955; Buick Spec., Cent.; Olds. 88, Dodge, DeSoto, Chrys., 1950–56; other cars with front seats 57 to 58 in. wide. *State color* $6.45

61 C 7656—60 IN. WIDE. For Buick, Super, RM and Cadillac 1950–56; other cars with front seats 59 to 60 in. wide. *State color* $6.45

SLIP COVERS 1.98 AND 2.95

38 SPARE WHEEL HOLDER. Bolts to trailer tongue. Holds spare trailer wheel and tire listed on Page 899.

61 C 8803 R—Ship. wt. 3 lbs. $1.98

ONE-MAN BOAT LOADER

39 BOAT LOADER-CARRIER. One man can load (or unload) a boat from top of car with this handy loader-carrier.

It's a 5-ft. tubular steel pole complete with a transom clamp. Pole bolts into any trailer hitch on rear bumper—carries most of boat weight down to the bumper hitch—(hitch not incl.—see Page 899 for Hitches).

Transom clamp adjusts to any angle—grips boat transom like a vise—lowers to bumper level to attach boat, then raises to car-top level and locks into position. Bow of boat can then be swung toward front of car and rested on a single bar-type carrier (not incl.—order extra below).

61 C 8940 Y—Boat Loader-Carrier Pole only (order hitch and car-top bar extra). *Mailable.* Ship. wt. 14 lbs... $17.98

SINGLE BAR TYPE CAR-TOP CARRIER (not pictured). For use with Boat Loader-Carrier listed above. Sturdy 1x2-in. Oak bar 44 in. long. *Mailable.* Ship. wt. 7 lbs.

Car Top Carriers Solve Your Luggage Problems

CANVAS OR BASKET TYPE LUGGAGE CARRIERS 9.95 TO 27.45

1 2 CANVAS LUGGAGE CARRIERS—water-resistant, dustproof. Completely enclosed—no moisture can enter, even from bottom.

(1) "PACK HORSE" CARRIER. Rests directly on car top—hugs car top contour—reduces wind resistance and wind noise. No suction cups needed. Full canvas bottom protects car top; two-piece wood hardboard floor for extra protection (removable). Full side zipper. With hold-down straps and rubber-dipped rain channel clips. Cargo straps on top holds skis, ladders, etc. Folds for storage. *Mailable.*

61 C 8920 M—13.3 CU. FT. SIZE. 42 x 42 x 13 in. high. Ship. wt. 17 lbs.... $16.45
61 C 8923 MB—21.8 CU. FT. SIZE. 42 x 60 x 15 in. high. Ship. wt. 22 lbs... $24.95

(2) "STOWAWAY" COLLAPSIBLE CANVAS LUGGAGE CARRIER. Water-repellent Gray canvas with neat Red welt in all seams. Sturdy yet lightweight metal frame—collapsible for easy storage. With 1-piece masonite floor that's contoured to fit close to car top—reduces wind noise. Two-way side zipper. 4 rubber suction cups, hold-down straps and rubber-dipped rain channel clips (all Gray). Size 36 x 48 x 14 inches high . . . about 12 cubic feet of storage space. *Not Mailable.*

61 C 8925 R—Ship. wt. 28 lbs... $22.95

3 ECONOMY ALL-STEEL LUGGAGE CARRIER. Gray enameled. Channel steel cross slats hook into place quickly; tubular steel side rails bolt on. Size 36 x 42 x 7 in.
61 C 8936 MB—*Mailable.* Ship. wt. 20 lbs..... $9.95

4 COLLAPSIBLE LUGGAGE CARRIER. Sturdy, roomy. Gray enameled, with straps and rubber suction cups also Gray. Collapsible for storage. Rugged channel steel. Wood hardboard bottom. Rubber-dipped channel clips. Size 36 x 41 x 7 in. Order canvas cover extra below.
61 C 8935 MO—*Mailable.* Ship. wt. 28 lbs..... $13.25

5 CANVAS COVER for luggage carriers (3) and (4) above, and 8924 MO below. Water repellent 9.9 oz. Duck.
61 C 8926—Ship. wt. 3 lbs. 8 oz..... $3.89

6 DE LUXE JUMBO LUGGAGE CARRIER. Extra large, extra roomy. Size 48 x 36 x 7 in. deep. 3-in-1 utility—remove side rails and use as flat load rack; or remove oak load bars and use as bar-type carrier. Smartly styled with polished aluminum side rails, Cadmium plated steel bars and natural finish oak slats. Stainless steel rubber-lined clamps hook to drip molding—needs no suction cups.
61 C 8915 MB—*Mailable.* Ship. wt. 28 lbs..... $27.45

LARGE CANVAS COVER (not shown). For 8915MB above.
61 C 8912—Water-repellent Duck. Ship. wt. 4 lbs. 8 oz. $4.65

STREAMLINED METAL-WOOD LUGGAGE CARRIER (not shown). Similar to (6) above but smaller (size 42 x 36 x 7 in.) and with twin suction cups at each end of load bars (see view at left). Same 3-in-1 utility. *Mailable.*
61 C 8924 MO—Ship. wt. 20 lbs..... $19.95

STEEL OR WOOD BAR TYPE CAR TOP CARRIERS 3.98 TO 10.49 Pair

7 STREAMLINED AUTO-TOP BARS. Smartly modern Carrier Bars of sturdy channel steel with curved rubber-lined clamps that hook to drip molding—need no suction cups . . . put weight on curvature of car top. Gray enameled. With load hold-down straps that hook to bars by metal pin locks—straps adjust to varying load widths.
61 C 8948 MO—LOAD WIDTH 54 INCHES. Ship. wt. pair, 15 lbs. *Mailable*..... Pair $8.45

8 "REDDI-RAK" AUTO-TOP BARS. Lightweight yet rugged. Streamlined, one-piece, die formed steel bars with Gray enamel finish to harmonize with any car color. Load straps easily removed by new "keylock" system—lets you adjust straps quickly to varying load widths. High grade rubber suction cups and rain channel straps with clips.
61 C 8917 M—45 INCHES LONG. Heavy-duty bars. Ship. wt. 11 lbs. *Mailable*..... Pair $6.69

FACTORY TAILORED CONVERTIBLE TOPS 26.95 Good—Type (18) For Ford 1936–40

17 18 Tailored to your particular car model—fit like original. Choice of 2 window styles: Type (17) has large 14 x 33-in. shatterproof plastic window—folds neatly with top. Zips open. Type (18) has standard zipper curtain—use glass from old top. Custom-tailored; double-stitched at strain points.

GOOD FABRIC. Two layers of heavy cotton material bonded with live rubber. *State Color Wanted:* Black with Black lining, Black with Tan lining or Tan with Tan lining.

BETTER FABRIC. Tougher, more weather-resistant. Two layers of extra-heavy cotton fabric bonded to center layer of butyl rubber sheeting. Matching vinyl coated welt. *State Color:* Green with Green lining, Blue with Blue lining, Black with Black lining, Tan with Tan lining or Tan with Tan lining.

BEST FABRIC—VINYL PLASTIC COATED. Richest looking, longest wearing. 2 layers of extra-heavy, finest quality "taffeta" finished cotton fabric, bonded to a center layer of heavy butyl rubber sheeting. Vinyl-plastic coated to keep it "new" looking longer, resist fading, make it absolutely water-proof and scuff-proof. Matching vinyl coated welt. *State Color:* White with Tan lining, Green with Green lining, Blue with Blue lining, Tan with Tan lining or Black with Black lining.

For "new-look" fit—order new top pads below in color to match interior of new top. Instructions, fittings included with tops. Use braces from old top.

HOW TO ORDER: *State (1) color;* (2) make, year, model of car; (3) top type (17 or 18). (*For 1940 Chev., state if top has 2 or 3 snaps at top of rear door.)

NOTE: Type "18" not sold for late cars originally having Type "17" top. Pay postage from Factory in Chicago—allow 10 days extra for custom tailoring.

For These 5-Pass. Convertibles: No C.O.D. ORDERS ACCEPTED ON TOPS All Tops *Mailable.* Ship. wt. 12 lbs.	Type of Top	GOOD FABRIC: Black or Tan		BETTER FABRIC: Black, Tan Blue or Green		BEST FABRIC: Black, Tan, Blue, Green or White

All-Steel Utility Trailers

SWIVEL WHEEL STEEL TRAILERS 98.50 (1-Wheel)

2-Point Bumper Hitch

29 30 Utility Trailers for farmers, tourists, salesmen etc., All-steel. Attach to car bumper at two points (see picture at left)—follow car without sway—back up without jack-knifing because caster wheel assemblies pivot in a complete circle. All-steel bodies welded into one-piece units. All-steel chassis, arc welded and cross-braced for heavy duty. Knee-action coil spring absorbs road shock (adjustable for load-weight needs). Green enameled.

Attach to bumpers of all cars except the following (on which two ⅝-in. holes must be drilled in bumper): Hudson 1948–56; Nash Rambler 1952–56; Kaiser 1952–55; Frazer all. Fit all other cars without drilling (even those with gravel aprons). 20% Down on Terms.

Save Money—order trailer shipped direct from Factory in central Nebraska (shipped promptly); or, if you prefer, we ship direct from Stock. Send price for type shipment preferred, plus freight charges from shipping point. Shipped knocked down to reduce charges.

(29) 750-Lb. Capacity. Single caster wheel. 48 x 53 x 11-inch one-piece steel body. Flare board and stake pockets. Removable wood tail gate. 4.00 x 8 Riverside Tire and Tube. Ship. wt. 225 lbs.

61 C 8752 F—From Factory in central Nebraska.....$98.50

Auto Trunk Bunk

A BED FOR TWO . . . ASSEMBLES IN MINUTES

42 Sleep Where You Park with this handy Trunk Bunk. Ideal for sportsmen, vacationists. Saves you motel or cabin rentals—pays for itself in one season.

Fits Any Auto with a 42-in. wide trunk opening. Makes a comfortable full-length bed for 2 adults, with the bed protected by a tent-like, water-resistant Duck tarpaulin. Easily assembled in minutes—without tools. Folds compactly for storage in trunk—takes only about 1/10 of trunk space.

2-Person Bed of extra-heavy weight double-needle-stitch commercial canvas. Supports up to 600 lbs. Size 76x48 in. Canvas cover has two-way zipper for easy access to bed. Side flaps can be zipped tight . . . or, with flaps up (or staked out like an awning) you have the comfort of sleeping outdoors . . . protected by mosquito netting. Sturdy steel and aluminum framework supports both bed and tarpaulin.

Campsite Table, too, with addition of a plywood board over bed. Legs adjustable to insure level bed or table. *Not Mailable.*

61 C 8758 R—Ship. wt. 72 lbs. Only $7.00 Down.....or Cash $69.95

Uses Little Trunk Space

64 C 789 M—5.00 x 8 Tube. Wt. 1 lb. 8 oz... 1.55

37 STANDARD WHEEL WITH HUB. Non-demountable (hub is part of wheel). Same 4.00 x 8 wheel as used on Wards Utility Trailers and 1956 Standard and older model Boat Trailers.

61 C 8799 M—For ¾-in. axle. Wt. 8 lbs. Each $7.65

38 DEMOUNTABLE WHEEL WITHOUT HUB. With wide base rim. Same demountable wheel as used on Wards 1956 DeLuxe and Super Boat Trailers. For 4.00 x 8 and 5.00 x 8 tires.

61 C 8800 M—Wt. 1 lb. 8 oz. *Mailable*. Each $2.45

39 40 TRAILER FENDERS. 16-ga. steel. Unpainted. 3 mounting holes. Bolts not incl.

(39) For 8-In. Boat Trailer Wheels. 6½ inches wide, 10-inch radius. Ship. wt. pair, 8 lbs. 8 oz.

61 C 8852 M—*Mailable*.....Pair $3.95

Fender Brackets for 8852M above.

61 C 8845—Ship. wt. 1 lb. 12 oz.....Pair $1.69

(40) For 15 or 16-In. Utility Trailer Wheels. 9 inches wide, 16-inch radius. *Mailable.*

61 C 8843 M—Ship. wt. pair, 19 lbs....Pair $8.45

41 TRAILER TAIL LIGHT AND FLAG. Clamps on. No wires—uses 1 dry cell battery (battery not included). Ideal for boat trailers.

61 C 8879—Ship. wt. 1 lb.....$1.85

43 44 45 CANVAS COVERS AND FRAME. Fit trailers (29) and (30) above.

(43) Canvas Sleeper Top. Water-resistant Duck. Extend trailer floor by bolting board (not incl.).

61 C 8830 L—Ship. wt. 11 lbs. *Mailable*...$14.45

(44) Canvas Cargo Top. Water-resistant Duck

61 C 8824 L—Ship. wt. 9 lbs. *Mailable*.....$12.45

(45) Canvas Cover Frame. 48 x 50 x 26 in. high.

61 C 8826 MB—Ship. wt. 26 lbs. *Mailable*. $11.45

46 47 TRAILER CHASSIS. All-steel, arc welded. Accommodate up to 4 x 6-ft. body. With pneumatic tire, tube. Coil springs, swivel wheel assembly, hitches. Shipped promptly from Factory in central Nebraska—pay freight from there.

(46) 61 C 8765 F—1,000-Lb. Capacity. Same as on trailer (30) above. Ship. wt. 195 lbs...$124.50
(47) 61 C 8753 F—750-Lb. Capacity. Same as on trailer (29) above. Ship. wt. 140 lbs.....$73.50

HYDRAULIC LIFT CYLINDERS

48 49 For convertible tops and windows. New exact replacements—not rebuilts. Electrically activated. Precision built to give years of service. Double seals.

48 CONVERTIBLE TOP CYLINDERS for cars listed below. Ship. wt. 3 lbs. 8 oz.....$5.98

61 C 4680—For Chevrolet, Pontiac, Olds., Buick, Cadillac 1946–52; Chrysler 1949–50; Lincoln "76" 1946–48; Packard 1951.
61 C 4681—For Ford, Mercury and Lincoln "76" 121-in. WB 1949–51.
61 C 4682—For Ford, Merc. 1946–48; Packard 1947–49.

49 WINDOW LIFT CYLINDERS. For cars listed. Wt. 2 lbs..$4.98

61C4685—All Door Windows On:
Buick 1946–52 Convert., 1950–52 Coupes and Sedans.
Cadillac 1946–52 Convert., 1946–48 Sedan "75", 1948–52 Coupes and 1950–52 Sedans.
Chrysler 1946–48 Sedan-Limousine, 1949 Sedans.
Lincoln 1946–51 Convert. and Sedans, 1946–48 Coupes
Mercury 1949–51 Convert., Sedans
Olds. 1946–52 Convert., 1948–52 Coupes, 1950–52 Sedans.
Packard 1947–52 Convertibles

61 C 4685—Front Door Windows Only on these cars:
Ford, Mercury 1946–48 Sportsman
Packard 1949–52 Sedan

61C4687—All Door Windows On:
Cadillac 1948–49 Sedan
Chrysler 1949 Sedan-Limousine
Hudson 1948–52 Convertible
Lincoln 1949–51 Cosmopolitan Coupe, Sedan and Convertible
Olds. 1948–52 Sedans

61C4687-Rear Door Windows On:
Packard 1949–52 Sedan

61 C 4686—Quarter Windows On:
Buick 1949–52 Convert., 1950–52 Cpe.
Cadillac 1948–52 Convertibles and 1950–52 Coupes
Hudson 1948–52 Convertibles
Lincoln 1949–51 Cosmopolitan Coupes and Convertibles
Mercury 1949–51 Convertibles
Olds. 1948–52 Convert., 1950–52 Cpe.
Packard 1947–52 Convertibles

TRAILER HITCHES, COUPLERS, BUMPER CLAMPS AND COUPLER BALLS

50 UNDER-BUMPER TRAILER HITCH. Heavy-duty—for cars with license in center of bumper. Clamps to bumper arms, with bar behind bumper, out of sight. For all bumper brackets from 30 to 50 in. apart ex. 1953 Hudson and Nash Rambler. Cadmium plated bracket for coupler ball—order ball extra from listings at right.

61 C 8873 MB—Ship. wt. 24 lbs.....$7.65

51 DOUBLE BUMPER CLAMP-HITCH. Distributes pull for less bumper strain. Adjustable. Fits all bumpers which permit clamp to hook over top edge (even those with centered license plates if space between bumper guards is at least 17⅝ inches). Steel alloy. Uses any ball with ⅝-inch bolt—order ball extra below at right.

61 C 8867—Ship. wt. 10 lbs.....$3.75

52 CHROME PLATED CUSTOM HITCH. A truly rugged hitch that's custom-made for your specific car. Exposed parts heavily chrome plated. Clamps directly to car frame—puts pull on frame—no strain on bumper.

Order chrome plated ball extra at right.

Shipped from Stock for These Cars Only: 1954–56 Buick; 1949–56 Chevrolet; 1952–56 Ford; 1955–56 Dodge, Mercury, Oldsmobile, Plymouth; 1953–55 De Soto and Chrysler (ex. Imperial).

Also from Stock for these Station Wagons: 1955–56 Chev., De Soto, Mercury, Pontiac (ex. Safari); 1952–56 Ford; 1953–54 Dodge, Plymouth.

State Make, Year, etc. of car or station wagon.

61 C 8895 M—Av. ship. wt. 9 lbs.....$6.95

Shipped from Factory in Kansas City for These Cars Only: 1946–53 Buick; 1950–55 Cadillac; 1942–48 Chevrolet; 1942–52 Chrysler, De Soto; 1942–54 Dodge, Plymouth; 1949–51 Ford; 1951–55 Packard; 1946–55 Pontiac; 1949–54 Mercury, Olds.; 1949–55 Nash; 1953–55 Studebaker and Willys.

Also Shipped from Factory in Kansas City for These Station Wagons: 1954 Chevrolet; 1955–56 Dodge; 1954–55 Nash Rambler; 1951–52 Plymouth; and 1954 Pontiac.

State Make, Year, etc. of car or station wagon.

61 C 8895 K—Av. ship. wt. 9 lbs.....$6.95

53 54 55 BUMPER CLAMP HITCHES. Fit most bumpers. Ball not incl.—order with ⅝-in. bolt.

(53) Extra-Heavy-Duty. High tensile steel alloy.

61 C 8839—Rubber cushions. Wt. 7 lbs. 4 oz.. $4.65

(54) Acme Extra-Heavy-Duty. All steel. Two bolts above, two below the ball platform. 4 in. wide.

61 C 8858—Aluminum finish. Wt. 3 lbs. 8 oz.. $2.15

(55) Acme Heavy-Duty. All steel. One bolt above, one below the ball platform. 3 in. wide.

61 C 8856—Aluminum finish. Wt. 2 lbs.....$1.59

56 RETRACTABLE HITCH. Heavy duty under-bumper Trailer Hitch with retractable Chrome plated ball assembly that pushes under bumper, out of way when not in use (see picture at right). Ends danger of hooked bumpers, damaged grilles. 3-point attachment . . . behind bumper, out of sight. Puts all strain on frame members. Only Chrome plated ball assembly is visible . . . and it's retractable. Illustrated instructions.

Fits only these passenger cars (not station wagons):

Buick 1950–55	Dodge 1950–55	Olds. 1953–55
Cadillac 1950–55	Ford 1951–55	Packard 1950–55
Chev. 1951–55	Lincoln 1952–55	Plym. 1950–55
Chrysler 1950–55	Mercury 1952–55	Pontiac 1950–54
De Soto 1954–55	Nash 1952–55	

61 C 8899 MB—*Mailable*. Ship. wt. 19 lbs.....$12.95

57 SEMI-STREAMLINED COUPLERS. Malleable iron. Exceed SAE specs. Red; aluminum trim.

61 C 8857—For 2,000-lb. Load (not shown). With 1⅞-in. ball, ⅝-in. bolt. Ship. wt. 3 lbs. 8 oz.....$2.29
61 C 8837—For 4,000-lb. Load. With 1⅞-in. ball, ⅝-in. bolt. Ship. wt. 4 lbs. 8 oz.....$2.79
61 C 8871—For 6,000-lb. Load. With 2-in. ball, ¾-in. bolt. Ship. wt. 6 lbs.....$3.85

58 ALL-STEEL HEAVY-DUTY COUPLER. For loads up to 4,000 lbs. Bolt to trailer tongue or weld to a steel tongue. 1⅞-in. diam. ball; ⅝-in. bolt.

61 C 8838—Ship. wt. 3 lbs. 12 oz.....$2.95

59 TUBULAR TONGUE COUPLER. For 4,000-lb. load. Malleable iron. Fits around std. 2-in. pipe of any wall thickness. 1⅞-in. ball, ⅝-in. bolt.

61 C 8872—Red enameled. Ship. wt. 5 lbs.....$3.19

60 61 62 COUPLER BALLS. Malleable iron. With lock washer, nut. Meet S.A.E. specifications.

Height from Base	Ball Diam. Inches	Plated Finish	Bolt Diam. Inches	Ship. Wt.	Catalog Number	Price

63 CHROME PLATED BALL COVER. Universal. Eliminates need of removing coupler ball when not in use. Install with 2 set screws.

61 C 8893—Wt. 12 oz....$1.45

New Longer Guarantees

19% TO 24% LOWER BATTERY COST PER

Now ... new longer Battery Guarantees at Wards ... made possible by the following standing improvements in design, construction and materials:

(1) IMPROVED GRID METALS AND PLATES—Improved grid metals give you up to 50% more sistance to overcharging—the number one cause for battery failure. They use less w thus reducing the chance of battery ruin because of low water level. New metals reduce tion—offer more cranking and lighting capacity. Power producing oxides of balanced p tions are pressure-pasted to the grids to produce a hard, porous, long lasting plate for dependable service and more effective electrolyte penetration.

(2) IMPROVED CONTAINERS—Stronger case materials have 50% greater impact resistance can withstand extreme temperature differences.

(3) INCREASED ACID CAPACITY increases Ampere Hour Capacity. Gives you more elect above plates—reduces chances of battery ruin caused by low water level.

(4) IMPROVED SEPARATORS—Reduce plate vibration—Insures longer battery life.

WARDS BATTERY GUARANTEE

If a Wards Battery fails within its guarantee period (barring misuse or accident), we will replace it, charging only for service received. Guarantee periods are shown at right.

If Used In	Super Power	Heavy Service	Standard	Commander	Tractor	Com-
Car...	60 mo.	48 mo.	30 mo.	15 mo.	.....	...
Truck	24 mo.	24 mo.	15 mo.	6 mo.	24mo.	24
Tractor	24 mo.	24 mo.	15 mo.	6 mo.	24mo.	24

WHY PAY MORE FOR A BATTERY ELSEWHERE?

Wards Batteries not only give you longer guarantees but also greater value for your m as shown in the table below. Note that you get the same Ampere Hour Capacity and Nu of Plates in a Ward Battery as you do in nationally advertised brands but for far less m Price and quality figures shown in the table are relative and typical of all types of batteries when compared with nationally advertised brands.

Nat'l. Adv. Type 1 Batteries	20 Hr. Amp. Hr. Cap.	No. of Plates	Suggested List Price	$ Saved at Wards	Guarantee	Co Per
Wards Heavy Service....	115	51	$14.95	.....	48 mos.	31.
Battery "A".....	115	51	27.95	$13.00	36 mos.	7
Battery "B".....	115	51	27.95	13.00	48 mos.	5
Battery "C".....	115	51	29.95	15.00	48 mos.	6

As you see, you pay almost twice as much elsewhere for auto batteries. But higher alone do not mean better batteries. Then, how can you compare battery for battery? how: Compare the amount of power stored in each battery. This power is known as "A Hour Capacity" and all batteries are rated by Amp. Hr. Cap. (or the 20-Hour Rate). confuse this with the 20-*Minute Rate* which is often quoted because it sounds like a high ing. The Amp. Hr. Cap. is the best known measure of the amount of power stored in a b and is the standard rating used by the S.A.E. (Society of Automotive Engineers). First co Amp. Hr. Cap. ... then compare prices.

BATTERIES NOW AVAILABLE FROM STOCK . . . SHIPPED IMMEDIATELY

Batteries ordered from Stock as listed below are shipped immediately, fresh and charged, from the Mail Order House for fast delivery—pay charges from there. Ba ordered from Factory offer lowest possible prices but are shipped promptly from Factory Newark, New Jersey or Boston, Massachusetts—pay charges from nearest. Batteries *Mailable*—shipped by Freight, Truck or Express.

CASH FOR YOUR OLD BATTERY. Your old battery has cash value. Sell it to your local dealer or use battery allowance coupon included with new Wards Battery. Turn the ance coupon in with your old battery to any Ward Store or Catalog Office and you will the current junk value of at least $1.00. Do NOT ship old battery to Wards Mail Order

2½-YEAR WINTER KING STANDARD 11.95 Stock, 11.25 Factory, Type 1

3 GUARANTEED FOR 2½-YEARS of Satisfactory Service. Costs only 37.5c per month of g service (from Factory)—Type 1 or 2L.

100-AMPERE-HOUR-CAPACITY—delivers zero-weather starting power of 300 amperes for 3. Has power and capacity to equal or exceed that of most original equipment batteries. Ha reserve power to handle the usual accessories.

45 HEAVY-DUTY PLATES (Type 1)—6 more plates than in the Commander Battery listed below square inches of plate area for extra starting power ... with a total of 21 lbs. of lead.

HIGH QUALITY PLASTIC SEPARATORS. Individually inspected.

GENUINE HARD RUBBER CASE. Withstands extremes of heat and cold.

See "How To Order" below, Shipping Information above.

5-YEAR SUPER POWER "125" 16.95 Factory, 17.95 Stock, Type 1 or 2L

1 GUARANTEED FOR 5 YEARS OF SATISFACTORY SERVICE. Costs only 28.3c per month of guaranteed service (from Factory). It's the most powerful battery we've ever sold—so rugged we guarantee it for 5 full years.

BUILT WITH 4 IMPORTANT EXTRA FEATURES that give it more power capacity than any other car battery.

125-AMPERE-HOUR-CAPACITY. Has 67% more starting stamina than required in this size battery. Delivers higher voltage for faster, surer starting on coldest days. 39% reserve capacity keeps radio operating and heater working when motor is not running.

57 HIGH TYPE PLATES—higher plates (see diag. A) and more plates for 38% (960 sq. in.) more active plate surface than in standard batteries of this size (see diag. B). 33% more resistance to overcharging.

MORE FLUID CAPACITY. 3½ times more fluid above the plates (see diagram A) than required by S.A.E. standards—means 3½ times more protection against damage to plates caused by evaporation.

PREMIUM MICRO-POROUS RUBBER SEPARATORS—the toughest, strongest available—same kind specified by U.S. Navy for submarine batteries.

GLASS FIBER MATS—double insulation between separators and positive plates for longer life.

RED POLYSTYRENE CASE—designed like those used in our newest jet fighters—light in weight, yet 3½ times stronger (see diag. A) than ordinary cases (see diag. B). Transparent filler caps.

See "How To Order" below, Shipping Information above.

Wards Finest Tire...Super De Luxe Tubeless

"THE TIRE THAT'S GOT EVERYTHING"... WARDS SUPER DE LUXE TUBELESS, WITH RAYON OR NYLON CORD

(A) (B) Here's "the tire that's got everything." It's not just another tubeless tire . . . it's a tubeless tire that's carefully engineered all the way through . . . the result of a whole new concept of tire engineering. It's the tire from which you can expect 7,000 *extra* miles—a thoroughly modern tire that's time-and-road-tested for longer, safer, quieter mileage. Order a set of Riverside Super De Luxe Tubeless today and install them yourself.

You don't need to be an "expert" to install tubeless tires. There's no "mystery" about them. Most 1955 cars used tubeless tires as original equipment . . . and many older cars are changing over to tubeless tires every day. You can install them yourself. You don't need to buy special equipment—just use your regular tire tools PLUS a mounting band (bead expander) and rubber lubricant which we include with each order for Super De Luxe Tubeless.

Here are just a few of the outstanding features that make Riverside Super De Luxe your best buy in tubeless tires:

SUPER MILEAGE. You can expect up to 7,000 extra miles from Super De Luxe. We tested it against all the well-known original equipment brands . . . and it outwore them all . . . mainly because the "cold rubber" tread is built on a new principle of tread row distribution that places the widest rib in the center where greatest wear occurs.

SUPER SILENT TREAD. The wide center "king row" and gradually narrowing tread ribs combine in a new way to reduce tire squeal to a whisper on curves and hush annoying tire hum on the highway.

SUPER TRACTION. Countless sharp edges of the zigzag tread pattern and a multitude of deep-cut "sipes" (cross-cut squeegees) wipe away road moisture for safer emergency stops, quick starts and less side-skid on wet pavement. Tread grooves are deep so that tire maintains non-skid and tractive qualities longer.

SUPER STEERING EASE. The tread design makes Super De Luxe respond quickly and easily to your slightest turn of the steering wheel.

SUPER STYLING. Completely modern in styling. Lettering is outside white area—leaves white sidewall smooth, easier to clean.

SUPER GUARANTEE without limit of months or miles—see Page 902.

YOUR CHOICE OF RAYON OR NYLON CORD. Whether you choose Rayon or Nylon Super De Luxe, you'll be selecting a rugged tire that's built for super mileage . . . longer, safer miles . . . at lower cost per mile, too.

RAYON SUPER DE LUXE TUBELESS

Built with new super-strength Rayon cords that stay strong longer. Superior to ordinary Rayon cords. Each cord is dipped in an improved adhesive solution which strengthens the bond between the cords and the rubber insulation—seals the super-strength Rayon cords from moisture penetration—helps add thousands of extra miles to this super-mileage Super De Luxe Tubeless tire.

Choice of Black Sidewall or White-Black Sidewall (see table below).

NYLON SUPER DE LUXE TUBELESS

Built with tough Nylon cord . . just like aircraft tires . . . for the safety-conscious motorist. Built for the man who wants to provide the utmost in safety for himself and his family—a tire that's "as blow-out free as a tire can be" . . . a tire with the all-important extra margin of safety,

Nylon cord is the strongest cord fabric ever used in tires. Pound for pound, it is stronger than steel. It gives this tire nearly twice the body strength of ordinary Rayon tires. Nylon has a lot of extra "muscle"—it gives instead of breaking . . . virtually ends cord ruptures caused by hitting curbs, rocks and chuck holes. It's moisture-proof, too . . . ends tire failure caused by water seeping into cuts in the tire. Because Nylon is stronger, we can build this new Super De Luxe with thinner plies and less bulk . . . means cooler-running, safer tires.

If the roads you drive are apt to subject your tires to impact damage or bruises, or if you want that extra margin of safety—then the new Super De Luxe Nylon Tubeless is your best buy today.

Choice of Black Sidewall or White-Black Sidewall (see table below).

NYLON GUARANTEE NOTE: In addition to the regular Riverside Guarantee "without limit of months or miles used" (see the Riverside Guarantee on Page 902), Nylon Super De Luxe Tubeless tires are *specifically Guaranteed against failure by bruise or rupture.*

SUPER DE LUXE TUBELESS

GIVES YOU THESE EXTRA BENEFITS

SUPER BLOWOUT PROTECTION. Stronger carcass with an inner liner of special rubber transforms the dangerous "Blow-out" into a harmless "Slow-out."

SUPER PUNCTURE PROTECTION. Any tire can be punctured. But the unstretched inner liner ("air wall") of Super De Luxe tends to cling to a puncturing object and slows up air loss enough so you may drive safely to a nearby service station for repair.

SUPER NEW VALUE. Super De Luxe is not premium-priced. Compare quality and mileage—then compare price; you'll find Super De Luxe is today's best tubeless tire value.

CAN I USE TUBELESS TIRES ON MY OLDER CAR? Certainly—if your car has 15-inch wheels in good condition (not for wire wheels).

DO I NEED SPECIAL TOOLS to install tubeless tires? No—use regular tire tools PLUS a mounting band (included—see below).

INCLUDED WITH TUBELESS TIRES:

(1) Illustrated service manual—easy-to-follow.

(2) Special valves.

(3) Mounting band (or bead expander) to assist in seating tire bead.

(4) 8-oz. can of Ru-Glyde (rubber lubricant) to assist you in tire mounting.

Tube-Type Tire Users...Choose Riversides for Mo

RIVERSIDES GUARANTEED

WITHOUT LIMIT OF MONTHS OR MILES

Wards Guarantee every Riverside Tire or Tube to be free from defects and to give satisfactory service without limit of months or miles used. If at any time, any Riverside Tire or Tube should fail to give satisfactory service, Wards will repair it free of charge, or replace it with a new tire or tube and charge only for the service received.

RIVERSIDE DE LUXE BUTYL TUBES

(A) Every new tube-type tire deserves a *new* tube. Since both tires and tubes usually "grow" (stretch) in service, old stretched and worn tubes may wrinkle or fold in new tires, resulting in a flat and probable tire damage.

Riverside De Luxe Butyl Tubes are extra-thick; shaped to fit tire; hold air longer.

Tubes are specially priced *WITH* De Luxe Tires to give you extra savings. Fully Guaranteed. Shipped promptly from Stock in nearest Mail Order House.

Prices Include Federal Excise Tax and are for Catalog Orders only. State size.

WARDS RIVERSIDE DE LUXE . . . OUR FINEST RAYON TUBE-TYPE TIRES . . . FIRST LINE, FIRST QUALITY

(B) (C) Wards finest Rayon Cord tube-type tire. A first line, first quality tire, built with the same service expectancy as original equipment tires. Compare Riverside De Luxe for quality, price and Guarantee with any nationally advertised first line tire and you'll agree . . . it's today's best value in a tube-type passenger car tire.

Riverside De Luxe is built of first quality materials throughout, with many outstanding construction features that make it a rugged tire from carcass to tread—"balanced-built" features that mean more built-in miles of service. Remember, you can't judge tires by appearance only—there's a mighty big difference in hidden construction. Read the Riverside "balanced-built" features listed on the opposite page—then compare those outstanding quality features with any nationally advertised first line tire.

Compare price—Riverside De Luxe is priced without "padding" to cover trade-ins—and there's no mounting services or salesman's commission. It's a low net price that's made possible by the proven economies of mail order distribution . . . a low price that's coupled with quality to help stretch your tire dollars further.

Then compare Guarantee—there's no fairer Guarantee than Wards Riverside Guarantee of "satisfactory service without limit of months or miles used." Read the complete Riverside Guarantee at left.

Note the following "balanced-built" features of Riverside De Luxe:

(1) Built with super-strength Rayon cords that stay strong long; cord is dipped in an improved adhesive solution which strengthens the bond between the cords and the rubber insulation—seals cords from moisture penetration—means longer, safer tire mileage.

(2) Built with double-insulated plies for greater protection against internal heat and more resistance to blowouts.

(3) Built with a flatter, multi-row tread that puts more rubber in contact with the road for maximum mileage, better traction, quicker stopping, better steering control and quiet running. Tread compounded with longer-wearing "cold rubber" for extra mileage.

(4) Built with an improved age-resistant compound that minimizes weathering effect of sunlight and ozone.

Order tire-with-tube combinations for extra savings and protection. Tubes included with combinations are Riverside De Luxe Butyl Tubes—the same fine tubes as described at left.

NOTE: *Sizes 6.50 and 7.00 Riverside De Luxe have an 8-row design; other sizes are 7-row. White sidewall sizes marked † have a white buffing rib. **Size 5.90-15 is a Ward Riverside with a different tread design. Shipped promptly from Stock. *All Mail*

Miles, Lower Cost Extra-Traction Power Grip Tires

NYLON TUBE-TYPE SUPER DE LUXE

(D) Wards finest Nylon tube-type tire . . . super-traction, super-mileage, super-silent, smartly modern tread in a new tube-type black-wall tire that's built with tough Nylon cord for super safety.

Built for the man who wants to provide the utmost in safety for himself and his family . . . a tire that's "as blowout free as a tire can be" . . . with tough Nylon cord, just like in aircraft tires. It's a safer tire for the safety-conscious motorists.

Nylon cord is the strongest cord fabric ever used in tires. Pound for pound, it is stronger than steel. It gives this tire nearly twice the body strength of ordinary Rayon tires . . . virtually ends cord ruptures caused by hitting curbs; rocks and chuck holes.

The tread design is the same as the Super De Luxe Tubeless tires described on Page 901, giving this rugged Nylon cord tire all of the advantages of this new, modern tread pattern. An innertube is required.

Fully Guaranteed—see opposite page.

Prices Include Fed. Tax. For Cat. Orders Only

WARDS RIVERSIDE TRAIL BLAZER TIRES

(E) A good quality low-priced tube-type tire available in popular 6.70-15, 6.00-16 and 6.50-16 sizes as well as many hard-to-get sizes for older cars. Built of quality materials throughout, with a slightly narrower tread and less tread depth than Riverside De Luxe, but even-wearing for long mileage and extra-low cost.

Trail Blazer gives far more safety and mileage than you would expect of a tire at this low price. In our opinion, it is the finest tire in its price class today. Buy it with complete confidence, because Wards will not jeopardize your safety just to meet a low price.

The fast-stopping, non-skid rib tread is quiet-running and compounded with "Cold Rubber" for extra mileage.

Guaranteed—*see opposite page*. Shipped promptly from Stock. *Mailable.*

TUBELESS OR TUBE-TYPE . . . DE LUXE QUALITY SUPER-TRACTION TIRES

(F) Now . . . your choice of tube-type or tubeless Power Grip . . . the super-traction tire with the outstanding tread design that gives you sure-footed travel through mud and snow . . . yet runs almost as quietly and handles as easily as regular tires when roads are clean and bare. It's the extra-traction tire that has won overwhelming approval for (1) greater traction, (2) quieter running, (3) smoother ride and (4) longer wear.

The Power Grip tread provides a powerful grip for super traction in mud and snow and sure-footed control for surer starts, safer stops. The broader, flatter, continuous-traction tread provides a positive gripping action for better control or. slippery roads . . . reduces side slippage to a minimum . . . means longer-lasting pulling power. Tread is self-cleaning, too.

Power Grips are De Luxe Quality, built with a rugged Rayon cord carcass. Choose tube-type or tubeless from listings below. Fully Guaranteed—read the Guarantee on Page 902.

TUBELESS RIVERSIDE POWER GRIP

Tubeless . . . but not premium priced. See tubeless construction advantages on Page 901. Use on any 15-in. wheel in good condition (not wire wheels). Included: (1) Illustrated service manual; (2) valves; (3) a mounting band (bead expander); and (4) 8-oz. Can of rubber lubricant to assist in mounting. Fully Guaranteed—see opposite page. Shipped promptly from Stock. *Mailable.*

RIVERSIDE "BALANCED-BUILT" FEATURES MEAN MORE BUILT-IN MILES WITH GREATER SAFETY AT LOWER COST

All Riverside Tires are made with the following "Balanced-Built" features that give Riversides the rugged ability to "take" lots of punishment . . . mean more built-in, miles with greater safety . . . and lower cost-per-mile for you.

Super-Strength Rayon Cords—retain more of their original strength and elasticity for life of tire—help Riversides resist rupture and blowouts longer than ordinary tires.

Rubber-Dipped Cords—Each cord soaked in an improved bonding solution before being built into Riverside tires . . . helps seal cords from moisture penetration and strengthens the bond between rubber cushion and tire cords.

Double-Insulated Plies—Each cord ply embedded in a double rubber cushion for greater insulation against internal heat . . . greater resistance to blowouts . . . means longer tire life.

Cold Rubber Tread—Compounded with longer-wearing "Cold Rubber" . . . gives up to 30% more mileage than natural rubber.

Safety Wire Beads—Made of multiple strands of steel wire with a tensile strength of 280,000 lbs. per square inch.

Husky Sidewall Buttresses—Specially compounded to withstand constant flexing, resist cracking caused by sun and heat.

TUBE-TYPE POWER GRIPS FOR LIGHT TRUCKS

Same as above, but 6-ply. For use on light delivery and pickup trucks for extra traction PLUS smoother, quieter ride.

RIVERSIDE DE LUXE HI-WAY TIRES FOR LARGE OR SMALL TRUCKS

2 3 Wards finest highway-service Truck Tire—the tire that has set outstanding performance records from coast to coast. Built with a rugged carcass of *Super Rayon* cord that makes a 20% stronger tire with 79% more resistance to cord fatigue failure . . . plus a new design tougher rubber tread for 25% more mileage. It costs us more to build this tire, but it costs you no more to buy . . . and it will save you money not only in lower initial cost but also in lower cost-per-mile.

Super Strength Cords. Rugged carcass made with improved *Super Rayon*—the strongest high tenacity rayon ever developed for tires . . . actually 20% stronger than regular rayon. *Super Rayon* is 79% more resistant to flex fatigue . . . means this new tire can stand a lot more bending before the cords will break from fatigue . . . means maximum protection against rough-road and impact damage. *Super Rayon* makes a cool-running carcass that resists moisture damage . . . means better carcasses for recapping.

Zig-Zag Tread Design. Wider, flatter, deeper tread provides greater skid resistance, better traction and 25% longer mileage. 5-rib design, with wider center rib and more flexible, narrower outer ribs . . . scientifically equalizes road contact pressures for more even wear and longer mileage that means lower cost-per-mile. Thousands of traction edges help wipe pavement dry- give you excellent traction and anti-skid power for stopping.

Tough Rubber Tread is specially compounded with new, finer particle size carbon black to resist cutting, chipping and groove cracking.

Deeper Groove Depth (6% deeper than Wards previous highway type truck tires) means more anti-skid miles. Deep, open grooves give full anti-skid protection longer.

Rugged, Ventilated Sidewall Buttresses protect against curb scuffing, keep tire cooler running. Sidewall specially compounded to resist checking and cracking.

Safety Wire Beads of multiple strands of steel wire with a tensile strength of 280,000 lbs. per sq. in. Strands are plated to resist corrosion, insulated, then firmly anchored in tire.

Fully Guaranteed—see Guarantee on opposite page, "Shipping Information" below at right.

FOR 15, 16, 17 AND 18-INCH WHEELS

(2) Request flaps (no charge) for 15 and 16-in. sizes if for semi-drop center rims. Do not use flaps with full drop center rims.

Extra Traction Riverside Tractor Tires

RIVERSIDE HI-TRAC TRUCK TIRES

5 For 15, 16, 17 and 18-Inch Wheels. A premium traction tire specially designed for mud and snow and for both on and off the road use. Built to the same sturdy, full traction specifications as Hi-Trac in larger sizes on opposite page. The semi-flat, deep bar-type tread has a 38% to 60% greater anti-skid depth than conventional treads for maximum traction in mud and snow, yet gives long, uniform wear on hard surfaced roads. Built of the same tough, rubber compounds and with rugged *Super Rayon* cords like the larger Hi-Tracs (see opposite page).

Tread is self-cleaning—tread bars are beveled at the base to force mud, snow and stones out of the deep grooves. In addition, a stone ejecting ledge in the center groove helps prevent tire injury. Two center ribs, almost flush with tread surface, give extra support to the deep traction bars for smoother operation on the highway. Tread is compounded for long wear. Fully Guaranteed. Shipped from Stock.

WARDS RIVERSIDE GUARANTEE

Wards Guarantee every Riverside Tire or Tube to be free from defects and to give satisfactory service without limit of months or miles used. If at any time any Riverside Tire or Tube should fail to give you satisfactory service, Wards will repair it free of charge, or replace it with a new Tire or Tube and charge only for the service received.

WARDS RIVERSIDE POWER TRAC REAR TRACTOR TIRES

6 For positive, sure-footed "paddle wheel" traction, buy Riverside Power Trac Rear Tractor Tires. Extra-high, wide, square-bite tread bars provide super-grip for maximum draw-bar pull . . . even in those wet, muddy low spots. Tread bars scientifically spaced and angled for self-cleaning action—assure a fresh bite with each revolution of the tire.

Tread and sidewalls compounded to resist cracking, checking. Tread bars are extra-broad at base for support. Heavy sidewall buttresses provide additional tread bar support.

Rugged, rupture-resistant cord body, topped with a heavy undertread that retards punctures and cracking at base of tread lugs . . . means longer tire life. Fully Guaranteed.

ALL-ALUMINUM PICKUP TRUCK TOPS

(1) For ½ and ¾-Ton Trucks. Convert your open pickup truck to an all-weather, all-purpose truck—keep cargo dry and clean with this all-aluminum cover. Heavy-gauge aircraft aluminum, riveted to a structural aluminum angle frame. (See illustration "B" above). Rigid frame allows absolutely no top sway. Lap joints around front and rear seal out rain and dust. Can be painted if desired or leave it natural. Easily installed—requires only six ¼-in. mounting bolt holes.

Hinged aluminum rear door complete with chrome plated locking handle, keys latch and window. Front panel has fixed rear view window on all models which lines up perfectly with rear view window of truck cab and with window in rear door. Available with fixed right side and rear windows; right side and rear opening windows; and with right side, left side and rear opening windows (See "C" above.). Opening windows have inside screens (See "A" above.). All windows are 10x23-in. and are double strength glass. With instructions.

2 Different Heights Offered: 4 feet and 4½ feet (from bed of truck box to top of cover). Choose the height that best suits your needs. (Check height of garage opening before ordering.)

Fit These ½ and ¾-Ton Pickup Trucks: 1948–56 Chevrolet, Dodge, Ford, G.M.C., International, Studebaker and Willys. Fit bed lengths up to 83 in. for ½-Ton and up to 95 in. for ¾-Ton.

How To Order: *State Make, Year, Model and Bed Length of truck.* For Dodge, also state depth of truck box. Order by Catalog Number below. Shipped promptly from Factory in Wellington, Kan.—pay freight from there.

Fender Dress-Up Accessories

Complete Tire Service

UNIVERSAL FENDER SKIRTS 6.19, 6.29 Pair

1 2 Now at these low prices you can add new streamlined beauty to your car. Give it a "custom-look" like today's newer cars. Flared bottom flange accents modern, low-swept look.

Permanently "crimped-in" rubber gasket—always stays in place, needs no troublesome hand placement, can't fall out when you remove skirt for servicing tire or wheel. Fits snugly for rattle-proof fit. Heavy-gauge steel—prime coated, ready to paint the color you choose. Fasten easily with arm type lock or wedge clips. Ship. wt. 15 lbs.

HOT PATCH KITS 89c, 3

31 SUPREME HOT PATCH VUL IZING KITS. Best grade. clamp with rubber-cushioned form with buffer. Ship. wt. 10 o

61 C 5706—Clamp, 10 patches.

32 HEAVY-DUTY VULCANI KIT. For rubber-covered stems, giant oval, small round small oval patches. Cast steel c rubber-cushioned platform; 2 clamps. Permanent repair. Wi fer. Ship. wt. Kit, 6 lbs.

61 C 5709—Clamp with 1 box re 1 box giant patches.....

33 GARAGE TYPE HEAVY- VULCANIZER. For any s any size patch; for car, truck, tire valves. Self-locking, 8-be pressure arm for feather-edge canizing. 3 sizes spider clamp ery stick; leaf-extension. patches below.

61 C 5710—Wt. 8 lbs. 8 oz.....

REGULAR SIZE SUPREME PATCHES. 6 oval, 4 round pa with buffer. Ship. wt. 8 oz.

61 C 5707—1 Box 47c; 2 Boxe

OVAL GIANT HEAT PATCHES. 3⅜x1¾ inches. Ship. wt. 12 oz.

61 C 5711.....Box of 5 patche

Needs for Car Owners and Garages...10% Down on Terms

TUBELESS TIRE BEAD EXPANDERS 1.49 Economy

34 DE LUXE BEAD EXPANDER. Professional quality. For garages, service stations, farms. Forces tubeless tire beads onto rim for proper bead seating. Blue tempered spring steel band. Easy-to-grip screw-type crank for tightening band on tire easily, quickly. Automatic release clamp draws up slack after placing band on tire . . . let's you apply full amount of air without removing tool from tire—releases automatically after 8 to 10 lbs. of air seals bead.
61 C 9166—Shipping weight 6 lbs. $7.95

35 ECONOMY BEAD EXPANDER. Ideal for the individual car owner. Helps seat tire beads properly, quickly. Annealed spring steel band fits around any passenger car tire. Handle can be turned against tire tread to lock it into position. Band rolls up when not in use . . . easy to carry in car. Red enameled handle, frame.
61 C 9167—Shipping weight 14 oz. $1.49

36 PNEUMATIC TIRE SPREADER. Fast tire service tool for inspecting and repairing all types of tires. Operates off of air hose. Has exclusive tubeless tire feature . . . won't injure tubeless tire bead. Permits spreading tire in any position and inserting "C" clamp for tubeless repair too. Holds "spread" until servicing job is done—air hose can be disconnected for other uses without loss of compression. Lightweight yet powerful. One-hand operation. Balanced finger-grip handle control. Jaws spread to 11¾ in. Length overall 16 in., cylinder 12 in.; ¼-inch air intake opening.
61 C 9168—Ship. wt. 12 lbs. $3 Down ..... or Cash Price $29.50

37 "TIRE-ON" TOOL. For quicker, easier "flat" changing. No lifting or fumbling. 2 prongs slip through lug holes in wheel and rest in holes of brake drum (or on lugs)—let you *slide* wheel into place.
61 C 9169—Length 21 in. With instructions. Ship. wt. 1 lb. 98c

WARDS TIRE BEAD BREAKERS 4.95 Economy Model

38 WARDS PORTABLE HEAVY-DUTY BEAD BREAKER. Breaks the toughest beads quickly, easily on all car, light truck wheels. Prevents damage to the air seals on tubeless tires. Actually "rolls" beads off, breaking them in one operation. Durable, long-lasting forged alloy steel. Needs no adjustments. Long handle with rubber grip. Engineered so wheel can't slip.
61 C 9144MO—Shipping weight 23 lbs. $14.95

39 WARDS UNIVERSAL BEAD BREAKER. Long handle affords ample leverage—press inward to break loose tightly frozen beads. Finest forged alloy steel—extra strong, lightweight, portable. Works with wheel on or off car. For all cars, light trucks.
61 C 9164—Shipping weight 8 lbs. $6.95

40 WARDS ECONOMY BEAD BREAKER. Lever action breaks loose frozen beads. Durable steel. Works best with wheel off car. Fits all 15–19-in. wheels, drop center, or Chrysler "safety rims."
61 C 9146—Rubber grips on handles. Ship. wt. 6 lbs. $4.95

WARDS HANDY TIRE PUMPS 1.10 Economy Pump

41 WARDS ECONOMY TIRE PUMP. Steel barrel 1¼x16 in., base, wood handle. 18-in. rubber hose, screw-on connector.
61 C 5650—Black Enamel. Ship. wt. 1 lb. 8 oz. $1.10

42 43 WARDS BETTER QUALITY TIRE PUMPS. Heavy steel barrel. Steel base, wood handle. Check valve prevents back pressure. 24-in. 2-ply rubber hose. Screw-on connection.
(42) 61 C 5651—STANDARD PRESSURE TIRE PUMP. 1½x20-in. barrel. Copper-lacquered finish. *Mailable*. Ship. wt. 3 lbs. 4 oz. $2.49
(43) 61 C 5654—LOW PRESSURE TIRE PUMP. 1¾x17-in. barrel. Enamel finish. *Mailable*. Ship. wt. 3 lbs. 4 oz. $2.49

44 WARDS TRACTOR PUMP. 1¼x27-inch barrel makes pumping easier. Hardwood handle. Screw-on connection. Rubber hose.
61 C 5653—Blue enamel finish. Wt. 3 lbs. 8 oz. *Mailable* $2.69
REPLACEMENT PUMP HOSE. 2-ply fabric reinforced rubber.
61 C 5655—Length 30 in. Screw-on connector. Ship. wt. 4 oz. 28c

45 SUPER AIR ENGINE-OPERATED INFLATING PUMP. Converts any engine of 4 cylinders or more into a practical air compressor in a few minutes. Includes Spark Plug adapters (10mm, 14mm, and 18mm) to fit all popular makes of tractors, Trucks or Cars—no extra fittings to buy. Won't harm engine. Includes 16-ft. hose.
61 C 5661—With Pressure Gauge. Ship. wt. 2 lbs. $4.75
61 C 5662—Without Pressure Gauge. Ship. wt. 1 lb. 12 oz. 2.95

46 AIR TRANSFER HOSE. For transferring air from one tire to another. Screw-on connector on each end—fit all standard valves.
61 C 5652—12-ft. rubber hose. Ship. wt. 12 oz. 95c

WARDS BUMPER JACKS 3.45 1-Ton Mechanical

47 48 MECHANICAL BUMPER JACKS. Sturdy ratchet type. Large detachable 6x8-in. road gripping base. Y-shaped steel bar with teeth "rolled in." Handle 20 in. Lifts 6⅜ in. to 30¾ in. on upper and lower. Rust resistant. *Mailable*.
(47) 61 C 5624 M—1½-TON CAPACITY. Wt. 13 lbs. $5.45
(48) 61 C 5623 M—1-TON CAPACITY. Similar to above, but lighter duty type. 6x6-in. road base. Ship. wt. 9 lbs. $3.45

49 1½-TON HYDRAULIC BUMPER LIFT JACK. Floating lift hook fits all cars. Valve lowers fast or slow. 19 adjustments permit heights from 4 in. to 33 in. Handle 14 in. Base 6x4½ in. All steel. *Mailable*.
61 C 5606 M—Enamel finish. Ship. wt. 16 lbs. $11.75

50 TWIN-LEG MECHANICAL BUMPER JACKS. Extremely popular in service stations. Double-support construction. Easy to use. 1-piece handle and base—unfold, set up, turn handle—screw action of bumper hook lifts car. Finish resists rust.
61 C 5631M—1½-TON CAPACITY. Size open 9x20¼x35¼ in.; closed, 6¼x9x35¼ in. Low load height 4½ in.; raises to 28¾ in. *Mailable*. Ship. wt. 17 lbs. $7.69
61 C 5630 MO—2-TON CAPACITY. Size open, 12x23x38¼ in.; closed, 6¼x12x38¼. Low load height 7 in.; raises to 31 in. *Mailable*. Ship. wt. 20 lbs. $10.60

51 1½-TON 3-LEG BUMPER JACK. 3 chain-connected support legs, riveted bases, heavy steel channels. Fits under bumper—lifts easily, gives steady, safer support. Thrust weight on ball bearings. Ship. wt. 17 lbs.
61 C 5648 M—Low height 6½ in.; full height 30¾ in. $6.95
61 C 5647 M—1¼-TON 3-LEG BUMPER JACK. (Not pictured). Similar to above but lighter duty type. Low height 6½ in.; full height 30½ in. Ship. wt. 15 lbs. $5.45

52 PENCIL-CLIP TYPE TIRE GAUGE. For car, truck and farm implement tires. Chrome plated brass. Handy to carry. Accurate, easy to read. Ship. wt. 3 oz.
61 C 5684—10 to 40 lbs. in 1-lb. units. 98c
61 C 5683—20 to 120 lbs. in 5-lb. units. $1.15

53 PROFESSIONAL TYPE TIRE PRESSURE GAUGE. Accurate, durable, easy to read. New 4-sided bar.
61 C 5685—8 to 40 lbs. in 1-lb. units. Wt. 3 oz. $1.39

54 DUAL WHEEL TRUCK TIRE GAUGE. Accurately calibrated. Dual head. Chrome plated brass. 10 to 130 lbs. in 2 lb. units, Hanging Ring. Ship. wt. 8 oz.
61 C 5682 ..... $3.45

55 TRACTOR TIRE GAUGE that salt solutions won't corrode. Tests tires wet or dry. Pump action for rinsing corrosive solutions out of gauge. Ship. wt. 3 oz.
61 C 5695—5 to 50 lbs. in 1-lb. units. $1.25

56 57 VALVE CAPS, CORES. For all valves. Ship. wt. box 1 oz.
(56) 61C5713—VALVE CAP. Screw driver type—also removes, inserts valve cores. Box of 5. ..... 22c
(57) 61 C 5715—VALVE CORE. Box of 5. ..... 29c

TUBELESS TIRE REPAIR KITS 1.09, 2.95

58 59 TUBELESS TIRE REPAIR KITS. For repairing tubeless tire punctures without removing tire from rim. 3 sizes of rubber plugs, insertion needle, cement, instructions.
(58) 61 C 5708—"SHOP SIZE" KIT. 25 of each size plugs, 4-oz. can of cement. Wt. 1 lb. 4 oz. $2.95
(59) 61 C 5702—"CAR SIZE" KIT. 3 of each size plugs, 1-oz. bottle of cement. Wt. 8 oz. $1.09

60 TUBE REPAIR KIT. Heavy-duty. Repair inner tubes without vulcanizing. Beveled-edge patches, 17 (1¼-in.) patches; 3x16-in. strip of patching rubber; 1 tube cement.
61 C 5701—With metal buffer. Wt. 6 oz. 49c

61 SELF-VULCANIZING TIRE PATCHES. Road heat vulcanizes patch permanently to tire. Cords set in live rubber. Won't injure tube.
61 C 5735—5-inch Round Patch. For breaks up to 1 inch. Ship. wt. 2 oz. . Each 15c; 3 for 39c
61 C 5736—7-inch Round Patch. For breaks up to 2½ in. Ship. wt. 5 oz. . Each 25c; 3 for 65c
61 C 5737—8-in. Round Patch. For breaks up to 4 in. Ship. wt. 6 oz. ..... Each 37c; 3 for 98c
61 C 5738—7-in. Side wall Patch. For breaks in sidewall. Ship. wt. 5 oz. . . . Each 23c; 3 for 59c
61 C 5739—8½x11-inch Patch. For larger breaks. Ship. wt. 12 oz. . . Each 63c; 3 for $1.69

62 TIRE BOOT KIT. Made from best selected used tires. 10 patches in 3 sizes—4x5 to 7½x10 in. Cement coated.
61 C 5698—Ship. wt. 1 lb. 8 oz. ..... Kit 85c

LUG WRENCHES 75c TO 2.19; MALLETS 1.19 AND 4.95

63 4-WAY LUG WRENCHES. Provides powerful leverage to make tire changing easier. Universal type—fits all wheel lugs. Carbon steel.
61 C 9137—14 IN. LONG. Sockets ¾, ¾, 13/16, ⅞ in. Wt. 2 lbs. 8 oz. . . . 75c
61 C 9142—20 IN. LONG. Sockets ¾, ¾, 13/16, ⅞ in. Wt. 4 lbs. 4 oz. . . $1.19

64 2-PIECE TRUCK LUG WRENCHES FOR FORD AND CHEVROLET.
61 C 9135—For Ford trucks. Carbon steel. 14 in. long. 20x¾ leverage bar. Socket openings 13/16-in. square, 1½-in. hex. Ship. wt. 7 lbs. . $2.19
61 C 9136—For Chevrolet trucks. Carbon steel. 14 in. long. 20x¾ leverage bar. Socket openings ⅞-in. and 15/16-in. hex. Ship. wt. 3 lbs. 8 oz. . $1.89

65 66 DUAL HEAD TIRE CHANGING HAMMERS. Combination steel and replaceable rubber-covered head—use on rim or tire. 15 in. long.
(65) 61 C 9769—WEDGE HEAD. Hickory handles. Ship. wt. 2 lbs. 12 oz. $2.49
(66) 61 C 9768—FLAT HEAD. Hickory handles. Ship. wt. 2 lbs. 8 oz. . 2.49

67 NON-REBOUND MALLET with non-cracking molded nylon heads. Chrome plated head housing filled with steel shot prevents rebound—gives heaviest impact with minimum effort, maximum efficiency.
61 C 9133—Wt. 2 lbs. 13¾-in. diam. head, 13¼-in. hardwood handle. $4.95

68 RUBBER MALLET. Molded non-flaking head. Mar-resistant, long wearing. Hardwood oval-shaped handle for easy gripping.
61 C 9131—LARGE. 30-oz. head. Ship. wt. 2 lbs. $1.19

69 70 CHROME-ALLOY STEEL TIRE TOOLS. Wards best quality. For unlimited heavy service. Extra long (24 in.). Ship. wt. 2 lbs. 12 oz.
(69) 61 C 9756—Straight. . . . . $1.39 (70) 61 C 9757—Curved. $1.39

FORGED STEEL TIRE TOOLS. (Not pictured). 23 in. long. Made of drop forged, tempered and hardened steel. Ship. wt. 2 lbs. 12 oz.
61 C 9127—Straight Spoon. . . . . 89c 61 C 9128—Curved Spoon. 89c

71 TRUCK TIRE LOCK RING REMOVER. Forged of chrome steel. Wt. 2 lbs.
61 C 9165—24 IN. LG. FOR RH, RI rims, late Ford, Chev. truck rims. $1.49

WARDS UNDER-CAR AXLE JACKS 4.95, 6.45, 7.98

72 SCISSOR JACKS. Steel elevating screw and ball bearing thrust for effortless lifting. Large axle-rest top for easy positioning. Wide base assures steady footing. Heat-treated steel. Hinged steel rod handle; lock keeps handle from buckling. Handle clamps to jack—lets you push jack under axle easily. *Mailable*.

61 C 5610 M—1½-TON CAPACITY. Raises from 3½ to 15 in. Should be used under axle. Base 7¾x4¾ in. Ship. wt. 13 lbs. $4.95

61 C 5618 M—2-TON CAPACITY. Raises from 4 to 18 in. High lift—use under chassis frame to raise both wheels on one side of car. Base 7½x4 in. Ship. wt. 17 lbs. $6.45

73 1½-TON HYDRAULIC JACK. Gives effortless lifting or lowering. Tested at 50% above rated capacity. Slight turn of release valve lowers load fast or slow as desired. Lifting range from 7 to 12 inches; two-inch extension screw gives total height of 14 inches. Sturdy heat-treated steel. No-tip malleable iron base. 2-pc. handle. *Mailable*. Ship. wt. 9 lbs.
61 C 5600 M. $7.98

HYDRAULIC TRUCK JACKS—3 TO 20-TON SIZES 13.25 3 Ton

74 Factory tested at 50% above rated capacity for extra safety. Release valve lowers load quickly or slowly. Long, heavy-duty handles provide proper leverage for effortless lifting. Highly machined ram and cylinder for smooth operation. Alloy steel ball valves. Screw extension gives extra lift. Wide, stable bases. To find jack capacity needed, take ⅔ of loaded truck weight. *Mailable*.

75 WARDS JACK FLUID. Use in all Hydraulic jacks for longer jack life. Retards interior rusting; makes operation smoother. Fluid flows at —50° F. One pint is enough for most jacks.
61 C 5620—Ship. wt. 1 lb. 4 oz. ..... Pint 49c

Air Compressors for Home, Farm and Shop...20% Down

WHICH AIR COMPRESSOR SHALL I BUY?

BUY "DELIVERED AIR" ... don't buy "displacement". A compressor may "displace" as much as 10 cubic feet of air per minute but actually deliver less. For exact volume of air you need, see "Delivered Air CFM" (cubic ft. per min.) in listings at right.

A SIZE FOR EVERY JOB in garage, farm, service station, factory or shop. Wards have a complete assortment of low-priced, top quality air compressors ... and there's a size to meet your needs.

PRECISION BUILT of best quality materials. Piston type compressors ... develop higher pressures and simplify maintenance. All tanks are inspected and tested at 1½ times working pressure. Tanks over 10 gal. are A.S.M.E. approved to meet all state and city requirements; 6 and 10-gal. sizes are standard and acceptable in practically all states. Check your local requirements, order proper model at right. All units red enameled.

GASOLINE ENGINE MODELS also available from Factory in 10, 20, 30 and 60-gal. tank sizes of Air Compressors (2) and (3). Write to Wards for prices.

SHIPPING INFORMATION: Cat. No's. ending with "R" are shipped from Stock; Cat. No's. ending with "F" are shipped from Factory near Lansing, Mich.—allow 10 days plus time in transit—pay Freight from Factory.

FOR TERMS, SEE PAGE 981.

WARDS TANK MODEL AIR COMPRESSORS—¼ H.P. 64.95 WITHOUT MOTOR; 84.95 WITH MOTOR

(1) DIRECT DRIVE ELECTRIC MODELS. Piston drives directly from motor shaft—no belts or pulleys. Fully automatic. Pressure valve can be set to cut out between 20 and 100 lbs. Differential valve automatically re-starts motor when pressure drops 10 to 20 lbs. below maximum pressure. Single cylinder with alum. 2-ring piston. Light disc type valves easily cleaned. Splash lubrication. Powered by 110–120-volt, 60-cycle AC single phase-split phase type motor. Motor has ball bearing at compressor end with tank drain valve, 100-lbs. air gauge manual air outlet valve, 8½-ft. cord, plug. Air hose and chuck not included—order extra below.

(2) (3) BELT DRIVE MODELS WITH OR WITHOUT ELECTRIC MOTORS. Heavy-duty flywheel and V-belt drive. Automatic switch on all models cuts out slightly below maximum pressure and starts pump again when tank pressure drops 20 to 25 lbs. below maximum. All have uni-cast cylinder and crankcase; cool-flo cylinder head; 3-ring aluminum piston; aluminum alloy connecting rod; heat-treated crankshafts; stainless steel valves; brass retainers. Powered by 110–120-volt, 60-cycle AC single phase capacitor motor. With tank drain valve, air gauge, safety air valve. Air hose and chuck not incl.—order extra below.

PORTABLE MODEL 119.95

(7) WITH DETACHABLE TANK. [illegible] portable, on-the-spot Air Compressor that makes compressed air available at any spot on the farm, [illegible] lot, etc. Can be used as a stationary model for constant pressure where power is available, or, where power is not available, tank can be detached and carried to the spot for emergency tire inflation, greasing, etc.

Heavy-gauge standard tank [illegible] 26 in.). 9-gallon capacity—enough to inflate two 7.10-15 tires, give [illegible] 25 strokes on hi-pressure grease [illegible] or run about 2 minutes for tool [illegible] paint spraying. 100-lbs. maximum working pressure (actually tested [illegible] 200 lbs.). Compressor inflates tank [illegible] 100 lbs. in approx. 4 minutes. Tank [illegible] carrying handle, 5-ft. air hose [illegible] chuck, pressure gauge, shut-off [illegible]

Compressor unit has 2-in. bore [illegible] 2-in. stroke. V-belt drive, 9-in. [illegible] iron flywheel. Displaces 3.10 C.F.M. [illegible] delivers 1.95 C.F.M. Complete with [illegible] HP capacitor motor (110–120-volt [illegible] cycle AC single phase), cord, [illegible]

Entire compressor unit and [illegible] mounted on heavy-gauge steel [illegible] and frame with steel disc wheels [illegible] semi-pneumatic 10 x 1.75 tires. [illegible] overall 31 in.; length 30 in.; width [illegible] in. Ship. wt. 125 lbs. *Not Mailable*.

61 C 9130 R—Only 20% Down [illegible] Terms.....or Cash $1[illegible]

WARDS PORTABLE, COMPACT BASE PLATE MODEL AIR COMPRESSORS 39.95 TO 84.50

Easy to move from place to place, wherever electric power is available. Give instant, continuous pressure for tire inflation, spraying, greasing, etc. Pulsation chamber assures even flow of air. Air hose, chuck not included—order extra.

(4) DIRECT-DRIVE MODEL. Same ½-HP motor and compressor as on 61 C 9122R above. Variable pressure knob for 30, 40, 60, 80 or 100 lbs. pressure. *Mailable*.

61 C 9117 MO—Ship. wt. 40 lbs.....$84.50

(5) 61 C 9055 MB—Same compressor unit as on 9117MO above but with belt-drive pulley (motor and belt not included). Use with 110–120-volt, 60-cycle AC motor (⅓ or ½ HP). Variable Pressure Knob as above. Wt. 22 lbs. *Mailable*....$46.50

(6) BELT-DRIVE MODEL. ⅓-HP motor. 2.70 max. displacement. Delivers 2.07 cubic feet per min. Maximum pressure adjusts from 45 to 75 lbs. On steel platform, 4 rubber feet.

61 C 9106 R—Ship. wt. 55 lbs. *Not Mailable*.....$56.50

61 C 9087 MB—Same as 9106R above but without motor. Use with 110–120-volt, 60-cycle AC motor (¼ or ⅓ HP). Air hose not included. Ship. wt. 30 lbs. *Mailable*.....$39.95

WHEEL AND HANDLE ASSEMBLY. Convert your present 6 or 10-gal. belt-drive air compressor to a handy, portable unit with this Assembly (Shown on Picture 2 above). 2 ball-bearing wheels, rubber tires, steel skid rest, handle.

61 C 9093 M—Ship. wt. 10 lbs. *Mailable*.....$11.45

PORTABLE AIR TANK 22.95

(8) Tank only—same as described [illegible] Compressor above. For use [illegible] your present air compressor. With [illegible] air hose, chuck, gauge, shut-off [illegible]

61 C 9074 MB—Wt. 25 lbs.....$[illegible]

AIR COMPRESSOR UNITS ONLY—NO TANK, MOTOR OR GAUGES

(9) (10) (11) Same compressor units as on air compressors above. May be adapted to any 1725 RPM single-phase capacitor motor. With 4 bolt holes for mounting. V-belt flywheel (8-in. steel on 61 C 9089M; 10¼-in. cast on others). Shipped from Stock. *Mailable*.

(31) AIR HOSE WITH CHUCK, FITTINGS. Heavy reinforced rubber. ¼-in. inside diam. With ¼-in P. T. male and female fittings. Fits any compressor.

61 C 9085—25-ft. Hose. Ship. wt. 4 lbs.....$3.89

61 C 9086—50-ft. Hose. Ship. wt. 8 lbs.....6.75

AIR HOSE BY-THE-FOOT. Same ¼-in. heavy rubber hose as above but without fittings. Sold in any continuous length up to 250 ft. Wt. per ft., 10 oz.

61 C 9040 H—*State length wanted*.....Per Foot 10c

(32) AIR HOSE REPAIR KIT. 1 air chuck, hose end, hose mender and 3 clamps.

61 C 9079—Ship. wt. 2 oz.....Kit 79c

(33) (34) (35) QUICK CONNECTOR. Attach coupler to air line and plugs to tools. Gives instant full volume. Shuts off air when unplugged. ¼-in. pipe threads (internal on coupler and female plug; external on male plug).

(33) 61 C 9077—Extra male plug. Ship. wt. 2 oz...23c

(34) 61 C 9078—Extra female plug. Wt. 2 oz.....25c

(35) 61 C 9076—Coupler and male plug. Wt. 5 oz.$1.19

(36) AIR HOSE TIRE CHUCK. ¼-in. female P.T.

61 C 9069—Ship. wt. 4 oz.....35c

AIR TOOLS, HOSE REELS

(12) "ONE-MAN" AUTOMATIC BRAKE BLEEDER. Professional type. Speeds up bleeding, flushing, refilling hydraulic systems. Automatic safety valve and shut-off valve—keeps air out of brake lines. With casters, pressure gauge, high pressure and bleeder hose, fittings for all cars.

61 CP 9465 M—With instructions....$24.95

(13) IMPACT WRENCH. Powerful "one tool workshop" for tightening, removing "frozen" nuts, bolts. Also reams, extracts broken screws, etc. Built-in oiler, torque regulator. Fits any air line. Shipped promptly from Chicago Factory—pay postage from there. Wt. 6 lbs.

61 C 9132 K—$19 Down....or Cash $189.00

(14) (15) RETRACTING HOSE REELS. For air, water, oil, grease. Install on ceiling, wall, floor. Spring actuated—withdraws or retrieves quickly. Ratchet holds hose any length. ¼-in. P.T. fittings on base. Ship. from Factory near Baltimore, Md., allow 2 weeks plus transit time.

(14) 61 C 9064 F—OPEN REEL WITH 25-FT. HOSE. (¼ or ⅜-in. I.D. hose). Size 15 1/16 x 9 13/16 in. wide. *Not Mailable*. Wt. 47 lbs. *State Hose Size wanted*.....$68.00

(15) 61 C 9049 KB—ENCLOSED REEL WITH 12-FT. HOSE. (¼-in. I.D.). Size 11⅛ x 8⅝ in. *Mailable*. Ship. wt. 22 lbs.....$42.75

(16) HIGH PRESSURE GREASE GUN. Develops up to 6,000 lbs. pressure when operated with 75 lbs. air pressure.

61 C 9111—1-lb. Capacity. Wt. 5 lbs.$13.95

61 C 9110—1½-lb. Capacity. Wt. 7 lbs.14.45

(17) SPRAYER-CLEANER. Snaps onto air line (fits all chucks). Squeeze-grip control. Nozzle adjusts to spray desired or for use as blow gun only. Heavy steel.

61 C 9119—Ship. wt. 1 lb. 12 oz.....$3.98

SAVE ON WARDS COMPRESSOR ACCESSORIES

(18) AUTOMATIC ELECTRIC PRESSURE SWITCH. Cuts out motor at any pre-set maximum pressure; starts it when pressure drops. Instructions.

61 C 9065—Wt. 1 lb. 6 oz...$7.25

(19) PRESSURE GAUGE. Steel case; glass dial face. ¼-in. P.T. Ship. wts.: 14 oz. and 1 lb.

61 C 9067—0–80 lbs.....$2.95

61 C 9068—0–200 lbs..... 3.95

(20) PRESSURE REGULATOR-GAUGE. Gives control of air-flow from 0 to 100 lbs. pressure. ¼-in. pipe threads.

61 C 9112—Wt. 1 lb. 8 oz..$7.95

(21) SAFETY VALVE. Protects against pressure overload. Adjusts for 25 to 200 lbs.

61 C 9066—Wt. 5 oz.....$2.45

(22) AIR LINE FILTER. Use between compressor and regulator valve. ¼-in. pipe threads.

61 C 9115—Ship. wt. 2 lbs.$3.95

(23) MILTON TIRE GAUGE. Magnifying lens. [illegible] swivel dual-head chuck [illegible] both car, truck tires. [illegible] graduations from 10 to [illegible] lbs. Replaceable cartridge type. Wt. 1 lb. 6 oz.

61 C 9082.....$[illegible]

(24) AIR BLOW GUN. Thru [illegible] control valve. ¼-in. [illegible] male pipe thread.

61 C 9080—Wt. 8 oz.....[illegible]

(25) LEVER TYPE BLOW GUN. Squeeze control valve. Long nose. ¼-in. [illegible]

61 C 9081—Wt. 4 oz....$[illegible]

(26) MILTON DUAL-HEAD AIR CHUCK. Only for [illegible] rect air lines without automatic inflator gauges.

61 C 9047—Wt. 1 lb....$[illegible]

(27) AIR CHUCK NOZZLE. Press in chuck to [illegible] blow gun. T-shaped.

61 C 9070—Wt. 4 oz.....[illegible]

HEAVY-DUTY MULTI-PURPOSE HOSE AND FITTINGS

(28) For air, oil, gasoline, grease, undercoating, gases, paints, liquid concrete (stucco), etc. Heavy-duty, flexible. Withstands maximum working pressure of 200 lbs.

Sold in continuous lengths of 10 to 500 ft. *State length*.

61 C 9125 H—½-in. I.D., ⅞-in. O.D. Wt. per ft., 5 oz...Foot 27c

61 C 9126 H—¾-in. I.D., 1⅛-in. O.D. Wt. per ft., 6 oz...Foot 38c

(29) (30) HOSE END COUPLINGS. For multi-purpose hose. Cadmium plated.

61 C 9043—½-in. Female Coupling. Wt. 1 lb....$[illegible]

61 C 9044—¾-in. Female Coupling. Wt. 2 lbs. 12 oz.$[illegible]

61 C 9045—½-in. Male Coupling. Wt. 12 oz.....[illegible]

61 C 9046—¾-in. Male Coupling. Wt. 1 lb. 6 oz....$[illegible]

Professional Service Tools...10% Down on Terms

WARDS CYLINDER SURFACING HONE 8.95; TAPER REAMER 1.19

37 CYLINDER GLAZE BREAKER, SURFACING HONE. Resurfaces, burnishes, removes glaze without oversizing. Use when installing rings and after boring or honing. Removes cylinder glaze in 20 seconds. Use with any ½-in. electric drill. Centers and expands automatically to fit 2 11/16-in. to 4⅛-in. cylinders. With 2 fine stones, 2 guides, universal action shank, extension, instructions.
61 C 9303—Ship. wt. 2 lbs. 4 oz.... $8.95

EXTRA STONES AND GUIDES
61 C 9304—For above. 2 Stones, 2 Guides. Ship. wt. 8 oz. $4.19

38 SELF LUBRICATING CYLINDER HONE. Restores cylinders to perfect roundness. For cylinders 2 11/16 in. to 4⅛ in. Use with any ½-in. electric drill. Removes metal at uniform high speed. Quickly removed to check work. Buffing guides impregnated with dry lubricant—no flying dust. Thumb control knob permits adjustment in cylinder. With drive-shaft, extension, two sets of stones (1 coarse, 1 fine), carriers, buffing guides, instructions. Ship. wt. 9 lbs.
61 C 9300—$4.50 Down..or Cash $44.95

EXTRA STONES AND GUIDES
61 C 9301—2 Coarse Stones and 2 Guides Ship. wt. 14 oz. $4.19
61 C 9302—2 Fine Stones and 2 Guides. Ship. wt. 14 oz. $4.19

39 PROFESSIONAL PRECISION RIDGE REAMER. Accurate, self-centering. Operates wholly within cylinder. Removes ridges at any depth. Won't cut too deep. Adjustable diameter screw, safety stop. For straight or chamfered walls. 3-point contact. Double-edged tool steel cutter—cam adjustment for fast switch to next cyl. Range 2¾ in. to 4 in.
61 C 9307—Ship. wt. 2 lbs. $9.95

EXTRA CUTTER BLADE for 9307 above.
61 C 9308—2 cutting edges. Wt. 1 oz. Ea. 65c

40 SUPER RANGE CYLINDER RIDGE REAMER. Removes ridge on upper cylinder wall. Handles cylinders 2 19/32 to 4 3/16 in.
61 C 9306—Ship. wt. 3 lbs. 4 oz. $3.98

41 HYDRAULIC BRAKE CYLINDER HONE. Fast, smooth cutting. Rubber impregnated abrasive, fiber blades. For master wheel hydraulic cylinders. Use with ¼-in. electric drill or drill press. With two extra sets of honing stones. Range ¾ to 2 in.
61 C 9375—Ship. wt. 1 lb. $6.45

42 PISTON PIN HONE. For all jobs of 47/64 to 1⅛ in.—steel, cast iron, brass, aluminum, etc. Won't jam or split bushing. Use ¼ or ½-in. hand drill or drill press. Wt. 1 lb. 5 oz.
61 C 9310—Hone with 4 sets of abrasives (2 sets fine and 2 sets coarse) $10.95
61 C 9311—EXTRA ABRASIVES for 61 C 9310 above. 6 coarse, 6 fine. Ship. wt. 4 oz... $1.85

43 ADJUSTABLE REAMER AND PILOT SET. High grade tool steel. Blades in reamers are placed at proper angle to give a smooth, shearing cut. Retaining collars protect reamer nuts and hold blades firmly. Gives perfect alignment. Ship. wt. 12 lbs.
61 C 9332—First 8 reamers and pilots listed below, in compartmented metal case. $38.95

PULLERS FOR GEARS, BATTERY TERMINALS, ETC.

44 HEAVY-DUTY GEAR PULLERS. For gears, pinions, pulleys, bearings, etc. Drop forged alloy steel, heat treated. Hardened center screw has ⅞-in. hexagon head. Arms 8 in. long overall with 4 length adjustments—maximum reach 6¼ in. Cross head 7 in. long with 3 radial adjustments from 3 to 6 in. wide. Hooks offset ½ in. at one end; 1 in. at other. For internal or external pulling. Red enamel body; arms chrome-plated.
61 C 9210—TWO-ARM MODEL. Ship. wt. 5 lbs..... $6.50
61 C 9211—THREE-ARM MODEL. Ship. wt. 7 lbs.... 8.50

45 HEAVY DUTY GEAR AND PINION PULLER. Withstands up to 10-ton pull. Handles most heavy truck and tractor work. Special alloy steel; stressproof pulling screw 9¾ in. long. Adapts for 2 or 3-arm use.
61 C 9185—0 to 10 in. Ship. wt. 12 lbs. $11.45

46 EXTRA-HEAVY DUTY HUB AND GEAR PULLER. Pulls any auto hub including Ford and Mercury cars 1936–55. Adjusts for 5, 6 or 7-studded hubs. Will not bend hub bolts. Also pulls gears, bearings, steering wheels, fan pulleys, discs, drums, etc. Extra-heavy drop forged steel. 1 1/16-in. pulling screw. Tested on pulls over 28,000 lbs. per sq. in. With striking wrench.
61 C 9198 M—Ship. wt. 15 lbs. *Mailable* $12.95

47 BATTERY TERMINAL AND GEAR PULLERS. Drop forged alloy steel, heat-treated. Fast acting. Beveled lock.
61 C 9212—BATTERY TERMINALS. 0 to 2 in. Ship. wt. 1 lb. $1.39
61 C 9213—GEARS, PINIONS. 0 to 3 in. Wt. 1 lb. 4 oz.... $1.85

48 UNIVERSAL HUB PULLER. For car or truck. 3 pivoting arms—pulls all 5- stud hubs. Mounts on hub for straight, strong pull. Heavy malleable iron. Hardened steel screw ¾-in. head.
61 C 9204 M—*Mailable*. Ship. wt. 5 lbs. 4 oz. $3.59

49 ECONOMY BATTERY TERMINAL PULLER. Cadmium plated cold rolled steel. Fits all terminals. Sliding handle. Ship. wt. 12 oz.
61 C 9205—0 to 2 in. 98c

SERVICE TOOLS FOR SMALL GASOLINE ENGINE

75 TO 80 Handy tools for doing your own valve and ring jobs on small engines on Lawn Mowers, Power Saws, Motor Scooters, etc. (Briggs & Stratton, Clinton, Lawson, Wisconsin, and others).

(75) 61 C 9255—PISTON RING COMPRESSOR. Range 1¾ to 3 in. Ship. wt. 6 oz. $1.29
(76) 61 C 9256—PISTON GROOVE CUTTER AND CLEANER. Range 2 to 3 in. 5 hardened steel grooving blades, 1 land trimmer. Ship. wt. 1 lb. $3.98
(77) 61 C 9257—CYLINDER RIDGE REAMER. Range 2 to 3 in. Double-edge tool steel cutter. Self-centering, accurate, can't cut too deep. Wt. 1 lb. 3 oz. $8.50
(78) 61 C 9242—VALVE LIFTER-SPRING COMPRESSOR. For ⅞-in. springs. Wt. 1 lb. 2.79
61 C 9259—VALVE SEAT REAMER SET (not pictured). Abrasive Type for 45° seats to 2⅛ in. With 1 coarse, 1 fine abrasive. Ship. wt. 1 lb. 12 oz. $7.50
(79) 61 C 9229—VALVE GRINDER. Same as (65) described at right. Ship. wt. 2 lbs.... 2.19
(80) 61 C 9251—MAGNETIC KEY INSERTER. With magnet in jaws. Ship. wt. 1 oz.... 1.19

MISCELLANEOUS TOOLS

50 DOUBLE END OFFSET SCREWDRIVER SET. For limited or hard-to-get-at areas where regular screwdrivers can't be used. Forged of chrome alloy steel, heat treated, chrome plated. 3 3/16 to 6⅝ in. long. .033 to .070 in. thick (tip). Set of 5 in metal clip.
61 C 9238—Wt. 12 oz.... $2.49

51 TAPER REAMER. Enlarges holes, starts taps, removes burrs in metal, plastic, wood. ⅛ to ½ in. Forged steel.
61 C 9233—Wt. 5 oz..... $1.19

52 THREAD GAUGE. Counts threads on bolts, nuts, screws, pipes and fittings. Range 11½ to 28 threads per inch. Hard, tempered steel.
61 C 9223—Wt. 1 oz. 39c

53 STUD PULLER. Sets or removes 5/16 to 9/16-in. studs without bending. Gripping wheel gives powerful turning action. Releases instantly. Chrome alloy steel. Chrome plated finish.
61 C 9237—Wt. 12 oz.... $3.45

54 UNIVERSAL BUSHING DRIVER SET. For car, truck, tractor. High grade steel. 3 retainer bodies with knurled nuts hold 16 different adapters, 13/32 to 1¼-in. inside, ⅜ to 1¼-in. outside diameter. In compartmented steel box.
61 C 9446—Wt. 4 lbs.... $4.75

PORTO-POWER KIT 94.70 TO 174.75

55 4-TON HYDRAULIC JACK KIT. Hydraulic Pump, Ram and attachments to push, pull, lift, press, bend, spread or clamp. Speeds straightening, aligning, jacking, pulling, disassembly. Helps you make hundreds of repairs on cars, trucks, tractors, combines, etc., either in the shop or right in the field. Eliminates need for pry-bars, sledges, torches and dangerous make-shift devices. Ram works in tight areas, yet you operate pump away from work zone . . . means greater safety. Hose-connecting swivel coupler allows ram to be used in any position—on side, upside down, or any angle. Kit consists of:

HYDRAULIC PUMP WITH 6-FT. HIGH PRESSURE HOSE. Easy strokes create up to 8,650 lbs. per sq in. pressure. Controls to fraction of inch.

4-TON RAM. Gets power from hydraulic pump. Ram retracts automatically—no pumping back.

23 ATTACHMENTS. One each 3, 5, 10, 23-in. and two 15-in. Extension Tubes; 2 short Couplers; Spreader Toe; Serrated Saddle; Two 90° "V" Bases; 2½x4½-in. Flat Base; 2¾-in. diam. dome Flex-Head; two 5-foot, ¼-in. diam. chains; chain Plate; adjustable Body Spoon; Wedge-Head; Slip Lock Extension; Spreader Ram Toe; and Adjustable Ram Toe.

61 CN 9611MB—WITHOUT CASE. Wt. 40 lbs... $94.70
61 CN 9610YO—KIT WITH COMPARTMENTED CARRYING CASE. Hangs or stands. Wt. 68 lbs. $119.90

56 10-TON HYDRAULIC JACK KIT. Like above but for heavier duty work. Develops up to 10,000 lbs. per sq. in. pressure. With 25 attachments. Shipped promptly from Factory in Milwaukee, Wis.
61 CN 9613 F—WITHOUT STAND. Wt. 111 lbs... $156.05
(56) 61 CN 9612 F—KIT WITH WHEELED ANGL-STAND. Ship. wt. 187 lbs. $174.75

57 10-TON HYDRAULIC PRESS. For 10-Ton Ram above. Bed width 15 in.; clearance ht., 14½ in.
61 CN 9614 F—Press Only. Wt. 113 lbs. $49.75

NO EXTRA CHARGE FOR CREDIT ON ITEMS ABOVE.

VALVE AND TAPPET TOOLS FOR ADJUSTING AND REPAIRING 35c TO 10.95

58 BENT TAPPET FEELER GAUGE. Hardened tempered steel. 11 blades from .006 to .020. Angled ends for easy manifold clearance.
61 C 9436—Wt. 4 oz. 98c

59 4-PC. TAPPET WRENCH SET. Thin heads accurately broached with 15° offset openings. Fine quality chrome alloy steel. 2 each ½x9/16 in. and ⅝x11/16 in.
61 C 9435—Wt. 1 lb. Set $2.69

60 TAPPET ADJUSTER. For Buick, Nash, Chevrolet and 1952–53 6-cyl. Ford. 9/16 and ⅝ in. 12-pt. opening at each end; screw driver supported by locking swivel arm. Leaves one hand free to use feeler gauge while other turns screw driver.
61 C 9254—Wt. 12 oz... $1.49

61 OVERHEAD VALVE TAPPET TOOL. For adjusting tappets while motor is running. Spring-in-handle permits blade to follow up-and-down tappet motion. Chrome alloy steel blade, shockproof plastic handle.
61 C 9440—Wt. 4 oz.... $1.40

62 63 THICKNESS GAUGES. Hardened tempered steel. 25 blades, each 3½ in. long, ranging from .0015 to .025. Ship. wt. 5 oz.
(62) 61 C 9222-PROFESSIONAL MODEL. Tapered ends.. $1.65
(63) 61 C 9221—STANDARD MODEL. Rounded ends.. 89c

64 ZIP VALVE GRINDING COMPOUND. Duplex can—coarse and fine watermixed.
61 C 9227—3-oz. Can. Ship. wt. 4 oz. 35c

65 VALVE GRINDER. Smooth, fast, reciprocating. Long and short self-locking stems, bits, vacuum cup, spring. Ball thrust bearing.
61 C 9229—Ship. wt. 2 lbs. $2.19

66 VALVE REFACING LATHE. Tungsten carbide insert in steel blade will reface all valves, including Chrome high-heat valves. Can be set for 30° or 45°. Hand crank.
61 C 9226—Ship. wt. 1 lb. 12 oz. $2.95

67 VALVE SEAT REAMER SET. For all Fords, Plyms. and others with seats to 2⅛-in. diam. Abrasive type 45°, 4 pilots: 5/16, ⅜, 11/32, 19/32 in. With Ford V-8 bushing, 1 coarse, 1 fine abrasive, and handle.
61 C 9230—Ship. wt. 1 lb. 12 oz. $1.89

61 C 9240—VALVE SEAT REAMER SET. For Chev. 1935–54. Ship. wt. 1 lb. 8 oz. $2.98

61 C 9231—EXTRA ABRASIVES: 6 coarse, 6 fine, for reamer sets above. Wt. 3 oz. 65c

68 VALVE GUIDE EXTRACTOR. For Ford, Mercury V-type engines. Quickly loosens "frozen" guides. 18-in. lever. Drop forged steel. Valve key puller included.
61 C 9219—Ship. wt. 6 lbs. $10.95

69 VALVE LIFTER-SPRING COMPRESSOR. Easy to operate. Turn left to compress; right to lift. Holds at any point. Jaws open to 2½ in.
61 C 9241—Ship. wt. 1 lb. 8 oz. $2.29

70 ECONOMY VALVE LIFTER. High grade light-duty Lifter with jaws adapted for use on the majority of all motors. Locks securely in all positions. Durable steel.
61 C 9244—Ship. wt. 12 oz. 79c

71 OVERHEAD VALVE LIFTER. For valve-in-head motors, Chev., Buick, others. Heavy-gauge steel with heat treated hook.
61 C 9243—Wt. 1 lb. $1.49

72 HEAVY-DUTY C-TYPE VALVE LIFTER. Throat opening 10x10¼ in. For overhead, or "L" head valves, all cars ex. Cadillac. Steel frame; adj. jaws for all size springs. 1 straight, 1 offset dual jaw.
61 C 9246—Wt. 8 lbs.... $8.95

73 MAGNETIC KEEPER INSERTER. For Ford V-8 to 1953, other "L" head V-type motors. Alnico jaw magnets hold keepers. No-slip handle.
61 C 9250—Wt. 4 oz. $1.59

KEEPER INSERTERS for all sizes of split valve keepers.
61 C 9253—MAGNETIC TYPE. Ship. wt. 4 oz. $1.79
61 C 9252—NON-MAGNETIC TYPE. Ship. wt. 4 oz. $1.59

74 VALVE GUIDE CLEANERS. Adj. 5/16 to 7/16-in. inside diam. 5 blades.
61 C 9235—With straight shaft. Wt. 4 oz. $1.69
61 C 9236—Flexible shaft for difficult areas. Wt. 4 oz.. $2.19

Professional Testing Equipment

WARDS BEST AUTO TESTING KIT 22.95

3 TO 8 COMPLETE KIT. Professional quality. Includes tools (3) (4) (5) (6) (7) and compartmented steel box (8) below. Triple chrome plated. Each tool with instructions. Total value $24.78 when sold individually. Ship. wt. 7 lbs.
61 C 9024—$2.50 Down ..... or Cash $22.95

(3) PISTOL-GRIP COMPRESSION TESTER. Shows if new rings and valves needed. Full 0 to 200-lb. gauge with 2⅛-in. dial. Stores 2 extra rubber cones in handle (2 cones, valves included). Nozzle shank rotates in handle to easily take readings in any car.
61 C 9020—Fits all plug holes. Wt. 1 lb. 8 oz. $6.95

(4) COMPRESSION TESTER ADAPTER. Necessary for recessed or "hard to get at" spark plug holes. Wt. 10 oz.
61 C 9021—Approx. 6⅞ in. long $2.29

(5) VACUUM AND FUEL PUMP TESTER. Large 3½-in. dial. Reads up to 30-in. vacuum or 7 lbs. pressure. Use when setting carburetor or testing fuel pump. Checks condition of valves, springs, muffler, etc. 4-ft. hose.
61 C 9022—Instructions. Ship. wt. 1 lb. 4 oz. $5.95

(6) NEON TIMING LIGHT. Tests, sets timing under operating conditions. Connect to spark plug, spark plug wire. Neon tube, leads easily replaced. Case, bulb, high-tension wire leads, insulated snap-on clips.
61 C 9031—6 or 12 volts. Wt. 1 lb. 4 oz. $3.95

61 C 9030—NEON TIMING LIGHT REPAIR KIT. Includes bulb unit, lens and contact springs. Wt. 2 oz. $1.39

(7) AUXILIARY STARTER BUTTON. Lets you start car without getting in. Turns over motor to align inspection and drain plug holes in automatic transmissions.
61 C 9023—Insulated clips, leads. Wt. 8 oz. $2.19

(8) STEEL 3-COMPARTMENT BOX. (No tools). Hammerloid finish steel. Size: 14½x8½x2½ in. Carrying handle.
61 C 9019—2 Snap locks. Ship. wt. 2 lbs. $3.45

WARDS ECONOMY TESTING KIT 14.50

9 TO 12 Standard quality. With Timing Light, (6), Steel Box (8) listed above and Testers (9), (10) below. Accurate tools for mechanic, farmer, car owner. $15.10 value when sold individually.
61 C 9015—Wt. 6 lbs. 4 oz. ..... Complete Kit $14.50

(9) COMPRESSION TESTER. 2⅝-in. dial. 0 to 200-lb. gauge. Rubber cone with release valve. Angled shank.
61 C 9026—Fits all plug holes. Wt. 1 lb. 2 oz. $3.95

(10) VACUUM AND FUEL PUMP TESTER. 2½-in. gauge reads up to 30-in. vacuum, 7 lbs. pressure. Use when setting carburetor, testing fuel pump. 4-ft. hose.
61 C 9025—Instructions. Ship. wt. 1 lb. 8 oz. $3.75

MONTHLY PAYMENT PLAN. When cash is not convenient and you wish to buy Professional Testing Equipment, you may find it helpful to use Wards Monthly Payment Plan to purchase these items. 10% Down must accompany your order. See Inside Back Cover for details.

PROFESSIONAL QUALITY AUTO TESTERS

13 VOLTAGE REGULATOR TESTER. Professional Quality. Accurate, simple. For 6 and 12 volts. Assures proper testing of motors regardless of state of battery charge. Measures voltage in circuits, checks voltage at different points in system, measures generator output, checks current draw. Finest meters for accurate rapid readings. Ammeter range 0 to 60 amps. DC. Voltmeter scales 0 to 5, 0 to 10, 0 to 25 volts DC. Metal case with handle. 3½x8x12 in. Instructions and trouble shooting chart.
61 CP 9029 L—*Postpaid.* Only $4 Down ..... or Cash

14 AMP-VOLT-OHM REGULATOR TESTER. Professional Quality. Accurate, quick and simple. Set the switch, connect leads, read the meter. Tests all electrical instruments found on the automobile. Locates shorts or broken wires. Tests generator, regulator on or off the car. Tests both 6 and 12 volt systems.

Attractive, easy to read 2 color dial for quick, accurate reading. Calibrated; 0 to 50,000 Ohms; 0 to 1 6/10 Volts; 0 to 8 Volts; 0 to 40 Volts; 0 to 80 Volt Amperes. Will make any test requiring a Volt Meter, Ohm Meter or Ammeter within its range. Meets the requirements of the most modern shop. Comes complete with easy-to-follow instructions. Ship. wt. 7 lbs.
61 C 9001L—Only $3.00 Down on Terms ..... or Cash

15 MOTOR TESTER. Professional Quality. Test engine compression, fuel pump, vacuum pump, ignition system, spark plugs in a few minutes. 2-in. fuel pump vacuum gauge measures to 30-in. vacuum, 7-lbs. pressure. Adjustable spark gap with neon tube. 4-in. leads, including ground—means no shocks. Complete with necessary fittings and instructions.
61 C 9041—Ship. wt. 4 lbs. .....

16 PORTABLE EXHAUST ANALYZER. Professional Quality. Tests combustion, adjusts carburetor, locates carburetor trouble at speeds. 12-ft. rubber hose, tail pipe adapter, instructions. Uses No. 6 Dry Cells (not included). Ship. wt. 5 lbs.
61 C 9028 L—Only $5 Down ..... or Cash

17 POWER TIMING LIGHT. Operates on any 110–120-volt AC outlet—insures maximum light output regardless of condition of auto battery. Delivers a tremendous shot of energy producing sharp, very brilliant white light—brilliant even in direct sunlight. No vibrator or moving parts to wear out. Greatly simplifies and speeds testing and setting timing. Synchronized flashes illuminate the wheel—timing marks appear extra clear and sharp.

Rugged, molded plastic case with pistol-grip handle. Rapid flash and compact design enables operator to reach relatively inaccessible timing marks. Operates on 6, 12, 24-volt battery and magneto systems. With instructions.
61 C 9032—Ship. wt. 2 lbs. .....

18 STARTER CURRENT INDICATOR. Designed to show approximate current drawn by the starter without removing any cable. No connections to make . : . simply hold V-shaped tip (on back) over starter cable while starter is cranking the engine. 3-color dial calibrated 400-0-400 and zoned in green (normal), red (high). Indicates worn bushings, dragging armature, bent shaft, etc. Comes complete with instructions.
61 C 9037—Ship. wt. 8 oz. .....

19 WARDS SPARK PLUG ANALYZER. Sensitive—detects the smallest electrical leaks. Neon tube shows plug condition. Rubber-insulated clips, cords. With instructions.
61 C 9035—Ship. wt. 6 oz. .....

HOSE CLAMP KITS

20 HOSE CLAMPS. 50 one-piece spring steel self-tightening clamps. Easy on, easy off—time saving. Kit: 10 each for ⅝, 1¼, 1½-in. hose; 20 for 1¾-in. Pliers below must be used to install these clamps.
61 C 9475—Ship. wt. 3 lbs. Pkg. of 50 ..... $3.79

21 HOSE CLAMP PLIERS. For installing, removing self-tightening clamps. Swivel jaws, slim shape permits use in tight places, any position. All-steel. 8⅛ in. long.
61 C 9476—Shipping wt. 6 oz. $1.98

RADIATOR HOSE KITS, HOSE, CLAMPS, AND PLIERS

22 23 CURVED RADIATOR HOSE KITS. Everything you need to renew your radiator hose system completely—upper hose, lower hose, clamps. Tough, durable 3-ply rubber and fabric hose, moulded in proper shape and diameter for cars listed below. Adjustable clamps are heavy, rust-resisting steel.

Hose for Chevrolet 1935–41 replaces metal elbows and short hose. V-8 engine kits consist of two sets as pictured in (23) above. Av. wt. Fords 4 lbs.; other cars 2 lbs. 8 oz.

REBUILT LIKE NEW 6.95 Exch., for Chev. 1941-48

(40) Why pay New-Carburetor prices? Install a Ward Rebuilt . . . they're all Original Equipment Carburetors . . . not merely repaired or reconditioned, but actually re-manufactured to perform like new. Completely disassembled, chemically cleaned and rinsed in 14 different solutions and treated with a special rust-resistant chemical . . . and all these parts new: (1) Low Speed Jets; (2) High Speed Jets; (3) Accelerator Pump Assembly; (4) Power or Pump Jet; (5) Idle Adjusting Needles; (6) Needle Valve and Seat; (7) Carburetor Float; (8) Throttle Adjusting Screw; (9) All Gaskets; (10) Any Other Part not passing inspection.

How To Order Wards Rebuilt Carburetors: *State Make, Year, Model, Type of Transmission, No. of Cyls. only* when Catalog Numbers end in "K"; also where two carburetors are used specify front or rear. Those ending in "K" shipped in about 15 days from Factory in Detroit, Mich.—allow transit time; others shipped from Stock. Pay postage from shipping point. Av. ship. wt. 8 lbs.

Generous Allowance For Your Old Carburetor

Two Ways to Order: (1) For "Exchange" price. Send old carburetor *Postpaid*. Attach exchange price and postage for carburetor you want. (2) for "Full" price. Send price, plus postage. We send carburetor and coupon, which you cash when old carburetor is returned to a Ward Mail Order House. See Page 972. Carburetors returned for exchange credit must be original equipment type. Body castings and controls must not be broken.

For Only These Makes, Years, Models	Catalog Number	Full Price	Exch Price

61 C 1820—For 1936–55 Plym., Chrys., DeSoto, Dodge $1.29

Dual Exhaust Shop

High Compression Power Shop

SAVE MONEY WITH WARDS LOW COST COMPLETE DUAL EXHAUST SYSTEMS

(C) TO (H) Dual exhaust and header kits (A) do away with cross over design (B)—offer you 10% greater engine efficiency, higher horsepower, increased mileage, better idling, easier starting, smoother performance. Conventional cross over design (B) tends to build up back pressure—chokes off horsepower. Dual exhaust and headers (A) give 2 separate and direct exhaust systems with pressure-free double exhaust flow—eliminating back pressure. Best Quality Cast-Iron Headers (E) (F) (G) will not burn out, offer better heat control than Steel Headers and are cast in one piece—no welds to break.

HOW TO ORDER: *State Make, Year, Mod., type of trans., if for Power Brakes, Steering* (Will not fit Sta. Wag.). Nos. ending in *"F" Not Mail.*, ship. in about 10 days from Chicago Fact., allow transit time. Others *Mailable* from Stock.

KITS COMPLETE ex. for mufflers—nothing more to buy. Use "Stock" (original type) or "Hollywood" mufflers — order separately Pages 920 and 921.

COMPLETE DUAL EXHAUST PIPE KITS 7.75 for Ford V-8 1942–48

(C) New left exhaust pipe, tail pipe, clamps, crossover seal, gaskets—complete, except for muffler—nothing more to buy. See "How To Order" above. Av. wt. 16 lbs. Will not fit Sta. Wag. No. ending in *"F"—Not Mail.*, *"YO"—Mail.*

61 C 12977 F—Split manifold. Chevrolet 1949–52 6-cyl. (except Convertible, Powerglide)... $20.95
61 C 12978 F—Split manifold. Chevrolet 1950–52 6-cyl. Powerglide (except Convertible, Sta. Wag.)... $21.95
61 C 12767 F—Chev. 1955 6-cyl. ex. Conv., Sta. Wag... $41.50
61 C 12978 F—Split manifold. Chevrolet 1953 6-cyl. (except Convertible, Powerglide)... $21.95
61 C 12979 F—Split manifold. Chevrolet 1954 6-cyl. (except Convertible, Station Wagon)... $24.45
61 C 12869 F—Dodge 6, Plymouth 1942–54 except Station Wagon... $39.95
61 C 13026 F—Split manifold. Dodge 1949–53 6-cyl. (except Convertible, Station Wagon)... $18.95
61 C 13025 F—Split manifold. Plymouth 1949–54 6-cyl. (except Hi-Drive, Conv., Station Wagon)... $13.45

HIGH COMPRESSION ENGINE PARTS 49.95 Head for Ford, Merc.

(1) ALUMINUM HEADS. Get up to 25% more power and improved performance. Step up compression ratios to 8.5 to 1. Milled, finished, heat treated. Max. water capacity for better circulation. Greater fin area for rapid heat dissipation. Sandblast finish. Cat. Nos. ending in "K" mailed promptly from Factory, Los Angeles; others from Stock in Mail Order House. *Mailable.*

61 C 13082 KB—1937–54 Chrysler, DeSoto. Ship. wt. 22 lbs...
61 C 12943 MB—1949–53 Ford, Mercury Pair. Ship. wt. 28 lbs...
61 C 13085 KB—1946–55 Nash Rambler. (Head-manifold Comb.). Ship. wt. 25 lbs...
61 C 13083 KB—1937–54 Pontiac 8-cyl. Ship. wt. 22 lbs...
61 C 13081 MB—1935–55 6-cyl. Plymouth, Dodge. Ship. wt. 15 lbs...
61 C 13084 K—1939–54 Studebaker Champion. Ship. wt. 15 lbs...

(2) (3) WARDS INTAKE MANIFOLDS. Heat treated aluminum alloy. Increase power and gas mileage up to 10%. Give even fuel distribution. Sandblast finish. Manifold kits included. Cat. Nos. ending in "K" mailed promptly from Factory, Los Angeles; others from Stock. Ship. wt. 10 lbs. *Mailable.*

(2) WARDS DUAL MANIFOLDS

61 C 12937 M—1942–48 Ford V-8, Mercury...
61 C 13079 K—1937–54 Chrysler 6-cyl...

NEW ELECTRONICALLY-BALANCED STROKER ASSEMBLY 229.0

(10) Wards New Stroker Assemblies for 1939–53 Ford and Mercury (except Fordomatic, Ford 60 H.P. and Merc-O-Matic) are as perfectly balanced as modern electronic balancing instruments will permit. The complete stroker assembly is statically balanced as a unit, whereas only the crankshaft is balanced in stock engines. This near perfect balance is attained by the addition or reduction of weight on the assembly to a tolerance of 1/16 of an ounce. Wards Electronically Balanced Stroker Assembly offers you less engine wear, less engine vibration at all speeds, increased compression for greater power and all around better engine performance. For best results use this stroker assembly with Wards balanced flywheel and pressure plate assembly—see Page 925.

Stroker assemblies consist of a reground crankshaft, 8 reground connecting rods complete with fitted bushings, a new set of steel-backed babbitt main bearings, new set of steel-backed babbitt connecting rod bearings, 8 new pistons with rings (3-ring pistons are high compression type), a new set of piston rings and a set of refaced flywheel.

All Stroker Assemblies are shipped Freight, Truck or Express from Factory, Chicago, Ill.—you pay shipping charges from there. Allow 10 days and transit time.

HOW TO ORDER BALANCED STROKER ASSEMBLIES: *State whether for Ford or Mercury, Year and Model; also state bore size and stroke wanted.* Wards offer a trade-in value on Mercury 4-in. stroke crankshaft only (it must be in a reground condition). For your refund on this crankshaft return old crankshaft later, Postpaid, to your nearest Mail Order House.

61 C 13067 F—For Ford (except Fordomatic and 60) and Mercury (except Merc-O-Matic) 1939–53, available in 3 3/16, 3 5/16 and 3⅜-in. bore size with 4 or 6 in. stroke. Ship. wt. 125 lbs. $23.00 Down on Terms... or Cash

EXHAUST CUT-OUT 2.69 with Dash Control

11 UNIVERSAL EXHAUST CUT-OUT. Control exhaust with a dash control. Close cut-out in restricted areas, open in others. Zinc plated steel.
61 C 12899—Fits all cars. Ship. wt. 2 lbs. $2.69

12 UNIVERSAL BY-PASS CUT-OUT. A dash controlled muffler by-pass to give the power and performance of a straight pipe. Cuts out just ahead of muffler, enters tail pipe just behind muffler. With dash control button, linkage, steel cut-out and cut-in, flexible steel pipe, fittings, instr. Fits all 1¾ to 2¼-in. exhaust, tail pipes. Use only in non-restricted areas.
61 C 12749—Ship. wt. 9 lbs. $6.69

13 UNIVERSAL TAIL PIPE WHISTLE. Double exhaust extension—controlled from dash—exhaust passes freely through exhaust pipe side or close exhaust pipe side to channel exhaust through whistle pipe for rich, mellow tone to a high volume whistle at varying speeds. Both pipes chrome plated. Complete with control ring, cable, fittings. Use only in non-restricted areas.
61 C 12750—Fits all cars. Ship. wt. 4 lbs. $6.95

14 CHROME PLATED WATER PUMPS. For 1937–48 Ford V-8, Merc. Accurately machined seal faces, hardened steel shafts. Automatic spring tension packless type shaft seals.
61 C 12990—Replace original. Right. Wt. 7 lbs. . Each $7.65
61 C 12991—Replace original. Left. Wt. 7 lbs. . . . Each 7.65

15 CARBURETOR ADAPTERS. Single type. Cast aluminum. Av. Ship. wt. 10 oz.
61 C 12934—Adapts Ford V-8 carburetor to any 8-cyl. car with 4-bolt flange mounting. $2.19
61 C 12875—Universal Adapter. Undrilled. Adapts Ford carburetor to most other cars. $1.75
61 C 12901—Adapts Ford carburetor to: Chev. 1932-51 Std.; Plym., Dodge 1932–38; Hudson 1934–39; Kaiser, Frazer 6-cyl. 1947–51; Nash 6 1939–51; Olds. 6 1935–1940; Packard 6 1937–42; Pont. 6 1933–48; Stude. 1935–50; Willys 1941–42; Other cars with 2 11/16 in. between studs on flange mounting. $1.75
61 C 12902—Adapts Ford carburetor to: Chev. 1951 Pow. Gl.; Plym. 1939–51; Dodge 1939–51; Olds. 1941–47; Others with 2 15/16 in. between studs on flange mounting. $1.75
61 C 12815—4-bolt mounting adapts., Buick 1949–53; Dodge V-8 1953–55; Cadillac 1939–50; Hudson 1947–51; Olds. 8-cyl. 1937–52; Pont. 8-cyl. 1940–51; Others with 4-bolt flange. $4.10
61 C 12816—3-bolt mounting adapts Ford V-8 1932–54; All other cars with 3-bolt flange. $4.10

16 CHROME PLATED STROMBERG CARBURETORS. Completely rebuilt, tested. Ship. wt. 5 lbs.
61 C 12923—"97" For Ford, Mercury 1932–48. . . . Each $11.98

17 CHROME PLATED FUEL PUMP STAND. With lower flange gasket for mounting.
61 C 12931—1935–48 Ford V-8. Ship. wt. 1 lb. $2.29
61 C 12931—1939–48 Mercury. Ship. wt. 1 lb. 2.29

TRIPLE CHROME PLATED DRESS-UP PARTS AND AIR CLEANERS

18 CHROME PLATED FUEL PUMP. Glass bowl. Neoprene coated diaphragm.
61 C 12932—For 1934–48 Ford V-8 (except 60 HP), 1939–48 Mercury and 1935–42 Lincoln-Zephyr. Ship. wt. 2 lbs. $3.19

19 CHROME PLATED BATTERY COVERS. Triple chrome plated steel. Clamps over and above battery. Ship. wt. 6 oz.
61 C 12685—All group 1 Batteries. $1.95
61 C 12686—All grp. 2, 2F, 2H, 2L batteries. 1.95

20 CHROME PLATED VOLTAGE REGULATOR COVER. Triple chrome plated steel. Easy to install. Ship. wt. 6 oz.
61 C 12808—Ford, Mercury 1939–53. . . . . $1.39
61 C 12809—1939–53 Gen. Motors Cars & Delco Remy Voltage Regulators. $1.49

21 CHROME PLATED WIRE LOOM. Loop wires over plugs. Ship. wt. 1 lb.
61 C 12956—1932–48 Ford 8, Merc. . . . Pair $2.98
61 C 12989—1949–53 Ford 8, Merc. . . . Pair 2.98

22 CHROME PLATED RADIATOR HOSE KIT. 2 chromed curved steel tubes, 8 chromed hose clamps, 4 sections rubber hose. Wt. Ford V-8 1939–48 5 lbs., 1949–53 3 lbs., Merc. 1939–48 5 lbs.
61 C 12976—1939–41 Ford V-8, Mercury. . . . $3.98
61 C 12919—1942–48 Ford V-8, Mercury. . . . 3.98
61 C 12920—For 1949–53 Ford V-8. . . . . 1.98

23 PERFORMANCE GAUGE. See at a glance whether your engine is delivering top efficiency. Indicates miles per gal., faulty spark plugs, carburetor, valves, rings. Enameled metal frame, chrome plated bezel. Easy-to-read dial. For all cars and trucks.
61 C 12898—Ship. wt. 2 lbs. $3.98

24 CHROME PLATED HEAD, MANIFOLD NUT COVERS. Wt. each 1 oz.; Set of 50, 1 lb. 4 oz.

For 9/16-Inch Manifold Cap Screws
61 C 12909—Ea. 9c; 61 C 12912—50 for $3.59

11/16-Inch For 1928–48 Ford Mercury, Plymouth, Etc. Heads
61 C 12911—Ea. 9c; 61 C 12914—50 for $3.49

11/16-Inch (.002 Undersize). For Heads
61 C 12910—Ea. 9c; 61 C 12913—50 for $3.59

25 OIL LEVEL GAUGE. Clamps to steering post—shows crankcase oil level. For all cars, trucks (except Olds.; Cadillac; 1947–54 Nash; 1951–53 DeSoto 8, Chrysler).
61 C 8133—Shows "Low" or "Full." $4.59

26 CHROME PLATED GENERATOR COVER. Durable steel. Easily installed. Av. wt. 11 oz.
61 C 12852—For Ford, Mercury 1942–48. . . . . $1.19
61 C 12853—For Ford, Mercury 1949–53. . . . . 1.19
61 C 12810—For All Cadillacs, Buicks, Olds., Pontiacs and Chev. 1942–52. . . . . $1.19

27 JUMBO-TYPE CHROME PLATED FOUR BARREL AIR CLEANER. Diam. 11¼ in. Offers greater volume of filtered air. Mesh filter. Wt. 4 lbs. 4 oz.
61 C 12840—Buick, Olds., Cad., 1952–54. . . . . $11.95
61 C 12841—Mercury, Lincoln 1952–54. . . . . 11.95
61 C 12842—For cars with 2⅝-in. carburetor throat opening. $11.95
61 C 12843—For cars with 2 5/16-in. carburetor throat opening. $11.95

28 CHROME PLATED AIR CLEANER. 7½-in. diam. Universal Jumbo-type. Allows full flow of air.
61 C 12833—For All 2⅝-in. diameter throat carburetors. Ship. wt. 1 lb. $5.95
61 C 12834—For All 2 5/16-in. diameter throat carburetors. Ship. wt. 1 lb. $5.95

29 OIL BATH TYPE CHROME PLATED AIR CLEANER. 6¼-in. diam. Dual action filters clean air.
61 C 12924—Ford, Mercury, Buick, others with 2⅝ or 2 5/16-in. throat carbs. Ship. wt. 2 lbs. $7.75

30 BONNET-TYPE CHROME PLATED AIR CLEANER. Like (31 below) but plain bonnet.
61 C 12921—4½-in. diam. For Ford, Mercury, Plymouth, Buick, other cars with 2⅝-in. or 2 5/16-in. diam. throat carburetor. Ship. wt. 1 lb. $1.49

31 CHROME PLATED AIR CLEANER. 4½-in. diam. Dual cleaning action—non-restricting. Allows full flow of air. Ship. wt. 1 lb.
61 C 12917—For Ford, Mercury, Buick, and other cars with 2⅝-inch diam. throat carburetors. . . . $2.49
61 C 12918—For Chevrolet, Plymouth, and other cars with 2 5/16-inch diam. throat carburetors. . . . $2.49

32 CHROME PLATED OIL FILLER CAPS. Metal Mesh air filter. Ship. wt. 1 lb.
61C12805—Ford V-8 1949–53, Ford 6-cyl. 1949–51 $2.75
61 C 12804—Chev. 1949–53, Buick 1939–53. . . . 1.75

33 CHROME PLATED OIL CAPS. Ship. wt. 6 oz.
61 C 12954—1935–48 Ford V-8 (Ex. 60 HP); 1939–48 Mercury; 1939–50 Lincoln. 55c
61 C 12955—1949–53 Ford V-8, Mercury. 55c
61 C 12806—Plymouth, Dodge, DeSoto, Chrysler, Pontiac, Stude., Kaiser, Frazer, 1946–53; Ford A 1928–31, Hudson 1948–53. . . . . 55c

LOWERING KITS

For Ford 2.39 1949–51.

34 Lower center of gravity for better cornering and sleek, streamlined appearance.

2-IN. DROP REAR LOWERING KITS. 4 steel "J" bolts, two 1½-in. iron blocks. Av. wt. set 8 lbs.
61 C 12851—1955 Chevrolet. $2.29
61 C 12904—1938–54 Chev. 1.98
61 C 12903—1949–51 Ford. 2.39
61 C 12850—1952–53 Ford and Mercury. $3.49
61C12881-Mercury 1949–51. 2.39
61 C 12905—1935-48 Plymouth; Ford Mercury 1954–55; Lincoln. 1949–51, 1954–55. . . . . $2.59
61 C 12884—Chrysler De Soto 1949–52 All; Dodge, Plymouth 1949–54 All. $2.85
61 C 12900—Chrysler V-8, De Soto, 1953–55; Dodge, Plymouth 1955 All. $2.85
61C12880–Pontiac 1949–55. 2.98
61 C 12882—Olds. 1951–55. 2.89

2-IN. DROP FRONT LOWERING KITS. Similar to above. Ship. wt. 5 lbs. 8 oz.
61C12827–1941–53 Cadillac $4.29
61C12652–1949–52 Ford V-8 3.98
61C12653–1953 Ford. 3.98
61C12827–1954 Ford. 4.29
61C12827–1941–54 Hudson. 4.29
61C12827–1949–51 Lincoln. 4.29
61C12827–1949–51 Mercury 4.29
61C12653–1952–53 Mercury 3.98
61C12827–1954 Mercury. . . 4.29
61C12655–1939–48 Chev. . . . 3.98

LOWERING SHACKLES 55c

35 4 steel shackle bars. Fits 1932–48 Ford and Mercury. Ship. wt. set 2 lbs.
61 C 12906—4-in. drop. 55c
61 C 12907—5-in. drop. 55c
61 C 12908—6-in. drop. 55c

TRUNK OPENING KITS, CARBURETION PARTS

36 37 ELECTRIC AND MANUAL TRUNK OPENING KITS. Permits opening car trunk without leaving car (See sketch "J"). Allows removal of trunk handle to streamline rear deck. Easy to install. Instructions.

(36) Electric Trunk Opening Kit. Activate by pressing button. Ship. wt. 7 lbs. 8 oz.
61 C 12677—Ford 1936–49, Merc. 1939–48. . . . . $5.95
61 C 12678—Ford 1950–53, Mercury and General Motors Cars 1949–53 ex. Olds. 1949 "98". $5.95

(37) Manual Trunk Opening Kit. Pull knob to open trunk.
61 C 12675—Ford 1936–49, Mercury 1939–48 and Plymouth 1953. Ship. wt. 11 oz. 89c
61 C 12676—Ford 1950–53, Mercury and General Motors Cars 1949–53 ex. Olds. 1949 "98". Ship. wt. 11 oz. . . . 89c

38 FUEL PRESSURE REGULATOR AND FILTER. Cuts gas costs up to 20%. Offers more power with less engine wear. Controls pressure at which gas enters carburetor. Helps prevent vapor locks, panic-stop stalling. Wt. 12 oz.
61 C 12889—Ford, Merc., Linc. 1932–53. . . . . $5.89
61 C 12831—Ford, Mercury, Lincoln 1954–55; Gen. Motors Family; Chrysler Family and all other cars, trucks. . $5.89

39 FUEL BLOCK KITS. More efficient fuel distribution on multi-carb. manifolds. A reservoir of fuel for immediate equal distribution. Cast aluminum with fittings, hose.
61 C 12823—Ford 1932–54; Merc. 1939–53. Wt. 2 lbs. . $6.50
61 C 12824—Chevrolet, 6-Cyl. 1937–55. Wt. 2 lbs. 6.50
61 C 12822—Plym., Dodge 6-Cyl. 1935–55. Wt. 2 lbs. . 6.50

40 41 ADJUSTABLE JET SCREWS. Overcomes carburetion difficulties of varying atmospheric conditions. Provides well-balanced fuel mixture. Instructions included.
(40) 61 C 12821—For Stromberg Carburetors. Wt. 2 oz. $2.49
(41) 61 C 12820—For Chandler-Groves and Holly Carburetors. Ship. wt. 5 oz. $2.49

MALLORY KITS, POINTS, CONDENSERS

42 43 44 MALLORY PARTS. For converting to high speed ignition. All Mallory parts are *Postpaid. No Credit Charge* when you buy Mallory parts on terms.

(42) (43) MALLORY CONVERSION KITS. Does away with point vibration, bouncing and flashing—major causes of engine missing and misfiring at high speeds. *Postpaid.*
61 CN 12679—Buick V-8 1953–55. *Postpaid*. $10.50
(42) 61 CN 12983—Chevrolet 1937–55 6-Cyl. Base mounting plate. *Postpaid*. $8.25
61 CN 12680—Chevrolet V-8 1955. *Postpaid*. 10.50
(43) 61 CN 12949—Fits 1949–53 Ford V-8, Merc.; 1948–53 Ford 8-cyl. trucks. *Postpaid*. $6.60
61 CN 12865—Olds., Pont. 8-Cyl., Cadillac, 1950–55; Buick 1950–52 All, 1953 Spec.; Studebaker V-8 1951–55. . . . . $10.50
61 CN 12681—Ford V-8, Mercury 1954–55; Lincoln 1952–55; Thunderbird 1955; Ford Trucks V-8 1954–55. *Postpaid*. . . . $6.60

MALLORY POINTS (not shown). Replace original equipment.
61 CN 12671—Buick V-8 1953–55; Cadillac 1940–48; Chevrolet V-8 1955; Nash Ambass. 1948–55. *Postpaid*. $2.00

12 PROFESSIONAL CUTTING-FLARING KIT. Modern precision tools. Accurate, easy to use, fast, efficient. Consists of: (A) Flaring Tool gives smooth, uniform single or double flaring—adjusts quickly to correct size tubing (3/16, 1/4, 5/16, 3/8, 1/2 or 5/8 in.); (B) Effortless cutting Tool for fast, clean, cuts on 1/8–1¼ in. O.D. tubing; (C) Height Gauge and Double Flare Plate (3/16, 1/4, 5/16, 3/8, 1/2 in.) assures precise double-flaring. In compartmented steel box.

61 C 9449—Ship. wt. 4 lbs. $17.50

13 STANDARD POCKET-SIZE TUBE CUTTER. Cuts 1/8 to 1-in. Bundyflex, copper, thinwall tubing. Steel cutter. Retract. reamer.

61 C 9450—Ship. wt. 8 oz. $1.98

14 STANDARD TUBE FLARING Heavy duty die for lasting openings threaded for non- Strong, drop-forged yoke wi cone for fast, true flaring. sizes with outside diam. of ¼ 1/2, 3/8 and 3/4 in.

61 C 9445—Ship. wt. 1 lb. 8 oz.

15 BRASS FITTING ASSO Contains about 100 ¼ diameter pieces—6 S.A.E. Automotive Engineers) flare nuts, 4 solderless compression solderless compression nuts, reducing unions. 4 male con S.A.E. flared nuts for Fords compression bushings, 4 tube assorted compression sleeve ings.

61 C 1806—Ship. wt. 4 lbs.

Labor...Save With Wards Exact Replacement Parts

MUFFLERS FOR CARS, TRUCKS . . . SUPREME 4.09 OR ECONOMY 3.59 . . . For Chev. 1941-48

16 WARDS SUPREME MUFFLERS. Check your car or truck muffler. A restricted muffler can waste gasoline (about 1 gallon in 6), cause excessive loss of horsepower (up to 20 HP). A leaky muffler can let deadly carbon monoxide gas into your car or truck. Don't take chances with dangerous leaks—replace your old muffler now with a Wards Supreme Steel Muffler, equal to or better than original equipment. Clamps not included—order at right below.

All mufflers listed below are *Mailable* except those with suffix "R" after Cat. No. which are shipped by Freight, Truck or Express.

WARDS SUPREME MUFFLERS KEEP PACE WITH CAR PROGRESS

High compression, increased power engines in today's modern cars require modern mufflers, designed to handle modern engine requirements. Wards constant muffler improvements keep pace with these increased power needs. Muffler "wrap" differences is as follows:

1-WRAP TYPE. Single shell—standard replacement type.

2-WRAP TYPE. Continuous double-wrap steel shells provide the additional sound dampening required for quiet performance.

4-WRAP TYPE. Four shells—continuous double-wrap inner steel shells, encased in a layer of sheet asbestos, protected by a fourth outer shell of steel. Necessary for new high compression engines to achieve complete sound deadening performance. Designed for balanced heat distribution to evaporate condensation and aid in eliminating inside corrosion.

SUPREME MUFFLER FEATURES

(A) LARGE, FULL-LENGTH TUBES, engineered for fast exhaust flow, effective silencing and minimum back pressure.

(B) TUBES, SUPPORTS, SHELLS ELECTRONICALLY WELDED—won't loosen and rattle.

(C) HEAVY-DUTY OUTER SHELLS for extra strength and service; inlet and outlet pipes extra heavy 18-gauge steel.

(D) LEAKPROOF—made of heavy 18-gauge steel—interlocking connections.

DOUBLE LOCKED OR FULL-WELDED SEAMS.

WARDS ECONOMY MUFFLERS

(Not shown). Same high quality materials as in higher priced mufflers, but slightly lighter weight. Give excellent service for their price. Same large, full-length tubes as original equipment. Electrically welded tube supports. Full welded double locked seams prevent dangerous leakage. All are single wrap mufflers. *Mailable.*

61 C 4167—For Buick 1937–53 All (Front). Ship. wt. 5 oz. 49c
61 C 4168—For Buick 1937–53 All (Rear). Ship. wt. 2 oz. 29c

25 UNIVERSAL TAIL PIPE HANGER. Adjustable for length and position. Riveted strap, clamp. Rubber vibration insulator. Fits pipes 1½ to 2-in. inside diameter.

61 C 4171—Ship. wt. 8 oz. ..... Each 49c

26 MUFFLER HANGER. Fits all 5 and 6-in. diameter mufflers.

61 C 4162—Ship. wt. 1 lb. ..... Each 35c

27 TAIL PIPE REPAIR EXTENSION. Replace rusted or damaged tail pipe ends and save the cost of entire new pipe. 18 in. long. Fits round tail pipes with outside diam. as listed in table—order same inside diam. as tail pipe clamp in table on Pg. 920. For others measure old pipe and order that diam. Chev. oval listing below. Clamp included.

Cat. No.	Inside Diam.	Ea.	Wt.
61 C 4185	1½ inches	79c	1½ lbs.
61 C 4186	1⅝ inches	79c	1½ lbs.
61 C 4187	1¾ inches	79c	1½ lbs.
61 C 4190	2 inches	79c	1½ lbs.

61 C 4188—For Chev. 1950–52 Powerglide (ex. Convert.). Oval like original 22 in. long. Wt. 1 lb. 8 oz. 79c

28 MUFFLER SEAL. Use as a permanent gas-tight joint seal when installing a new muffler or tail pipe. Also seals cracks and holes in exhaust system—use like putty. Dries hard—withstands high temperatures and gas pressure. Made in England. 8 oz. can.

61 C 4184—Ship. wt. 12 oz. $1.19

29 STEEL MUFFLER REMOVAL TOOL. Slashes muffler, pipe or clamp for fast, easy removal. Curved offset head, sharp T-shaped blades. Ship. wt. 8 oz.

61 C 9275—7½ in. long 89c

Save Gas, Oil, Restore Power to Your Car or Truck

NEW RIVERSIDE SUPER-CHROMOIL LONG-LIFE RING SETS

Set **6.98** for Chev. 1937–53

1 Ward's latest and best Piston-Ring installation. 2 to 4 times longer life is assured because this is a *full-chrome* ring set. The top compression ring, the steel rails of the second compression ring and the steel rails of the oil ring are *Chrome Plated*. Chromed top rings preseated at factory assure quick run-in and are ready to work immediately.

SUPER-CHROMOIL SETS are precision-engineered for highest economy in oil, fuel and for maximum power in post-war high-compression, high-temperature engines, whether worn, rehoned, resleeved or rebored. Restore satisfactory performance in cylinders with as much as .025 taper wear. Highest quality materials, finest workmanship, most modern designs, corresponding with nationally-known sets costing much more.

SUPER-CHROMOIL SETS consist of the following:

TOP GROOVE—Cast-Alloy-Iron Compression ring. Solid Chrome plating on face, preseated. Torsional twist by groove in upper inside edge for more positive seals at both cylinder wall and piston-groove sides.

2ND GROOVE—Combination cast-iron ring, chrome plated steel rail, steel-expander for extra flexibility in stopping oil waste.

3RD GROOVE—A 4-piece unbreakable, all-steel, flexible oil-control ring of greater conformability. Steel rails are chrome plated. Spacer, expander permit far greater drainage. (For 4-ring pistons, Ward's Sets include a wide-slot channeled oil ring for extra groove.)

CHROMOIL RING SETS

Set **5.69** for Chev. 1937–53

2 For worn, rehoned, resleeved or rebored engines. A top-quality ring installation with the same engineering features and performance efficiency as Ward's Super-Chromoil Sets, but without Chrome plating on top compression ring for lower first cost. Complete instructions included for proper installation.

Available in Standard or .020, .030, .040, or .060 oversize. *Please state size wanted.* See "Facts about Piston Rings", "How to Order" and "Shipping Information" at left, below.

Ring make-up is the same as the Super-Chromoil sets.

RIVERSIDE FLEXIBLE EXPANDER SETS

Set **3.29** for Chev. 1937-53

3 For cylinders tapered up to .005; also for resleeved, rehoned or rebored installations. Designed for fast seating that gives satisfactory performance but without the long life, flexibility of Super Chromoil or Chromoil Sets at left. Engineered for each piston of each car model. See "Facts About Piston Rings" below at left.

AVAILABLE IN STANDARD or .020, .030, .040, and .060 oversizes. *State size.* See "How to Order" and "Shipping Information" below at left. Set consists of following rings for all pistons in motor: TOP RING AND SECOND RING Silicoated cast iron of modern design for fastest seating without scuffing and with positive 3-point sealing.

OIL RING EXPANDER type for better oil economy and blow-by control. Provides flexible installation to compensate for any irregularities which might occur in boring or after.

For 4-ring pistons, Wards ring sets include an extra Oil Ring for the extra ring groove.

PEDRICK FORMFLEX CHROME RING

Set **15.75** for Chev. 1937–53

4 An all-purpose combination, which because of conformability, uniform wear and lower unit pressure, gives fine performance in *any* engine, whether badly worn, rehoned, rebored or resleeved. Instructions

Available in STD. or .020, .030, .040 oversizes. *State size wanted:* See "How to Order" and "Shipping Information" at left. Set consist of following rings for each piston:

TOP RING: Twist-seal compression ring assures complete seals at piston groove and under wall. Silicoated for quick seating.

2ND RING: Flexible Scraper compression with steel expander for increased oil economy.

OIL RING: 2 steel rails, chrome faced 3 times longer life; steel spacer. New "Equalizer" or expander for soft, yet positive tension at every point. Has greatest ability to conform to cylinder taper and out-of-round. For 4-ring pistons, these ring sets include extra wide-slot oil ring for the extra ring groove.

FACTS ABOUT PISTON RINGS AND WHEN TO REPLACE THEM

Wards offer three types of Riverside rings—also nationally known Pedrick rings—all made by a manufacturer of original equipment rings. Each set is designed for varying degrees of cylinder wear. Order ring sets from this page if you are re-using your current pistons. If ordering new Pistons, order matching ring set from facing page.

Wards Chromoil Sets (1) (2) and Pedrick FormFlex Sets (4), are recommended for taper up to .025. Flexible-Expander Sets (3) are only for new or rebored engines worn no more than .005 taper. If wear from taper is more than .025, cylinders need to be rebored, resleeved or rehoned.

WHEN TO REPLACE PISTON RINGS. If your car uses excess quantities of oil, is sluggish on the pick-up and wastes fuel because of poor compression, or shows a dark smoky exhaust, you probably need new rings. An engine check-up, or the use of a compression tester (see Page 916) will tell you when you need new rings. Other tools on Page 915.

HOW TO ORDER PISTON RING SETS

Measure cylinder at top (under ridge) and at bottom, with inside micrometer. Difference is cylinder wall taper showing ring set to order.

BE SURE TO STATE SIZE WANTED. "Standard" means new-car cylinder diameter. Always order "Standard" if cylinders have not been rebored, regardless of car mileage or age. "Standard" fits Standard to .019 oversize. If cylinders have been honed, resleeved or rebored, and oversize pistons are installed, or if motor has been rebuilt, determine actual oversize. Check pistons for number and type of rings required.

SHIPPING INFORMATION ON PISTON RINGS. Cat. Nos. not ending in "K" shipped from Stock in Standard (fits Std. to .019); .020 oversize (fits .020 to .029); .030 oversize (fits .030 to .039); .040 oversize (fits .040 to .059). Cat. Nos. ending in "K" and .060 oversize (fits .060 to .079) shipped from Factory in Philadelphia—allow Factory 2 to 10 days plus time in transit. Pay postage from there. Oversize sets for Ford A—AA also in .080 and .100 oversize from Philadelphia Factory.

TIME-SAVING PISTON RING TOOLS 98c Economy Compressor

5 PROFESSIONAL QUALITY RING COMPRESSOR. Covers all rings at one time (including skirt rings) for fast, safer insertion. Double bands of best quality spring steel. Depth 3½ in. Self-locking pawl. Allen wrench.
61 C 9404—For rings 2⅛ to 5-in. diam. Ship. wt. 1 lb $1.75

6 ECONOMY RING COMPRESSOR. Handles 4 rings. Allen wrench.
61 C 9400—Fits rings to 4½ in. in diameter. Ship. wt. 9 oz 98c

7 PISTON GROOVE CLEANER. Knurled thumbscrew for quick resetting. 5 blade hardened steel cutter. No wrench necessary.
61 C 9403—For all pistons 2.6-in. to 5.5 in. diam. Ship. wt. 12 oz $1.35

8 PISTON GROOVE CUTTER AND CLEANER. Depth of cut regulated by knurled screw. Hardened tool steel blade—5 sizes of cutters for grooving, one for trimming lands. Cold rolled steel frame.
61 C 9405—For pistons 2.6-in. to 5-in. diam. Shipping wt. 1 lb. $3.15

9 PISTON RING EXPANDER TOOL. Remove, or replace, piston rings without damage to rings or pistons. With instructions.
61 C 9443—For rings 2¾ to 4¼-in. diam. Ship. wt. 10 oz $1.19

RIVERSIDE AND PEDRICK FORMFLEX PISTON RING SETS FOR CARS, TRUCKS—*State Oversize Wanted.*

Recommended only when current pistons are to be re-used. If ordering new pistons, order matching ring sets from facing

WARDS REPLACEMENT ENGINE VALVES 39c, 50c; GUIDES 22c; TAPPETS 65c; SPRING SETS 2.25 ... For Chev. 1941-47

10 INTAKE AND EXHAUST VALVES. Duplicate original perfectly. Intake Valves Best Quality S.A.E. heat-treated, ground, polished alloy steel. Resist heat, acids. Exhaust Valves Best Quality. S.A.E. heat-treated, corrosion-resistant special alloy steel to withstand more heat than motor can produce to insure long life. Ship. wt. each, 4 oz.

11 VALVE GUIDES. Worn guides mean noisy, wasteful valve action. Install new guides when you replace valves. Finest cast alloy iron. Duplicate original equipment perfectly. Ship. wt. each 4 oz.

12 VALVE TAPPETS. Accurate replacements. Special heat-resisting alloy steel. For quieter engine, more power, replace tappets when you install new valves. Av. ship. wt. each 4 oz.

13 VALVE SPRINGS. Heat-treated spring steel—stand intense heat. Inner and outer springs for Buick, Ford and Chevrolet springs also fit trucks. Sold in sets only. Ship. wt. set, 2 lbs.

FOR OTHER TOOLS that will make repair jobs easier see Garage Equipment on Pages 913–916; Jacks on Pages 912–913; and Brake Tools on Page 930. You'll find a tool for most every need at Wards ...and at low prices.

Rebuild Now With Wards Perfect-Fit Engine Parts

REBUILT CRANKSHAFT-CONNECTING ROD ASSEMBLIES

For Plym. 1934–54 **34.95** Exchange Price

(14) Rebuilt Crankshafts, complete with rods, replace original perfectly. Precision-tested for alignment. Reground to a standard undersize (never exceeding .030) on all connecting rod, main bearing surfaces. Connecting rods aligned, accurately checked. Matched into balanced sets with new insert bearings, top bushings where used. New main bearings. New clutch pilot bearing or bushing in end of shaft.

LIBERAL TRADE-IN ALLOWANCE FOR OLD ASSEMBLY

Your old assembly must be complete with rods and suitable for rebuilding. If old crankshaft can be reground to .030 undersize and if rods can be rebuilt then *your old assembly can be accepted for exchange.*

HOW TO ORDER REBUILT CRANKSHAFT ASSEMBLIES

State Make, Year, Model of Car or Truck; also type of transmission. Send full cash price. We ship Assembly by Freight or Express. Return old assembly (with rods) later *Freight Prepaid* to nearest Wards House for credit.

SHIPPING INFORMATION. Crankshaft Assemblies are *Not Mailable.* All numbers ending in "F" are shipped promptly from Factory in Chicago—pay charges from shipping point.

REPLACEMENT AND SPECIAL TYPE PISTONS

With Pins **1.59** Each, For Ford V-8 1939–48

(17) REGULAR REPLACEMENT PISTONS WITH PINS. Perfect replacements of original. Made by one of America's foremost manufacturers. Heat-treated, precision machined. Made of special analysis, low expansion virgin aluminum. Six-ton tensile strength tested.

Ring grooves are cut to exact width and depth to avoid strain or fracture of ring lands Finished on precision cam grinder. Piston pin hole is diamond bored for noiseless operation and perfect fit. Pins are special analysis heat treated steel, precision ground and lapped.

(18) SPECIAL IMPROVED 4-RING PISTONS FOR FORD, MERCURY. Marked (*) in table at right. One more ring than original equipment for improved oil control—stops oil pumping, adds power, saves oil. Aluminum alloy reinforced construction for heavy duty.

HOW TO ORDER PISTONS. State number of pistons, Standard or an Oversize. (See below).

MATCHING PISTON RING SETS

Set **4.29** For Ford V-8 1939–48

Take exact micrometer measurement of cylinder hole at bottom of bore. When reboring or rehoning always rebore or rehone to the next regular oversize; order pistons of the same rebored or rehoned oversize.

All pistons listed below are furnished in Std. Size, .005, .020, .030, .040, .060 oversizes and semi finished. Catalog Numbers not ending in "K" shipped from Stock in "Standard" .005, .020, .030, .040 and .060 oversizes. Other "Standard" and all other pistons shipped from St. Louis Factory—allow 2 to 10 days extra.

Av. ship. wt. each piston 2 lbs.

FLEXIBLE EXPANDER RING SETS (not Pictured). Same as described on opposite page (see 3). See "Important Piston Notice" below.

HOW TO ORDER RING SETS. State whether you need "Standard" size or an Oversize. See "How to Order" etc. at left on opposite page.

Av. shipping weight set, 2 lbs.

IMPORTANT PISTON NOTICE. If ordering new pistons, order only matching Flexible Expander Sets listed in table below. Other types of rings listed on opposite page should not be used.

MATCHED PISTON-RING-ROD KITS

6-Cyl. Kit **29.95** for Chev. 1942–47

(19) DO-IT-YOURSELF ENGINE-OVERHAUL KITS that most anyone can install. Consist of Pistons, Pins, Rings and Rods already *assembled into complete matched units,* ready to drop into cylinders. All the technical, time-consuming work of fitting, adjusting for tolerances and assembling is done for you . . . by factory experts using precision equipment. Just remove head and oil pan—take out old piston and rod assemblies and replace with Wards Matched Piston-Ring-Rod Assemblies.

SEE WHAT YOU SAVE. In addition to saving labor charges by doing the job yourself, Wards Matched Kits offer a further big saving on the parts. The parts in these Kits, if replaced with new Wards parts on these pages would cost you about one third more than the "Kit" prices shown in listings below . . . and if you paid car makers replacement prices the cost would be much greater.

HERE'S WHAT YOU GET:

ORIGINAL EQUIPMENT PISTONS. Standard size "selected" pistons that are completely rebuilt. Chemically cleaned, then "knurled" on inside and outside of skirt to restore original new-car diameter. Piston pin holes are precision reamed and fitted with new oversize piston pins to new-car factory tolerances.

NEW WARDS CHROMEOIL PISTON RINGS. (described on Pg. 922) . . . the new type rings with chrome plated rails that last 2 to 4 times longer than ordinary rings. Assembled and fitted on piston.

CONNECTING RODS. Selected, chemically cleaned and rebuilt to give new-car performance. Aligned and balanced same as for best rebuilt motors. Rods are reamed and fitted with new piston pin bushings. Bushings are also reamed to correct tolerance for perfect fit on pin—then rod is accurately fitted to pin. Bearing section of rods in kits for Chevrolets is rebabbitted and broached to standard size. In kits for other cars this section is honed for like-new appearance ready for re-using your old insert bearings. (For best results in these cars we recommend you also install new .002 undersize Connecting Rod Insert Bearings listed below). Ship. wts.: 6 cyl. sets, 24 lbs.; 8 cyl. sets, 32 lbs.

Fit Only These Cars	Cat. No.	Price
CHEVROLET 6-Cyl. 1942–47 3½" Bore	61C986MB	$29.95
1948–53 3½" Bore	61C987MB	34.95
1948–53 3 9/16" Bore	61C988MB	34.95
DODGE 6, 1942–54	61C989MB	36.95
FORD V-8 and Mercury 1942–48 3 3/16" Bore	61C990MB	39.95
1949–53 3 3/16" Bore	61C991MB	42.95
PLYMOUTH 6, 1942–55	61C992MB	32.95

WARDS CONNECTING ROD INSERT BEARINGS 65c For Plym. 1933-41; MAIN BEARING SETS 5.29 For Plym. 1933-1941

(16) Duplicate original equipment in size, tolerance, material. Bearing shells treated to insure lasting babbit bond. Highest quality babbitt used to meet S.A.E. standards. Surfaces tested to .0003 tolerances. Connecting Rod Bearing prices include 1 upper, 1 lower bearing. Prices for Main Bearing Sets include all necessary main bearings for cars shown. Cat. Nos. ending in "K" mailed promptly from Factory in Indianapolis, Ind. *State undersize wanted.* Av. wt.: pair Connecting Rod Bearings, 4 oz.; Set Main Bearings 2 lbs.

Wards Rebuilt Motors With New-Car Guarantee

WHICH SHALL I BUY . . . A USED CAR, AN OVERHAUL OR A WARD REBUILT MOTOR?

A USED CAR IS A GAMBLE . . . it may have had a cheap overhaul—or none at all. You know the car you now own—you know the care you have given it. If the body and chassis are good, you can get more years of service from it by installing a Ward rebuilt motor—the rebuilt motor with a "new-car" guarantee.

A USED CAR DEPRECIATES RAPIDLY. In less than one year, the depreciation will equal or exceed the price of a rebuilt motor . . . not to mention any repair bills you'll most likely have to pay.

AN OVERHAUL WON'T DO THE JOB . . . a few piston rings and reground valves can't put a worn motor into "top" condition—it takes a re-manufactured motor. In some cases, Wards install up to 112 new parts, not counting cap screws, cotter pins and nuts.

A WARD MOTOR IS COMPLETELY RE-MANUFACTURED . . . from the pan up, with all of the new parts as listed below.

REBUILDING FEATURES OF WARD REBUILT MOTORS

(A) COMPLETELY DISMANTLED. Every bolt, stud and plug removed. All worn parts are junked. All other parts cleaned and re-sized to original specifications and tolerances.

(B) NEW PISTONS, complete with the finest specially coated New Piston Rings and New Piston Pins.

(C) CRANKSHAFT REGROUND, polished and correctly fitted with re-aligned rods for perfect balance.

(D) NEW MAIN BEARINGS, New Rod Bearings, matched and balanced.

(E) CYLINDER WALLS REBORED to new-motor tolerance, honed to satin finish by precision machines.

(F) SURFACES REGROUND. Cylinder Head (when furnished) and Block Surfaces reground for perfect compression chamber seal.

(G) CAMSHAFT LOBES REGROUND to original-fit tolerances. New align-bored Camshaft Bushings also installed.

(H) NEW TIMING GEAR or New Timing Chain as required.

(J) OIL PUMP where included is completely rebuilt.

(K) BLOCK TESTED. Every Ward Rebuilt Motor must pass rigid factory tests to be approved for installation.

NOTE: Additional parts where included are shown in listing at right—(heads and pans so included are factory installed and gasketed). Where heads, pans, pumps, or other such parts are not included you can re-use parts from your old motor.

A WARD MOTOR COSTS LITTLE MORE THAN AN OVERHAUL . . . ONLY 10% DOWN

WARDS REBUILT MOTOR GUARANTEE. Wards Rebuilt Motors installed in passenger cars are Guaranteed for 90 days or 4,000 miles of operation (whichever occurs first) against any defects in material and workmanship, when motor is installed and run according to instructions included with each motor. Wards Rebuilt Motors for truck or commercial vehicle installation are Guaranteed for 30 days from date of installation if installed and run according to instructions included with each motor. This is identical to a New Car Guarantee.

COMPARE THESE REBUILT MOTOR FACTS. When you buy a rebuilt motor, make sure it's truly a "rebuilt complete assembly" as pictured and not just a "repaired short assembly" most commonly offered. Wards Motors are completely rebuilt from the ground up and precision tested on costly machines.

Features to Check Before Buying Any Rebuilt Motor	Wards Motors	Car-maker's Rebuilt	Usual Low Priced Rebuilt
PISTONS: New Aluminum 4-Ring (except Chevrolet, Pontiac, Stude., 3-Ring)	Yes	3 or 4 ring type	3 ring or used pistons
RINGS: New Segment	Yes	Yes	Cast iron
PISTON PINS: All new	Yes	Yes	Usually not
CYLINDERS: All rebored	Yes	Yes	Usually not
CRANKSHAFT: Aligned and reground	Yes	No	Usually not
BEARINGS: All new	Yes	Yes	Used
VALVES: New or refaced	New	Refaced	Refaced
VALVE GUIDES: All new	Yes	Yes	Used
VALVE SPRINGS: All new	Yes	Yes	Usually not
VALVE TAPPETS: All new	Yes	Yes	Usually not
TIMING CHAIN OR GEAR	New	New	Usually old
CRANKSHAFT GEAR: New	Yes	Yes	Used

NO CONFUSING "TRADE-IN CREDITS." Your old motor is NOT returnable to Wards—thus you save several dollars on return shipping charges. Remember, return shipping charges would cut into any "trade-in" credit Wards might offer. You can sell your old motor locally for as much as Wards could offer you.

SHIPPING INFORMATION. Wards Rebuilt Motors are shipped by Freight from factory near New York City. Allow 10 days extra. Pay shipping charges from factory. Motor shipped in wire-bound crate. Do NOT return old motor to Wards.

ORDERING INFORMATION: *State Make, Year, Model of car, Type of Transmission.* We include: (1) Guarantee; (2) Bill of Sale (send order in name of person who will apply for registration); (3) Installation Certificate (fill out, return).

MOTOR GASKETS . . . McCORD HEAD 1.02; VALVE GRINDING SETS 2.61 for Chev. 1937–53

3 McCORD GASKETS—same nationally known gaskets as used for original equipment on many cars.

COMPLETE MOTOR GASKET SETS. All necessary gaskets for complete overhaul (head, manifold, valve covers, oil pan, outlet connections). Av. ship. wt. set, 2 lbs.

VALVE GRINDING GASKET SETS include head gasket (2 in Ford V-8 sets), manifold and other gaskets required when grinding valves. Av. ship. wt., 1 lb. 8 oz.

CYLINDER HEAD GASKETS are 2 sheets of copper or steel with an asbestos filler, or steel grid type with soft face such as original equipment on Ford V-8. Prices marked with asterisk (*) are for pair. Average shipping weight 1 lb. 10 oz.

EXHAUST PIPE FLANGE GASKETS. Av. ship. wt. each 2 oz.

WARDS GASKETS are equal to or better than original equipment. Meet S.A.E. Standards. Order from table below. MANIFOLD GASKETS, av. ship. wt. 7 oz.; OIL PAN SETS, av. ship. wt. 1 lb. 7 oz.

OVERHEAD VALVE SILENCERS 1.98 for Chev. 6-cyl.

11 Effectively silences clicking noise in motors with overhead valve and rocker arms without the necessity of setting valve clearance adjustment too close. A flexible, durable fabric cushion that will give constant overhead lubrication and also inhibit condensation. Simple and easy to install—just soak cushion in oil and place in position over rocker arm assembly.

61 C 2159—For Chev. 6-cyl. 1930–55. Wt. 1 lb.....$1.98
61 C 2158—For Buick 1936–53, Ser. 40 and 50 (except V-8 models). Ship. wt. 1 lb.....$1.98
61 C 2160—For Ford, Merc. V-8 1954–55. Wt. 7 oz..... 2.98

CYLINDER HEAD ASSEMBLY 34.95 Chev. 1937-50

12 Completely Rebuilt . . . to perform like new. Complete with valves, springs, guides, reconditioned rocker arms, new rocker arm shaft, valves reground or new. Shipped promptly from Factory near New York City—you pay shipping charges from there. *Not Mailable.*

Only 10% Down on Terms . . . see Inside Back Cover.

61 C 2292 F—For Chevrolet 1937–50 (ex. Powerglide). *State Make, Year, Model.* Ship. wt. 80 lbs.....$34.95
61 C 2250 F—For Buick Series 40 and 50, 1939–50. *State Make, Year, Model.* Ship. wt. 100 lbs.....$52.95
61 C 2290 F—For Olds. 1949–50 Rocket 88, 98 (fits either side). *State Make, Year, Model.* Ship. wt. 66 lbs.....$37.95
61 C 2291F—For Olds. 1951 Rocket 88, 98 (fits either side). *State Make, Year, Model.* Ship. wt. 66 lbs.....$41.95

ROCKER ARM ASSEMBLY 2.69 for Chev. 1940-51

13 Rocker Arm Shaft and Bushings Sets. Replace original. Shaft of hardened alloy steel, ground to original car specs. Newest split type bushings. Always replace when installing new rings or other parts.

61 C 426—1937–39 Chevrolet cars and trucks. 2 shafts, 12 bushings. Ship. wt. 6 lbs.....Set $3.39
61 C 427—1940 to early '52 Chevrolet cars and trucks. 2 shafts (no bushings required). Ship. wt. 5 lbs.....Set $2.69
61 C 430—Late 1952–53 Chevrolet cars and trucks. 2 shafts (no bushings required). Ship. wt. 4 lbs.....Set $1.95

NEW WATER PUMPS 2.95 for Ford V-8 1932-36

14 15 To be efficient, an engine must be efficiently cooled. This means your car must be equipped with a Water Pump that is functioning properly. Check now . . , do you need a new one? Why pay "original equipment" prices? Install a brand new Ward Water Pump that's built to equal original equipment in quality and performance—yet it's priced to save you money.

Precision replacements—brand new, not rebuilt. Vacuum tested at factory to higher standards than ever needed in your car. Accurately machined seal faces and hardened steel shafts. All pumps (except for Ford Model A) have automatic spring tension packless type shaft seals—no need to repack. Pumps for certain Fords and Chevrolets are complete with pulleys where so equipped originally. On other models, use present pulley.

All pumps complete with gaskets. Asterisk (*) indicates pre-lubricated ball bearing type—needs no lubrication. Others are grease type—need regular lubrication.

WARDS AUTO UNDERCOATING 1.05 per Gal. in 5-Gal. Cans

Undercoat your car—do-it-yourself and save $20 to $30 labor cost. Protects underside of hood, fenders, frame, etc. from rust and flying pebbles—prevents vibration and noise. Forms tough, durable film that helps deaden road and engine noises—seals seams, nuts and bolts.

Brushes on like paint, or can be sprayed on with gun. Dries in 24 hours. Apply to new or old cars. Simply remove all loose dirt, grease and road gum and apply. 5-gallon can coats average car—or use 1-gallon size for sealing just the seams, fender joints, etc. Use it also on farm machinery, rain gutters, etc. Resists water, road salts. *Mailable.*

61 C 9846 MO—5-Gallon Can. Ship. wt. 50 lbs. $5.25
61 C 9845 M—1-Gallon Can. Ship. wt. 10 lbs.....$1.25

Save at Wards on Like-New Rebuilt Transmissions

"LIKE NEW" REBUILT TRANSMISSIONS

REBUILT LIKE NEW by one of America's leading transmission rebuilders—perform like new.

GENUINE ORIGINAL TRANSMISSIONS. Exactly the same as came in your car. Each is completely disassembled, cleaned and inspected.

ALL WORN PARTS REPLACED WITH NEW PARTS made by leading recognized parts makers. In standard and overdrive, transmissions, all gears, shafts and bearings showing slightest wear are replaced; in automatic transmissions all plates, seals, as well as any other worn parts, are replaced.

TESTED AFTER ASSEMBLY to assure "like-new" performance.

READY TO INSTALL. All you do is add the necessary lubricant. Order Multi-Purpose Gear lubricant on Page 932 for std. transmissions; Automatic Transmission Fluid at right for automatic transmissions.

INSTRUCTIONS INCLUDED showing how to remove old transmission and install new one. Lubrication instructional booklet also included with automatic transmission.

SHIP. INFORM.: Nos. ending in "F" ship. in abt. a week from Chicago Fact., allow trans. time—pay freight from nearest House; "R" means *Not Mailable*. "MO" *Mailable*.

HOW TO ORDER TRANSMISSIONS. *State car, make, year, model, ser. no.* (Example: "1951 Buick 4-door sedan, Ser. 51"; "Plym. 1950 2-door sedan, Model P 23".) Send Full price with order. Where "Exchange" price is shown, return old unit later, *Prepaid*, for difference between Full and Exchange price.

STANDARD TRANSMISSIONS 41.50 for Chev., 1940–48

1 Std. Trans. only; for automatic transmissions, see at right.

COMPLETE KING BOLT SETS 2.29 for Chev. 1939–54

18 Old, worn King Bolts can cause your wheels to shimmy—making steering difficult and causing extra wear on your tires. Replace old parts now with Wards King Bolt set. Quality Chrome Nickel Alloy Steel—hardened, heat-treated, accurately ground for perfect fit. Everything for both front wheels—bolts, pins, nuts, thrust ball bearings, bushings, etc., as pictured. Order below. Average Ship. wt. each set, 3 lbs.

KING BOLT BUSHING REAMERS, REMOVERS. Pictured at left. Needed to install new King Bolts correctly. Proper spiral design for best results. Both ends of cutter reamer ground to act as pilots. Carbon steel, tempered, precision ground. Milled flutes remove burrs. Order below. Av. wt. reamer, each, 1 lb.

CHECK THESE DANGER POINTS FOR WORN FRONT END PARTS

Defective Front End Parts could very easily result in an accident for you. If your car has been steering hard, if your wheels are not in alignment, check these four danger points.

1. Front Suspension parts.
2. Coil Springs.
3. Tie Rod Ends and King Pins.
4. Shock Absorbers.

Let Wards supply you with new Front End Parts. Use our convenient Monthly Payment Plan. See Inside Back Cover.

New Ride Comfort With Wards Shock Absorbers

IT'S WHAT'S INSIDE THAT MEANS BETTER RIDE:

All direct action shock absorbers look alike on the outside, but there can be a mighty big difference inside. Note the larger, heavy-duty working parts in Wards Heavy Duty "Ride King" Shock Absorbers (2) in the cut-away views above:

(A) LARGER DIAMETER ROD (B) LARGER DIAMETER PISTON

(C) LARGER WORKING CHAMBER

. . . means more fluid capacity and increased cushioning action . . . more ride comfort. Choose Wards Heavy Duty "Ride King" Shock Absorbers for a better ride than you ever had from your car's original equipment shock absorbers.

DRIVING DANGERS FROM WORN SHOCKS . . . TEST THEM YOURSELF

Worn out shock absorbers have a number of dangerous effects on your car. The following illustrations and explanations tell you the dangerous effects to look for and how to test your shocks when these effects are observed.

POOR STEERING

If your steering wheel shimmies and shakes and your car is hard to steer the cause may be worn out front shocks. Check your shock absorbers immediately and replace them if worn out.

TIRE WEAR

If any of your tires appear to be wearing unevenly, on one side or in spots, the cause may be worn shock absorbers. Check your shocks immediately and replace them if worn out.

SPRING FAILURE

If your car lists or leans to one side a worn shock absorber has probably resulted in a broken spring. Check shocks and springs immediately and replace if worn or broken.

HITTING TOP

If your head comes close to or hits the top of your car and your car continues to bounce after hitting road bumps your shocks are worn out. Replace them immediately.

BOUNCE TEST

Stand on car bumper and bounce your weight up and down. Jump off suddenly. If car continues to bounce, shocks are worn out—replace them immediately.

LEAK TEST

Put your car on a lift so that shocks are easy to get at. Run your finger around outside of lower cylinder. If oil is present shock leaks—replace it immediately.

FEATURES OF WARDS STANDARD AND "RIDE KING" NEW SHOCKS

MADE BY ONE OF AMERICA'S PIONEER SHOCK ABSORBER MANUFACTURERS. Built with all the latest engineering and design improvements, quality materials, precision machining and exacting assembly to increase your riding comfort and give better control on rough roads and at high speeds. Wards Airplane Type Shock Absorbers have all of these. That's why there's such a big difference in the ride and service you'll get from them. They're held to the same high standards and close tolerances as the finest precision instruments.

LATEST TYPE VALVE ACTION provides increased safety and comfort. A simplified valving that automatically compensates for varying road conditions. Gives spring control proportionate to demands of load and road—provides full range control for all speeds on all kinds of roads. That's why Riversides give you riding comfort even on the roughest roads at all speeds.

HEAVY STEEL CYLINDER finished to gun barrel smoothness, steel rod mirror finished. Hardened piston of finest quality metal with multi-lipped wiping edge to prevent leakage—non-scoring, mirror-finished. Steel control valve in piston is finest spring steel—won't break in use.

SPECIAL FLUID provides constant performance at all temperatures. It's scientifically blended—won't thin out in extreme heat nor thicken in extreme cold.

FACTORY SEALED, electronically welded to prevent fluid leakage.

TOUGH WELD makes stud, cap and rod all "one rugged unit"—eliminates breakage at this vital strain point. Individually tested at the factory for perfect shock absorber pattern—assures uniformity, better riding performance, more ride comfort.

NEW SHOCK ABSORBERS 6.49, 13.25 Pair

1 RIVERSIDE STANDARD SHOCK ABSORBERS. Duplicates original equipment in barrel size and fluid capacity. Built to give you the same ride comfort your car had when it was new. Low-priced for extra savings . . . and you can save even more by installing them yourself.

Simplified modern valving gives good ride control on rough roads, assures long shock absorber life (see Features at left). Replenishing valve provides rapid flow of fluid for maximum shock absorption.

Easy to install—fit exactly. Buy in pairs for best results. Live rubber bushings included. Av. ship. wt. each, 4 lbs.

RIVERSIDE STANDARD SHOCKS. Order below.
Each.....3.49 2 for.....6.49

2 HEAVY DUTY "RIDE KING" SHOCK ABSORBERS—Wards heaviest and largest shock absorber—for toughest service, heavy loads, rough and bumpy roads. Larger working parts (see cut-away view above, explanation at left).

Recommended for bigger, heavier cars that need greatest shock control—and for lighter cars that want big-car shock control for rough roads.

Heavy duty, yet compact to fit cars most ordinary heavy-duty shocks won't fit. Easy to install—fit standard mountings without redrilling or special brackets. Bushings incl. Av. ship. wt. each, 5 lbs.

WARDS NEW CONTROLLED-RIDE ADJUSTABLE SHOCK ABSORBERS 11.95 Pair

3 Adjustable to give you the various riding qualities you desire under all road and load conditions. A "Soft" setting for smooth, well cushioned rides on good roads at reasonable speeds; a "Medium" setting for maximum comfort and stability on moderatley rough roads with a normal load; a "Firm" setting for greatest stability with a heavy load.

Designed to give controlled fluid compression regardless of whether fluid is hot (thin) or cold (thick). Built to give more lasting service and eliminate fading during hard driving—means smoother, more comfortable, driving. Easy to install and adjust. Rubber bushings included.

CONTROLLED-RIDE SHOCKS. Av. ship. wt. pair, 4 lbs. Pair only.....$11.95

Extra-Load Springs...Exact Replacement Springs

TRUCK OVERLOADS 19.95 for Chev. 1947–55 ½ Ton

13 TWO REAR SPRINGS. For ½, ¾, 1, 1½ and 2-ton trucks. Increase your truck's loading capacity the low-cost way with Wards Overload Springs...maximum extra load carrying capacity 4,000 lbs. You'll cut maintenance costs by prolonging the life and efficiency of your present springs. A broken spring can cause serious damage to your truck. Overloads prevent regular springs from flattening, breaking or sagging. Light loads ride on original equipment springs only—overload springs function only when your truck is heavily loaded.

Heavy-duty type. Toughest S.A.E. silico Manganese Alloy Steel. Machine formed, oil tempered. Made to exact specifications. With necessary fittings for easy installation. Set consists of 2 springs. *No's. ending in "M" Mailable, "R" Not Mailable.*

61 C 3289—Set of 4 (2 upper, 2 lower) 79c

HOW WORN OR BROKEN COIL OR LEAF SPRINGS EFFECT YOUR CAR

HITTING BOTTOM. Springs hit car frame when going over bumps—causes severe shocks, discomfort.

WORN TIRES. Worn coil springs cause inner edge of front tire to wear unevenly and excessively.

CAR LISTS. Worn springs cause car to slant to one side—it's hard to steer and hard to control.

ORIGINAL REPLACEMENT LEAF SPRINGS 8.45 for Chev. 1940–48

20 21 If your car leans to one side or jolts against axle over rough areas, your springs need replacing. Always replace in pairs, as paired springs distribute car weight equally to protect against excessive, uneven tire wear. Wards Spring and Main leaves duplicate original in materials, size, shape, fit. Machine forged of toughest S.A.E. alloy steel. Oil tempered and heat treated to assure proper resiliency, uniformity and strength. Rigidly inspected to insure proper arch and fit. Shipped from Stock. Springs below are without covers. CAT. Nos. ending in "R" are *Not Mailable.*

Ship. wts.: Main Leaves, Front, 6 lbs.; Rear, 10 lbs.; Springs, as shown in table.

Check Your Brakes . . . Make Your Own Repairs and Sa

YOUR LIFE MAY DEPEND ON YOUR BRAKES . . . CHECK THEM YOURSELF . . . TODAY

Your brakes are the key to your driving safety . . . check them every 5,000 to 10,000 miles . . be sure you can stop for every emergency. If your brakes fade, grab or squeal, they need attention. The pictures below will help show you what to look for when checking your brakes.

GOOD BAD

BRAKING EFFECT

If brake pedal moves about 2 in. before taking hold, your brakes are in good shape. If pedal moves within 2 in. or less from the floor check brake lining, lines, master cylinder and wheel cylinders.

GOOD BAD

LINING WEAR

Pull car wheels and inspect brake linings for wear. If linings are worn thin or down to the rivets replace them with Wards shoes or linings.

SCORED

BRAKE DRUM

While wheel is off inspect brake drum for scored areas which reduce braking efficiency. Check wheel cylinders for leaks.

WARDS DELUXE QUALITY BRAKE LINING, the best you can buy. Made for Wards by one of the largest and oldest brake lining makers in America. Each set is specifically compounded for each particular type of brake system. Only the best friction materials and resin binders are used in various combinations, correctly engineered to the weight of the car and to differences in the braking system itself . . . they're "balanced" to the requirements of your car, they're laboratory and road tested, assuring you safest braking, longest wear and highest braking efficiency.

WARDS DE LUXE RELINED BONDED BRAKE SHOES 2.98 Exch.—for Chev. 1936–50

1 The quickest, easiest way to renew brakes because lining is already attached to shoes. No drilling or riveting. Wards use only the finest selected shoes for rebuilding and fits them with new De Luxe lining, cement bonded to shoes for bump-free perfect fit braking surfaces. Lining is made with same De Luxe Quality friction materials compounded with same resin-type binders as described above. Wards Brake Shoe sets consists of 4 shoes for 2 wheels. When relining 4 wheels, order 2 sets—fit front or rear unless otherwise stated. Instructions included. Liberal trade-in credit on most sets (for 2 wheels) of old shoes when returned *Postpaid* to Mail Order House. See Page 972. Average shipping weight set 8 lbs.

BRAKE FLUID 69c Pint with Pour Spout

7 8 WARDS SUPREME S.A.E. HEAVY-DUTY BRAKE FLUID. Meets Society of Automotive Engineer specifications. Flows freely at 60° below zero and also withstands Brake fluid temperatures over 300°—prevents vapor lock in brake system. This is very important in summer driving when brake fluids not made to these high standards have a tendency to boil, forming gas, bubbles in lines and causing brakes to fail. Will not corrode or rust brake system parts. Non-evaporating—mixes readily with original fluids in Ford, Chrysler, G.M., Lockheed, Bendix systems.

(7) 61 C 2895—Pint with pour spout. Wt. 1 lb. 8 oz. . 69c
(8) 61 C 2896—Quart. Ship. wt. 2 lbs. 8 oz. $1.19
61 C 2899—½-Gallon. Ship. wt 5 lbs 2.25
61 C 2897 M—Gallon. Ship. wt. 9 lbs. 4.29

9 WAGNER LOCKHEED HEAVY-DUTY BRAKE FLUID. For all hydraulic brake systems. Mixes with all other approved brake fluids.
61 CP 2926—1 Quart. *Postpaid* $2.40

BRAKE BLEEDER HOSES 19c, 98c

10 "ONE MAN" BRAKE BLEEDER. With check valve for easier operation—one man can bleed brakes. 2 thread sizes plus Zerk adapter. With instructions.
61 C 9466—Fits all hydraulic brakes. Wt. 4 oz. 98c

11 BLEEDER HOSE. For exhausting air from hydraulic brake lines after adding fluid.
61 C 2839—Threaded metal fittings. Ship.wt. 2 oz. . 19c

WARDS DE LUXE QUALITY BRAKE LINING SETS 2.69 for Chev. 1936–

2 Made with same De Luxe Quality friction materials compounded with resin-type bi scribed at left. Laboratory and road tested under all possible conditions. Heat and sa sistant. Lining is same or better and will wear as long or longer than that sold by many c at much higher prices. Individually molded and formed to size and curve of brake shoe. D countersunk. All sets listed below include linings for all 4 wheels complete with rivets a tions on how to install, adjust and take care of your brakes.

NATIONALLY KNOWN RAYBESTOS P.G. BRAKE LINING SETS 9.44 for Chev.

3 Made by Raybestos—America's largest brake-lining manufacturer with the greate equipment background and experience. Engineered to fit correctly your particular c Road and laboratory tests assure you a brake lining of very highest quality. Raybestos uniform friction and grip—give you smooth stops and easy pedal. Maintain friction and braking qualities without fading even under terrific heat caused by sudden stops. Stay e extreme wet weather. Each segment individually molded to correct shape. Sets include wheels, rivets, full installation and adjustment instructions. *Shipped Postpaid.*

FOR ALL 4 WHEELS—SHAPED, DRILLED, COUNTERSUNK—RIVETS INCLUDED. AV. SHIP. WT. 2

HYDRAULIC BRAKE HOSE 98c

15 Leakproof. Tested to withstand 5,000 lbs. pressure. Connects hydraulic brake lines to wheel cylinder. Flexible fabric, rubber. Rust-resistant fittings. For Chev. 1935–55; Dodge, De Soto, Plym. 1939–53; Ford, Mercury 1939–53; Olds. 1939–52; Pont. 1937–52. *State Make, Year and Model of Car; state whether Front or Rear.*
61 C 2927—Av. ship. wt. 4 oz. 98c

VACUUM POWER BRAKES AND BRAKE BOOSTER... FOR POSITIVE BRAKING

20 21 QUICKER, SAFER STOPS. Wards Power Brakes and Brake Booster instantly react to pedal pressure bringing you to a fast sure stop.

LESS PEDAL EFFORT. Wards Power Brakes require only ¼ normal pedal pressure, Wards Brake Booster only ½ normal pedal pressure to stop your car.

LESS DRIVER FATIGUE. Less braking effort saves the driver motion and energy, hence less driver fatigue . . . means greater alertness while the car is in motion, greater safety.

EASY TO INSTALL. With only a few common tools you can install Wards Power Brakes or Brake Booster yourself and save the cost of labor. Wards include complete instructions to show you how. We also include a bleeder hose and pint of brake fluid needed when installing Wards Power Brakes or Brake Booster.

SAVE AT WARDS. You don't need to buy a new car to get the greater safety of Power Brakes now on many new cars . . . install Wards low priced Vacuum Power Brakes or Wards lower priced Brake Booster. Wards prices are only a fraction of the cost of new-car original equipment Power Brakes.

WARDS VACUUM POWER BRAKES 26.35

20 SAME VACUUM TYPE as offered on new cars . . . multiplies pedal pressure 4 times . . . greater safety at all speeds and particularly at high speeds when you need the greatest braking power possible. Only a slight pressure on brake pedal instantly puts Wards Power Brakes to work.

An added safety feature of Wards Power Brakes is the built-in hydraulic by-pass that permits normal hydraulic braking at all times, even if your engine isn't running. With fittings, tubing and installation kit. Ship. wt. complete, 18 lbs.

29 EMERGENCY BRAKE CABLE SHORTENER. Tightens slack emergency cable for greater efficiency.
61 C 2921—Ship. wt. 3 oz. 25c

DO-IT-YOURSELF BRAKE TOOLS 69c TO 2.39

30 BRAKE RELINING AND RIVETING SET. Simple and easy to use (see picture A). Drills, countersinks and rivets brake lining to old brake shoes. Includes holder, anvil, knock-out punch, clincher tool, combination drill and counter-bore. May also be used to fasten leather, canvas, etc. with rivets.
61 C 9438—Ship. wt. set 1 lb. 4 oz. ..... 5-Pc. Set 98c

31 ANTI-RATTLER-SPRING PLIERS. Removes and replaces anti-rattler-spring on brake shoe assembly in seconds. Double lip holds spring and washer together—makes removing and replacing a one-hand operation. Eliminates the danger of spring jumping away and being lost or striking you. Made of strong forged steel. About 6½ in. long.
61 C 9410—Ship. wt. 6 oz. $1.69

32 BENDIX BRAKE TOOL. Adjusts star or notched nuts on most late Ford, GM, others with Bendix or Huck brakes. Chrome alloy steel.
61 C 9448—6⅜ in. long. Wt. 3 oz. 69c

33 GOOD QUALITY BRAKE SPRING PLIER. Heat treated alloy steel. Cadmium finish.
61 C 9408—8½ in. long. Ship. wt. 8 oz. $1.49

34 PROFESSIONAL QUALITY BRAKE SPRING PLIER. Removes and replaces brake springs. Corkscrew hook on lower jaw holds spring easily. Gooseneck curved head assures firm grip. One handle grooved for slipping spring over anchor post, other fitted with hold-down remover. Finest heat-treated chrome alloy steel. 13½ in. long.
61 C 9409—Ship. wt. 12 oz. $2.39

35 BRAKE PISTON CLAMPS. Hold pistons in wheel cylinders on hydraulic brake when removing shoes to reline brakes. Saves brake bleeding. Ship. wt. set, 8 oz.
61 C 9460—For all cars, trucks ..... Set of 4, 98c

Do Your Own Lubricating...Save Labor Costs

HI-PRESSURE LUBRICATOR 16.75

1 Portable Hi-Pressure Lubricator for one-man, one-hand operation. Includes special push-handle gun that develops up to 10,000 lbs. pressure for thorough lubrication, and 10-foot hose. Clamps on to any standard 25 to 40-lb. grease pails having a removable cover (won't fit 61 C 8394 MB and 8379 MB gun-filling type pails). Simply remove cover from grease pail, replace with this compact dispenser unit and you have a portable high-pressure lubricator. No electricity or compressed air needed.

Complete Unit consists of gun, hose, easy-action pump, sturdy steel cover and follower plate to prevent channeling of lubricants. Gun is on swivel for easier operation. Special slot on cover holds gun nozzle out of dirt when not in use and always ready to use. Save money—do your own lubrication. For automobiles, tractors, etc. Grease pail not included.

61 C 8579 M—Ship. wt. 14 lbs.....$16.75

COMBINATION GREASER AND GUN GREASE. Hi-Pressure Lubricator above with 25 lbs. of grease. Ship. wt. 42 lbs.

61 C 8592 YB—Lubricator with 25 lbs. High-Pressure Gun Grease (8377MB).....$18.95

61 C 8591YB—Lubricator with 25 lbs. Multi-Purpose Lithium Grease (8393MB)..$20.45

GEAR LUBE DISPENSER 6.49

2 Simply remove the lid from any standard 25 to 40-lb. grease pail and replace it with this dispenser, tighten three screws and it is ready for use. Provides fast, easy transfer of transmission and differential oils as well as heavier lubricants. Eliminates waste and spilling in transferring of lubricants; helps keep lubricants clean.

All-steel valves, sturdy steel handle. Durable pressed steel cover assures tight seal. Heavy-duty, oil-resistant, flexible hose in handy 4-foot length with curved metal nozzle. Fits all gear case filler plug openings. Grease pail not included.

61 C 8578 M—Ship. wt. 8 lbs..... $6.49

COMBINATION LUBE DISPENSER AND MULTI-PURPOSE GEAR LUBRICANT. Same Gear Lube Dispenser as above, with 25-lb. pail of Wards Multi-Purpose Gear Lubricant, specially priced in combination to save you 93c. Use in differential, transmission, overdrive, steering gear. Required for hypoid gears. Wt. 36 lbs.

61 C 8595 YB—Gear Lube Dispenser with S.A.E. 90 Gear Lubricant.....$9.95

61 C 8596 YB—Gear Lube Dispenser with S.A.E. 140 Gear Lubricant.....$9.95

GREASE AND GUN COMBINATIONS 5.98 25 lbs. Grease, 16-oz. Gun

3 Save more on Wards already low prices by purchasing one of these combinations of 25 pounds of Wards Quality Grease in easy gun-filling type pail, complete with grease gun. Pail has threaded opening to fit any gun with 2¼-in. barrel. Just screw gun into opening, pull filler handle and gun is filled—no muss or fuss. Metal follower plate keeps grease packed down, ready for use—eliminates costly waste, keeps grease clean. Grease is waterproof, will not harden or clog fittings. Grease gun develops pressure up to 10,000 lbs. Order combination you wish below.

HIGH PRESSURE GREASE, GUN COMBINATION. 25-lb. pail Wards Quality High Pressure Chassis Grease (61 C 8379MB below). In gun-filling pail. *Mailable.*

61 C 8604 YB—Grease and 16-oz. Grease gun (see below). Ship. wt. 33 lbs..$5.98

61 C 8557 YB—Grease and 23-oz. Grease gun (see below). Ship. wt. 35 lbs..$6.69

MULTI-PURPOSE GREASE, GUN COMBINATION. 25-lb. pail new Multi-Purpose Lubricating Grease (61 C 8394MB below) in gun-filling pail. *Mailable.*

61 C 8605YB–Grease and 16-oz. Grease gun (see below). Wt. 33 lbs.....$7.39

61 C 8555YB–Grease and 23-oz. Grease gun (see below). Wt. 35 lbs.....$8.19

4 WARDS MULTI-PURPOSE LITHIUM GREASE 20c lb. in 25-lb. Pail

Wards Multi-purpose Lithium Grease is economical, does the work of 4 old-type greases—lubricates chassis, water pump, wheel bearings and universal joints. Made with a lithium base for outstanding water and heat resistance—ideal for lubricating farm equipment in hot weather and under wet operating conditions. The adhesive nature of Lithium makes this grease cling so tightly to metal surfaces that water, dirt and dust cannot cause rust damage or pitting; also reduces drippage for less waste and mess. Protects bearings even under very heavy loads.

61 C 8395 L—5-lb. Can. Ship. wt. each 6 lbs.....Each $1.19; 2 for $2.19

61 C 8393 MB—25-lb. Pail. (Not Gun-Filling Type.) Ship. wt. 28 lbs. .....Each 4.95

61 C 8394 MB—25-lb. Gun-filling Pail (as in Item 3 above). Ship. wt. 28 lbs.... 5.39

61 C 8396 F—100-lb. Drum. Ship. wt. 120 lbs..... 16.95

4 GEAR LUBRICANT 18c Lb.; GUN GREASE 14c Lb. in 25-Lb. Pail

MULTI-PURPOSE GEAR LUBRICANT. Conforms to rigid specifications established by the U.S. Army (Specification MIL-L-2105). For all automotive gears (except where engine oil is required)—transmission, differential, steering, etc. Use SAE 80 for very cold weather. See Shipping wts. below at right.

Size Cans	S.A.E. 80	S.A.E. 90	S.A.E. 140

HIGH PRESSURE GUN GREASE. High quality water-resistant chassis lubricant. For all grease guns—pressure pumps. Use on Alemite and Zerk fittings for cars, trucks, farm machines; ideal for caterpillar tracks. See Shipping weights at right.

61 C 8375 L—1-lb. Can.....Each 20c; 12 for $2.15

61 C 8376 L—5-lb. Can.Ea. 75c; 2 for $1.39; 6 for 3.89

61 C 8377 MB—25-lb. Pail 3.49

61 C 8378 F—100-lb. drum..... 10.95

HIGH PRESSURE GUN GREASE in gun-filling pail (see picture 3 above). See Ship. wts. at right.

61 C 8379 MB—25-lb. Pail..... $3.98

WATER PUMP GREASE. Waterproof, non-dissolving. Will not cake, gum or run into cooling system. See Ship. wts. below.

61 C 8385 L—1-lb. Can. 21c 2 for.....37c

WHEEL AND UNIVERSAL JOINT GREASE. A fibrous grease. Oil will not separate. See Ship. wts. below.

61 C 8386 L—1-lb. Can. 21c 2 for.....37c

61 C 8387 L—5-lb. Can. 89c

GREASE SHIPPING INFORMATION. Shipping Weights: (1-lb. Can) 1 lb. 8 oz.; (5-lb. Can) 6 lbs.; (two 5-lb. cans) 12 lbs.; (25-lb. Pail) 28 lbs.; (two 25-lb. pails) 56 lbs. (100-lb. Drum) 120 lbs. Drums shipped promptly by Freight from Warehouse near Buffalo. Other sizes *Mailable* and shipped from Stock in Mail Order House.

WARDS PORTABLE GREASE GUN FILLER 5.49

5 Converts any standard 25 to 40-lb. grease pail with a [illegible] cover into a Portable Grease Gun Filler (won't fit 61 C 8379MB). Simply remove grease pail cover and replace with filler Top, tighten the three screws and it is ready to use. Re[illegible] cap from filler spout, insert grease gun filler valve fitting into [illegible] and fill grease gun by pumping grease gun filler Top handle.

Unit consists of an easy-action hand pump; steel cover and plate to prevent channeling of grease; filler valve fitting [illegible] Wards grease guns (except 61C8575) and all grease guns with [illegible] ed fitting hole; filler spout dirt cap keeps grease free of dirt. Grease and pail are not included.

61 C 8570 M—Shipping weight 7 lbs. 8 oz.....

EXTRA FILLER VALVE FITTING. Screws into all Wards grease gun [illegible] Gun No. 61 C 8575) and all guns with threaded fitting hole.

61 C 8571—Shipping weight 3 oz.....

COMBINATION GREASE GUN FILLER AND GUN GREASE. Fi[illegible] with 25 lbs. of grease priced for savings. Ship. wt. 36 lbs.

61 C 8569 YB—Filler with 25 lbs. High-Pres. Gun Grease (8377[illegible])

61 C 8577 YB—Filler with 25 lbs. Multi-Purp. Lithium Grease (83[illegible])

BARREL PUMPS 21.45 Crank; 4.25 Lever; 3.65 [illegible]

Time saving, easy-to-use Pumps for filling your car, truck or tra[illegible] from barrels or underground storage tanks. Ideal for keeping [illegible] burning home heater supplied with fuel. All have a threaded [illegible] and suction tube adjustable for use in any 15, 30 or 55 gal. [illegible] drum to handle gasoline, alcohol, kerosene, fuel oil, motor o[illegible] non-corrosive, non-rusting liquid. Always ready for use—nee[illegible] ing. Lets you handle oil, gasoline or other liquids without [illegible]

6 CRANK-ACTION PUMP, complete with 8-foot hose. Rotary [illegible] gives a smooth, non-pulsating flow of 10 gal. per min. at ex[illegible] speed .. Ideal for filling station use on drums or barrels. When [illegible] on skid tanks pump becomes portable for easy refueling of mo[illegible] ment. Non-breakable steel crank with hardwood handle; 40-[illegible] pipe; 12-in. discharge pipe with hose holder. Holster keeps w[illegible] dirt out of hose. High extension outlet pipe and 8-ft. hose with [illegible] nozzle. Oil, gas-resistant hose. Self priming. Cast-iron pump p[illegible]

61 C 8476 MB—Ship. wt. 30 lbs. *Mailable*.....

7 HEAVY-DUTY LEVER-ACTION PUMP. Rugged, all-steel con[illegible] Sturdy pump handle. Lever contacts stop on connecting [illegible] prevent any damage to plunger rod. Adjustable telescopi[illegible] tube removes contents from any standard 15 or 55-gal. drum. [illegible] or average measuring can will fit under discharge spout. [illegible] to fit ¾-in. garden hose. (Hose not included. Order 61 C 8488 Ho[illegible]

61 C 8486 M—Rust-resisting finish. Ship. wt. 8 lbs. *Mailable*.....

8 8-FOOT NEOPRENE HOSE. For pumps 61C 8486 above a[illegible] below. Has ¾-in. female coupling on one end—curved n[illegible] spout on other end. Gasoline and oil-resistant. Made of black [illegible]

61 C 8488—Ship. wt. 3 lbs. *Mailable*.....

9 ECONOMY PULL-UP ACTION PUMP. Lift pump type. Ade[illegible] average needs. No priming. One full stroke dispenses about [illegible] liquid. Telescoping tube fits and empties any standard barrel [illegible] Metallic piston and valve for long service. Threaded spout fits [illegible] ¾-in. garden hose. (Hose not included. Order 61 C 8488 Hose [illegible]

61 C 8480 M—Ship. wt. 8 lbs. *Mailable*.....

HANDY PUMP OILERS 1.10 6 oz.

10 12-OZ. HYDRAULIC PUMP OILER. For light or heavy oil. Thumb pressure controls flow. Copperite finished steel.

61 C 8531—Rigid spout. Ship. wt. 15 oz..$1.35

11 6-OZ. TRIGGER PUMP OILER. Easy trigger control releases a stream or a drop. Copperite finished steel. Rigid brass spout with detachable brass tip. Flared base.

61 C 8532—Ship. wt. 14 oz.....$1.10

LEVER-ACTION GUNS 2.49 16 oz.

12 16-OZ. CAPACITY GREASE GUN. Spring-primed grease feed for steady pressure up to 10,000 lbs. any temperature—can't get air bound. Steel. Rust-resistant finish. High-pressure piston, leakproof packing. "Safety stop" saves piston. Lgth. overall 21 in. Knurled, firm-grip barrel 10½x2¼ in. Snap-on hydraulic coupler, curved pipe.

61 C 8560—For all fittings. Wt. 5 lbs...$2.49

13 23-OZ. CAPACITY GREASE GUN. Same type as above, but larger capacity. Length of barrel. 12x2¼ in., 21¾ in. overall.

61 C 8552—Ship. wt. 5 lbs.....$3.15

ALEMITE GREASE GUN

14 ALEMITE LEVER-TYPE. Nationally known. 16-oz. cap., Develops up to 7,000 lbs. pressure. Locking jaws—tighten as grease pressure increases. Spring-primed grease feed keeps constant pressure, ball check stops backflow. Snap-on hydraulic coupler. Knurled barrel. For all fittings.

61 C 8553—Wt. 4 lbs. .$3.15

15 PUSH TYPE GREASE GUN. For cars, trucks, power mowers, home snow plows, washing machines, etc. One hand operation—use in limited space. Swivel-type, snap-on hydraulic coupler locks on at all pressures. Permits 18° angle at any direction. No leaking. Non-rust finish. Closely fitted high pressure steel piston. Threaded back cap with sealing gasket. 4-oz. capacity. Length overall 8¾ in. Ship. wt. 1 lb.

61 C 8575.....$1.49

SUCTION GUN, ACCESSORIES FOR EASY LUBRICATING

16 SUCTION TYPE GUN. For filling or removing lubricant from transmission, differentials, steering gear. Capacity 13 oz. With flexible ½-in. hose about 18 in. long. For lubricants, see above.

61 C 8568—Barrel diam. 1½ in., length 15 in. Ship. wt. 2 lbs. .$1.98

17 GREASE GUN BRACKET. Attaches to shop wall, tractors, implements by 2 bolts. Saves gun from damage, clogging. All steel.

61 C 8598—Fits all guns listed except (15). Ship. wt. 1 lb.....67c

18 FLEXIBLE BALL LINK METAL HOSE with hydraulic coupler. For out-of-way places that solid pipe grease guns can't reach. ⅛-in. male pipe thread fits on any lever gun.

61 C 8603—Shipping weight 12 oz.....$2.95

19 FLEXIBLE RUBBER HOSE. For positive connections at hard-to-reach fittings. Reinforced rubber—withstands high pressures. About 12¾ in. when attached to snap-on coupler. Ship. wt. 3 oz.

61 C 8602—Fits all guns with ⅛-in. female pipe thread.....$1.29

20 6-IN. ANGLE PIPE WITH SNAP-ON ADAPTER. Ship. wt. 4 oz.

61 C 8601—For hydraulic grease fittings. ⅛-in. thread.....69c

SNAP-ON COUPLER

Fits all hydraulic fittings. Leakproof contact. Fits all lever type, most ball check grease guns. Ship. wt. 3 oz.

61 C 8597.....45c

L RESERVOIR GREASE CUP. Lengthens time interval between lubrications. Gradually feeds lubricant to bearing by spring pressure. Follower plate pushes grease through orifice. Easy to install. Fill with regular grease gun. ⅛-in. pipe thread.

61 C 8589—Ship. wt. 2 oz. . Each 39c

Save Now at Wards on Oil and Filter Cartridges

WARDS SUPREME PENNSYLVANIA MOTOR OIL 17c Qt. in 55-Gal. Bbls.

21 Refined from Bradford-Allegheny Pennsylvania crude oil—the finest and costliest pure crude oil obtainable.

FLOWS FREELY AT ALL MOTOR TEMPERATURES. Low pour point plus double dewaxing means free flowing, easy starting even in the coldest weather. TRIPLE FILTERED to free oil from impurities that form power-robbing carbon deposits; that corrode bearings and other finely ground moving parts.

CARRIES SEAL OF PENNSYLVANIA GRADE OIL ASSOCIATION—a symbol of quality.

State SAE Grade Wanted. 10W, 20-20W, 30 or 40. Order from Table below.

WARDS HEAVY-DUTY VITALIZED MOTOR OIL 16c Qt. in 55-Gal. Bbls.

22 For severest service ... high speeds, long distances, extreme climates. ENGINE-TESTED ADDITIVES ... with extra amounts of *vital chemical compounds* added to oil to keep motor cleaner, lessen impurities.

QUALIFIED UNDER MIL-L-2104A—a military Heavy-Duty specification.

MEETS AMERICAN PETROLEUM INSTITUTE SERVICE CLASSIFICATIONS MS AND DG. (MS): service typical of gasoline or other spark ignition engines under severe types of service conditions and where there are special lubrication requirements for deposit or bearing corrosion control. (DG): service typical of Diesel engines where there are no severe requirements for wear or deposit control.

SAME TYPE AS RECOMMENDED BY AUTO MAKERS where Heavy-Duty oil is specified for passenger cars. Also recommended for use in all other engines.

State SAE Grade Wanted. S.A.E. 10W, 20-20W or 30. Order from Table below.

SAVE MONEY ... BUY IN LARGE QUANTITIES. "Per Quart" column in table shows how little each quart costs when you buy in different quantities listed.

WARDS NEW ALL-SEASON MOTOR OIL 26c Qt. in two 10-qt. cans

23 5W-20 or 10W-30. Won't thin out at high temperatures, free-flowing at low temperatures. Low viscosity permits faster cranking in coldest weather with less engine friction; yet in warmest climates it's as heavy as ordinary summer weight oil. "Adjusts" to sudden rise or fall in temperature. Vital in "stop-start" driving as it permits quick, free-flowing lubrication. Heavy-duty quality assures proper lubrication of hydraulic valve lifters, detergent action for less carbon formation, less engine heat to protect bearings, lasting oil film to prevent excessive wear caused by metal-to-metal contact.

State SAE Grade Wanted—5W-20 OR 10W-30. SAE 10W-30 is recommended for year 'round use in all sections of the country, except in those climates where continued sub-zero temperatures are encountered. In these areas SAE 5W-20 should be used. Ship. wts. 1 qt., 2 lbs.; Case of 24, 55 lbs.; one 10 qt. Can, 20 lbs.; two 10 qt. Cans, 41 lbs.

WARDS PLEATED PAPER OIL FILTER CARTRIDGES 78c Each in sets of 6 ..for Ford, Merc. 1939-53

25 Install Wards New-Treated Paper Oil Filter Cartridges now—change regularly to protect engine from damaging wear caused by dirt, grit, sludge, etc. These new cartridges assure you better oil filtration, longer service and easy cartridge removal.

1—An especially made resin treated paper designed for longer life and service—will not distort or collapse—keeps filtering properties longer.

2—Pleated filter paper gives uniform oil filtering action, trap, and removes abrasive metal, carbon, sludge and muck, of the minutest degree, from the oil. Will not hinder detergents in the oil.

3—Resin treated waterproof and acid resistant felt at external ends of cartridge form a seal against internal by-passing, channeling and preserves oil filtering qualities.

4—Steel roll-seamed ends and perforated 30 gauge steel case for easy oil flow and rigid support.

5—Perforated steel center tube—corrugated, welded for added strength—cannot collapse under pressure.

6—Heavy "full-grip" bale lift, where required, for quick, easy removal.

All cartridges listed in tables at right are Wards New Pleated Paper type except those marked (†) which are cotton sock waste-filled types and meet original equipment specifications. Gaskets included where needed. Av. ship. wt. for New Pleated Paper types, each 1 lb.; for Cotton Sock Waste-Filled types, each 1 lb. 4 oz. Extra savings when ordering 3 or 6.

ECONOMY FILTER CARTRIDGES 59c Each

(Not shown.) Filled with long staple cotton fiber, treated to neutralize acids, assures filtration and prevent oil channeling. Metal shell has sufficient perforations to allow an adquate flow of oil. Change cartridges regularly—save wear on engine.

HOW TO ORDER. Order by make and year from the Table below if your car is equipped with the original equipment filter specified. Ship. wt. 1 lb.

HOW TO ORDER OIL FILTER CARTRIDGES. Order by make and year from Table "A" if your car has the same original equipment filter specified in column marked "Original Filter." On listings marked "Optional" your car may have a different filter than specified, in which case you should order by filter make and model from Table "C". If your car is not listed, order from Table "C". Order tractor cartridges from table "B" by make and model.

Save at Wards on Like-New Rebuilt Generators

REBUILT LIKE-NEW

1 Original equipment generators, completely rebuilt as described below for "like-new" service. Duplicate originals in quality, power output. Same heavy-gauge wire used as in original. With instructions. Read below how completely Wards rebuild generators.

8-POINT REBUILDING PLAN

(A) DISASSEMBLED, CLEANED. Worn parts replaced with new.

(B) ARMATURES AND FIELD COILS tested for electrical efficiency. If necessary, new insulated pre-wound magnetic wire is installed. Armatures varnished, baked.

(C) NEW LEAD WIRES and Terminals.

(D) COMMUTATORS are machined for perfect brush operation.

(E) BEARINGS replaced if original show wear.

(F) NEW ARMATURE LAMINATIONS installed when needed.

(G) BRUSH HOLDERS re-insulated or replaced with All New Carbon Brushes installed, adj. and fitted.

(H) BENCH TESTED for performance, rated output, overload.

HOW TO ORDER

GENERATORS, STARTERS

(1) Send old starter or generator Postpaid, with exchange price, or (2) Send full price plus postage—return old unit later Postpaid, for refund. Must be complete, assembled, unbroken. (3) State Make, Year, Model of Car when ordering Generators or Starters with Cat. Nos. ending in K or KB shipped promptly from Chicago Factory.

WARDS REBUILT GENERATORS 8.95 (Exch.); REBUILT STARTERS 8.25 (Exch.) for Chevrolet 1940–48

NOTE: Improperly operating voltage regulators or cut-outs are the main cause of generator failure. They can result in a burnt out generator or even ruin your battery. Don't waste your money. Don't re-use an old regulator. Replace it at the same time that you replace your generator. Save more by ordering Generator-with-Voltage Regulator. See table below for complete listings.

EXPLANATION OF SYMBOLS IN TABLE: ‡With cut-out instead of Regulator; †Not for models with automatic transmission; *State Make and No. on metal tag or name plate which you will find on old Generator or Starter.

2 REBUILT ORIGINAL EQUIPMENT STARTERS. Completely torn down, tested and reassembled for "like-new" service . . . to give faster starts for longer battery life. Duplicate originals in quality and service. All have new brushes, machined commutator and new bushings. All other worn parts are replaced or rebuilt. Starter drive assemblies are included, except for Ford and Mercury.

Average Ship. Wts.: Generator Only 22 lbs.; Generator with Control 23 lbs.; Starter 22 lbs.

IGNITION TOOL KITS, HANDY SPARK PLUG SERVICE TOOLS

14 PROFESSIONAL SPARK PLUG WRENCH. Chrome plated alloy steel 12-point broaching permits short turns (30°). Ship. wt. 1 lb. 6 oz.
61 C 9424—13/16 in. for 14mm. plugs.....95c

15 SPARK PLUG WRENCHES. Drawn steel, rust-resistant zinc plated. Ship. wt. 3 oz.
61 C 9421—⅞ in. for 18 mm. plugs.....24c
61 C 9422—⅝ in. for 10 mm. plugs.....24c
61 C 9423—13/16 in. for 14 mm. plugs.....24c

EXTRA LONG SPARK PLUG WRENCH. (Not pictured.) Like above but 8 in. long for deep-set plugs in Chrysler, Dodge, DeSoto, 1955 Ford; also all other cars with 14 mm. plugs. Wt. 5 oz.
61 C 9425—13/16 in. for 14 mm. plugs.....79c

16 GAP GAUGE. For spark plugs, contact points. 9 tapered 3½-in. blades, sizes .015 to .035.
61 C 9431—Electrode adjuster. Wt. 2 oz.....59c

17 POLYKEN PLASTIC COATED TAPE. Waterproof, weather-resistant. For electrical or other jobs. Dielectric strength 2000 volts. ¾ in. wide, 22 ft. long.
61 C 9713—Ship. wt. 2 oz.....39c

18 IGNITION POINT WRENCH. Removes, installs locking nut on movable point in 1953–54 Chev. distributors.
61 C 9457—Ship. wt. 2 oz.....98c

19 NEW SPARK PLUG GAPPER—For faster, more accurate gapping. Insert correct thickness gauge, press handle—plug gap is set. With 5 No. 1 hard steel gauges—.025, .030, .032, .035 and .040. Wt. 6 oz.
61 C 9434—Aluminum alloy . . . $2.98

20 PLASTI-KOTE IGNITION SPRAY—eliminates short circuit in wet ignition system in 5 minutes. Seals out moisture. Lasts 6 to 9 months. One can treats 3 cars. Ship. wt. 8 oz.
61 C 9838.....6-oz. can 89c

21 ECONOMY IGNITION TOOL KIT. Includes 8 stamped offset steel wrenches (size 13/64 to ⅜ in.), thickness gauge; point file; insulated screw driver; spark plug setting tool with 6 gap gauges.
61 C 9455—12-piece Kit in plastic roll. Ship. wt. 7 oz.....95c

22 PROFESSIONAL IGNITION TOOL KIT. 9 wrenches (sizes 13/64 to ½ in.), pliers, insulated screw driver. Wrenches, pliers forged from high quality chrome alloy steel. Pliers have 4 adjustments.
61 C 9456—11-piece Kit in plastic roll. Ship. wt. 8 oz.....$4.95

REBUILT STARTER DRIVE ASSEMBLIES

4 Worn parts replaced with new parts. Complete with new drive spring. Average ship. wt. 1 lb. 12 oz.

61 C 1396—For Ford 1929–54 (except 60-HP, 1949 6-cyl. and Ford-o-matic), also all Mercury (except Merc-o-matic) and Lincoln-Zephyr.....$2.35

61 C 1397—For Chevrolet, Pontiac 1938–54; Buick, Oldsmobile 1939–53.....$1.98

61 C 1398—For Plymouth, Dodge 1935–42; Chrysler, DeSoto 1935–48.....$1.98

61 C 1389—For Plym., Dodge 1946–52 2.98

61 C 1389—For Kaiser, Frazer, Packard 6, 1948–52.....$2.98

61C1388—Jeep, Willys 1933–50. Ex. 1948 2.49

STARTER SWITCHES

5 Replacement Solenoid Starter Switches. Heavy-duty. 6-volt type. Replace original equipment perfectly. Insulated base. Use own dash switch, wire. Wt. 14 oz.

61 C 1323—For Ford 1937–50; Merc. 1939–51 . . . $1.09

61 C 1325—Ford 1951–55; Kaiser, Frazer 1949–51; Lincoln, Mercury 1952–55.....$1.09

61 C 1326—Dodge, Plymouth 1946–55; Dodge V8 1953–55.....$1.19

AUTOMATIC START

6 Starts stalled engines quickly when you shift to no more reaching for key at busy intersections, etc. Necessity as low idling speeds, to vent creeping, make engine susceptible to stalling after stops and climatic changes operates from vacuum. Very easy to install—just insert the "T" in vacuum line; attach one wire to switch, one to starter. Complete wiring, instructions. For use with either automatic or standard transmission. Ship. wt. 10 oz.
61 C 1334—For Auto. Trans.
61 C 1335—For Std. Trans.

WARDS IGNITION COILS FOR CARS, TRUCKS 2.95 for Chev. 1947–55

7 WARDS SUPREME QUALITY. Gives top performance because it's made with extra heavy windings, insulation. Electrically balanced for maximum high speed performance, minimum battery drain. Ship. wt. 3 lbs.

WARDS IGNITION TUNE-UP ASSEMBLIES 75c for Chev. 1935–52

27 28 29 Weak coils and worn out rotors, condensers, points or caps can cause faulty ignition. Experience has proved it is better to replace ALL these parts at the same time for best performance.

Wards offer three kits: Kit (27) consists of coil, rotor, condenser, point and distributor cap; Kit (28) consists of rotor, condenser, points and distributor; Kit (29) consists of rotor, condenser and points only. Equal in quality to original ignition parts in your car. Coil in kit (27) is Wards Supreme heavy-duty on opposite page. Points have tungsten disc contact surfaces permanently welded to breaker arms—deliver full spark for best combustion. Condensers fully tested for correct capacity.

Shipping weights: Kit (27) with coil 3 lbs.; kit (28) 10 oz.; kit (29) 4 oz.

Wards Include with each Ignition Tune-up Kit a Gap Gauge of the proper thickness for setting correct point gap on car which kits fit.

Fit Only Car Years, Models Listed Below, Trucks Where Stated. (*) Indicates no rotor	27 Coil, Cap Points, Rotor, Condenser		28 Cap, Points Rotor Condenser		29 Points, Rotors, Condensers

SPARK PLUG WIRE SETS

30 Wards Riverside Waterproof Spark Plug Wire Sets. Molded in one piece like original equipment on late model cars. Combination connector and insulator. Provides water-tight, dust-tight seal at wire to plug connection. Fast, sure starts in cold, wet, hot or humid weather. Neoprene-covered—oil, gas resistant. All come complete with clips, rain guard nipples where used and are made of 7-M, 16-ga. 19-strand copper wire. Ship. wt. per set, 1 lb. 8 oz.

61 C 6488—For Chev. 1929–55, 6-Cyl. Cars and Trucks ...Set $1.69

61 C 6485—For all Other 6-cyl. 1933–55 Cars Except Chrysler with deep wells.....Set $2.19

61 C 6484—For all Other 8-cyl. 1933–55 Cars Except Chrysler with deep wells.....Set $2.69

SPARK PLUG WIRE 7c Foot

31 Same high tension wire as Riverside sets above. 16-gauge, 7 mm., 19 strands—same as original equipment. Heat, short resisting. Single braiding, 24 coats of lacquer. *State quantity.*

61 C 6477 H—Per ft. Wt. 1 oz.....7c

100-ft. Spool Wt. 4 lbs. 8 oz.. $5.65

MONTHLY PAYMENT PLAN

New Ignition Parts and New Spark Plugs can improve the running of your car. Order now the equipment that you need. When cash is not convenient you may find it helpful to use Wards Monthly Payment Plan. If you already have an account use your Add-on privileges. See inside back cover for details.

SPARK PLUG WIRE KIT 35c

Consists of 12 solderless distributor clips, 10 solderless angle snap-on terminals and 10 neoprene distributor nipples.

61 C 6468—Ship. wt. 4 oz.....35c

SAVE GAS, RESTORE POWER WITH NEW SPARK PLUGS

Spark plugs are a vital component of your car's engine. Dirty, worn out plugs waste gasoline. Each time a plug misfires, all the gasoline introduced into that cylinder charge is lost. Wasted gasoline dilutes crankcase oil, impairs lubrication, causes greater engine wear.

Car and truck manufacturers recommend NEW SPARK plugs for every 10,000 miles. New plugs provide a full spark for complete combustion—soon pay for themselves in: (1) Easier, faster starting; (2) Restored engine power; (3) Snappy acceleration; (4) Smoother engine performance; (5) Good gas mileage (economy). Check your car's spark plugs today.

WARDS SUPER SPARK PLUGS 65c Each in Sets of 4 or More

Wards finest 14 mm plug. Guaranteed to last as long and perform as well as any plug made. Improved features give a hotter spark, longer electrode life, better plug cooling, longer gap life . . . for easier starting, gas economy and peak engine efficiency. Larger electrodes for longer life. Aluminum oxide insulator for better heat dissipation, greater resistance to carbon deposits. See "How To Order" below. Gap gauge (A) included with sets of 4, 6 or 8 plugs.

Will not fit 1955–56 Ford, Mercury, Lincoln—see below.

61 C 1580—*State Make, Year, Model of car; Quantity Wanted.* Ship. wt. ea., 6 oz.
Set of 4.....$2.60 Set of 6.....$3.90 Set of 8.....$5.20 Single Plug.....69c

WARDS RIVERSIDE SPARK PLUGS 43c Each in Sets of 4 or More

Perform as well as Original Equipment. Long center electrode for long gap life. Ceramic insulator reduces hard starting due to leakage. "Thermo-sealed" shell. See "How To Order" below. Gap gauge (A) pictured above included with sets of 4, 6 or 8 plugs.

61 C 1585—*State Make, Year, Model of Car; Quantity Wanted.* Ship. wt. ea. 6 oz.
Set of 4.....$1.72 Set of 6.....$2.58 Set of 8.....$3.44 Single Plug.....49c

(A) GAP GAUGE included with sets of 4 or more Ward plugs. 6 gap sizes for all plugs.

WARDS NEW TRIPLE-ELECTRODE SPARK PLUGS 4.98 Set of 8

FOR 1955–56 FORD, MERCURY, LINCOLN. A new 18-mm. plug designed specifically for these Cars. Three electrodes, arranged to shield insulator, eliminate lead fouling; the greatest cause of plug misfiring. Concave-ground side electrodes run cooler and wear at an amazingly slow rate. Should last about 2½ times the life of a standard single electrode plug. Assure *positive* ignition for flash starting, snappier acceleration, maximum power, smoother idling, increased mileage, higher top speed. Jet aircraft type Alumina insulator for rapid cooling, better electrical properties. Accurately gapped—never need regapping.

61 C 1586—Ship. wt., set of 8, 1 lb.....Set of 8, $4.98

CHAMPION AND AUTO-LITE PLUGS 83c Each in Sets of 4 or More

CHAMPION. Made by World's largest spark plug company. Proved superior by test in all applications. New electrode of high temperature resistant alloy for longer life.

61 CP 1588—*State Make, Year, Model of Car; Quantity Wanted. Shipped Postpaid.*
Set of 4.....$3.32 Set of 6.....$4.98 Set of 8.....$6.64 Single Plug.....87c

AUTO-LITE. Ignition-engineered to meet the demands of today's high-powered engines.

61 CP 1582—*State Make, Year, Model of Car; Quantity Wanted. Shipped Postpaid.*
Set of 4.....$3.32 Set of 6.....$4.98 Set of 8.....$6.64 Single Plug.....87c

HOW TO ORDER SPARK PLUGS—(1) State Cat No. of Plug, quantity wanted. (2) State make, year and model of car, truck, tractor, motorcycle, outboard motor, etc. (for Ford V-8 state HP). (3) State Service Wanted: (a) *Severe*—for high speeds, high compression, hot climate, heavy loads, long hauls. (b) *Normal*—original equipment type for average driving with motor in good condition. (c) *Moderate*—slow speeds, low compression, cold climates.

TOP CYLINDER OILER . . . TUNE UPS . . . LUBRICATION ADDITIVES . . . LUBRICATION ACCESSORIES

32 WARDS TOP CYLINDER OILER. Meters oil directly into intake manifold for fast, sure lubrication of top engine parts—retards ring, cylinder wear. Helps stop sticking valves. Holds 1 quart. With 1 quart Wards Engine Tone below included. For cars, trucks, tractors.

61 C 8549—Easy to install. Ship. wt. 5 lbs.....$6.95

33 WARDS VITALIZED ENGINE TONE. An upper cylinder lubricant. Helps to increase motor's life and give better mileage. Forms piston ring seal, dissolves ring gum, helps prevent sticky valves. A gasoline additive only—pour into carburetor intake, upper cylinder lubricators or gas tank. Ship. wt. ea. 1 lb. 4 oz.

61 C 8430—Pint Can.....45c; 6 for $2.59; 12 for $4.79

34 CASITE SOLVENT. Cleans out sludge. For use in crankcase or through carburetor.

61 CP 8438—*Shipped Postpaid*.....1 Pint $1.00

35 ALEMITE CD-2. Tunes up, cleans entire motor. For use in gas tank or crankcase.

61 CP 8429—*Shipped Postpaid*.....1 Pint $1.35

36 PYROIL. Lubricates, cleans entire motor. *Postpaid.*

61 CP 8436—12-oz. Can. One crankcase treatment.72c

61 CP 8435—Pint Can. For gas tank.....89c

61 CP 8431—1 qt. Pyroil "A". For Gas Tank.....$1.69

61 CP 8432—1 qt. Pyroil "B". For Crankcase..... 1.69

37 GUNK DEGREASER. A solvent. Dissolves grease. Will not harm paint. Non-toxic, non-flammable.

61 C 8439—Quart Can. Ship. wt. 2 lbs. 8 oz.....89c

38 GUMOUT CARBURETOR CLEANING KIT. Clean carburetor economically and fast without removing it. Dissolves all gum, dirt in carburetor. Offers smoother performance.

61 CP 9850—Gumout Kit (not shown). With 1-Pint can of Gumout and fittings for running it directly into carburetor. *Postpaid*.....$3.95

61 CP 9851—1-Pint Can of Gumout only. Pour directly into gas tank. *Postpaid*.....$1.50

39 LIGHT MACHINE—GENERAL PURPOSE OIL. For motors, guns.

61 C 8427—4-oz. can. Wt. 5 oz.....20c

61 C 8425—1-Qt. Can. Ship. wt. 2 lbs. 4 oz.....39c

61 C 8425—Two 1-Qt. Cans. Ship. wt. 4 lbs. 8 oz.....69c

40 GASOLINE CAN. Flexible 8-in. strainer spout fits inside bright Red steel can when not in use.

61 C 8517—1-Gal. Wt. 1 lb. 12 oz...69c

61 C 8525—2-Gal. Wt. 2 lbs. 4 oz...98c

41 42 POUR SPOUTS. For Mason jars. Tinned metal. With gasket.

61 C 8501—5½-in. Straight. Wt. 3 oz.20c

61 C 8500—8-in. Flexible. Wt. 4 oz.33c

43 8-IN. FLEXIBLE SPOUT. Fits 2-Gal. and 10-Qt. cans. Makes pouring easier—less waste, less mess.

61 C 8528—Wt. 6 oz.....24c

44 U.S. LEGAL GALVANIZED LIQUID MEASURE. Leakproof, rust-resistant. Long flexible spout.

61 C 8526—1 quart. Ship. wt. 1 lb. 4 oz.....$1.39

61 C 8527—2 quart. Ship. wt. 1 lb. 10 oz.....$1.59

61 C 8534—4 quart. Ship. wt. 2 lbs. 6 oz.....$1.89

45 FUNNELS. Zinc coated—rust-resistant, leakproof. Top rim prevents spilling. Ship. wt. 2 and 3 lbs.

61 C 8545—5⅛-in. diam..69c

61 C 8547—7⅞-in.diam$1.00

46 2½-GAL. GAS CAN. Red solderless steel. Flexible metal spout—clamps on can. Oil measuring cup included.

61C8518—Bucket-type handle. Wt. 3 lbs. 8 oz.....$2.29

Chains, Battery Aids...Only 10% Down on Terms

WARDS FULL WHEEL TIRE CHAINS 6.95 6.00-16 Supreme

1 Made of strong case hardened steel with electrically welded cross chains for long wear, uniform strength. With positive locking fasteners. Wire chain attacher included with each set for easy, quick installation.

(A) Reinforced Lug-Grip Type. For heavier duty, longer life, best traction. The chains with TEETH—bite into snow and ice. *Mail.*

(B) Supreme Quality Link Type. Gives all around good traction. *Mailable.*

WARDS CONVENIENT MONTHLY PAYMENT PLAN

If you are short of cash and wish to make a purchase from this catalog you can do so by opening a Wards Monthly Payment Plan Account. For details see Inside Back Cover of this book.

BATTERY CHARGER ACCESSORIES AND TESTERS

2 BATTERY QUICK-BOOST CABLES. Connects service battery to battery of a stalled vehicle for "quick-boost" starting (See "C" at left). Ideal for service stations, garages, farms. A "must" for automatic transmissions. Two 8 ft. plastic-covered flexible copper cables and heavy clamps with insulated handles. Ship. wt. pair, 5 lbs.
61 C 6521 ..... Pair $5.45

3 4 BATTERY CABLES. Meet or exceed original specs. Round cables (3) No. 1-ga. copper wire. Braided straps (4). No. 2-ga. Lead-alloy coated heavy terminals. Av. ship. wt. 1 lb.

(3) Battery to Starter Switch Cables. Round insulated. See description above.
61 C 6444—19 in. $1.09
61 C 6456—24 in. 1.25
61 C 6446—31 in. 1.49
61 C 6448—42 in. 1.79
61 C 6452—65 in. 2.49

(4) Battery to Frame. Braided. Round listed at left.
61 C 6439— 6½ in. 59c
61 C 6440— 9 in. 65c
61 C 6441—11 in. 75c
61 C 6442—13½ in. 85c
61 C 6443—16½ in. 89c
61 C 6455—24 in. $1.05

5 BATTERY HYDROMETER. Accurate, easy-to-read. Tells at a glance whether battery needs to be recharged. Float gives specific gravity reading. Temperature correction scale assures corrected specific gravity reading—necessary because acid density changes with temperature. Rubber tip, plug.
61 C 6405—2-oz. cap. rubber bulb. Ship. wt. 8 oz. $1.39

6 7 CHARGER PLUG-INS. Replace battery charger clips. You can charge battery in your car without raising the hood. Ideal for cars with hard-to-reach batteries. Instructions.

(6) Lighter Socket Plug-in. Plugs into cigarette lighter socket.
61 C 6510—6-Volt. Rubber shield. Ship. wt. 4 oz. 95c

(7) Dash Mount Socket and Plug-in. Socket mounts permanently on dash. Just plug battery charger into socket. Polarized.
61 C 6503—6-Volt. Ship. wt. 6 oz. $1.19

8 BATTERY CELL TESTER. A precision instrument with one-hand grip handle. Locates weak cells; shows voltage under load; cell condition. Special alloy shunt places a 200-amp. load on battery during test. Galvanometer type meter tests cell regardless of polarity of battery. Heavy-duty, adjustable contact points.
61 C 6418—For 6 or 12-volts. Ship. wt. 2 lbs. $3.98

9 BATTERY CHARGER BULB. For 105–110-V AC chargers. 6-amp. Tungar type for wall or stand charger. "Mogul" base.
61 C 6498—Guaranteed 1200 hours. Ship. wt. 9 oz. $2.85

10 BATTERY JUMPERS. Pin type. Rubber covered wire. Use to connect while charging 2 or more batteries at same time.
61 C 6419—12 in. lg. Ship. wt. 13 oz. ..... Pkg. of 3 for 75c

WARDS NEW MARINE-UTILITY POWER PACK 21.45

11 Battery carrying case with a built-in 6-V battery charger made especially for electric-starting outboard motors. Can also be used to charge car batteries. Keeps battery fully charged and protected from water. Switch offers full or trickle charge rate. Socket for plugging in a trouble lamp, flasher signal or radio. GreyHammerloid enameled finish over a heavy steel case. 64-in. extension cord with plug—use in 105–120 volt, 50–60 cycle AC outlet. Size: 8½x10½x14¼ in. long.
61 C 6505 M—Ship. wt. 12 lbs. $2.50 Down on Terms or Cash $21.45

BATTERY CHARGERS 8.65 to 114.50

12 13 14 For Home, Farm or Garage. Keep your battery charged all the time—make it last longer. It's easy with a Ward UL Approved Battery Charger. Simply connect clips to battery occasionally and let it re-charge overnight, without removing battery from car. Costs under 1c per hour to operate. Hang or set charger wherever convenient—attach clips to battery—and plug cord into 105-120 volt, 50-60 cycle AC outlet.

Wards offer a Charger of correct size for the car owner, service station, garage or farm. All except 4-amp. and 12-V sets have numeral dial ammeter to indicate charge rate. Automatic circuit breaker protects charger against overloading, reversed connections. With cord, leads, clips. Steel case. Battery cord about 5 ft.; outlet lead about 5½ ft.

6-VOLT HOME, GARAGE TYPE CHARGERS: For 6-V batteries.

(12) 61 C 6500 M—4-Amp. Charge Rate—tapers to 2 amps. Delivers up to 40-ampere hours overnight. Ship. wt. 6 lbs. ...

(13) 61 C 6501M—6-Amp. Charge Rate—tapers to 3 amps. Delivers to 60-amp. hr.—50% faster than 4-amp. Wt. 8 lbs. ...

61 C 6502 M—10-Amp. Charge Rate—tapers to 5 amps. Delivers to 100-amp. hr.—2½ times faster than 4-amp. Wt. 10 lbs. ...

61 C 6504 M—20-Amp. Charge Rate—tapers to 12 amps. Delivers up to 200-amp. hours—5 times faster than 4-amp. size. Full charge in 1½ to 2½ hours. Charges 1 battery at 20 amps., 4 batteries at 5 amps.; or trickle charge maintains up to 60 batteries ready for charge. Ship. wt. 17 lbs. ...

(14) 61 C 6499 M—10-Amp. 1–2–3 Battery Charger. Rotary switch with easy-to-read numeral dial ammeter lets you charge 1, 2 or 3 batteries at one time, and at full 10-amp. rate. Tapers to 5 amps. May also be used for charging 12-volt batteries. Ideal for small service stations, small garages and for farms. Has carrying handle. Ship. wt. 18 lbs. ...

12-VOLT CHARGERS: For 1953-55 cars with 12-volt systems, cars trucks, etc. Charge one 12-volt or two 6-volt batteries.

61 C 6509 M— 3-Amp. Charge Rate. Ship. wt. 5 lbs. ...
61 C 6507 M— 6-Amp. Charge Rate. Ship. wt. 11 lbs. ...
61 C 6508 M—10-Amp. Charge Rate. Ship. wt. 12 lbs. ...

TWO-IN-ONE 6-12-VOLT CHARGER. Similar to above for 6 and 12-V. batteries. Ship. wt. 7 lbs.
61 C 6511M—4-Amp. Charge Rate. ...

15 GARAGE TYPE 1-TO-12 BATTERY CHARGER. For 6- and 12-volt batteries. UL Approved. Charges 1 to 12 six-V or twelve-V batteries at safe maximum 6-amp. charge rate. Heavy steel case. Hinged front permits easy access to inside.

Heavy-duty transformer gives full output with minimum heating. Selector switch has silver-tipped contact. Dual circuit switch provides proper range of charging rates for 1 to 12 batteries. Plug type fuse. Ammeter: 0 to 8-amp. DC on-off.

Case size: 12x7x9½ inches. For 110-115 volts, 50-60 cycle only. Complete with rectifier bulb, instructions. *Mailable.*
61 C 6496 M—Wt. 29 lbs. $5.00 Down on Terms ..... Cash ...

16 PORTABLE 80-AMP. FAST CHARGER. UL Approved. For 6- and 12-volt. Fully automatic; 60-minute timer; full-wave life Selenium rectifier (no bulbs); 4 position switch—for 6- and 12-V batteries at 80, 65, 50 or 10-amp. rate or 12-V. batteries at 32, 24 or 5-amp. rate. Automatically reduces to trickle ...

Steel case 8½ x 7 x 18 in. high (with legs). Gray hammer finish. Carrying handle, cable brackets, exposed Chrome screws. Cooled by 6-in. fan. 8-ft. flexible battery leads, 5-ft. cable. For 110-120-volt, 50-60 cycle AC. Mailed prompt. Factory near Cincinnati, O.—you pay postage from there.

9/16 in.	½ in.	61C7985	75c

19 to 20 AUTO DOOR GASKETS. Designed to duplicate original. Highest quality sponge rubber. Easy-to-install—no tools required. It seals—it silences—it cushions. Sold in 7½-foot rolls only. Door gaskets have a factory-applied adhesive. However, to insure a stronger, more lasting, weatherproof seal use the Perma-Tite Adhesive (21) listed below for a permanent bond.

(19) 61 C 7987—For 1937-48 Ford, Mercury, Lincoln. Ship. wt. 9 oz. 85c

(20) 61 C 7986—For all 1939–55 Chevrolet, Oldsmobile and Pontiac; 1939–53 Buick; 1940–55 Chrysler, Dodge, DeSoto and Plymouth; 1949–55 Ford, Mercury and Lincoln; 1939–55 Studebaker. Also adaptable for most other cars. Shipping weight 11 oz. 88c

21 PERMATITE ADHESIVE. For permanently bonding rubber to metal, glass, wood, etc. Has exceptional tack and strength. 5-oz. Tube.
61 C 7990—Ship. wt. 7 oz. 55c

22 PORTABLE ALL-WEATHER COVERS—the garage you carry in your car trunk. For cars, boats, farm implements. Protects finish from rain, snow, fog, salt air, sun, etc. Slips on or off in a few seconds. Stays pliable even in subzero weather. Won't dry out or deteriorate with age.

(22) 61 C 7778—All Plastic Cover—DuPont polyethylene. Elastic band on bottom holds cover securely in place. Size: 227x168 in. Wt. 6 lbs. $11.45

61 C 7702—REINFORCED PLASTIC COVER (not shown). Made of DuPont polyethylene reinforced with fabric. Stronger and more durable than 61 C 7778 above. Resists tears and repels water. Grommets and draw strings provide a snug fit and hold cover securely in place. Size: 258x168 in. Wt. 9 lbs. $19.95

23 HOOD-LINERS. Glass fiber insulating "blanket" for lining inside of hood. Quiets motor sounds, protects against cold and heat, reduces hood shimmy. Permanent and fire resistant. Easy to install. With instructions, cement.
61 C 8509—Best Quality. Two 15x36x1-in. thick strips. Ship. wt. 2 lbs. $1.59
61 C 8510—Better Quality. Two 15x36x½-in. thick strips. Ship. wt. 1 lb. 89c

24 AMMETER. Heavy-duty universal type for cars, trucks—6, 12 and 24-volt. Registers 0 to 30 amperes minus and plus. Magnetically shielded steel case with stainless steel trim. Black dial, white numerals. Withstands vibration.
61 C 8128—Clamps on dash. Ship. wt. 8 oz. $1.35

25 "KAR START" SPARK BOOSTER. Helps start car on coldest mornings. Boosts spark five times. Provides intense spark the instant starter is pressed to start wet or cold engines immediately. Will not damage spark plug, distributor or starter. Prevents needless battery wear. Instructions and terminals. Wt. 7 oz.
61 C 1332—6-Volt. ..... $4.25; 61 C 1331—12-Volt. $5.25

26 SNOW BRUSH, ICE SCRAPER. Plastic bristles, scraper, rubber squeegee.
61 C 9856—Hardwood handle. 26¾ in. long. Ship. wt. 5 oz. 69c

Speed Up Refueling

REFUELING—STORAGE TANKS 94.50 Complete unit

Now available at Wards . . . everything you need to speed up refueling of trucks and tractors . . . and for storing gasoline safely away from your valuable farm buildings. Refueling Units eliminate slow, laborious hand-filling and help reduce fuel costs by permitting you to buy fuel in bulk purchases.

Choose (1) Refueling Tanks with heavy steel stand, (2) Underground Storage Tanks to keep fuel cooler, more volatile, or (3) Portable Storage Tanks for refueling tractor right in the field.

Tanks shipped in about 10 days by Freight or Truck from Fact. near Minneapolis, Minn.—pay freight from there. Allow transit time. Accessories with Cat. Nos. ending in "T" shipped from Stock in Chicago—you pay postage only from Baltimore or Albany.

27 FARM KING REFUELING UNIT. Gravity feed 300-gallon, 14-gauge steel tank with 2-inch fill-vent cap; 10-foot neoprene hose with static wire; bronze hose nozzle; locking outlet valve; tank gauge; heavy steel stand; 2 barrel racks (barrels not included). Red enameled finish. Shipped unassembled. Wt. 270 lbs.
61 C 12422 F—$9.50 Down on Terms.....or Cash $94.50
61 C 12421F—TANK ONLY. Same tank as in unit above, but without steel stand and barrel racks. With 2-inch pipe thread hole in top and 1-inch hole at bottom. No fittings. Wt. 220 lbs.....$49.95

28 UNDERGROUND FUEL TANKS. Keep fuel cool, prevent evaporation, help retain volatility for quicker starting. Asphalt-coated. Two threaded 2-inch pipe holes in top. No fittings.
61 C 12423 F—300-Gal. Tank. 14-Gauge. Wt. 225 lbs.....$49.95
61 C 12424 F—560-Gal. Tank. 12-Gauge. Wt. 455 lbs.....89.50

29 PORTABLE STORAGE TANK. For refueling tractors right in the field. Can be mounted on skids, if desired, and carried in pick-up truck right to the field. 20x48x28 in. high. Two 2-in. openings on top, one 1-in. outlet in front. Lifts (handles) on each end.
61 C 12420 F—Capacity 120 gallons. Ship. wt. 135 lbs....$44.50

30 LOCKING VALVE. Automatically relieves pressure on hot days. 1-inch pipe threads (male on inlet, female on outlet).
61 C 12409 T—With steel eye for padlock. Ship. wt. 2 lbs....$3.98

31 HOSE NOZZLE. Self-closing, quick acting, leakproof.
61 C 12407 T—Female 1-in. pipe thread fitting. Wt. 2 lbs. $5.95

32 NEOPRENE HOSE. Weather and gas-resistant. Static wire grounds static electricity. Threaded brass fittings. Wt. 7 lbs.
61 C 12408 T—1-In. Hose. Male 1-in. pipe fitting. 10 ft. long.. $6.50
61 C 12410 T—¾-In. Hose Male ¾-in. pipe fitting. 8 ft. long.. 3.95

Save on Tractor Work Aids

WARDS TRACTOR LIGHTS 2.95 TO 7.95

33 3-WAY TRACTOR-IMPLEMENT WARNING LIGHT. Two mounting brackets for easy interchange of light on two different implements. 4-in. red plastic rear lens and amber forward lens with red side reflectors. 22-ft. heavy-duty cable with male plug. Spool holds wire.
61 C 12507—6-Volt. Ship. wt. 4 lbs. 8 oz.....$7.95

34 TRACTOR-IMPLEMENT WARNING LIGHT CONNECTOR SOCKET. Mounts on tractor for above implement light. Spring held dust cover. Corrosion resistant. Neoprene wire connection boot.
61 C 12508—6-Volt. Ship. wt. 5 oz.....$1.39

35 TRACTOR SPOTLIGHT. With G.E. sealed unit of 40,000 C.P. Swivel base and handle for instant adjustment to any position. Heavy-duty; waterproof. 4½-in. diam. head. Gray enameled. With built-in switch. Adjustable bracket.
61 C 12503—6-volt. Ship. wt. 2 lbs. 4 oz.....$3.95

36 5-IN. DE LUXE TRACTOR FLOOD LAMP. G.E. sealed beam unit, has amazing reflecting ability. Angle-focusing on ground illuminates large rectangular area with strong light at top of pattern for distance. Fits tractors with ball type bracket. Replaces original equipment on Minneapolis-Moline, Oliver, Massey-Harris—others. Stud bolt, nut mounting permit use on other tractors. Black enameled steel.
61 C 12500—6-volt. Ship. wt. 2 lbs.....$2.95

37 5-IN. DOUBLE-DUTY TRACTOR FLOOD, TAIL LAMP. 2 bulbs—1 red (1½ CP) to act as tail light, 1 white (32 CP) to act as work light. 3-way switch (off-Red-White). Black enameled steel body, stainless steel rim. Adjustable bracket.
61 C 12502—6-volt. Ship. wt. 2 lbs. 8 oz.....$3.45

COMPLETE 3-LAMP SET. With wire. Consists of one 12502 lamp and two 12500 lamps listed above.
61 C 12501—Ship. wt. 7 lbs.....$8.95

WARDS TRACTOR SEAT CUSHIONS

38 CUSHIONS FOR FARMALL. Replaces or fits over Farmalls originally equipped with foam rubber seats. 1 in. of shock absorbing foam rubber in waterproof cover of strong, durable vinyl-coated leatherette on drill. With drawstring. Size 18x19 in. Western pattern in 2-tone gray-red color.
61 C 12516T—Ship. wt. 5 lbs.....$5.95

39 SEAT-SHAPED CUSHION. Wards finest tractor cushion. 2-in. rubberized curled hair bonded to 1 in. of foam rubber—comfortable and shock-absorbing. Durable plastic-coated fabric top, Duck bottom. Rot-proof thread stitching. Drawstring flap keeps it in place. 19x21 in.
61 C 12512—Ship. wt. 4 lbs.....$6.75

40 REVERSIBLE SHREDDED FOAM RUBBER CUSHION. Green-orange plastic on one side for cool rainy days and green duck on other for hot sunny days. Absorbs shocks for added comfort. Drawstring flap for fastening to tractor seat and rustproof brass eyelets. Size 19x21x4 in.
61 C 12509—Ship. wt. 4 lbs. 8 oz.....$3.95

41 TRACTOR COOL CUSHION. Filled with interwoven spring wire—lets air circulate between tractor seat and driver to reduce perspiration from lack of circulation. Open-weave multi-color fiber cover. Durable leatherette trim; drawstring for fastening to tractor seat. Fits all bucket-shaped tractor seats. Size 22x22 in.
61 C 12518—Ship. wt. 2 lbs.....$3.49

42 CUSHION FOR JOHN DEERE A, B, C, GM, 40, 50, 60, 70. 4-in. shredded foam rubber on 1 in. of bonded foam rubber—absorbs shocks for added comfort. Plastic coated fabric. Plywood base. 19½x14⅝ in. Brass box corners.
61 C 12515—Ship. wt. 6 lbs. 12 oz.....$9.95

TRACTOR RADIO 77.50

43 Specially designed for use on all farm tractors. A powerful, high quality radio with enough volume to offset disturbing and distracting tractor noise. Brings you news, market reports, weather forecasts, sporting events, etc., while working.

7 tubes (two dual purpose) plus power rectifier for clear reception. Operates on 6 volts, draws 7.5 amps. 6x9-in. speaker with a large permanent magnet.

Multi-Section Telescoping Antenna made of triple chrome plated brass extends from one to six feet for long range reception. Weatherproofed enameled steel case. 10½x7x9 in. Dust and moisture tight locking cover—protects dial, knobs and speaker. Shock-proof base adapts to standard 1-in. pipe. 1-ft. mounting pipe, flange included. Wt. 23 lbs.
61 C 12601T—Only $8 Down on Terms.....or Cash $77.50

AIR COMPRESSOR SPRAYER COMBINATION

47 Portable Electric Combination Air Compressor and Sprayer—ideal for farm and orchard use. Tank air capacity 10 gallons (or 8 gallons of spray solution). Can be used for spraying insecticides, weed-killer or white-wash, as well as for regular air compressor uses (tire inflating, pressure greasing, etc.). Unit will produce a steady spray for 30 to 40 minutes away from an electric outlet, if beginning pressure is at 100 lbs. Has special air agitator to keep spray solution mixed. To use as an air compressor only (after use as a sprayer) drain spray solution from tank, close liquid valve and open air valve. Easily cleaned.

15 ft. of corrosive-resistant hose, drain plugs, 1-ft. spray rod with brass nozzle and spring loaded control valve, 10-in. rubber wheels, handle with skid-bar. Permolite treated tank resists acid and corrosive solutions. ½ HP motor; 8½-ft. cord; maximum pressure 100 lbs.; air displacement 3.50 cubic ft. per minute; delivered air 1.2 cubic ft. per minute. Size overall 26x11x24 in. Shipped promptly from Stock.
61 C 9090 R—Ship. wt. 110 lbs. Only $30.00 Down on Terms.....or Cash $149.50

WARDS TRACTOR WATER PUMPS

48 WATER PUMP FOR JOHN DEERE TRACTORS. Thermostat controlled, pre-set at 160 degrees, permitting use of alcohol anti-freeze. Reduces gasoline expansion for better gas mileage. Bronze, self-lubricating and circulating bearings for trouble-free service. Easily installed. Pulley belt included. Shipped promptly from Factory near Davenport, Iowa. You pay shipping charges from there.

For John Deere A Series 488,000 and up to 60 Series; B Series 201,000 and up to 50 Series; G Series 26,000 to 44,000. *State tractor year and model.*
61 C 10863 F—Av. ship. wt. 20 lbs.....$38.95

49 WATER PUMP FOR FORD, FORD-FERGUSON, FERGUSON. Like original. Sealed pre-lubricated ball bearings. Av. ship. wt. 6 lbs.

WARDS NEW TRACTOR CARBURETORS 15.95

7 Brand new replacement carburetor that will help restore power efficiency and gas economy. Moving parts in a carburetor are subject to fairly rapid wear. Choke shaft wear admits extra air resulting in poor fuel efficiency and possibly allows harmful dirt to be carried into engine; throttle shaft wear causes poor idling resulting in wasted fuel. Replace worn carburetor now. Ship. promptly from Factory in Chicago. Av. wt. 8 lbs. *Mail.*

Fits Following Tractors and Models: Case R, RC, RI, S, SC, SI, SO, V, VC, VI, VA, VAC, VAI, VAS; Allis-Chalmers B, C, CA, RC, WC, WF, WD; John Deere All (except 50, 60, 70); Ford, Ford-Ferguson All; International Harvester A, AV, Super A and AV, B, BV, Super B, C; Massey-Harris All (except 55, 55K, 101, 201); Minn.-Moline All Models (exc. UT, 21-32 FTA, KTA); Oliver All (exc. 70 HC, 70; KD).
61 C 11064 K — *State Make, Year, Model* of Tractor as listed above. $15.95

WARDS NEW TRUCK CARBURETORS 18.95

8 Brand new truck down draft single carburetors—not rebuilts. Made by nationally known manufacturers of truck carburetors. Offers full mileage, improves speed, power, pickup, starting and idling. Replaces original equipment exactly. Mailed promptly from Factory in Chicago—you pay postage from there. Wt. 6 lbs. 8 oz. *Mailable*.

State Truck Make, Year and Model.

61 C 1625 K—For Diamond T 1933–51, Dodge 1935–54, G.M.C. 1933–55, IHC 1934–53, Reo 1935–52, Studebaker 1935–55 and Willys 1946–51. ..... $18.95

Rubber, Canvas and Leather Belting...Only 10% Down

ROLLED EDGE RUBBER BELTING . . . 32-OZ. 59.95 6 In. x 50-Ft. Belt

Lakeside (Better) Quality. Equal to any Rolled Edge Rubber Belting available. U.S. Standard 32 oz. long fiber high tensile strength American Cotton Duck saturated with rubber. Steam, water, heat and coldproof—acid-resisting. Flexible for sure traction; efficient power. Pre-stretched Duck, folded. Rolled edge won't fray; withstands abrasion and moisture. For separators, harvesters, saw mills, pumpjacks, grinders, etc. Not recommended for hammermills. Endless belts 3 ft. shorter than shown. Belting by-the-foot laced without extra charge if requested—see below. Read "Important Ordering Information" below. For Made-to-order Special Length Belts see below. *Belts up to 70 pounds are Mailable. State width and length wanted.*

RAW EDGE RUBBER ENDLESS BELTS . . . 33-OZ. 76.95 6 In. x 50-Ft. Belt

Wards Master (Best) Quality Hammermill Belt—best for high speed. 33-oz. hard woven Duck. Four ply, about 3/16 in. thick. Straight cut raw edges wear longer, stand more strain than rolled edges. Continuous wrapped construction—not spliced, no joints to weaken or come apart. Pre-stretched, impregnated with fresh live rubber—heavily friction surfaced. Heavy-duty U.S. Standard 33-oz. hard woven Duck—has 20% greater tensile strength, and 50% less stretch than regular Duck, means longer life. Endless belts are 3 feet shorter than shown. Make allowance when ordering endless belts. Read "Important Ordering Information" below. *Belts weighing up to 70 lbs. are Mailable. Others shipped by Freight, Truck or Express.*

IMPORTANT ORDERING AND SHIPPING INFORMATION FOR ALL BELTS AND BELTING

Order Correct Size. Determine length around outside of first pulley, around outside of opposite pulley and back. Use steel tape or rope—do not stretch. Standard length endless belts listed above are about 3 feet shorter than listed size due to splice; order belt 3 feet longer than needed. Belting by the foot is cut to exact length. Belting up to 5 in. wide should be ordered 1½ in. narrower than pulley width; 6 to 12-in. belting 1 in. narrower than pulley. *State exact width, length wanted.*

SPLICING. Wards can furnish special length made-to-order endless belts. Rubber belts have vulcanized splice; canvas belts are sewed; leather belts are cemented. Include extra splicing charge shown at right (splicing charge includes extra material needed for splice). Order belt exact length needed. Rubber belting shorter than 8 ft. cannot be vulcanized. Allow extra time for splicing. No C.O.D. orders.

LACING. Belting by-the-foot will be laced at no extra charge. Be sure to order exact length wanted. *State choice of Wiregrip or Steelgrip lacing.*

SHIPPING INFORMATION: Belts with asterisk (*) or Suffix "TO" shipped from Baltimore, "KO" from Philadelphia. For spliced belts, see table. Others shipped from Stock.

Choose Wards Ornamental Lawn Fence for Beauty a

GALVANIZED LAWN FENCE AS LOW AS 17¾c TO 38c Per Ft.

America's most popular lawn fence for homes, gardens, and parks. Strong, rigid—all wires galvanized steel. Your choice of Double or Single Picket Style in woven or welded construction.

1 2 WOVEN PICKET. Heavy 9½-gauge crimped picket wires. Horizontal line wires made of two 13-ga. wires, tightly twisted around each other and each picket. Single and double picket fence has line wires spaced about 6 in. apart, except for 2 top cables 2⅜ in. apart. Double picket (picture (1) above) has pickets spaced 3 in. apart at top, 1⅜ in. at bottom. Single picket (picture (2)) has picket wires spaced 3 in., the entire height of fence.

3 4 WELDED PICKET. Like woven picket above, but made of lighter 11-gauge galvanized wires throughout. Joints are welded smooth where wires cross—requires less stretching. Line wires have tension crimp. Single and double picket welded fence has 1st and 2nd line wires from the top spaced 4 in. apart—2nd and 3rd wires 5 in. apart. All others are spaced 6 in. apart.

The Double Picket (picture (3)) has picket wires spaced 1⅜ in. apart at bottom, about 3 in. apart at top. Single Picket pictured in (4) has picket wires spaced 3 in. apart the entire height of fence.

Either style furnished in cut lengths or full rolls of 100 ft. Ship. wts. see table at right. Shipped promptly from Stock. *State height and number of feet wanted.*

GALVANIZED CHAIN LINK FENCE 34½c TO 67

5 Most satisfactory steel fence for strength, wearability tection—safeguards your home and garden, ideal parks, institutions. Uniformly stronger than any other . . attractive . . easily spliced. Galvanized steel wires locked, allowing free action at the joints, easy to tight and straight in every part. To splice, simply wire of one length and rewind through ends of two weave is unscalable.

Both the 11-gauge heavy-weight fence and 9-gauge heavy-weight fence are galvanized after weaving. longer service, are much more durable than chain link is galvanized before weaving. The coating of zinc weaving gives the best possible protection against rust rosion because the wires are completely sealed. Cut and bottom are all coated with zinc . . no uncovered and corrosion to get an easy start.

Chain link fence is sold in continuous lengths up to table at bottom page for ordering posts and top rail most permanent and attractive installations. Shipped from Mail Order Stock by Freight, Truck or Express. *and number of feet wanted.*

ORNAMENTAL STEEL FENCE POSTS

Give Your Fence the Added Strength and Beauty that means longest wear with Wards Galvanized Ornamental Steel Posts. Available for both woven or welded picket and chain link fence, in types for use with or without top rail. Made of heavy-gauge steel pipe, zinc coated to give protection against rust and corrosion. All necessary fittings and braces included—you have nothing extra to buy—everything comes in one package at one price. Also included are easy-to-follow instructions for setting up posts and stretching fence. Posts shipped promptly from Stock by Freight, Truck or Express.

How to Order—Read Carefully: Corrugated "U" or Tubular line Posts may be used for either chain link or picket fence. For End, Gate and Corner installation, order 2-in. O.D. Tubular type only. Posts for Chain Link are listed in separate tables. Top rail listed separately at right, may be used with either type of fence, but you must order "posts for fence with top rail" as indicated. For proper installation, set posts no more than 8 to 10 ft. apart.

Corner, End and Gate Posts: Tubular style only. Order 2½ ft. higher than fence ht., as they should be set in 2½ ft. of concrete for best and longest-lasting fence.

Line Posts: Either Tubular or Corrugated. Order 2 ft. higher than fence ht. Tubular style should be set in 2 ft. of concrete; Corrugated style have anchor plate, and need no concrete.

LAWN FENCE INSTALLATION KIT AVAILABLE ON LOAN

18 Kit includes special tools needed for building lawn fence purchased from Wards—Post Hole Digger, Stretcher, Clamp, Level, Fence Pliers and instructions. WOOD PICKET FENCE 8-FT. PANEL 5.98 3 ft. high

24 Now you can have a good looking, long lasting picket fence without building it yourself, picket by picket. Pickets made of California Redwood, rails or stringers Pine, all prime coat dip painted white. Just set the posts and nail the section ends to them, add matching gates, sold separately below, and lawn is fenced.

Fence comes in 8-foot Sections or Panels, your choice of two heights, two picket sizes (see table below). Pickets form a straight top fence. Smaller pickets are spaced 2½ inches apart, larger size 3 inches apart, and nailed to position on top and bottom rails. Reinforced by two diagonal braces. Posts for fence are 6 ft. long. Order the same posts for end, line, or gate—all are 1⅝ in. by 2⅝ in. Corner posts are larger, 3⅝ by 3⅝, to take extra strain.

Gates in sizes to match fence panels, braced to prevent sagging. Pickets are same size and spaced like panels. Rails and braces match fence. Shipped from Factory near Lansing, Michigan. Allow Factory about 5 days plus time in transit. You pay transportation charges from Factory.

USE WARDS CONVENIENT MONTHLY PAYMENT PLAN

Buy your fence now, pay only 10% down, balance in convenient terms over many months. For full details on Wards Monthly Payment Plan, and tables of terms, see inside back cover of this catalog. It will show how you can beautify your lawn now without great financial burden, pay as you enjoy the security and protection a well-fenced lawn can provide for you and your family.

Stock and Poultry Fence...Electric Controllers

STOCK FENCE LOW AS 11.35 Bale 26 in.

Wards Stock and Poultry Fence is galvanized with a coat of pure zinc, bonded so tightly it is practically part of the wire itself, applied so uniformly that it won't chip or flake off even when wrapped around its own diameter. Heavy-duty "Hinge Joint" construction—each vertical wire wrapped a full 1¾ times around horizontal wires. Knots won't spread, slip or pull apart—fence resists crowding or "riding" by stock, won't bend or stretch out of shape. Adapts to contour of the ground, contracts and expands with variations in temperature. All line wires have a deep, heavy crimp to give additional protection against sagging, maintain tension under varying conditions. All wires are full gauge as specified, conform to industry standards. Stock fence comes in full bales of 20 Rods (330 ft.); Poultry Fence in full bales of 10 Rods (165 ft.). Shipped promptly from Stock in Albany, N.Y., by Freight, Truck or Express. You pay transportation costs from shipping point. *Not Mailable.*

BARBED WIRE 5.19 80-rod spool

3 American and Imported Barbed Wire. Finest quality open-hearth steel wire, heavily galvanized to resist rust. Extra sharp barbs will not slip or twist—ideal for electric fence because barbs penetrate hair. Equalized tension winding—both cables carefully wound to pull together. Imported Wire from mills in Western Europe. Guaranteed full gauge. Sold only in 80-rod spools (1320 ft.). Both shipped from Stock in Albany, N.Y. by Freight, Truck or Express. See shipping information on pages 970 and 971.

STEEL FENCE POSTS 69c TO 1.08 lots of 50 or more

WARDS STEEL FENCE POSTS may be used for barbed or woven wire or for electric fence installation. One man can set them easily; fence retains rigidity because of firm hold in the ground, strengthened by anchor plate. Steel posts permit burning of brush along fence line. The enamel finish guards against weather deterioration. Choose the post below that best fits your fencing needs. Shipped promptly from Stock in Albany by Freight, Truck or Express.

23 PUNCHED ANGLE STEEL POST. 1¼ by 1¼ by 9/64 in. rail steel. Anchor plate holds firmly. *Not Mailable.*
87 C 9600 R—Enameled red. *State height and quantity.*

Ht. of Post	Ship. Wt.	1 to 49 Each	50 or more Each
5 ft.	6 lbs. 4 oz.	71c	69c
6 ft.	7 lbs. 4 oz.	82c	80c
6½ ft.	7 lbs. 12 oz.	88c	86c
7 ft.	8 lbs. 8 oz.	93c	91c

SELF FASTENER ANGLE POSTS. 1¼x1¼x9/64-in. high carbon steel. Like picture 23 but with lips instead of punched holes—fence wire is put in place and lips are tapped down to hold; no staples necessary. Allows quickest attachment of fence to post. *Not Mailable.*
87 C 9602 R—Enameled Red. *State quantity, height.*

Ht. of Post	Ship. wt.	1 to 49 Price Ea.	50 or More Each

SEE WARDS 1956 FARM BOOK for complete line of fence, field and garden gates, trellis, borders and heavy-duty fence tools. Also full listing of beekeeping supplies. Mail coupon on Page 949 today and get your copy of this special Catalog.

Special Prices on Early Day-Old Chick Orders

EARLY PRICES SAVE UP TO 1.00 per 100 chicks

Orders for day-old chicks placed during January and February—through February 29, 1956—will save you up to 1c per chick, and you may have your birds delivered any time before June 30. Simply place your order, specifying time of delivery wanted, and deduct ½c per chick (50c per 100) on 2-Star; ¾c per chick (75c per 100) on 3-Star; and 1c per chick ($1.00 per 100) on 4-Star chicks, from prices shown in tables at right.

Wards Day-old Chicks are from U. S. Pullorum, Typhoid Clean parent stock. This means that all flocks have been tested for Typhoid and Pullorum Disease (B.W.D.) and have had no reactors in two consecutive tests made at intervals of six months. All flocks are leg-banded by State Authorized Testing Agents—your assurance of healthy chicks.

4-STAR CHICKS are the result of 16 years of mating carefully selected pure-bred hens with pedigreed R.O.P. males from some of America's finest breeding farms—such as Parmenter, Hannah, Holtzapple, Creighton, etc.

3-STAR CHICKS are next in quality to Wards 4-Star grade, and receive a rich strain of the pedigreed blood from both parents, since they are direct descendants of 4-Star or comparable flocks.

2-STAR CHICKS are descendants of 3-Star and 4-Star flocks or flocks of equal quality, and have benefited by the up-breeding trend in the entire program, though they have no direct pedigreed ancestry. Ideal for all-purpose flocks.

As-Hatched chicks run about 50% Pullets. For full description see Wards 1956 Farm Book.

IMPORTANT SHIPPING INFORMATION

Day-old Chicks are *shipped prepaid* by Parcel Post only. Be sure to state 2nd choice of breed if possible. On cockerel orders, we reserve right to ship as hatched chicks unless otherwise notified. 50% down payment is required on C.O.D. orders. Hatchery will ship as near date requested as possible and will notify you of exact date. No orders for sexed chicks accepted after July 1.

WARDS DAY-OLD CHICK GUARANTEE

We will replace without charge any shortage of chicks due to loss in shipment. We will also replace at ½ price all loss over 5% during the first 2 weeks of brooding, provided proper care and equipment are used. All claims must be filed within 17 days after arrival. In case of mistake in breed, grade or sex, we refund the difference between cost of chicks ordered and those received. Wards are not responsible for any amount greater than cost of chicks. 95% accuracy guaranteed for sexed chicks.

INFRA-RED BROODERS PROVIDE EFFICIENT, EASIER CHICK CARE—GET BIGGER PROFITS, REDUCE LOSSES

Clean, penetrating, radiant heat warms only chicks or objects within infra-red rays, not surrounding air. Chick mortality is lower; litter stays dry; chicks in full view, will not crowd. Also for pigs and lambs. Use anywhere a quick, spot heat is needed. Complete with 250-watt, clear glass, infra-red bulbs. For 110 to 120-volts. AC. Enameled steel fixtures, wire guards. All UL Approved except Nos. 3998 and 3944 which have UL cord and socket.

(R) SINGLE-BULB UNIT. Metal hood gives extra protection to bulb. Fixture 10½-in. diam. For 75 to 100 baby chicks.

87 C 3998 M—Ship. wt. 6 lbs. 8 oz.....6 for $20.95; Each $3.69

SINGLE-BULB UTILITY UNIT. Fixture 6⅞-in. diam. For 75 to 100 baby chicks. With steel strap guard.

87 C 3944 L—Ship. wt. 2 lbs. 8 oz.....6 for $18.50; Each $3.25

TWO-BULB UNIT. 5¼ by 24 in. For 150 to 200 baby chicks.

87 C 3806 M—Ship. wt. 6 lbs. 8 oz.....6 for $33.95; Each $5.98

THREE-BULB UNIT. Fixture 15⅜-in. diam. Manual switch turns off 1, 2 or 3 bulbs. For 225 to 300 baby chicks.

87 C 3808 M—Ship. wt. 9 lbs.....6 for $50.95; Each $8.95

(T) FOUR-BULB UNIT. Our most popular listing. Positive-acting thermostat control for 3 bulbs, 1 bulb remains on at all times. 15⅜-in. diam. fixture. For 300 to 400 baby chicks.

87 C 3809 M—Ship. wt. 9 lbs.....6 for $64.95; Each $11.45

(U) SIX-BULB UNIT. Heavy-gauge fixture, 12 in. wide, 60 in. long. Thermostat control for 3 bulbs; three remain on at all times. For 450 to 600 baby chicks. *Not Mailable.*

87 C 3822 R—Ship. wt. 25 lbs.....6 for $110.95; Ea. $19.50

(V) G.E. INFRA-RED BULB. Clear Glass. Lasts up to 5000 hours.

87 CP 4053—250-watt. *Postpaid*.....7 for $4.20; Each 75c

WARDS INFRA-RED BULB. Clear glass. Lasts up to 5000 hrs.

87 C 3811—250-watt. Ship. wt. 12 oz.....4 for $3.69; Ea. 98c

87 C 3816—375-watt. Ship. wt. 12 oz.....4 for 4.75; Ea. $1.29

WARDS INFRA-RED BULB. Pyrex glass. Won't break if water splashes it. Filter to reduce glare. Lasts up to 5000 hours.

87 C 3813—250-watt. Ship. wt. 12 oz.....4 for $8.95; Ea. $2.49

GLASS SUBSTITUTES—STANDARD VI-O-PHANE 13¼c . . . CEL-O-GLASS 27½c Per Ft. in 100-ft. rolls

Six basic types for seasonal (winter) or year 'round replacement of windows and doors, storm windows; for hot beds, cold frames. Keep out rain, snow, hail and wind; hold heat in. Use in hog and poultry houses, dairy barns, to enclose porches. Economical for extra storm sections of doors, basement windows—may be tacked over screen. Lightweight, easy to handle—cut with scissors. Install with wood or fiber strips nailed over edges to keep wind from tearing material. Also use Vinyl Glass or Polyethylene for inside storm windows. Cut to fit frame and fasten with masking tape. Order from Table. *Mailable.*

DUPONT CEL-O-GLASS. Our finest and strongest. 14-mesh galvanized wire, coated on both sides with cellulose acetate. Lasts up to 7 years; costs about $1.92 for average door. Admits ultra-violet rays; glareproof, diffuses sunlight in a soft glow. Translucent. Shatterproof, will not tear—holds its shape. Fine for temporary partitions—breaks up space but doesn't interfere with light. Also effective for store and window displays because it's heat resistant and easy to decorate.

HEAVY-WT. VI-O-PHANE. 2 sheets of Buterate plastic fused on both sides of ¼-in. white cord mesh, fully 25% heavier than similar materials. Admits ultra-violet rays. Translucent. Lasts up to 4 seasons.

STANDARD-WT. VI-O-PHANE. 2 medium wt. sheets of cellulose acetate fused on both sides of ¼-in. white cord mesh. Same weight as sold by others as best quality. Transmits ultra-violet rays. Translucent. Lasts up to 3 seasons.

BUY ON TERMS OF WARDS MONTHLY PAYMENT PLAN. Any order $20 or more ($10 for Add-Ons) may be bought for 10% down, balance on terms. See Inside Back Cover.

9-MESH TRANS-O-GLASS. Galvanized wire, coated on both sides with cellulose acetate. Admits ultra-violet rays. Translucent. Lasts up to 5 years.

4-MESH TRANS-O-GLASS. 2 sheets heavy-wt. cellulose acetate reforced with 4-mesh aluminum wire. Translucent. Lasts up to 3 years.

VINYL GLASS. Transparent clear plastic film. Tough 4 mil. material, no reinforcement. Last up to 1 year when used for storm doors, sash; also for garment bags, tool, table covers. Easy to wipe clean.

PLACE-O-GLASS. Strong 80-thread per in. cotton cloth panel coated on both sides. Admits ultra-violet rays. Translucent. Will last up to 2 seasons if properly installed.

HOME SIZE MILK PASTEURIZERS 23.95 TO 47.50 for Electric or Stove-Top Operation

(R) (T) (U) CIRCULATION TYPE PASTEURIZER. Employs indirect heating through circulation to do a complete, automatic job. Milk has no cooked taste, and about 50% of the cream is distributed through milk. Lightweight aluminum unit. No moving parts, nothing to adjust. Thermostat is pre-set, buzzer signals when milk is ready to cool, heating element automatically shuts off. Inner container on R and T lifts out for cooling under faucet (see picture 1) or may be dropped into cooling tank. No rebottling necessary, milk pours easily from opening (see picture 3). Easily cleaned (see picture 2). Outer container holds water. Submerge inner container filled with milk, and plug-in switch. Operates on 110–120 volts, 60 cycle AC only. 1250-watt immersion heating element. 2-gallon size costs about 5c a week to operate.

(R) 2-GAL. ELECTRIC MODEL. Completes pasteurization in 40 min.
87 C 4816 M—Ship. wt. 10 lbs. $3.50 Down...or Cash $31.95

(T) 2-GALLON STOVE MODEL. Like (R) above except heated by placing unit on stove. Thermostatically controlled. Cord for operating buzzer for 110 to 120 volts. AC. Ship. wt. 8 lbs.
87 C 4818 M—$3 Down on Terms.....or Cash $28.95

(U) 5-QUART ELECTRIC MODEL. Completes pasteurization in 15 to 20 minutes. Fast-acting, convenient size. Inner container removes for cooling and storing in refrigerator (picture 4).
87 C 4819 M—Ship. wt. 7 lbs. $2.50 Down....or Cash $23.95

Provide wholesome, disease-free milk for your family—from your own herd; process it in your kitchen, keep all the natural flavor with no loss of nutritional value. The prevalence of Undulant Fever in the United States is a real cause for concern, and pasteurization is the only sure way to eliminate the germ. Raw milk is also a perfect carrier for Typhoid, Tuberculosis, Scarlet Fever, Septic Sore Throat and other bacteria. Guard against them all—at an unbelievably low cost by using these home-size Pasteurizers.

(V) AGITATION TYPE PASTEURIZER. Same system as large commercial models—constant agitation and controlled indirect heating. Helps preserve original structure of the milk, maintains most of the creamline. Electrically driven agitator keeps both milk and water bath in constant motion (see picture 5). Thermostat controls temperature, automatically shuts off heat when pasteurization is complete, turns on buzzer when milk is ready for cooling. Cold water in cooling hose forces out hot water through outlet hose near top of unit (see picture 6). Milk cools quickly and evenly. Container and cover are aluminum, finished in baked enamel. Detachable stainless steel agitator. 1250-watt immersion heating element; silent dependable motor; for 110–120 volts, 60 cycle AC only. Costs less than 1c per gallon of milk.
87 C 4828 MO—2-gallon. Shipping weight 15 lbs.
$5 Down on Terms.....or Cash $47.50

NEW 4-GAL. FLAME THROWER 21.75

Wards Flame Throwers work like a blowtorch—to thaw ice, disinfect and sterilize seed bed, livestock quarters or chicken yards. Flame need not touch surface to disinfect. Heat is effective 1 ft. ahead of flame. Use them to burn stumps, warm water in stock tanks, clear ditches, split large rocks, bend pipes, destroy garbage, remove old paint, preheat metals for welding.

(W) NEW 4-GAL. MODEL. With safety pressure relief valve built into large filler opening, automatically releases pressure at 45 lbs. Even if tank falls in front of flame, there is no danger of explosion or fire. Also eliminates need for pressure gauge because pressure cannot be built up beyond safe limits. Large opening for easy filling. Throws smokeless flame 2 ft. long, 12 in. wide at 2000°F. Burns 94% air, 6% fuel—uses about 1 gal. kerosene or distillate per hour. Heavy-steel construction. All seams electrically welded. 6 ft. of oil-proof synthetic hose. 1¾ by 15-in. brass pump with oilproof valve. Adjustable carrying strap.
87 C 6027 MB—Ship. wt. 20 lbs. *Mailable*.....$21.75

(X) 1-GAL. HOSELESS FLAME THROWER weighs only 10 lbs. Compact for easy handling. Tripod legs and balanced handle permit use of flame in any position—up or down, with equal ease and efficiency. Throws a windproof, smokeless flame up to 2 ft. long, 3 in. wide at 2000°F. Economical, uses about 1 gal. of kerosene or distillate per hour. Burns 94% air, 6% fuel. Tank and burner coil of durable seamless steel tubing. Brass pressure pump.
87 C 6060 M—Ship. wt. 10 lbs. *Mailable*.....$14.95

(Y) 4-GALLON SPITFIRE FLAME THROWER. Throws a windproof, smokeless flame 2 ft. long and 3 in. wide at 2000°F. Intense heat disinfects without touching, is effective up to 1 ft. ahead of flame. Economical to operate—burns 94% air, 6% fuel, uses about 1 gal. kerosene or distillate per hour. Heavy steel construction with 4-gal. capacity tank. All seams electrically welded. Funnel top for easy filling without waste. Heavy screw-type 1¾ by 14-in. seamless brass pump has safety pressure release. Complete with pressure gauge, 6 ft. of ⅜-in. oil resisting hose, brass shut-off valve, carrying handle on burner and adjustable carrying strap on tank.
87 C 6045 MB—Ship. wt. 20 lbs. *Mailable*.....$19.75

(BB) MASTER QUALITY TREATED ROPE, made in U.S.A. from long Manila Fibers that have been thoroughly soaked before twisting in Formula W—a copper base solution for treatment of Manila Fibers. Government agencies and independent laboratories have subjected treated materials to severest conditions, over a 4-year period, and have proved conclusively that they become permanently rot and mildew repellent; that prolonged submersion in water failed to show deterioration or swelling; that tensile strength is retained under toughest usage; and that there is no detectable deterioration after long storage.

Exceeds Govt. Breaking Strain Tests (Bulletin TR 601-A). Rope treated with Formula W should outwear untreated 3 to 1. Exceeds Govt. specifications (13-11) for treated rope. Not sticky or oily. Order from Table above.

STANDARD QUALITY MANILA ROPE. Lubricated to resist friction. Fine Quality Manila fibers. Not treated with Copper solution. Exceeds Govt. Breaking Strain Tests. Order, Table above.

(CC) LARIAT OR TRUCKERS' ROPE. Strong manila fibers, tightly laid. Oiled and treated to resist moisture and mildew. 7/16-in. diam. Cut to order. *State length wanted.* Ship. wt. per 10 ft., 9 oz.

FRONT-OPENING MILK COOLER 349.00 4 Can

(AA) Eliminates lifting of heavy milk-filled cans, loads easily through wide door in front. Spray-type cooling system has large, low-pressure water pump, delivers icy cold water over breast and sides of cans, cooling from top to bottom. Cools full capacity to 50°F. in one hour, maintains even temperature. 6-can cooler has extra power with ½-HP. motor. Each size listed below will cool double capacity 8, 12 and 16 cans each 24-hour day. Pump mounted in cabinet, driven by ¼-HP 110–120-volt ball-bearing motor, controlled by time switch.

Heavily galvanized interior has 3-inch Fiberglas insulation, sealed in. Exterior sturdy rust-resistant aluminum, finished in gray hammertone baked enamel; nickel plated hardware. Operates on 110–120 volts, 60-cycle AC only. 4 and 6-can sizes have one door, 8-can size has 2 doors; heavy rubber gaskets around all doors for positive seal. Refrigerating coils hermetically sealed. All units 41 in. high. Shipped promptly, ready to operate; instructions. Pay charges from Madison, Wis.

New Higher HP, Faster Cutting Mall Chain Saws

15 TO 54-IN. SIZES, ONE AND TWO-MAN MODELS FOR ANY TYPE CUTTING

LIGHTWEIGHT AND POWERFUL FOR HEAVY-DUTY SERVICE

Only these higher horsepower Mall Chain Saws have the quality features and time-proven performance that come from 19 years of leadership in the industry—hundreds of thousands of saws produced and many of them still in use. Parts are designed and manufactured by Mall to give years of dependable, rugged use. Simple construction with fewer parts. Low priced, but power-packed to give fast cuts.

Mall saws are completely balanced . . . work balanced for perfect pivoting action in the cut, to handle comfortably while cutting in any position; weight balanced for greater ease in carrying from tree to tree with minimum operator fatigue. Flush cut design enables ground level cuts—no troublesome stumps. They are compact, lightweight and streamlined for both appearance and workability.

Guide bar is of alloy tempered spring steel with special Tocco hardened running edges and tip. Chain tension is easily adjusted for most efficient operation. Positive action pressure oiler can't get clogged by sawdust or chips. All saws include complete kit of quality tools for full service in the field, extra chain links and instruction manual.

Check each quality engineering feature below, compare with the most expensive saws on the market and you will agree that Mall saws give you most for your money.

AIR-COOLED, SINGLE CYLINDER TWO-CYCLE ENGINES: Designed and built by Mall for chain saws. Magnesium alloy crankcase. Aluminum alloy cylinder and piston. Cylinder wall chrome plated to dissipate heat, give longer life. Forged steel crankshaft. Large cooling flywheel. Ball and roller bearings. Large air filter with rotating screen keeps out dirt, dust and snow. Trigger throttle for positive speed control. Spill-proof gas filler cap plus flame and spark proof muffler provide important safeguards against fire.

STALLPROOF AUTOMATIC CLUTCH: Multiple shoe type centrifugal force clutch, controlled by engine speed. Keeps engine running. Clutch disengages under pinch or excessive load, restarts automatically when difficulty is corrected.

CARBURETOR: Model OMG, IMG and 2MG saws have standard float feed carburetor. Diaphragm carburetor available at $10 extra—provides continuous, forced fuel feed for smoother, more effective cutting at any angle. IMPORTANT: If you desire, specify "With Diaphragm Carburetor", also add letter "F" after catalog number on order and add $10 to price. Shipped promptly, *Prepaid* from Factory near Chicago, Ill.

DUST AND MOISTURE PROOF IGNITION SYSTEM: High tension magneto for quick, sure-fire starts, even in cold weather.

ALL-WEATHER REWIND STARTER: A quick pull on rubber hand grip starts the engine; cable rewinds instantly for next start.

EXCLUSIVE DESIGN, MALL FAST CUTTING CHAINS: For general, all-purpose cutting in any timber. High carbon alloy steel, with chrome plated, longer life cutters to hold a keen cutting edge. Precision surface ground to maintain proper thickness.

5-HP SAW WITH DIRECT DRIVE 250.00 18 in.

(A) MODEL 4MG. A professional pulp production saw featuring direct drive and diaphragm carburetor. Designed for high-speed pulp-cutting, its 5 brake HP and simple design make it ideal for general farm use, too. With direct drive, chain speed is twice as fast as standard chain speeds, for faster cuts in small diam. timber. Direct drive has fewer parts, too, for more economical maintainance.

Diaphragm carburetor permits engine to operate efficiently at any position for extended periods of time—even upside down. Controls are placed in simple, keyboard design for one-hand operation. Plunger pump gives positive lubrication while the saw is in action—oil when you want it. Hardened sprockets. Enclosed ignition protects against sawdust and moisture. Shipped promptly, *Prepaid.*

LOWEST PRICE 3½-HP CHAIN SAW 212.50 15 in.

(D) MODEL OMG. A heavy duty production saw at a light price. Delivers a full 3½ brake HP to the cutting chain. efficient, precision-built one-man saw that gives fast cuts any farm, estate, resort or pulpwood work. Compact sufficiently lightweight for easy handling when pruning felling, bucking and limbing trees or cutting fence posts, wood, etc.

Best minimum investment chain saw with quality-engineering throughout. Fully enclosed transmission and carburetor. Standard float feed carburetor (diaphragm carburetor fuel pump to give all position cutting available for $10 see features at left). Gear belt driven—positively slip-proof heavy-duty belt is extra wide and extra thick for strength. 3 to 1 reduction gives more pulling power heavy load conditions. Shipped promptly, *Prepaid* from

Free: Wards 1956 Farm Book

NEW TRENDS IN EQUIPMENT; COMPLETE SELECTIONS; MONEY-SAVING PRICES

It's time to send for your free copy of Wards New Farm Book for 1956—with top value needs for all phases of Farming on every one of its 184 pages. Use it as a reliable guide to help you in selecting the newest, carefully engineered, farm-tested equipment—all factually described, with clear detailed photographs—many in color.

Pictured above are representative items chosen from the broad lines in this big Farm Book. Some items, some whole lines are new. Others are tested, tried, and accepted, standard implements. Many are familiar pieces of equipment, improved in some manner, given a new feature that contributes to easing farm labor loads, increasing crop yield, building up profits. Whatever it is you're looking for in the farm field, be sure to check Wards 1956 Farm Book first.

You'll see the new Stainless Steel Bulk Milk Cooler in sizes up to 275 gallon, plus new front-opening can-storage coolers for the up-to-date dairyman; an automatic spraying device that operates from a small vacuum pump and rids the dairy barn of flies with a flick of the switch in less than five minutes time; new commercial-size egg graders and coolers for efficient, profitable egg marketing.

For the first time on a "mail order" basis, the hog raiser can obtain 8-week-old breeding stock pigs from qualified lean-meat strains—direct from the country's only Certified Sires—available in 3 popular breeds; and for this same hog farmer, new creep feeding equipment to minimize work and worry at farrowing time, reduce early loss; helps wean complete litters, bring more pigs to market. There's a complete new Garden Tractor Section, featuring 8 Models that provide the size tractor you want and need at the price you want to pay; and quick-hitch Attachments designed to perform dozens of chores about the farm, garden and estate. The Pump department is enlarged—with more selections and accessories for better installation; and a full line of large pumps has been added, together with a complete new section of Irrigation Equipment. There's a new line of lightweight 2- and 4-cycle Gasoline Engines, plus a broader selection of PTO Spline Equipment for the most efficient hook-up from the tractor power-take-off shaft.

A new front-mounted hydraulic Manure Loader features separate, interchangeable bulldozer blade, snow scoop and lifting boom attachments; and a large Capacity Manure Spreader with ball-bearing construction—balanced for easy handling, longer life. A new hydraulically operated Bale Loader has pick-up arms that toss bales directly on wagon or truck; in fact—the trend toward ease in operation is recognized by a more complete selection of all parts for operating implements and attachments from the hydraulic pump on your tractor.

Of course there are complete lines of Dairy and Poultry Equipment, Stock Raising Needs and Riding Equipment—with Saddles illustrated in rich color. An up-to-date selection of implement repairs, a broader line of Mall Chain Saws, Rotary Hoes, Row-Crop Harrow Cultivators . . . these and many more are found among the thousands of interesting and helpful items in Wards Farm Book for 1956.

Fill out and mail the Coupon below for your copy—and do a neighbor or relative a favor by sending the extra coupon with his name and address, and we'll send him a Farm Book, too. Or, if you live near a Ward Store or Catalog Office, stop at the Order Desk and they'll give you your free copy. Either way, you're under no obligation.

Quality Pumps for Volume, Pressure or Booster Needs

CAST BRONZE GENERAL PURPOSE HIGH PRESSURE PUMPS 13.95 TO 32.25

(A) WITH ROLLER-TYPE ROTOR. For pressures up to 75 lbs. One-inch size will move 1020 gals. per hour. Operates at up to 1800 RPM. 2 sets of rollers—rubber for water and most liquids, nylon only for abrasive-free, clear liquids that may cause swelling of rubber rollers. All sizes will lift water up to 20 ft. at sea level when inside of pump is wet. Suction, discharge ports are same size. Semi-self priming—Foot Valve recommended to maintain prime, see facing page. Check capacities and *order Pump from table below.*

(A) WITH RUBBER PADDLE-TYPE IMPELLER. Moves greater volume at pressures up to 30 lbs.; will tolerate suspended solids in liquid pumped to greater degree than roller rotor. For abrasive solutions, see Ni-Resist pumps below. Self-priming to 10 ft. The 1-in. size will move 1300 gals. per hour at open discharge. ½-in. model has 1 grease cup and flat end plate; all others as pictured. Standard pipe threaded ports. Check capacities and *order Pump from Table below.*

HOLLOW SHAFT PUMP FOR USE WITH MOTOR OR ENGINE 17.45 Rubber Paddle

(B) Hollow shaft on pump mounts directly onto drive shaft of motor or engine to make a compact, efficient portable pump without the use of belts or pulleys. Pumps take ½-in. shaft. Performance of hollow shaft pumps is the same as ½-in. pump with same type impeller as in table above. For Shaft Adapters to permit use of pump on larger shafts, see (I) at right.

87 C 5430—Pump Only—Roller type Impeller. Two sets of rollers. Wt. 3 lbs. 12 oz.....$17.95

87 C 5431—Pump Only—Rubber Paddle Rotor. Ship. wt. 3 lbs. 8 oz..... 17.45

IMPORTANT INFORMATION ABOUT PUMP CAPACITIES—READ BEFORE ORDERING

The higher a pump must lift water and farther it must push, the less water will be deliv[illegible] Choose a pump with enough capacity to do your job. Place pump as close to source of wa[illegible] supply as possible. "Total head" is total load: feet of suction lift to pump plus feet beyond pu[illegible] water is pushed and raised plus pressure (1 lb. of pressure equals 2.31 ft. of head) plus fric[illegible] loss from couplings, valves, sharp bends, undersize pipe or hose. Pump suction intakes sh[illegible] be placed to avoid intake of abrasive material with water.

EXTRA HIGH PRESSURE PUMPS FOR SPRAYING 27.95 TO 54.95

(E) (F) High pressure "roller rotor" pumps for insect and weed spraying service. Pump co[illegible] tough, work hardening *Ni-Resist*, a rust and wear-resistant, nickel-copper-chromium [illegible] rous alloy found only in highest quality pumps (except 87 C 5034—cast iron). Suitable for [illegible] wettable powder and emulsion spray solutions. High pressure, abrasion-resistant nylon [illegible] handle all spray chemical mixtures. Stainless steel shaft. Sealed, permanently lubricated [illegible] bearings. ¾-in. ports with standard pipe threads. *Not recommended for whitewashing* [illegible]

(I) SHAFT ADAPTER to use 87 C 5430, 5431, 5435 pumps on ⅝, ¾, ⅞, or 1-in. motor or engine shaft.

87 C 5433—*State size.* Ship. wt. 10 oz.....Ea. $1.95

87 C 5435—Pump like 87 C 5034 [illegible] but with ½-in. diam. hollow shaft [illegible] ping weight 5 lbs.....[illegible]

PORTABLE ELECTRIC MOTOR AND PUMP 49.50

(C) Self-Priming Pump same as (B) above, but mounted on ¼-HP capacitor 110–120V AC motor. Compact, lightweight and convenient—excellent for use as "stand-by" pump. Carrying handle and motor cord. *Mailable.*

87 C 5445 MB—Motor and Pump with Rubber Paddle Rotor. Ship. wt. 29 lbs. $5 Down, $5 Monthly.....Cash $49.50

87 C 5446 MB—Motor and Pump with Roller Impeller. Two sets of rollers. Ship. wt. 30 lbs. $5 Down, $5 Monthly. .Cash $49.95

PORTABLE GAS ENGINE PUMPS 74.50 AND 84.50

(D) Direct drive pumps with new lightweight 1¾-HP Clinton engine. Has carrying handle and base. Ship. wts. 30, 30 and 32 lbs. *Not Mailable.* Only 10% Down on Terms.

87 C 5013 R—With Roller Impeller Pump 87 C 5430. Same performance as 87 C 5442 ½-in. pump (A) above.....$74.50

87 C 5014 R—With Rubber Paddle Rotor Pump 87 C 5431. Same performance as 87 C 5437 ½-in. pump (A) above. $74.50

87 C 5015 R—With High Pressure Spraying Pump 87 C 5435. See performance in table under (E) at right.....$84.50

PORTABLE BOOSTER UTILITY PUMP 59.50

(G) Compact, self-priming—easily carried to the job. Weighs only 15 lbs. Just plug it in—delivers up to 30 GPM at total head of 11 ft.; or as a pressure booster, with standard garden hose adapters below, up to 15 GPM at 27 lbs. pressure and total head of 63 ft.

Unique self-priming feature. When liquid source is exhausted, water in reservoir chamber continues to circulate; thus enabling pump to maintain suction on shallow water supply, but use of foot valve and strainer (F), on opposite page, is recommended for fastest reprime.

Built-in ½-HP 110–120 volt AC-DC motor. Sealed ball bearings. Aluminum case. Reservoir drain plug. 1-in. standard pipe thread fittings. With stub cord. Ship. wt. 16 lbs. *Mailable.*

87C5032 M–$6 Down, $6 Monthly, or Cash $59.50

87C5033—One inch to standard ¾-in. garden hose Brass Fittings for 87 C 5032 M, above. Ship. wt. 13 oz.....Pair $1.25

1½-IN. PUMP—5700 GAL. PER HOUR WITH 2-HP ENGINE 114.[illegible]

(H) FOR IRRIGATION, CONSTRUCTION WORK, BOOSTING PRESSURE, ETC. O[illegible] size priming chamber to hold large quantity of water under no[illegible] conditions to eliminate repriming. Multiple throat impeller chamber [illegible] charge keeps case free of settled solids. Expertly designed pump [illegible] eliminates recirculation after pump is primed. Impeller adjustable to [illegible] pensate for efficiency loss as normal wear takes place. No need to [illegible] down engine; just remove access plate and adjust the threaded imp[illegible] Built-in check valve retains water in priming chamber. Basket type su[illegible] strainer to avoid intake of trash and abrasive materials.

Air cooled, single cylinder engine. Float type carburetor with fly[illegible] magneto. Handy carrying handle. 1½-in. suction and discharge o[illegible] Ship. wt. 80 lbs.

(U) WATER FILTER. Traps and [illegible] out suspended foreign m[illegible] from your water supply such as [illegible] sand, weeds and other foreign [illegible] stances. Screw to the end of [illegible] line—clean by reversing flow [illegible] water. Will not remove chem[illegible] or bacteriological impurities in [illegible] water. Ship. wt. 6 lbs.

87 C 519—Water Filter.....[illegible]

Cut Costs with Wards Construction Aids...10% Down

IMPORTANT FACTS ABOUT WARDS "BATCH-A-MINUTE" MIXERS

All Wards Tilting Drum Mixers have four replaceable blades; give thorough mix faster than others having only 3 blades. Blades placed at different levels to provide four-way mixing with every turn of drum. Two curved solid shovels perform a lifting, tumbling action; divided slicers perform the cutting to produce a smooth mix.

Drums are heavy sheet steel with reinforced rims to strengthen and protect against damage while loading or discharging. Load or discharge from either side. Drum does not have to be upright to avoid spilling mix. Mixers have heavy, rigid, angle steel frames.

Mixers not equipped with power have double angle cross frame braces for mounting power unit. Order 1/3-HP motor 83C4540MB separately from Page 809 or 3/4-HP engine from Page 952. Order 2 1/2-in. "A" size pulley and 76-in. "A" size V-belt from Page 952.

SHIPPING NOTICE. All Mixers are shipped promptly from Stock except 87 C 4941F and 87 C 5845F which are shipped promptly from Factory near Milwaukee, Wis. You pay charges from there.

HIGH PRESSURE CENTRIFUGAL PUMPS 14.95 TO 46.50

(D) DELIVER LARGE WATER VOLUME AT LOW PRESSURE. Best for general purpose use—handle liquids containing moderate amount of solids with minimum wear. Inboard lead-bronze bearings water-lubricated. Graphited flax packing rings easily repacked. Semi-enclosed impellers, adjustable for end wear. Drain and priming plugs. 1/2 and 3/4-in. sizes have oilite outboard bearings, oil cups. Others, ball bearings, grease cups. Suction lift about 10 ft. on 3/4-in. size; others 14 ft. Not self-priming—use Foot Valve (F) below.

SPECIAL CONCRETE MIXER CIRCULAR: Sent Free on Request. 16-page circular featuring Home, Farm and Contractors' Size Concrete Mixers from 2 cubic foot up to 6 cubic foot batch Power Loaders. Also includes information on Tractor-Hitch Mixer; Pulverizer; Semi-Dry Concrete Batch Mixer; Plaster Mixer; Power-Drive Hoists. Has helpful "How To Do It" suggestions and recommended mixing proportions. Write Montgomery Ward, Dept. CS-6.

5-CU. FT. PORTABLE MIXERS 79.95 Less Motor

(A) 5-cu. ft. drum delivers 3-cu. ft. batch. Strong pressed steel bowl. Steel drum, channel steel yoke. Longer yoke bearing extends inside bowl for drum balance. Bowl drum section extends to protect ring gear. Inside drum diam. 26 in.; depth 24 in.; opening 15 in. Latch locks drum. 1 1/2 by 1/8-in. steel frame, two 10 by 1 3/4-in. semi-pneumatic-tired wheels. With 20-in. V-pulley, belt guard, motor cover. See "Important Facts" and Shipping Notice at left.

87 C 4940 R—Mixer, less motor. Wt. 235 lbs. $8 Down....or Cash $79.95

87 C 4941 F—Mixer, with 1/3-HP 110–120-V, 60-cycle AC motor. Belt, 1-ft. stub cord, plug. Ship. wt. 270 lbs. .....$10 Down, or Cash $97.50

(B) ENGINE-POWERED TRAILER MIXER ON RUBBER TIRES. Same capacity as (A) above but mounted on two 4.00 by 8-in. pneumatic rubber-tired roller bearing wheels. Trailer-type telescoping tongue, slides in, out of way. Has 1 1/2–2-HP, 4-cycle, single-cylinder, air-cooled engine, engine housing and heavier frame. Ship. wt. 315 lbs.

87 C 5819 R—See Ship. Note at left.....$22.50 Down, or Cash $224.50

3 1/2-CU. FT. MIXER WITH CAST-IRON BOWL 59.50

SKID MOUNTED. (Not shown.) 3 1/2-cubic feet drum volume delivers 2 1/4 cubic feet of concrete. Inside drum diam. is 22 in.; depth 24 in.; opening 15 in. 1 1/4 by 1/8-in. angle steel frame, hardwood skids. Has 3 by 12-in. flat pulley with crank for hand turning or flat belt; or 20-in. V-pulley for engine or motor. See "Ship. Note" at left. Ship. wt. 185 lbs.

87 C 5882 R—$6.00 Down, $6.00 Monthly.....or Cash $59.50

PORTABLE MODEL. Same as above but on two 10 by 1 3/4-in. rubber-tired wheels. Bail handle. Ship. wt. 185 lbs. See "Ship. Note" at left.

87 C 5817 R—$7.00 Down, $6.00 Monthly.....or Cash $67.50

MAKE YOUR OWN CONCRETE BLOCKS 94.95

(L) CUT CONSTRUCTION COSTS. Blockmaker makes 7 different kinds of blocks (see picture below); basic is standard 3-core block, 15 3/4 x 8 x 7 3/4 in. Allows use of even a colored mixture for ornamental face while making balance of block of coarser aggregate for economy. Hand-operated lever retracts cores, permits tamping face portion of mix in bottom of mold.

INCLUDES: core plugs; metal striker; double end tamper; dividing plate for gable blocks; two sets of end plates, one for cored ends, one for facing corner blocks; dividing plates for quarter and half-blocks; attachments for making joist blocks; one model wood pallet and plates for flat face blocks. Ship. wt. 215 lbs. Shipped promptly from Stock in Mail Order House.

87 C 5893 R—$9.50 Down, $8 Monthly on Terms .....or Cash $94.95

(M) FACE AND END PLATES. Use with (L) above to mold ornamental blocks; choice of brick or rock face design. Mailed promptly; pay Postage from Stock in Mail Order House. *Be sure to state design wanted.* Ship. wt. 50 lbs.

87 C 5896 MO–One design..$14.95

ENGINE-POWERED MIXER 324.50

(C) Contractors' standard "half-bag" size. Gives "batch-a-minute" mixing. Mixes 3 1/2-cubic feet in 6 1/2-cubic foot volume drum for a smoother, more uniform mix, faster than with others of the same capacity, yet smaller drum volume. Efficient enclosed geared tilting mechanism for easy handling of heavy loads. Easy turning tilt wheel. Friction brake drum lock secures drum into any desired mixing or discharge position with an easy flip of brake lever. Bowl can be inverted and locked for towing. Pressed steel bowl and ring gear, channel steel yoke. Heavy formed channel steel frame for years of service.

Inside drum diameter 27 in.; depth 28 in.; opening is 17 in. Efficient 1 1/2–2-HP, 4-cycle, single cylinder air-cooled gasoline engine. V-belt drive. Drum turns on two Timken bearings. 4-ply, 4.00 by 12 pneumatic rubber tires on auto-type roller bearing disc wheels.

Drum is at right angle to wheels. 6:1 reduction gear engine. Engine housing locks. Telescoping tow pole for easy transportation. Size overall: 70 in. long, 48 in. wide, 65 in. high. See "Important Facts" and Shipping Information at left. Only $32.50 Down, $19.00 Monthly on Wards Credit Terms.

87 C 5845 F—Ship. wt. 550 lbs..Cash $324.50

COUNTERBALANCED MIXER 94.50

(N) Electric motor mounted directly on yoke and positioned under drum, protected against water and concrete spatterings and out of operator's way. Motor weight counterbalances mixer load to make it easy to tilt lever to load or discharge from either side. Mixer is quickly and easily dismantled for portability or storage. Complete bowl, yoke and motor assembly unbolts and may be lifted intact from frame. Entire unit fits in average car trunk for transportation.

4.1-cu. ft. drum delivers 2-cu. ft. batch. Steel bowl, ring gear and yoke. Inside drum diam. 24 in.; depth 24 in.; opening diam. 15-in. Small-tooth precision gears and belt design make mixer exceptionally quiet and smooth running. Size overall: 36 in. long, 27 in. wide, 59 in. high. With 1/3-HP, 110–120-V, 60 cycle AC electric motor, stub cord and plug. Shipped promptly from Stock in Mail Order House. Ship. wt. 230 lbs.

87 C 5812 R—$9.50 Down...or Cash $94.50

For Low Cost, Dependable Power, Use Ward an

NEW LIGHTWEIGHT CAST ALUMINUM, 2 AND 4-CYCLE ENGINES 38.95 TO 54.25

Engines made of aluminum die castings with cast-iron cylinder liners. Use to furnish power for small farm and home machines. Choice of: 2-cycle vertical with 4-in. bolt circle mounting base (8-in. adapter available at extra cost) see (1); 4-cycle vertical with 8-in. bolt circle base, see (2, 3); 4-cycle horizontal, see (4). Made by Clinton. Rope or Recoil starter.

(1) 2-CYCLE VERTICAL. Its unique, valveless function means only 3 moving parts, no idling strokes—more economical maintenance. High voltage flywheel type magneto, moisture and dustproof for easy starting. Float feed carburetor with shut off. Automatic air velocity governor insures constant speed. Continuous lubrication by oil and fuel mixture.

(2) TO (4) 4-CYCLE. Vertical and horizontal. Built-in flywheel magneto for fast starts—moisture and dustproof, with enclosed ignition points. Large capacity blower for better cooling. Arma steel crankshaft. Float feed carburetor with controls for both idle and high speeds. Adjustable air velocity type governor for accurate speed control. Models (3) and (4) have new oil-less air filter.

HORSEPOWER RATING. Ratings are maximum developed under standard conditions of sea level barometer and at 60° Fahrenheit. Since conditions vary, manufacturers recommend engines be used to produce not more than 85% of rated horsepower for best operation.

WARDS COMPLETE LINE OF CAST-IRON ENGINES; 2 TO 9-HP 49.50 TO 134.50

(5) TO (8) Wards have the right size engine for your every need. Our line of powerful, compa 4-cycle single cylinder air-cooled gas engines make easy going out of toughest chor Streamlined shroud covers a durable engine packed with horsepower. Built for Wards by Clinton Machine Co., one of the world's leading manufacturers of gasoline engines. Wards Mo Order Houses, Retail stores and the over 6,000 Clinton Service Stations throughout the country prepared to provide prompt service. Built of finest quality materials, precision machined, check time and again with air gauges accurate to .0001 inch to maintain uniform, outstanding qua

High tension flywheel magneto for fast, dependable starts. Adjustable centrifugal type governor running in oil. Float feed carburetor with idle and high speed controls—operates at angles up to 30°. 2, 2.5 and 3.6-HP engines have new oil-less air filter. No oil spillage when engine is tipped. Fuel tank with built-in filter and shut off. Ball bearing main bearings—2 and 2.5-HP engines have steel backed babbitt bearings. 6.3 and 9-HP have oil bath air cleaner, permanent magnet and waterproof mold coil. Breaker points, condenser, stop switch co ground wire terminal mounted in box outside crankcase accessible for easy servicing. Co is included. All models available with reduc gear—reduces shaft speed to 1/6 of eng speed. 2, 2.5 and 3.6-HP engines available w recoil or rope starter. Models pictured are: 2-HP; (6) 2½-HP; (7) 3.6-HP and (8) 9-HP. O der from table below.

*Available in ½, ⅝, ¾ and 1-in. bores only. BE SURE TO READ HOW TO ORDER PULLEYS AT RIGHT

MULTIPLE GROOVE PULLEYS 3.19 3 in.

(16) HEAVY-DUTY 2, 3 AND 4-GROOVE PULLEYS. Manufactured to assure true running and to give maximum power transmission. Cast from close-grained, semi-steel. Shaft keys not incl. ⅝ to ⅞ in. have 3/16-in. keyway, 15/16 to 1¼ in. have ¼-in. keyway. 15/16 to 1¾ in. have ⅜-in. keyway, 1 13/16 to 2¼ in. have ½-in. keyway, 2 5/16 to 2 7/16 in. have ⅝-in. keyway. Diam. up to and incl. 7 in. have bores of ½ to 1¼ in.; 7.8 to 18.8 have bores from ¾ to 2 7/16 in. All bores graduated by 1/16 in. Allow Factory 2 weeks, plus transit time, pay postage from Factory near Chicago. *State outside diameter and size bore wanted.* Use "A" or "B" size matched belts.

TO FIGURE ENGINE PULLEY DIAMETER: Multiply diam. of driven pulley by RPM of driven machine. Divide by engine speed.

TO FIGURE MACHINE PULLEY DIAM.: Multiply diam. of engine pulley by speed (RPM) of engine. Divide result by speed of driven machine. Result is diameter of machine pulley.

FRACTIONAL HP V-BELTS 66c TO 2.69

(17) Gum-dipped, twisted Rayon cords vulcanized and bedded in rubber at point of greatest strain—minimizes stretch and reduces internal friction. *Order by Cat. No., state outside circumference.* See ordering information below.

HOW TO ORDER V-BELTS. Add diameter of Engine pulley diameter of driven pulley—multiply sum of these diam by 1.57—add twice the distance between the centers of leys—answer is circumference of belt you need. *State*

Heavy-Duty Wisconsin Engines...1.75 to 20.5 HP

HEAVY-DUTY WISCONSIN ENGINES; 5.6 TO 20.5 HP 119.20 TO 402.05

9 TO 11 Wisconsin single and multiple cylinder, 4-cycle air-cooled engines develop rated pulling power at lower speeds to save fuel, add to engine life. Give dependable performance under heavy loads. Used by hundreds of nationally known manufacturers to power the equipment they build. Have unexcelled reputation for unfailing dependability, easy starting, all weather serviceability and low cost maintenance. Built to the same S.A.E. standards as today's leading industrial and automotive engines.

Built-in mechanical flyball type governor provides close speed regulation. A variable governor control permits varying engine speed at will. Timken tapered bearings on ends of counter-balanced crankshaft take all end thrust and radial loads, assure smooth running. High-tension rotary-type outside magneto, impulse coupled to provide a quick, hot spark for easy starts. Tightly sealed against dust and moisture. Engine operates efficiently at any angle up to 25°, and gets positive lubrication from cam operated oil pump. Tillotson gasoline filter with automatic choke. Engines have babbitted connecting rod bearings. Pistons of aluminum alloy with 4 rings.

Heavier-built multiple cylinder engines have higher power output. Cylinders cast in pairs and separate from crankcase for easy servicing and economical replacement. Oil pump lubrication supplies an individual oil stream to each connecting rod. All other parts lubricated by oil spray. Where furnished, clutches are oil disc type, manually operated. Pictured are 6.8-HP (9), 8.2-HP (10), and the 2-cylinder, 14.6-HP (11). Wards Mail Order Houses, Retail stores and the over 2,000 Wisconsin Service Stations throughout the country are prepared to provide prompt "tune-up" and repair service when necessary. Order from table below. Only 10% Down on Terms, see Inside Back Cover for details.

ENGINE RECOIL STARTER 6.95

12 Convert your rope starter gas engine to get benefit of automatic rewinding starts. Quick pull starts engine; cable instantly rewinds. 4-ft. pull cable with rubber "T" hand grip. Instructions, mounting bolts included. Fits Ward and Clinton gas engines listed below only. *State Engine Model No.*

87 C 5973—For engine series 100, VS100, A300, VS300, 350, B700, VS700, 2100, 3100, VS3100. Ship. wt. 2 lbs. $6.95

87 C 5974—For engine series C700, D700, 900, 1200. Ship. wt. 2 lbs. 8 oz. $6.95

87 C 5975—For engine series 800, A800, VS800, C1100, D1100. Ship. wt. 3 lbs. $6.95

87 C 5976—For engine series 200, VS200, VS400. Ship. wt. 3 lbs. $6.95

QUIET MUFFLER 1.59

13 Special inner cone construction reduces exhaust noise of gas engines. Ideal for power lawn mowers, garden tractors, etc. Connects to engines with ½-in. pipe thread exhaust port. All steel. With 45° street el for adjusting direction of fumes.

87 C 2905—Size: 2½ by 3½ in. Ship. wt. 1 lb. . . $1.59

REPLACEMENT CARBURETORS 7.39 TO 11.25

14 Wards replacement Float Feed Carburetors are like originals in quality and fit and will fit all single cylinder engines listed below. They restore power efficiency, gas economy by eliminating the worn choke shaft that results in wasted fuel due to entrance of extra air. Also worn throttle shaft that causes poor idling and loss of fuel. Fully tested. Shipped promptly, you pay postage from Factory in Chicago, Ill. *State Make and Model of Engine.*

87 C 5000 K—To fit Lauson Models 55A, 55AB, LMC, LMH, LMV, R, RSH, RSV, TLH, TLV and V. Also wil fit Power Product Models 100, 150, 200, 225, 250, 360, AH31, AV31, AH36, AV36, AH47, AV37, V47 and AV80. Ship. wt. 2 lbs. $7.39

87 C 5001K—To fit Briggs and Stratton Models 5, 6, 8, 9 and N. Also Continental Models AA7, AA7B, AD7, AU7, AU7B, AW7, AD8, AW8, AU8, AU8B, AD85, AU85, AW85. Ship. wt. 2 lbs $7.79

87 C 5002 K—To fit Clinton Models Series 100, 200, 300, 400, 700, 800, 900, 1100, 1200, 2100 and 3100. Ship. wt. 2 lbs $8.95

87 C 5003 K—To fit Wisconsin Models AB, ABN, AKN, AK, AKS, ABS, AA, AB, ABS, AFH, AGH, AHH and AHS. Ship. wt. 2 lbs. $11.25

WISCONSIN ENGINES—5.6 to 8.2 HP Have Rope Starters. 9.2 to 20.5-HP Have Crank Starters. Rotation counter-clockwise viewed facing PTO shaft. Maximum Rated HP based on 3600 RPM.

TRANSMISSION CLUTCH 9.95

18 Releases load-drag for easier starts. Stops equipment with power on. 2.74 to 1 reduction. Transmits up to 1½-HP. Includes 2 "A" size V-belts. *State Bore Size and Belt or Chain Drive.* Wt. 6 lbs.

87 C 5543—Clutch with ⅝-in. bore. 2¼-in. Pulley drive. Shipped from Stock $9.95

87 C 5523 K—Same clutch with ½-in. bore and V-pulley drive or clutch with 12 tooth sprocket drive in either ½ or ⅝-in. bore. Use No. 41 chain. Shipped promptly from Factory near Des Moines, Ia. . . $9.95

19 AUTOMATIC CLUTCH. Centrifugal-type, controlled by speed. Permits starting without load. Overloads disengage clutch to avoid stalling. Made for 1 and 2-cylinder engines, from ½ to 12 HP. Choice of various bore and pulley sizes for obtaining proper power ratio. High speed increases power output, not power ratio. Power ratio governed by size of pulley. Low speeds give neutral action. Use "A" or "B" size V-belt on opposite Page. *State Pulley and Bore size.*

87 C 5991M—For engines ½ to 3-HP. ⅝ or ¾-in. bore; 3, 3½ or 4-in. single-groove pulley. Wt. 5 lbs. Shipped from Stock. $9.59

87 C 5994 MK—For engines 2½ to 6-HP. ⅝, ¾, 1, 1⅛-in. bore; 3, 3½ or 4-in. single-groove pulley. Pulleys with 1 and 1⅛-in. bore shipped from Stock; others from Factory near Indianapolis, Ind. Average ship. wt. 8 lbs. $14.30

87 C 5995 MK—For engines 5 to 12 HP. ¾, 1, 1⅛ or 1 7/16-in. bore. 3, 3½, 4 or 5-in. double-groove pulley. Shipped same as 87 C 5994 MK. Av. wt. 11 lbs. $22.95

20 TACHOMETER. Tells RPM speed of revolving shafts. Range from 500 to 3000 RPM. For flat or pointed end shafts.

87 C 2965—4¾ in. long. [illegible] z. . . . $1.98

THROTTLE CONTROL WIRE 98c

21 Attaches to handles of lawn mowers, garden tractors, etc. Hook to carburetor throttle arm or governor spring. Includes 6-ft. cable, control lever, parts for mounting. Rust-resistant finish.

87 C 2949—Ship. wt. 1 lb. 98c

22 NYLON STARTER CORD. 3/16-in. braided cord. Heat sealed ends.

87 C 5992—38 in. long. Ship. wt. 1 oz. 38c

BALL BEARING PILLOW BLOCKS 2.15 TO 4.75

23 TO 26 Precision made base, flange and hanger-mounted Pillow Blocks. A low cost ball bearing unit encased in a heavy-duty cast-iron housing. Choice of self-aligning or rigid types for many applications. For intermittent use where speeds are relatively low and loads are light. Maximum speed approximately 1000 RPM. Factory grease packed and sealed but have grease fitting for occasional lubrication. Entrance is made through hole in outer race to bearing. Inside wall of the housing grooved to retain lubricant. Allen head set screws lock inner race of bearing to shaft.

(23) SELF-ALIGNING BEARING, CAST BASE MOUNTING TYPE. Use on wobbly shafts and for off-center installations. For misalignments greater than 1½°. Base is slotted for easy mounting. Available in bore sizes: ⅝, ¾, ⅞, 15/16 or 1 in. *Be Sure to State Bore Size Wanted.*

87 C 5342—Av. ship. wt. 2 lbs. 2 oz. . . $3.19

RIGID BEARING, CAST BASE MOUNTING TYPE. (not shown) Takes only up to 1½° shaft misalignment. *State bore size.* Av. ship. wts.: 2 lbs. 6 oz., 3 lbs. 12 oz. and 4 lbs. 12 oz.

87 C 5343—¾, ⅞, 15/16, 1-in. bore. . . . $2.75

87 C 5344—1⅛, 13/16, 1¼-in. bore. . . . 3.65

87 C 5345—1⅜, 17/16, 1½-in. bore. . . . 4.75

(24) RIGID BEARING, HANGER MOUNTING TYPE. For applications where flange or base mounted pillow blocks are difficult to use. *State bore size.* Av. wt. 1 lb. 3 oz.

87 C 5346—⅝, ¾, ⅞, 15/16, 1-in. bore $2.19

(25) SELF-ALIGNING BEARING, CAST FLANGE MOUNTING TYPE. For misalignments greater than 1½°. Ideal for internal shaft applications. Bore sizes: ⅝, ¾, ⅞, 15/16 and 1 in. Av. ship. wt. 2 lbs. 2 oz.

87 C 5338—*State bore size* $3.19

RIGID BEARING, CAST FLANGE MOUNTING TYPE. (not shown) Will take up to 1½° shaft misalignment. *State bore size.*

87 C 5339—¾, ⅞, 15/16, 1-in. bore. . $2.75

87 C 5340—1⅛, 13/16, 1¼-in. bore. . 3.65

87 C 5341—1⅜, 17/16, 1½-in. bore. . . 4.75

(26) RIGID BEARING, STAMPED FLANGE MOUNTING TYPE. Our lowest priced ball bearing pillow block. Easy-to-mount frame is sturdy steel stamping. Prelubricated bearing; grease sealed. Bore sizes: ⅝, ¾, ⅞, 15/16, 1 in. Av. ship. wt. 1 lb.

87 C 5337—*State bore size* $2.15

SOLID BEARING PILLOW BLOCKS, SHAFT COLLARS

27 BABBITT BEARING PILLOW BLOCKS. Precision reamed. Split for easy installation. Base is cast-iron slotted for mounting. Grease cup fittings. For speeds up to 1000 R.P.M. *State bore size.* Order from table below.

28 BRONZE-BEARING PILLOW BLOCKS. Precision reamed. Cast-iron housing. Self-lubricating. For speeds to 3000 RPM. Gives flat mounting, true shaft-alignment. Self closing oil cups. *State bore size.* Order below.

shop in person...

Get personal service plus all the savings of low catalog prices. Visit our nearest Catalog Office or the Catalog Department of our nearest Store. See list below and on opposite page. Be sure to visit the convenient Catalog Department whenever shopping in one of our Stores.

Friendly clerks will handle your orders, save you letter postage and money order fees, make all arrangements for delivery. Or if you wish, make an extra saving by calling for your goods.

LOW COST "WILL CALL" SERVICE

When you use this service, you get the benefit of our economical group shipment plan. Your order is brought with others in a group shipment from our Mail Order House—thereby reducing the cost on each order. It saves you up to one-half of usual delivery charges and saves time, too. Special low rates on many heavy items as Building Materials, Paint, Fencing.

SEE HANDY SWATCH BOOKS

We invite you to come in and look over the many interesting merchandise exhibits and samples we have ready for you.

You'll like particularly the "swatch books" of apparel fabrics and piece goods. You can choose the dress or suit you want in the colors and texture most pleasing to you. See samples of drapery materials, rugs, floor and wall tile, also full width samples of wallpapers and paint chips in full color. It's so convenient to shop with all these samples at hand.

SEE SPECIAL CATALOGS

While here, see copies of all our special catalogs and circulars. Let us show you our latest catalogs of Photographic Supplies, Fishing and Hunting Needs, Power Tools, Nursery Stock and many other popular lines. You can also borrow one of our big General Catalogs, if desired, to take home with you for two weeks or more and consult with your family.

Ask about Wards convenient "Lay Away Plan" offered by all our Catalog Offices and the Catalog Department of all our Stores. It enables you to take advantage of the low prices offered during sale periods and other special selling events. Come in any time and let us answer your questions, help you with selections, assist in taking measurements, handle exchanges and adjustments. We can also arrange for installation, if required, and furnish repair service and parts for any Ward major appliance or mechanical equipment.

If you have a monthly payment account with Wards, you can make your payments and place "Add-on" orders here. Or if you would like to open an account, we will be glad to help you.

WARD CATALOG OFFICES AND STORES IN THIS VICINITY

*Indicates Ward Catalog Office where orders for any catalog items may be placed in person or by phone.

□Indicates Telephone Shopping Service only. Shop by phone for anything in this Catalog. Prompt delivery.

Others are Ward Retail Stores, each with a convenient Catalog Sales Dept. to handle your catalog orders.

†Indicates Retail Stores displaying and selling Television sets. Complete television service facilities.

shop by phone

Shop Wards Catalogs for extra savings. Then just phone your order, giving catalog number, name and price of items wanted and we'll handle promptly. It's so quick and easy. You can complete all your shopping in minutes, without even leaving your home.

See phone numbers below and on opposite page. If you live near one of our Stores or Catalog Offices you can save up to one-half on usual delivery charges by using our low cost "will call" service. Simply phone your order and call for goods when they are ready. See opposite page for further details of this easy, economical plan.

METROPOLITAN PACKAGE DELIVERY SERVICE. In a number of cities we now deliver phone orders by fast truck service—Wards Metropolitan Package Delivery—direct to door of your apartment or home. Fast service and reasonable rates. Special low rates on heavy items such as Building Materials, Plumbing, Heating, Paint and Fencing. No extra charge for C.O.D. orders at any time.

If you live in one of these cities (see the list given on Page 969) try Wards fast Metropolitan Package Delivery Service on your next order. It's the easy, modern way to shop. You'll find it saves you at least a day.

shop by mail.. g

Shop comfortably at home, with your family around you. Make shopping from Wards a family affair.

It's so easy to select from the broad assortments in our catalog. Our illustrations are accurate, our descriptions truthful. You can find the quality you want at the price you want to pay; and you can always be sure of satisfaction. Millions have learned the convenience of shopping from Wards by mail.

LIKE A DEPARTMENT STORE IN YOUR HOME

Wards catalogs bring you more than 100,000 items to choose from—a greater variety and more complete assortment than you'll find in any but the largest department stores. You have all the advantages of shopping in a big city without spending long hours "shopping around." Go from department to department by just turning the pages. Find practically everything needed for family and home without leaving your easy chair. Wards catalog is like a store that never closes. You can shop any time, day or night, to suit your convenience. Just write out your order and drop it in the mail.

BUY AT OUR LOWEST CURRENT PRICES

It is our policy to quote lower prices, whenever possible, than asked elsewhere for merchandise of comparable quality. We are able to do this by the economies we make in selling direct by mail.

If we are able to reduce prices still further after our catalog is printed, we will fill your order at the lowest prices in effect at the time your order is received.

During our Midsummer and Midwinter Sales and other similar mail order sales events, we will fill orders from our General Catalog at the sale prices then in effect. You can order from any Ward catalog with the assurance that if our prices are lower than in the catalog you have, we will fill order at the lower prices and refund the difference to you.

SATISFACTION OR YOUR MONEY BACK

Wards 84-year-old Guarantee (see below) means exactly what it says. We are sincere in our desire to please you and are not content until you are satisfied in every way.

If for any reason you are not completely satisfied, you can return the merchandise for exchange. Or if you prefer, we will refund the entire purchase price including any transportation charges you have paid.

Most orders are filled and on their way to you within 24 hours. On items shipped from factory the catalog states the approximate number of days delay.

Buy for cash or on Monthly Payments. You will find easy ordering instructions on Page 972. For convenient monthly terms, see Page 981.

Wards have mail order houses in Chicago, Baltimore, Albany, St. Paul, Kansas City, Denver, Portland (Ore.), Oakland, Ft. Worth; also our Fashion House in Chicago. Our Guarantee of Satisfaction or Your Money Back applies to everything you buy.

Wards Guarantee of Satisfaction

We guarantee the quality of every article as described, and guarantee that it will give you the service you have a right to expect.

If, for any reason, you are not completely satisfied with any article purchased from us, you may return it at our expense. We will exchange it for what you want, or refund what you paid, including any transportation charges paid by you.

MONTGOMERY WARD & CO.

get our catalogs regularly

SAVE BY SHOPPING AT WARDS THROUGHOUT THE YEAR

To make the greatest saving, you should get our catalogs regularly. See all our latest selections and prices, get the benefit of all our special sales.

We send our big General Catalogs to all those who have given us at least two catalog orders—which added together total $10 or more—during the preceding six months period. Our Sale Books and our special Christmas Catalog are also sent to these regular customers without need of request.

Orders may be mailed or may be phoned or placed in person in any of our Catalog Offices or in the Catalog Department of any of our Retail Stores. They can be for cash or on our Monthly Payment Plan and include items from any of our catalogs or sale books. Purchases from Retail Store stocks are not counted on compiling our mailing list.

GET THESE CATALOGS EACH YEAR

To customers who order regularly during the entire year, we send:

GENERAL CATALOGS: Issued twice each year—for the Spring and Summer season, and for the Fall and Winter season. You'll want our "Big Book" with its big assortments of merchandise in your home at all times.

SALE BOOKS: Issued periodically. Get all of our main Sale Books—our Midsummer Sale, Midwinter Sale, etc.—and any other special sale events.

CHRISTMAS CATALOG. Issued just in time for the holiday season. Find gift ideas for every member of the family; big assortments of toys, games, dolls. Do all your Christmas shopping leisurely, right in your own home.

In addition, you have your choice of many special catalogs showing additional selections and more complete assortments of Photographic Supplies, Fishing and Hunting Needs, Farm Equipment, Power Tools, Garden Supplies and other popular lines. All of these are available on request.

HOW TO STAY ON OUR MAILING LIST

As long as you order from us regularly and place at least two orders each season as explained at left, you will continue to receive our catalogs.

IMPORTANT: To be certain that you get full credit on our mailing list for all orders given us, we suggest that you always order under the same name. If you have moved since last ordering, also notify us promptly—giving both old and new addresses—so we will count orders received from both.

get complete repair service

Wards guarantee complete repair service—and accurate made repair parts—for all major appliances and mechanical equipment we sell.

This protection is yours whether you buy from us by mail or our Stores or Catalog Offices. Even if you move to another town, anywhere in the United States, you will still be protected. All Ward stores, catalog offices and mail order houses are prepared to make good on our service guarantees and to furnish complete service. All of our nine mail order houses maintain complete repair service departments and carry stocks of repair and replacement parts. Our stores have their own trained repairmen and carry parts in stock. The catalog offices or Ward authorized service dealers in your locality are prepared to furnish most of your service needs. Get service from Wards, no matter where you live.

WARDS REPAIR SERVICE POLICY

We provide a parts and service guarantee that equals or exceeds those offered by leading manufacturers and assure full protection and complete service when you buy at Wards.

1. We will repair or replace defective parts, without charge during period covered by the guarantee on that item.
2. We will furnish, even after the guarantee period, prompt repair service at reasonable rates—as low or lower than usually asked for first class repair service elsewhere.
3. We will furnish parts, also at reasonable prices, throughout the normal life of the item.

Parts are guaranteed the same as or equal to original equipment. All service is provided at lowest possible cost.

WHERE TO OBTAIN SERVICE

If you live near one of Wards Stores or Catalog Offices a phone call will bring prompt service.

If the item is small and portable, simply bring it in. Competent service men will make the repair or adjustment promptly, most times using parts in stock.

If you do not live near one of our Stores or Catalog Offices and the item is small and portable, send it to the Repair Service Department of our nearest Mail Order House (See Page 972 for how to ship). Or, if the item must be serviced in your home, write, wire or phone the Repair Service Department and we will give your needs prompt attention. In some cases we will authorize you to have repairs made by a local repairman of your choice and send the bill to us.

For instructions on how to order repair parts from our Mail Order House, turn to Page 972.

Note: In addition to our regular repair service explained above, Wards are equipped to completely overhaul and recondition any make of rifle or shotgun (See Page 750) and repair all makes of watches and jewelry (see Page 453).

RADIO AND TELEVISION ANTENNA INSTALLED BY WARDS OWN SERVICEMEN

All of our Stores and most of our Catalog Offices are also equipped to install for you at reasonable rates, radio and television antennas and other accessories purchased at Wards. Installations are handled by trained servicemen.

Wards laboratories

Protect our high standards of quality

Before any merchandise can be listed in our catalog, it must meet the high standards of quality which we require. Careful testing and scientific analysis in Wards Laboratories make certain of this *in advance*. Wards were the first big general merchandising organization to establish a merchandise-testing laboratory for the protection of customers. When you buy from Wards, you can be sure the quality is *right!*

TERMS USED IN OUR CATALOG TO DESCRIBE TEXTILES

WASHABILITY—These terms define the colorfastness of washable garments and fabrics:

WASHFAST: Best washability. May be washed by machine with other clothing, using laundry soap or detergent and hot water (160°F).

WASHABLE: May be washed by machine with other colored washables. Use mild soap or detergent and warm water (not over 120°F).

WASH SEPARATELY: Same as "Washable" except should be washed alone as the dyes may stain other fabrics. Remove contrasting trim.

WASH WITH CARE: Some bulky articles such as blankets, sheer curtains, scatter rugs, require the care you give hand washable fabrics to prevent possible fraying, matting or loss of color. Wash in mild lukewarm suds (about 100°F). Agitate no more than two or three minutes. Rinse in lukewarm water. Dry promptly.

HAND WASHABLE: Wash by hand in lukewarm water (about 100°F) with mild soap flakes or mild detergent. Do not twist or rub. Rinse in lukewarm water. Hang to dry promptly. Indoors or in shade.

WASH SEPARATELY BY HAND: Same as "Hand Washable" except: wash alone to avoid staining other fabrics. Remove contrasting trim.

SHRINKAGE: These terms show how much shrinkage to expect in washing. Garments described as Sanforized or Preshrunk retain their size when washed.

SANFORIZED: Shrinkage of Sanforized cotton is less than 1% in length or width.

PRESHRUNK: Preshrunk fabrics made of cotton, wool acetate or rayon will not shrink more than 2 or 3%.

MAN-MADE FIBERS: Fabrics made from Acrilan, Dacron, Dynel, Fiberglas, Nylon and Orlon show practically no shrinkage in washing.

OTHER FABRICS: Where no statement about shrinkage is given: (1) Fabrics such as percale, sheeting and prints of cotton, acetate or rayon may shrink up to 5%. (2) Knitted, napped, braided, sheer and yarn dyed fabrics may shrink up to 10%. This group may include rugs, blankets, curtains, underwear sweaters, flannels, lace tablecloths, bedspreads, ticking.

SUN-RESISTANCE: Colors of fabrics which normally are exposed to sunlight in the home or out of doors are described as follows:

SUNFAST: Sunfast colors have high resistance to sunlight fading, and normal use will not cause noticeable color change.

SUN RESISTANT: Sun resistant colors have good resistance to sunlight but may fade slightly in normal use. Protect from direct sunlight to prolong life.

FAST COLOR: Means both washfast and sunfast.

WATERPROOF: Fabrics are impervious to water and air. Seams in 100% waterproof garments are sealed.

WATER RESISTANT OR WATER REPELLENT: Fabrics resist water penetration and allow some passage of air. "Durable" water resistant treatments withstand repeated washing and dry cleaning.

WATER-SPOT RESISTANT: Fabrics resist stains by water-borne soil.

TERMS USED IN DESCRIBING WOOL PRODUCTS

NEW WOOL OR VIRGIN WOOL: Wool fibers which have never been previously processed in any way.

WOOL: Wool fibers which may have been previously spun or knit, but have never been woven or felted.

REPROCESSED WOOL: Wool fibers reclaimed from woven or felted products which never have been used by the consumer—such as trimmings and cuttings left over from garment production.

REUSED WOOL: Wool fibers reclaimed from products used by consumers.

Reprocessed wool and reused wool is reduced to fibrous form and is thoroughly cleaned before use.

"MAN-MADE" FIBERS USED IN FABRICS

Fabrics containing Man-made textile fibers offer new features and often greater economy through longer life and easier care. They include:

ACETATE: Gives soft texture, excellent draping qualities and a soft sheen to fabrics like satins, failes, crepes. Tends to recover from soft wrinkles or folds. Resists moths and mildew. Iron at low heat.

ACRILAN: Chemstrand Corp.'s trademark for acrylic fiber. Acrilan is used in sweaters and wool blends to give crease-resistance and shape-retention. Absorbs little water, dries rapidly. Press or iron at low heat.

DACRON: DuPont Co.'s trademark for "polyester" fiber. A springy wear-resistant fiber that does not absorb water. Suiting fabrics containing a substantial proportion of Dacron retain their pressed appearance in humid weather, are highly resistant to wrinkling and have unusual durability. Used in curtains, suiting fabrics, sweater and uniforms. Iron at low heat.

DYNEL: Union Carbide and Carbon Co.'s trade name for acrylic fiber. Used in blankets because of its highly springy, shrink-resistant properties. It resists matting, moths and mildew. If you iron, use lowest heat and protect with pressing cloth.

FIBERGLAS: Owen-Corning Co.'s trademark for glass fibers. Does not rot from sunlight or weather, resists fire, exceptionally strong, does not absorb water. Popular in marquisette curtain fabrics that dry in minutes and need no ironing.

NYLON: High strength, high wear-resistance, absorbs little moisture, dries quickly, easy to launder. Resists moths and mildew. Iron at low heat.

ORLON: DuPont's trademark for acrylic fibers. Orlon is highly resistant to sunlight and weather rotting, gives long lasting pleats and wrinkle-resistance when used alone and with other fibers. It absorbs little water and dries quickly. Resists moths and mildew. Used in skirts, sweaters, shirts, curtains, etc. Iron at low heat.

RAYON: A medium strength, highly water-absorbent fiber. Washes and irons easily. Can be made wrinkle-shedding and shrink-resistant with suitable treatments.

SARAN: Dow Chemical Co.'s trade name for vinylidine chloride monofilaments. Has outstanding colorfastness to light and weather. Used for auto seat covers and outdoor furniture seats. Also used for insect screens.

get complete repair servic

If you do not live near one of our Stores or Catalog O and the item is small and portable, send it to the R Service Department of our nearest Mail Order House Page 972 for how to ship). Or, if the item must be ser in your home, write, wire or phone the Repair Servic partment and we will give your needs prompt attenti some cases we will authorize you to have repairs ma a local repairman of your choice and send the bill

For instructions on how to order repair parts from our Order House, turn to Page 972.

Note: In addition to our regular repair service expla above, Wards are equipped to completely overhaul recondition any make of rifle or shotgun (See Page 750 repair all makes of watches and jewelry (see Page

RADIO AND TELEVISION ANTENNA INSTALLED BY WARDS OWN SERVICEMEN

All of our Stores and most of our Catalog Offices are equipped to install for you at reasonable rates, radio television antennas and other accessories purchased Wards. Installations are handled by trained service

Wards laboratories

Protect our high standards of quality

Before any merchandise can be listed in our catalog, it must meet the high standards of quality which we require. Careful testing and scientific analysis in Wards Laboratories make certain of this *in advance*.

Wards were the first big general merchandising organization to establish a merchandise-testing laboratory for the protection of customers. When you buy from Wards, you can be sure the quality is *right!*

TERMS USED IN OUR CATALOG TO DESCRIBE TEXTILES

WASHABILITY—These terms define the colorfastness of washable garments and fabrics:

WASHFAST: Best washability. May be washed by machine with other clothing, using laundry soap or detergent and hot water (160°F).

WASHABLE: May be washed by machine with other colored washables. Use mild soap or detergent and warm water (not over 120°F).

WASH SEPARATELY: Same as "Washable" except should be washed alone as the dyes may stain other fabrics. Remove contrasting trim.

WASH WITH CARE: Some bulky articles such as blankets, sheer curtains, scatter rugs, require the care you give hand washable fabrics to prevent possible fraying, matting or loss of color. Wash in mild lukewarm suds (about 100°F). Agitate no more than two or three minutes. Rinse in lukewarm water. Dry promptly.

HAND WASHABLE: Wash by hand in lukewarm water (about 100°F) with mild soap flakes or mild detergent. Do not twist or rub. Rinse in lukewarm water. Hang to dry promptly. Indoors or in shade.

WASH SEPARATELY BY HAND: Same as "Hand Washable" except: wash alone to avoid staining other fabrics. Remove contrasting trim.

SHRINKAGE: These terms show how much shrinkage to expect in washing. Garments described as Sanforized or Preshrunk retain their size when washed.

SANFORIZED: Shrinkage of Sanforized cotton is less than 1% in length or width.

PRESHRUNK: Preshrunk fabrics made of cotton, wool acetate or rayon will not shrink more than 2 or 3%.

MAN-MADE FIBERS: Fabrics made from Acrilan, Dacron, Dynel, Fiberglas, Nylon and Orlon show practically no shrinkage in washing.

OTHER FABRICS: Where no statement about shrinkage is given: (1) Fabrics such as percale, sheeting and prints of cotton, acetate or rayon may shrink up to 5%. (2) Knitted, napped, braided, sheer and yarn dyed fabrics may shrink up to 10%. This group may include rugs, blankets, curtains, underwear sweaters, flannels, lace tablecloths, bedspreads, ticking.

SUN-RESISTANCE: Colors of fabrics which normally are exposed to sunlight in the home or out of doors are described as follows:

SUNFAST: Sunfast colors have high resistance to sunlight fading, and normal use will not cause noticeable color change.

SUN RESISTANT: Sun resistant colors have good resistance to sunlight but may fade slightly in normal use. Protect from direct sunlight to prolong life.

FAST COLOR: Means both washfast and sunfast.

WATERPROOF: Fabrics are impervious to water and air. Seams in 100% waterproof garments are sealed.

WATER RESISTANT OR WATER REPELLENT: Fabrics resist water penetration and allow some passage of air. "Durable" water resistant treatments withstand repeated washing and dry cleaning.

WATER-SPOT RESISTANT: Fabrics resist stains by water-borne soil.

TERMS USED IN DESCRIBING WOOL PRODUCTS

NEW WOOL OR VIRGIN WOOL: Wool fibers which have never been previously processed in any way.

WOOL: Wool fibers which may have been previously spun or knit, but have never been woven or felted.

REPROCESSED WOOL: Wool fibers reclaimed from woven or felted products which never have been used by the consumer—such as trimmings and cuttings left over from garment production.

REUSED WOOL: Wool fibers reclaimed from products used by consumers.

Reprocessed wool and reused wool is reduced to fibrous form and is thoroughly cleaned before use.

"MAN-MADE" FIBERS USED IN FABRICS

Fabrics containing Man-made textile fibers offer new features and often greater economy through longer life and easier care. They include:

ACETATE: Gives soft texture, excellent draping qualities and a soft sheen to fabrics like satins, failes, crepes. Tends to recover from soft wrinkles or folds. Resists moths and mildew. Iron at low heat.

ACRILAN: Chemstrand Corp.'s trademark for acrylic fiber. Acrilan is used in sweaters and wool blends to give crease-resistance and shape-retention. Absorbs little water, dries rapidly. Press or iron at low heat.

DACRON: DuPont Co.'s trademark for "polyester" fiber. A springy wear-resistant fiber that does not absorb water. Suiting fabrics containing a substantial proportion of Dacron retain their pressed appearance in humid weather, are highly resistant to wrinkling and have unusual durability. Used in curtains, suiting fabrics, sweater and uniforms. Iron at low heat.

DYNEL: Union Carbide and Carbon Co.'s trade name for acrylic fiber. Used in blankets because of its highly springy, shrink-resistant properties. It resists matting, moths and mildew. If you iron, use lowest heat and protect with pressing cloth.

FIBERGLAS: Owen-Corning Co.'s trademark for glass fibers. Does not rot from sunlight or weather, resists fire, exceptionally strong, does not absorb water. Popular in marquisette curtain fabrics that dry in minutes and need no ironing.

NYLON: High strength, high wear-resistance, absorbs little moisture, dries quickly, easy to launder. Resists moths and mildew. Iron at low heat.

ORLON: DuPont's trademark for acrylic fibers. Orlon is highly resistant to sunlight and weather rotting, gives long lasting pleats and wrinkle-resistance when used alone and with other fibers. It absorbs little water and dries quickly. Resists moths and mildew. Used in skirts, sweaters, shirts, curtains, etc. Iron at low heat.

RAYON: A medium strength, highly water-absorbent fiber. Washes and irons easily. Can be made wrinkle-shedding and shrink-resistant with suitable treatments.

SARAN: Dow Chemical Co.'s trade name for vinylidine chloride monofilaments. Has outstanding colorfastness to light and weather. Used for auto seat covers and outdoor furniture seats. Also used for insect screens.

INDEX TO ALL ITEMS IN THIS CATALOG

HOW TO USE THE INDEX: Look for the *name* of the article wanted. For example, to find Plastic Curtains look under "Curtains"—not under "Plastic."

WARDS 1956 TOY CATALOG

Write your nearest Mail Order House, or call at your Ward Catalog Office or Store Catalog Department.

PARCEL POST CHARGES

Parcels weighing not more than 70 pounds and measuring not more than 100 inches in length plus girth (distance around at widest point) may be mailed to all zones—with certain weight and size restrictions to First Class Post-offices. Please allow enough extra to cover the postage. We will return every cent not needed on your order.

To figure how much to allow for postage, simply follow these two easy steps:

1. FIND TOTAL SHIPPING WEIGHT OF ORDER. As you write your order, enter in the last two columns of the order blank the shipping weight of each item as given in description. Add and convert ounces into pounds (16 oz. equal 1 lb.)

2. FIND POSTAGE RATE IN TABLE AT RIGHT. Find the weight of your order in the first column, and to right, rates to different zones. (For your zone, see explanation below map.)

ALLOW POSTAGE ON TOTAL WEIGHT ONLY. If we find it necessary to ship your order in more than one package, it won't cost you any more. Wards will pay any extra postage required.

NOTE: Items described in the catalog as "Not Mailable" cannot be sent by Parcel Post because of size, weight or content—but they can be shipped by Freight, Truck, or Express.

POSTAL MONEY ORDERS

One of the best and safest ways to remit money to us. Low rates are as follows:

Up to $5.00	10c
$5.01 to 10.00	15c
10.01 to 50.00	25c
50.01 to 100.00	35c

For amounts over $100, simply purchase additional money orders at above rates. If you live on a rural route, your carrier will buy a money order for you and enclose with your order.

POSTAL C. O. D. FEES

On any orders except those handled by our special Metropolitan Service explained below, we do not accept C. O. D. orders for less than $5 (except orders for repair parts). Nor for any articles cut, made-to-order, engraved or monogrammed, or shipped direct from Factory. On C. O. D. shipments you pay (1) cost of merchandise, (2) regular parcel post charge and (3) Postoffice C. O. D. fee as follows:

Amount of Order incl. Postage	C.O.D. Fee
Up to $5.00	30c
$5.01 to 10.00	40c
10.01 to 25.00	60c
25.01 to 50.00	70c
50.01 to 100.00	80c

In addition, the Post Office charges you money order fee for returning the remittance to us.

TO FIND YOUR PARCEL POST ZONE locate your town or one near it on this map and note the zone in which it falls. Or you can look at any parcel post package or catalog you received from Wards Albany House. Your Zone is the number that appears opposite your address.

HENRY C: SMITH
102 SECOND ST:
BERLIN, N: H: 2

Note: To find amount of postage on orders mailed from factory, refer to Page 970 for distance from the factory to your home and see Parcel Post table at left for postage rate for that distance.

WARDS ALSO SHIP OVERSEAS

Wards extend complete Parcel Post service on catalog merchandise to all countries.

Prepare orders in the regular way. On A.P.O. and F.P.O. orders, allow Zone 2 postage. On orders for foreign addresses, allow 20% of order value for international postage and export handling charges. Be sure to send enough as we will refund every cent not required. Custom duties cannot be prepaid—must be paid by addressee upon arrival.

PHONE ORDERS DELIVERED TO YOUR HOME

In Albany Metropolitan Area and Other Cities Listed Below

In the cities listed below, you can just phone your order and have any catalog merchandise (except factory-ship items) delivered direct to your home by Wards Metropolitan Delivery Trucks. See below for low rates and fast delivery schedule to your area.

SAVE A DAY—SAVE ALL C.O.D. CHARGES. Prompt service as shown below saves at least a day on most catalog orders. And there are no C.O.D. charges at any time when you use this service. Simply pay driver for merchandise and delivery when goods are received. Cost of this fast service is actually less than the cost of Parcel Post sent C.O.D.

NEW LOW DELIVERY RATES IN ALBANY AREA. We now offer reduced rates for Metropolitan Deliveries to the Albany Metropolitan Area (including Schenectady and Saratoga Springs) on heavy items such as Building Materials as shown in list at bottom of page. These new rates now apply to all Metropolitan Deliveries of these items in the Albany area.

For quickest service, we recommend that you phone your order (see notice below). We will give it prompt and careful attention and rush it by our fast truck delivery service direct to your home. You can save time and also C.O.D. charges by phoning your order to Wards.

ALBANY AREA

Deliveries in Albany, Troy and Suburbs usually next day after order is placed. See Rate Table #1.

SARATOGA AREA

Deliveries in Saratoga Springs and Suburbs usually third day after order is placed. See Rate Table #1.

SCHENECTADY AREA

Deliveries in Schenectady and Suburbs usually second day after order is placed. See Rate Table #1.

NEW YORK AREA

Deliveries in Greater New York area usually second day after order is placed. See Rate Table #2.

BUFFALO AREA

Deliveries in Buffalo and Suburbs usually second day after order is placed. See Rate Table #2.

ROCHESTER AREA

Deliveries in Rochester and Suburbs usually second day after order is placed. See Rate Table #2.

SPRINGFIELD AREA

Deliveries in Springfield, Mass. and Suburbs usually third day after order is placed. See Rate Table #2.

HOLYOKE AREA

Deliveries in Holyoke, Mass. and Suburbs usually third day after order is placed. See Rate Table #2.

WORCESTER AREA

Deliveries in Worcester, Mass. and Suburbs usually third day after order is placed. See Rate Table #2.

NOTE: If Your City is in Above List, see following Page 972A for Further Information.

FOR QUICKEST SERVICE—PHONE YOUR ORDER Just call the nearest Ward Catalog Office, Store or Telephone Shopping Service in your area. For convenient phone numbers, see Pages 954 and 955.

Include in your order anything in this or any other Ward Catalog. We offer you a choice of more than 100,000 items—a greater assortment of quality merchandise than you will find in any but the nation's largest department stores—and you can get what you want at Wards quickly and easily, without having to "shop around". A single order brings all your needs.

When ordering by phone, simply give us catalog number, name and price of items wanted and we will make all arrangements for prompt delivery. If you have a monthly payment account with Wards, you can also place "Add-on" orders by phone, if desired. Usually no down payment is required on "Add-on" orders. Just give our phone order clerk your monthly payment account number and tell us where your account is now carried.

When ordering by mail, mark an "X" in the square above Metropolitan Package Delivery on the order blank and unless you wish order delivered C.O.D., allow enough extra with remittance to cover delivery charges to your area as shown at right. We will return to you every cent not actually required.

YOUR SATISFACTION IS ALWAY GUARANTEED

Like any other purchase made at Wards, you can return for exchange or refund any item not entirely satisfactory. Simply phone us and our truck will call promptly to pick up the merchandise. Or if you write, just give us the catalog number of the item to be returned and we will pick it up at the same time we deliver your new selection.

Any refund will include not only the full price of the merchandise but also any delivery charges you have paid. You can be sure of complete and entire Satisfaction when you place your order with Wards.

ALL RATES ON THIS PAGE SUBJECT TO CHANGE

FOR INFORMATION AND RATES ON FREIGHT AND EXPRESS SHIPMENTS, TURN TO PAGES 970 AND 971.

over 300 for rates.

USE ECONOMICAL FREIGHT ON HEAVY ORDERS

Freight is the economical way to ship heavy goods . . . most orders over 50 lbs. Railroads and trucking companies provide good service at reasonable rates.

To estimate the freight on your order: First, find in the table below the approximate distance between your station and our Mail Order House (or factory shipping point if item is shipped direct from factory, as explained at right). If your town is not listed, choose one near you and make any allowance necessary. Then find on the opposite page the estimated freight rate per 100 lbs. for that distance, on the kind of merchandise you are ordering.

RAIL FREIGHT SERVICE. In order to maintain best service, most railroads are using trucks in addition to freight cars to expedite shipments between transfer points. We route all orders to utilize the fastest available service.

If you wish us to ship your order by rail freight, mark "X" in the proper square on the order blank and tell us name of the railroad. Do not send money for freight charges if there is an agent at your local station, as you can pay him when the goods arrive. Where home delivery is not available, (see at right) agent will notify you when shipment arrives. If you have no agent, include enough extra to prepay the freight and specify name of station to which shipment should be sent.

HI-WAY TRUCK SERVICE. Truck rates are approximately the same as the rail freight rates given on these pages. If your town is a regular stopping point on route of a reliable trucking company, consult them if you wish delivery by truck. Be sure they serve or make connections with point from which shipment is to be sent. Specify their name on order and mark "X" in proper square on order blank.

HOME DELIVERY. Available in certain cities. Rail and truck freight shipments will be delivered to addresses within corporate limits of cities where railroad has local freight agent or trucking company has freight terminal or local cartage service. (Deliveries to sidewalk or first floor only.) For this service, consult local agent and specify "Home Delivery" on order.

FACTORY SHIPMENTS

Most merchandise in our catalog is shipped direct from stock in our Mail Order House, but you will note in the description of some items, that they will be shipped direct to you from a factory or warehouse. On items so described we are able to offer you wider selections, including many made-to-order items, and also quote lower prices.

For example, we are able to furnish special sizes in Venetian Blinds, added assortments in upholstery fabrics for Living Room Furniture, and Wool Rugs in practically all the many widths manufactured. From these any length can be cut to fit the exact size of your room.

Our building material selections are offered in many styles and sizes to cover almost every building need, whether for your new home or for remodeling purposes. Nursery stock and seeds are made available to you in such a variety as to fill almost every gardening and landscaping need. These are only a few of the many advantages of buying merchandise that is shipped direct from the factory source to your

By shipping these items direct to you, instead of first br them into our mail order stock and then reshipping, w on transportation charges, handling expense and rentals—savings which we pass on to you in the form o prices. Add these to the other savings you make at W

You may also make a saving on shipping charges if yo closer to the factory than to our Mail Order House. In mos the delivered price, when merchandise is shipped fro factory, is lower.

If the time required by the factory for their handlin counting Saturdays, Sundays and holidays) does not e 5 days the catalog states "Shipped promptly from fact

If the extra time required exceeds 5 days, the catalog the approximate number of days to allow for handling factory. In addition, please allow us enough time to r your order to the factory and for shipment to reach yo that point. You will receive notification direct from the when shipment is made.

NOTE: Items shipped direct from a factory may be inclu the same order with other merchandise to be shipped fr Mail Order House but transportation charges sho figured separately because they will come from a di shipping point. You pay shipping charges from that p is not necessary to send shipping charges with your o there is an agent at your station; but if you wish to estima the charges will be, see instructions in first column at le

RAILROAD DISTANCES FROM OUR SHIPPING POINTS TO PRINCIPAL CITIES

At the left below are listed a number of well-known cities; and across the top of the table, the chief points from which we ship our merchandise.

To find how far you live from Albany, for instance, simply find your city, or one near it, in the first column and then look across at the next column (under the heading, Albany). The figure shown there is the approximate railroad distance between your city and Albany. Where the catalog description states that the merchandise is shipped from a factory, find the factory shipping point, or some other town near it, at the top of the table and then trace down that column line opposite your city.

If your city is not listed or exact shipping point men in catalog is not shown, figure from nearest one and allowances. Then see opposite page for rates.

RATES ON THESE PAGES ARE THOSE IN EFFECT WHEN THIS CATALOG IS PRINTED AND ARE SUBJECT TO CHANGE WITHOUT NOTICE.

ESTIMATED FREIGHT RATES PER 100 POUNDS

eight rates are based on the weight, the distance of haul, d kind of merchandise shipped. To estimate the freight arges on your order, simply find in the table below the kind merchandise you are ordering and then alongside it the 0-lb. rate for the distance you live from our shipping point you are not sure of this distance see table opposite).

example, if you are ordering an Air Compressor weighing 0 lbs. and the distance is 200 miles, the freight charge will be .46 as shown on the first line of the table below. If the dis- nce is 250 miles, allow half the difference between the 200-mile rate ($1.46) and the 300-mile rate ($1.75) or $1.61. On shipments over 100 lbs., charges are based on actual weight. For example, an Air Compressor weighing 150 lbs. takes 1½ times the 100 lb. rate. If your order contains several different kinds of merchandise and they take different rates, figure the charge for each item separately and add them together. Transportation Companies are required to collect a Federal Tax of 3% on their charges.

BUILD UP YOUR ORDER. The minimum freight charge made by railroads serving this area is the rate for 100 lbs. of the highest rated article in the shipment but not less than $2.30, depending on your location. On shipments of merchandise stocked in our Mail Order House, it will therefore pay you to build up your order to this minimum. Anticipate your future needs and order them all now. You can include additional items at no additional freight charges up to the point where the total charges equal the minimum of $2.30.

Shipping charges on Factory orders should always be figured separately from the rest of order because they come from a different shipping point. (See explanation on opposite page.)

RAILWAY EXPRESS RATES TO VARIOUS DISTANCES

Express is the fastest way to ship unmailable merchandise, as packages are carried in railway express cars on fast passenger trains and get preferred attention and special handling all along the line. Express is especially suitable for light, bulky, fragile or odd shaped articles.

If your town has express delivery service, goods are delivered to your home by truck at no extra charge.

Do not send money for express charges with your order if there is an express agent at your station. It's easy to estimate express charges. For example: Suppose your order weighs 20 lbs. and you live 190 miles from the shipping point. The table below shows that $2.09 would be approximate charge. If the shipment weighed 150 lbs., the charge would be 1½ times the 100-lb. rate for that distance ($4.50) or $6.75.

Shipping Weight	100 Miles	200 Miles	300 Miles	400 Miles	500 Miles	600 Miles	750 Miles
5 Pounds	$1.80	$1.80	$1.80	$1.80	$1.80	$1.80	$1.80
10 Pounds	1.80	1.80	1.91	1.96	2.03	2.05	2.13
15 Pounds	1.80	1.93	2.13	2.20	2.30	2.34	2.45
20 Pounds	1.91	2.09	2.35	2.43	2.58	2.63	2.77
25 Pounds	2.02	2.24	2.56	2.67	2.85	2.91	3.10
35 Pounds	2.23	2.54	2.99	3.15	3.40	3.49	3.74
55 Pounds	2.66	3.14	3.86	4.10	4.50	4.63	5.03
75 Pounds	3.09	3.74	4.72	5.05	5.60	[illegible].78	6.32
Each 100 Lbs.	3.63	4.50	5.80	6.24	6.97	7.21	7.93

AIR EXPRESS—Gives faster service to some points over 300 miles from our Mail Order House. See local agent for rates.

FOR PARCEL POST RATES AND WARDS METROPOLITAN PACKAGE DELIVERY SERVICE, TURN TO PAGE 39.

How to Order by Mail from Wards

Simply make a list of items wanted, using one of our convenient order blanks—there are several in the back of this catalog—or any plain piece of paper. Send with your remittance direct to our nearest Mail Order House.

Always give the complete Catalog Number of each item. (Example 53C7423M) also quantity, name, price and shipping weight of each. Be sure to state Size, Color, Pattern or Finish—if a choice is offered—and give any other information requested in the description.

All members of one household should order under one name and write that name the same way each time. If you have moved since last ordering, please give both old and new addresses. This will assure you get full credit on our mailing list for all orders placed.

HOW TO SEND MONEY

The safest and best ways to send money are: Postal Money Orders, Express or Bank Money Orders, Bank Drafts or Cashier's Checks. Of if you have a checking account with bank, just send your own check. The Postoffice Dept. advises against sending cash through the mails unless letter is registered. But if you have no other way, be sure that coins are well wrapped in stout paper, not just loose in the envelope. If there is a Ward Store or Catalog Office near you, they will mail your orders without any cost for money order fees.

ALLOW POSTAGE WITH ORDER

Except for a few items marked "Prepaid" or "Postpaid" our prices do not include shipping charges. On "Prepaid" or "Postpaid" items, transportation charges are prepaid only to points within the 48 states.

If you wish us to ship by Parcel Post, include enough extra with remittance to cover the postage; allow postage on total weight only. To find out how much to allow, total the shipping weights of items ordered and see Parcel Post Rates on Page 969. For freight and express rates, see Pages 970, 971.

REGARDING SAMPLES

Except where the catalog description invites you to send for a sample, we do not supply sample swatches of piece goods, garment fabrics and similar materials by mail. But you need not hesitate to order from Wards without seeing a sample. We guarantee that you will be satisfied. We will exchange any purchase that is not entirely satisfactory or refund your money.

FAST SERVICE SAVES YOU TIME

Most of your orders will be handled the day they are received. With few exceptions, those not handled the same day will be completed the following day.

We know that there are times when some special need exists and you must have your order filled on an emergency basis. Where this is the case, if you will indicate plainly on the face of your order that you must have the merchandise by a certain date, we will give it special handling to assure arrival by that date.

AVOID C.O.D. MAIL ORDERS

Postal C.O.D. service is expensive and slower than regular Parcel Post. Except in emergencies, such as when ordering repair parts urgently needed, we advise avoiding this extra expense on mail orders. You will make a greater saving on our low prices by enclosing remittance in full.

We do not accept C.O.D. orders for less than $5.00 (except for repair parts) on any orders except those handled by our Metropolitan Delivery Service explained on Page 969. We do not accept C.O.D. orders at any time for articles cut, made-to-order, engraved or monogrammed, or described as shipped direct from factory.

On C.O.D. orders, the Postoffice charges, in addition to the regular postage, a C.O.D. collection fee and also a money order fee for sending the payment to us. For example, on a $5.10 C.O.D. order, the Postoffice charges a 40c collection fee and a 15c money order fee—total 55c—in addition to the regular parcel post rate.

When C.O.D. service is necessary, we suggest that you order by prepaid telegram giving complete information about item needed and stating full name and address. It's the most satisfactory and economical way to buy.

ACCEPTANCE OF ORDERS

All orders, whether sent to a Mail Order House direct by mail or placed at any Catalog Office or in the Catalog Sales Dept. of any Retail Store, are subject to acceptance at Wards Mail Order House. If the merchandise is shipped direct to the customer, it becomes the customer's property at the time of shipment.

Large orders will be refused if we have reason to believe that they are from dealers or others trying to take undue advantage of our low mail order prices.

It is our policy to quote lower prices, wherever possible than asked elsewhere for merchandise of comparable quality. This is made possible by the economies of our method of doing business.

Should changed market conditions, or other factors affecting costs, permit price reductions, you can be assured that your orders will be filled at Wards lowest current price. During our Midsummer and Midwinter Sale or similar mail order sale events we fill orders from the General Catalog at sale prices then in effect.

IMPORTANT NOTICE

All prices and rates in this catalog are subject to change without notice. Prices are also subject to an additional charge to cover any sales tax, use tax, or other tax affecting our purchase or sale of merchandise.

We require full cash with order, except on Monthly Payment orders. For terms of this plan, see Page 981.

We do not send goods on approval. Neither do we make "trade-in" allowances except on a few items like Auto Generators and Electric Shavers where trade-in allowances are definitely specified in the catalog.

FHA LOAN PLAN FOR FINANCING HOME IMPROVEMENTS

Permanent improvements on your own home can be financed through the FHA Home Improvement Loan Plan, with no down Payment and up to 36 months to pay. A single loan covers cost of both materials and labor and may be made in any amount from $100 to $2500.

Your local banking institution can arrange such a loan for you and provide complete details of this popular loan plan.

By using the FHA plan you enjoy the benefits of needed home improvements now, while saving money in two ways: (1) You pay only a low interest rate of 5% on your loan and (2) You make substantial savings by purchasing your materials at Wards low prices.

Any materials specified in FHA regulations which Wards list in this catalog, such as a new heating plant, an additional room, or complete modernization of kitchen or bathroom, can be financed through this plan.

How to Order Repair Parts

Large stocks of repair and replacement parts are carried in all our Mail Order Houses and most of our Stores also carry parts in stock.

If you live near one of our Stores, we suggest you consult them and if the part you need is not in stock, they will obtain it for you promptly. If you have misplaced the Parts List received with your merchandise, bring along the model number or note some other mark or label that will help them identify the item. Our people will give you personal attention and assist you in obtaining the necessary parts in the shortest possible time.

Before ordering parts from our Mail Order House, we suggest that you first check the pages in our catalog containing the kind of merchandise for which the part is needed. In some cases, extra parts are listed with the items to which they belong. If you do not find the part you need listed in the catalog, refer to the Parts List which came with your merchandise. This gives complete instructions for ordering repair and replacement parts. If this list has been lost or mislaid, check the article for some mark or number which will enable us to identify it—for example, an identification plate like the one shown at right.

Please give us full and complete information, especially the model number if one is shown. It will enable us to give you better, faster service in supplying repairs.

Most of our mechanical and electrical merchandise now carries a name plate or label like the one shown below, giving model number to mention should you ever need to order repair parts.

In some cases, the model number is stamped on the side of the item or stencilled underneath. In other cases, the model is indicated by a "name" instead of a number. On electric ranges for instance, numbers are frequently stamped on the individual parts and the part number, as well as the range number, should be given when ordering repairs.

All of our mechanical and electrical merchandise carries some mark or label by which it can be identified. Here is a typical Ward identification plate:

When ordering repair parts, mention number on the plate and any other number that may be on part itself.

If unable to find the Parts List or an identification mark of any kind, please follow carefully the instructions given below. To fill your order correctly and without delay, we must have full information.

1. Give us the name of the article for which the part is needed and tell us as closely as you can when it was purchased from us. If possible, also give us the Catalog Number of the article as it was listed in the catalog from which you ordered.

2. Name or describe the part you want and give us any numbers that may be cast on it, or sketch a likeness of it. As a last resort, if unable to find any identification, send the old part and attach letter of explanation. See below for instructions on the best way to ship the part to us.

3. If you do not know the price of the part we will send it to you C.O.D.

RUSH TELEGRAPH SERVICE

If you are in a special hurry and you have exact information we need to fill your order, call your telephone operator and send us a Prepaid Telegram giving complete details and correct name and address to which part should be shipped. We will rush the part C.O.D.

How to Send Goods to Us

When returning merchandise to us, it will help us very much if you will tell us why it is unsatisfactory. We can then take action to avoid disappointing others. Just say "wrong size" or "wrong color," or other reason. Also state whether you wish us to exchange it for another article (please be specific regarding size, color, etc.) or whether you wish a refund; and enclose any papers you have received from us concerning the order.

NOTE: Following instructions apply to items sent in for exchange or refund and also to articles sent to us on "trade-in" offers or as samples for repair parts, etc.

BY FIRST CLASS MAIL. Wrap small parts or samples in paper and enclose in envelope with your letter. Put sufficient amount of letter postage on the envelope.

BY PARCEL POST. Pack, wrap and tie the goods securely. Paste letter of instructions to the outside of package, under the cord, as shown in diagram at right. Place a 3c stamp on letter and proper amount of postage (separately) on package. Do not seal the package—either with paste or tape—unless you put the following notice on outside: "Contents merchandise—may be opened for postal inspection if necessary."

NOTE: New Postal Regulations permit you to enclose letter inside package if you will mark "First Class Mail Enclosed" on outside of package (below the postage) and add an additional 3c postage.

BY FREIGHT OR EXPRESS. Please do not return items by freight or express until you have first written us, explaining the situation, and received our reply. We may want you to return the merchandise to the Factory where it was made, instead of returning it to our Mail Order House and if so, will send you shipping instructions.

WHEN WRITING ABOUT ORDERS

Before writing us about an order which you have received, we suggest that you first examine your original order (you will find this returned with your goods) and also any invoices which you may have found in the package or were sent to you separately. Usually any changes are explained. This may make it unnecessary for you to write.

If you do write, please be sure to give full information as to catalog number, color, size, etc. of item in question and also enclose with your letter any papers, invoices, etc. which you have received from us about the order. This will help us to give prompt and accurate service.

IMPORTANT TAX NOTICE

The laws of several states impose a tax on sales. If you live in one of the following states, you are required to include with order enough extra to cover tax:

NEW YORK CITY: Add 3% (3 cents on the dollar) to the amount of your order for tax.

MAINE OR RHODE ISLAND: Add 2% (2 cents on the dollar) to the amount of your order for tax.

CONNECTICUT: In Connecticut there is a tax of 3% (3 cents on the dollar) on any item priced over $25—except Children's Wear, on which there is no tax. If you live in Connecticut, add 3% to the amount of your order for each item over $25 requiring this tax.

PLEASE MARK KIND OF ORDER

IF A CASH ORDER, enclose remittance, including postage and tax..... ☐

IF A MONTHLY PAYMENT ORDER, fill in form on other side..... ☐

IF A C.O.D. ORDER. (We advise avoiding except in emergency.)..... ☐

lar terms shown above. If so advise us.

ON ADD-ON ORDERS your monthly payment rate will be the amount required by the above table for your new combined balance. Monthly payment will not be increased unless above table requires a higher monthly payment. Exception: Monthly payment will be increased a minimum of $1.00 for each add-on consisting principally of clothing or other non-durable items, unless your present monthly payment will pay new balance in 8 months or less.

Wards Easy Terms on Home Appliances

On page 555 you will find a special Table of terms on Home Appliances. Only $5.00 Down Payment is required on Appliances priced $200 or less. Only $10 Down Payment required on Appliances priced over $200. Up to 24 months to pay the balance in convenient monthly payments. These special terms apply to the following: Air Conditioners, Cabinet Sinks, Clothes Dryers, Cooking Stoves and Ranges, Dehumidifiers, Dishwashers, Electric Roasters, Evaporator Coolers, Floor Sanders and Polishers, Food Freezers, Garbage Disposers, Ironers, Milk Coolers, Phonographs, Radios, Refrigerators, Sewing Machines, Space Heaters, Tape & Wire Recorders, Television sets, Vacuum Cleaners, Washers, Water Heaters, Water Softeners, Shopsmith Tools.

HOW TO SEND MONEY

The safest and best ways to send money are: Postal Money Order, Express or Bank Money Order, Bank Drafts or Cashier's Checks, or your own personal check if you have a bank account. If you live on a Rural Route the mail carrier will be glad to buy a Postal Money Order for you. The Postoffice Department advises against sending Coins, Currency, or Stamps by mail. If it is necessary to do so, be sure the coins are well wrapped in stout paper—not loose in the envelope, and the order should be sent by registered mail.

article (please be specific regarding size, color, etc.) or whether you wish a refund; and enclose any papers you have received from us concerning the order.

NOTE: Following instructions apply to items sent in for exchange or refund and also to articles sent to us on "trade-in" offers or as samples for repair parts, etc.

BY FIRST CLASS MAIL. Wrap small parts or samples in paper and enclose in envelope with your letter. Put sufficient amount of letter postage on the envelope.

BY PARCEL POST. Pack, wrap and tie the goods securely. Paste letter of instructions to the outside of package, under the cord, as shown in diagram at right. Place a stamp on letter and proper amount of postage (separately) on package. Do not seal the package—either paste or tape—unless you put the following notice

NOTE: New Postal Regulations permit you to enclose letter inside package if you will mark "First Class Mail Enclosed" on outside of package (below the postage) and add an additional 3c postage.

Order House and if so, will send you shipping instructions.

WHEN WRITING ABOUT ORDERS

Before writing us about an order which you have received, we suggest that you first examine your original order (you will find this returned with your goods) and also any invoices which you may have found in the package or were sent to you separately. Usually any changes are explained. This may make it unnecessary for you to write.

If you do write, please be sure to give full information as to catalog number, color, size, etc. of item in question and also enclose with your letter any papers, invoices, etc. which you have received from us about the order. This will help us to give prompt and accurate service.

IMPORTANT TAX NOTICE

The laws of several states impose a tax on sales. If you live in one of the following states, you are required to include with order enough extra to cover tax:

NEW YORK CITY: Add 3% (3 cents on the dollar) to the amount of your order for tax.

MAINE OR RHODE ISLAND: Add 2% (2 cents on the dollar) to the amount of your order for tax.

CONNECTICUT: In Connecticut there is a tax of 3% (3 cents on the dollar) on any item priced over $25—except Children's Wear, on which there is no tax. If you live in Connecticut, add 3% to the amount of your order for each item over $25 requiring this tax.

PARCEL POST RATES

The table at right shows amount to allow for postage. Add the weights of the items you order and convert ounces into pounds (16 ounces equals 1 pound). (Fractions of a pound count as one full pound. Example: 8 lbs. 6 oz. you pay for 9 lbs.) Allow postage on the combined weight only. On Freight, Express or Truck Shipments it is not necessary to prepay shipping charges if there is an agent there. If there is no agent, please include enough extra with your order to prepay the shipping charges. To estimate the amount, see rates on preceding pages.

Monthly payment orders over $300 will be given special Home Appliance Terms (see page 555) unless you prefer regular terms shown above. If so advise us.

ON ADD-ON ORDERS your monthly payment rate will be the amount required by the above table for your new combined balance. Monthly payment will not be increased unless above table requires a higher monthly payment. Exception: Monthly payment will be increased a minimum of $1.00 for each add-on consisting principally of clothing or other non-durable items, unless your present monthly payment will pay new balance in 8 months or less.

If you are not already enjoying the advantages and convenience of Wards Monthly Payment Plan, with its liberal "Add-on" privilege, a trial order NOW will convince you it is a most practical way to make your income buy more. You will be surprised at the buying power of a few dollars applied each month on an account at Wards, especially if you have been trying to get along entirely on a cash basis. Millions of American families have long since replaced "Pay as you Go" with "Pay as you Use"—a policy that has helped give America the highest standard of living in the World.

Think of the advantages! There are no hidden charges—prices are same, cash or credit. Anything and everything Wards sell can be bought on terms. No need to disturb savings. Have the use of the goods as you pay for them. The small extra charge for credit is more than offset by the satisfaction of getting what you need, when you need it, without waiting.

And that's not all! Once your credit is established at Wards you can make additional purchases *on the Same Account,* without Down Payment or Delay for Credit investigation, and often without increasing the monthly payments. Read about this popular Add-on Plan below. Do not hesitate to ask for credit, see the simple instructions below.

Why not open a Time Payment Account at Wards Today

Opening an account at Wards is quite simple. Write your order in the usual way (the first order must total $20 or more). Then turn the order blank over and have the head of the household fill in and sign the application form. Enclose the required down payment—usually 10%—and mail it. No security is asked. We depend on your integrity and ability to pay. (Minors must have parent or guardian sign.)

Our credit investigation is confidential and takes but a few days. If you are a person of good standing in your community, with a steady income and a reputation for meeting your obligations we will open an account for you. You are then entitled to use Wards "Add-on" plan which is explained below. If there is a Ward store or catalog office near you the manager there will be glad to assist you in opening an account.

Enjoy the Convenience of Wards Add-on Plan

One of the great advantages of opening an account at Wards is the "Add-on" plan. Once your credit is established, you can make additional purchases of $10 or more, as needed, on the Same Account, Without Down Payment or Delay for credit investigation. Just write "add it to my account," on your order, then sign the Add-On agreement on the back of the order blank. How convenient this is when you are in need of something and want to profit by Wards low prices! Your new purchase, plus the carrying charge, as shown in table at left are added to your open account. The amount to pay monthly can be found in the table of terms at left.

Only 10% Down Required on Most Items

When you have established your credit at Wards and are using the Add-on Plan, No Down Payment is required with your orders. Otherwise the Down Payment is

10% (one tenth) on all items except

20% (one fifth) on Air compressors, Auto Trailers, Paint Sprayers, Saw Mills, Timber Power Saws and Truck Tires.

Amount to pay monthly is based on Unpaid Balance and is shown in Table of Terms at left.

On certain Home Appliances the Down Payments are LOWER as explained below.

Wards Easy Terms on Home Appliances

On page 555 you will find a special Table of terms on Home Appliances. Only $5.00 Down Payment is required on Appliances priced $200 or less. Only $10 Down Payment required on Appliances priced over $200. Up to 24 months to pay the balance in convenient monthly payments. These special terms apply to the following: Air Conditioners, Cabinet Sinks, Clothes Dryers, Cooking Stoves and Ranges, Dehumidifiers, Dishwashers, Electric Roasters, Evaporator Coolers, Floor Sanders and Polishers, Food Freezers, Garbage Disposers, Ironers, Milk Coolers, Phonographs, Radios, Refrigerators, Sewing Machines, Space Heaters, Tape & Wire Recorders, Television sets, Vacuum Cleaners, Washers, Water Heaters, Water Softeners, Shopsmith Tools.

Wards New Sea King Motors for 1956

NEW POWER—Six new Sea Kings in outboarding's *four* most popular power sizes. Two new "25's" (Electric Starting Model above) offer responsive dependable power for cruisers, big runabouts, and water skiing. New "12's" with Electric Starting optional, provide exciting power and slow-trolling on medium-size boats. Sea King's new "Gearshift 5" with many of the advanced features of it's big brothers, will be an even greater favorite with fishermen and for all-around family outboard fun. Weighing only 30 lbs., the portable "3" packs anywhere—ideal on small boats, canoes. Sea Kings are "power-rated" by the Outboard Boating Club of America.

NEW "SONIC-QUIET" PERFORMANCE—for more fun afloat, all Sea Kings have new vibration insulating Motor Mounts. Larger motors feature Carburetor Air Intake Silencers, Spiral-Bevel gears and enclosed Power-units.

NEW CONVENIENCE—you'll want to join the swing to Sea King—they're as easy to drive as a car. Full gear shift control on all except the "3." With the new Electric Starting models, you have complete command from the driver's cockpit. Simply touch the starter button and the motor springs to life. Equipped with a throttle-gearshift control and a steering kit of your choice, you can maneuver, stop, start, or back-up with greatest ease. Maintenance is easy too—the separate fuel line system on the 25 and 12 H.P. motors snaps on or off in a jiffy for refueling—gives you long distance cruising range. The "5" is adaptable to remote controls and separate fuel systems if you prefer.

NEW STYLING—Up-to-the-minute 2-Tone Color Styling in Sea King Blue and Foam-White trim combines beauty with ultra-modern engineering design. Compare features, compare prices,—you'll find Sea Kings outstanding.

Electric Starting 25 H.P. $459.00	Automatic Rewind 25 H.P. $379.00	Electric Starting 12 H.P. $367.50	Automatic Rewind 12 H.P. $287.50	DeLuxe Gearshift 5 H.P. $171.00	Portable Single 3 H.P. $106.00

THESE NEW SEA KINGS ARE PICTURED AND DESCRIBED IN DETAIL ON PAGES 734–735.
